**Stack 'em, Count 'em, Report 'em**

**Keep Your APH up in case of disaster conditions!**

**W**hile it's still fresh in your mind, swing by the office, (or send in), and report your 2010 hay production. Your 2010 production will be combined with previous years' production to calculate an APH for 2011 NAP policies.

Actual hay production is used to calculate your NAP APH (actual production history) which will be used to calculate your payment should there be a disaster in the coming years. If you fail to report production for just one year it could significantly lower your APH and your potential payment!

Actual production evidence should include bale count, average weight, and type of hay. The statement should be signed and dated by the producer.

Additionally, if you missed turning in past years' production you can "replace" those missed years by turning in the production records from those years. The production will be applied for the 2011 APH.

**Watch for a reminder form in the mail!**

***NEW* NAP Deadline**

**T**he NAP sales closing date for 2011 forage crops has been changed back to December 1, 2010 because of procedural restrictions.

**Fall seeded and perennial crops, including hay and grazing policies, sales closing date is December 1, 2010.** Spring seeded crops sales closing date will remain as April 1, 2010.

## Filing for NAP Losses

**T**he CCC-576, Notice of Loss, is used to report failed acreage and prevented planting. It may be completed by any producer with an interest in the covered crop. Timely filing a Notice of Loss is required for **ALL CROPS, INCLUDING GRASSES**. For losses on crops covered by the Non-insured Crop Disaster Assistance Program (NAP), you must file a CCC-576 in the County FSA Office within **15 days** of the occurrence of the disaster or when losses become apparent.
