Noninsured Crop Disaster Assistance Program (NAP)

The noninsured crop disaster assistance program (NAP) is a federally funded program that helps producers reduce their risk when growing food and fiber crops, specialty crops and crops for livestock feed. These benefits are only available for crops for which the catastrophic level of crop insurance is not available. Application for coverage must be filed by the applicable crop's application closing date.

Production records for all crops must be reported to FSA no later than the acreage reporting date for the crop for the following year. FSA requires that any production reported in a loss year be verified according to agency specifications. *NAP losses must be reported within 15 days of loss.*

If you have hay coverage and plan to graze the meadows instead of hay them, please notify the office and file a notice of loss BEFORE turning the livestock out.

DCP and ACRE Sign-up

FSA began sign-ups for DCP and ACRE for the 2013 crops on **Feb. 19, 2013**. The DCP sign-up period will end on Aug. 2, 2013; and the ACRE sign-up period ends on June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

[Read more about DCP and ACRE](#) or contact the FSA county office for more information, or an appointment to enroll.

Payment Limitations (PL)

All payment eligibility and payment limitation provisions, including AGI limitations, are extended for the 2013 crop year, program year, and fiscal year.

All rules and requirements effective for 2012 program payments and benefits are applicable to eligible recipients of 2013 program payment and benefits. This includes the requirements of actively engaged in farming, cash-rent tenant, substantive change, minor child, and spousal provisions. Payments will continue to be limited by direct attribution to person and legal entity.

Additional information on payment limitations is available at FSA county offices or online at: www.fsa.usda.gov

Highly Erodible Land and Wetland Compliance

Landowners and operators are reminded that in order to receive payments from USDA, compliance with Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions is required. Farmers with HEL determined soils must comply with tillage, crop residue, and rotation requirements as specified in their conservation plan.

Producers should notify FSA prior to conducting land clearing or drainage projects to insure compliance. If you intend to clear any trees to create new cropland, these areas will need to be reviewed to ensure any work will not jeopardize your eligibility for benefits.

Landowners and operators can complete form AD-1026 Highly Erodible Land Conservation (HEL) and Wetland Conservation (WC) Certification to determine whether a referral to Natural Resources Conservation Service (NRCS) is necessary.

For more information on Highly Erodible Land and Wetland Conservation provisions, contact a FSA County Office or visit the FSA website at www.fsa.gov/.

Important Dates

June 7- 2011 SURE application deadline

June 14- CRP application deadline

June 19- Albany County Office Day

July 4- Independence Day
Office Closed

July 17- Albany County Office Day

Aug. 1- COC nomination deadline

Aug. 21- Albany County Office Day

Sept 2 – Labor Day Holiday
Office Closed

Anytime- Contact the office to report adverse weather conditions & losses.

Anytime- Accepting Continuous CRP applications.

Anytime- Accepting EQIP applications.

15 Days- after realizing a loss to file a Notice of Loss on NAP covered crops

Beginning and Limited Resource Farmers

FSA assists beginning farmers and members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

*Has operated a farm for not more than 10 years

*Will materially and substantially participate in the operation of the farm

*Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA

*Does not own a farm in excess of 30 percent of the county's median size.

Additional program information, loan applications and other materials are available at your local USDA Service Center. Visit www.fsa.usda.gov

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operational needs or to help purchase or improve farm or ranch property. While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for socially disadvantaged applicants.

A socially disadvantaged applicant is a member of a group that has been subjected to racial, ethnic or gender prejudice. FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Land Contract (LC) Guarantees

The Land Contract (LC) Guarantee Program is a valuable tool to transfer farm real estate to the next generation of farmers and ranchers. Guarantees will be offered to the owner of a farm who wishes to sell real estate through a land contract to a beginning or socially disadvantaged farmer or rancher. The guarantee reduces the financial risk to the seller.

FSA offers two types of guarantees:

- Prompt Payment Guarantee - A guarantee up to the amount of three amortized annual installments plus the cost of any related real estate taxes and insurance.
- Standard Guarantee - A guarantee of 90 percent of the outstanding principal balance under the land contract.

The guarantee period is 10 years and the contract payments must be amortized for a minimum of 20 years. The purchase price of the farm cannot exceed the lesser of \$500,000 or the market value of the property.

For additional information, go to: http://www.fsa.usda.gov/Internet/FSA_File/lc_guarantee_program.pdf

Marketing Assistance Loans

Marketing Assistance Loans, also referred to as Commodity Loans, are available to producers who share in the risk of producing the crop. To be eligible, you must maintain beneficial interest in the crop through the time of application. Once beneficial interest in a commodity is lost, the commodity is ineligible for loan even if you regain beneficial interest.

Violating provisions of a marketing assistance loan may trigger administrative actions, such as assessing liquidated damages, calling the loan and denial of future farm-stored loans. The most common violations are removing or disposing of a commodity being used as loan collateral without prior authorization and providing an incorrect quantity certification.

Maintaining the Quality of Loaned Grain - Bins are ideally designed to hold a level volume of grain. When bins are overfilled and grain is heaped up, airflow is hindered and the chance of spoilage increases.

Producers who take out marketing assistance loans and use the farm-stored grain as collateral should remember that they are responsible for maintaining the quality of the grain through the term of the loan.

Unauthorized Disposition of Grain - If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

Changing Banks

Almost all Farm Service Agency payments are made electronically using direct deposit.

To keep the system running smoothly, it's critical to keep the county office staff up to date on changes in your financial institutions.

If you have changed accounts or institutions that affect the direct deposit of your FSA payments, contact the FSA county office so we can update our files to insure uninterrupted service.

Farming Operation Changes

Producers who have bought or sold land, or added or dropped rented land from their operation must report those changes to the FSA office as soon as possible. A copy of the deed or recorded land contract for purchased property is needed to maintain accurate records with FSA. Failure to report changes can lead to possible program ineligibility and penalties. While making record updates, be sure to update signature authorizations. Making record changes now will save time in the Spring.

Special Accommodations

Special accommodations will be made upon request for individuals with disabilities, vision impairment or hearing impairment. If accommodations are required, individuals should notify the county FSA office staff in person or by phone. This service is provided for office visits and any special event sponsored by FSA.

Power of Attorney

For those who find it difficult to visit the county office because of work schedules, distance, health, etc., FSA has a power of attorney form available that allows producers to designate another person to conduct business at the office. If interested, contact our office or any Farm Service Agency office for more information.

FSA Signature Policy

Husbands and wives may sign documents on behalf of each other for FSA and Commodity Credit Corporation programs in which either has an interest. This option is automatically available unless a written request for exclusion is made to the county office staff by either spouse.

There are exceptions to the rule. Spouses may not sign on behalf of each other for partnerships, joint ventures, corporations or other similar entities.

Individual signatures are also required on certain Farm Loan Program and Farm Storage Facility Loan documents.

For more clarification on spousal signature authority, contact your local FSA office.

Farm Storage Facility Loan Program

The Farm Storage Facility Loan (FSFL) program allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the U.S. Treasury Department.

Payments are available in the form of a partial disbursement and the remaining final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

Applications for FSFL must be submitted to the FSA county office that maintains the farm's records. An FSFL must be approved before any site preparation or construction can begin.

The following commodities are eligible for farm storage facility loans:

- Corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley or minor oilseeds harvested as whole grain
- Corn, grain sorghum, wheat, oats or barley harvested as other-than-whole grain
- Pulse crops - lentils, small chickpeas and dry peas
- Hay
- Renewable biomass
- Fruits (including nuts) and vegetables - cold storage facilities.

For more information about FSFL visit the FSA county office or www.fsa.usda.gov.

Controlled Substance

Any person convicted under federal or state law of a controlled substance violation could be ineligible for USDA payments or benefits. Violations include planting, harvesting or growing a prohibited plant. Prohibited plants include marijuana, opium poppies and other drug producing plants.

101 Cypress Ave
PO Box 607
Saratoga, WY 82331

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance programs. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means of communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington DC 20250-9410, or call 800-795-3272 (voice) or 202-720-6382 (TDD). USDA is an equal employment opportunity employer.

Hay Net

Producers are encouraged to use Hay Net on the FSA website (www.fsa.usda.gov/haynet). This online service allows producers with hay and those who need hay to post ads so they can make connections. Hay Net is a popular site for farmers and ranchers who have an emergency need. Individual ads can be posted free of charge by producers who complete a simple online registration form the first time they use the site.

County Committee Nominations

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 17, 2013 through Aug. 1, 2013. This year we are accepting nominations for North Albany County and Medicine Bow areas. For more information contact the FSA office at 307-326-5657 ext. 2.

eNewsletters and eUpdates through GovDelivery!

The Farm Service Agency is providing more cost-effective and resource-conserving options to deliver news, deadlines and bulletins. You have the option to receive information instantly and electronically from your state or local FSA office directly to your farm or ranch. Several states already have GovDelivery for news releases.

Take a look at your current state and county options for electronic delivery by visiting the FSA home page at www.fsa.usda.gov

Click on the small **E-MAIL UPDATES** icon and once you enroll in GovDelivery, you can select electronic subscriptions via e-mail. For more information contact your FSA state office and watch for more news and opportunities to sign up to receive your news quicker and at less cost via e-mail.
