Disaster Assistance

The Farm Service Agency would like to remind crop and livestock producers throughout states that have recently experienced severe damage from heavy rains, flooding, wildfires and tornadoes that FSA programs are available to assist with recovery.

FSA administers several important programs that help producers recover from disaster damage and livestock deaths. Among the key programs available to address impacts from disasters are the Emergency Conservation Program (ECP), the Livestock Indemnity Program (LIP), Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP), the Noninsured Disaster Assistance Program (NAP) and the Supplemental Revenue Assistance Payments (SURE) Program.

Fact sheets for all of these programs can be found at www.fsa.usda.gov; click on Newsroom, then Fact Sheets.

Producers who have suffered a disaster loss due to the recent severe weather conditions must give "Notice of Loss" within 15 days of the date that the loss becomes apparent. "Application for Payment" must then be filed before January 31st of the year following the loss. Notice of loss can be done at the FSA Office in person, or by telephone.

The Carbon/Albany County FSA Office is currently taking applications for the Emergency Conservation Program (ECP), prior to official approval and funding. All information will be used to compile the funding request by assessing location, type, and amount of damage. Approval and/or funding are not guaranteed. If you have suffered damage to irrigation structures, fences or debris due to this spring's floods, please contact this office to start the application process.

Farm Reconstitutions

For FSA program purposes, tracts having the same owner and the same operator are grouped under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation.

Remember, to be effective for the current year, recons must be requested by **August 1** for farms enrolled in specific programs. The following are the different methods used when doing a farm recon:

Estate Method — the division of bases, allotments and quotas for a parent farm among heirs in settling an estate;

Designation of Landowner Method — may be used when (1) part of a farm is sold or ownership is transferred; (2) an entire farm is sold to two or more persons; (3) farm ownership is transferred to two or more persons; (4) part of a tract is sold or ownership is transferred; (5) a tract is sold to two or more persons; or (6) tract ownership is transferred to two or more persons. In order to use this method the land sold must have been owned for at least three years, or a waiver granted, and the buyer and seller must sign a Memorandum of Understanding;

DCP Cropland Method — the division of bases in the same proportion that the DCP cropland for each resulting tract relates to the DCP cropland on the parent tract;

Default Method — the division of bases for a parent farm with each tract maintaining the bases attributed to the tract level when the reconstitution is initiated in the system.

Important Dates

- July 20-** Albany County
Office Day
- July 29-** 2009 SURE
application deadline
- Aug. 1-** COC nomination
forms due to office
- Deadline to request
farm reconstitution
- July 28-Aug. 6-** Albany
County Fair
- Aug 6- 12-** Carbon
County Fair
- Aug. 17-** Albany County
Office Day
- Sept. 1-** 2010 Production
Deadline for ACRE
- Sept. 5-** Labor Day Holiday
Office Closed
- Anytime-** Contact the office to
report adverse weather conditions
& losses.
- Anytime-** Accepting Continuous
CRP applications.
- Anytime-** Accepting EQIP
applications.
- 15 Days-** after realizing a loss to
file a Notice of Loss on NAP
covered crops

SURE Program

The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disasters that incurred in the crop years 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage. However, crop insurance or NAP coverage is no longer required for crops that are not of economic significance or those where the administrative fee required to buy NAP coverage exceeds 10% of the value of the coverage.

The following are the conditions that trigger SURE payments:

- Producers in counties declared disaster counties by the Secretary of Agriculture, or in contiguous counties, and have at least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition. (These are crops that contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm.)

- Producers not in, or contiguous to, counties declared disaster counties by the Secretary of Agriculture and can show proof of an individual loss of at least 50% are eligible to receive SURE payments for crop producer or crop quality losses. Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity program payments, so that producers are not paid more than once for the same loss.

A SURE calculator is available at: <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=diap&topic=sure>. The calculator is not official, but is intended for educational use. A fact sheet and background are also available online.

Producers in Albany County are only required to meet the 10% production loss as they are contiguous to Platte County, which had a Secretarial Disaster Declaration in 2009. If you feel that meet these requirements, please contact this office prior to the July 29th deadline.

NAP Loss Filing

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing the Notice of Loss is required for ALL CROPS INCLUDING GRASSES. For losses on crops covered by the Non-insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576 (notice of loss) in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

If you have hay meadows that you cannot harvest, remember to file your notice of loss prior to turning livestock out to graze!

Foreign Landowner Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. The Farm Service Agency administers this program for USDA.

Foreign persons who have purchased or sold agricultural land in the county are required to report the transaction to FSA with 90 days of the closing. Failure to submit the AFIDA form could result in civil penalties of up to 25 percent of the fair market value of the property.

County government offices, real estate agents, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements.

Compliance Spot Checks

Compliance spot checks will be conducted on 2011 crops. Instead of locally selecting farms, contracts, deficiency loans, etc. for review, a nationwide selection of producers is employed. Spot check selections are to be conducted based on a producer's participation in Conservation Reserve Program, Direct and Counter-cyclical Program, Loan Deficiency Program, etc.

For more information about the spot check selection procedure, feel free to contact your local Farm Service Agency office for additional clarification.

Hispanic and Women Farmers

A process to resolve the claims of Hispanic and women farmers and ranchers who believe they were discriminated against when seeking USDA farm loans is being established.

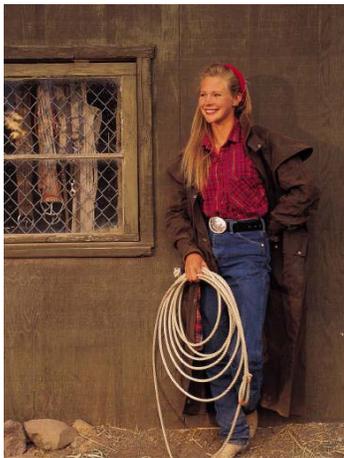

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you during certain time periods between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

For additional information on this claims process and other settlement issues contact:

Farm Safety

Summer is an exciting and hectic time on farms. **Be careful.** The Carbon/Albany County FSA employees care about our customers.

Remember to: Walk around machinery and check shields and guards; make sure the PTO's master shield is in place; make sure Slow Moving Vehicle signs are on machinery.

If you are taking medicine, take it at the appropriate time and eat on schedule.

If you are working in grain bins know that flowing grain can kill, and it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped. Try not to work alone in bins or confined spaces, and if that's not possible let someone know where you are by checking in regularly by cell phone.

The American Society of Safety Engineers (ASSE) offers the following safety tips for farmers:

1. Educate yourself on farm equipment. Read and follow instructions according to the equipment's manuals about safety.
2. Conduct regular equipment inspections.
3. Don't wear loose clothing while entering confined spaces such as grain bins, silos and hoppers as this can prevent entanglements.
4. Install Rollover Protective Structures (ROPS) on tractors.
5. Use seat belts while operating tractors with a ROPS. Do not allow additional passengers on the tractor with you.
6. While operating tractors and other farm equipment, be very cautious on rural roadways.
7. Use protective gear when operating machinery: Be familiar with hazardous chemicals. Take extra precaution when handling chemicals such as anhydrous ammonia, carbon dioxide, methane gas and hydrogen sulfide.
8. Consistently educate your family and co-workers about safety practices, especially children.

2010 ACRE Certification Deadline Extended

The deadline for a 2010 production certification to comply with the ACRE provisions for production reports has been extended to COB Sept. 1, 2011. Because of this extension, using a register on Sept. 1, 2011, is **not** authorized.

The extension is for completing both the farm benchmark yield (2005 through 2009) and the actual farm yield (2010). For more details contact the local FSA office.

Beginning and Limited Resource Farmers

FSA assists beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's median size.

Each member of an entity must meet the eligibility requirements. Loan approval is not guaranteed.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for Socially Disadvantaged Applicants (SDA). Socially disadvantaged applicants are from groups whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as a member of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

If producers or their spouses believe they will qualify as socially disadvantaged, they should contact their local FSA office for details. FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

PO Box 607
Saratoga, WY 82331

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance programs. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means of communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington DC 20250-9410, or call 800-795-3272 (voice) or 202-720-6382 (TDD). USDA is an equal employment opportunity employer.

COC Nomination Deadline

County committees (COC) play a crucial role in helping the county office staff implement the Farm Bill. Due to the important services that COC members provide, producers are encouraged to participate in the FSA county committee election process by nominating an eligible candidate by the Aug. 1, 2011, deadline.

To become a nominee, eligible individuals must sign form FSA-669A. The form and other valuable information about FSA county committee elections are available online at:

http://www.fsa.usda.gov/Internet/FSA_File/fsa0669a_commiteelectform.pdf

FSA county committee members make decisions on disaster and conservation programs, emergency programs, commodity price support loan programs and other important agricultural issues. Members serve three-year terms. Committees consist of three to five members who are elected by eligible local producers.

This year the election service area up for election is southwest Carbon County, more specifically the Little Snake River Conservation District service area. If you or anyone you know resides within this area, has an interest in agriculture, and would like to be part of our committee; please submit the nomination prior to the Aug. 1 deadline.

FSA Farm Loans

FSA is committed to providing family farmers with loans to meet their farm credit needs. If you are having trouble getting the credit you need for your farm, or regularly borrow from FSA, direct and guaranteed loans are currently available.

Ask your lender about an **FSA Guaranteed Loan** if you've had a setback and your lender is reluctant to extend or renew your loan.

Farm Ownership Loans or **Farm Operating Loans** may be obtained as direct loans for a maximum of up to \$300,000. **Guaranteed Loans** can reach a maximum indebtedness of \$1,119,000. Producers are encouraged to apply early so that a loan can be processed and funded in a timely manner.

FSA employees will help you complete the necessary application and other forms, and help you understand what information is required, where to find it or who to contact to get it. To find out more about FSA loan programs, contact the county office staff.
