June Agricultural Survey

The June Agricultural (Crops/Stocks) Survey is one of the most important surveys conducted each year by USDA's National Agricultural Statistics Service (NASS). It provides the first clear indication of the potential production and supply of major commodities for the year, including those from biotech varieties.

The survey is conducted annually. The Wyoming Field Office of USD-NASS will collect data from approximately 900 farms and ranches across Wyoming, which are selected from among the nation's 11,000 farms. During the first 2 weeks of June, farm operators will be contacted and may respond using one of the following methods.

- ❖ Telephone – computer assisted telephone interviewing
- ❖ Mail – participants fill out and mail back the questionnaire
- ❖ Internet – secure, online reporting is the timeliest, most cost-effective option
- ❖ Personal Interviews – respondents can request an interview with a NASS representative

All participating producers will be asked to provide information on their total acres, acres planted to specific commodities, and quantities of grains and oilseeds stored on-farm.

Once the results of the survey are compiled and analyzed, NASS will publish the information in a series of reports. These include the annual Acreage report and the quarterly Grain Stocks report, both to be released on June 30, 2010. Survey data also contributes to NASS's monthly and annual Crop Production reports,

as well as the annual Small Grains Summary, to be published September 30.

All sectors of the agricultural industry rely on NASS acreage, production and stocks estimates to help make sound business decisions.

The information provided by survey respondents is confidential by law. NASS safeguards the privacy of all responses and publishes data only in aggregate form, ensuring that no individual operation or producer can be identified.

All reports are available through the NASS web site: www.nass.usda.gov. For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540

County Committee Nominations

Nominations for the 2011 Weston County FSA committee election will be accepted through August 1. FSA county committees are elected by local agriculture producers to administer USDA farm programs at the county level. There are three Local Administrative Areas (LAA) in Weston County with one LAA holding an election each year to elect a person to a three-year term. The committee election for this year will be held for Local Administrative Area 3 which is currently represented by Ann Wehri. A list of persons who are eligible to run for the county committee is available from this office. If you wish to run or want to nominate a fellow producer for the county committee, please contact this office for a nominating petition. If no nominations are received, the Secretary of Agriculture will complete the slate of nominees.

A Nomination form has been attached for your convenience.

SURE Program

The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disasters that incurred in the crop years 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage. However, crop insurance or NAP coverage is no longer required for crops that are not of economic significance or those where the administrative fee required to buy NAP coverage exceeds 10% of the value of the coverage.

Eligible farmers and ranchers who meet the definition of Socially Disadvantaged, Limited Resource, or Beginning Farmer or Rancher are exempt from the risk management purchase requirement.

The following are the conditions that trigger SURE payments:

- At least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition. (These are crops that contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm.)
- Producers in counties declared disaster counties by the Secretary of Agriculture, or in contiguous counties, or those who show proof of an individual loss of at least 50% are eligible to receive SURE payments for crop producer or crop quality losses. Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity program payments, so that producers are not paid more than once for the same loss.

A SURE calculator is available at: <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=dia p&topic=sure>. The calculator is not official, but is intended for educational use. A fact sheet and backgrounder are also available online.

Emergency Assistance for 2010 Losses

More than \$8 million in disaster assistance will be issued to livestock, honeybee and farm-raised fish producers that suffered losses in 2010 because of disease, adverse weather or other conditions. The aid will come from the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP).

ELAP sign-up for 2011 losses is also under way. Producers with 2011 losses must file an ELAP application no later than Jan. 30, 2012. They also must file a notice of loss within 30 calendar days of when the loss is apparent to the producer or by Oct. 31, 2011, whichever is earlier. ELAP benefits related to 2011 losses are expected to be issued in early 2012.

NAP Records

Production records for individual crops need to be filed at the FSA office to establish an approved NAP yield. If this is your first year in NAP, you can provide production and acreage information from prior years to establish your yield. If you participated in NAP in previous years, you must report your production and acreage on a yearly basis to keep your yield up-to-date. Records submitted must be reliable or verifiable and need to show crop disposition. We recommend producers submit production records as soon as harvest is complete. **All production records must be submitted by the subsequent crop year's final acreage reporting date.**

NAP Loss Filing

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing the Notice of Loss is required for ALL CROPS INCLUDING GRASSES. For losses on crops covered by the Non-insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576 (notice of loss) in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

AGI and the IRS

USDA has a Memorandum of Understanding with the Internal Revenue Service to establish an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent will be required from each producer or payment recipient for the tax review process. No actual tax data will be included in the verification report that IRS sends to FSA.

The agreement ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program benefits. These forms may be obtained from local FSA and NRCS offices.

Hispanic and Women Farmers

A process to resolve the claims of Hispanic and women farmers and ranchers who believe they were discriminated against when seeking USDA farm loans is being established.

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you during certain time periods between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.
