Information on the legislative history of the payment eligibility and payment limitation provisions is provided in subparagraphs B through R.

B Agricultural Act of 1970

The Agricultural Act of 1970:

- required the Secretary to issue regulations defining the term “person”
- provided that payment limitation would **not** apply to lands owned by States, political subdivision, or agencies thereof so long as these lands were farmed primarily in the direct furtherance of a public function.

- if ownership interest in land or commodity is transferred because of the death of a program participant and the new owner succeeds to the contract of the prior owner, the new owner, if otherwise eligible, may receive payments the previous owner would have been entitled to receive under the contract, even if receiving the payments results in total payments in excess of the applicable limitation
- payments are limited by direct attribution to persons and legal entities
- the permitted entity rule was **repealed**

Note: Payments can be received through any number of legal entities with **no** designation required.

3 Legislative History of Payment Eligibility and Payment Limitation Provisions (Continued)

N The Food, Conservation, and Energy Act of 2008 (Continued)

Notes: Under this exception, total program payments are limited to \$500,000 annually.

If the State has a population of less than 1.5 million, total program payments are **not** limited.

- a program participant may be ineligible for all program payments for up to 5 years if fraud is determined
- for commodity programs (including DCP, price support, NAP, and disaster assistance programs), AGI limitation for eligibility was changed to an average nonfarm AGI of \$500,000

Note: If average farm AGI exceeds \$750,000, the participant is **not** eligible for direct payments.

- for conservation programs, an average nonfarm AGI of \$1 million or less applies

Note: If the average nonfarm AGI exceeds \$1 million, the participant may be eligible if at least 66.66 percent of the average AGI is derived from farming, ranching, and forestry operations, as defined. However, the AGI limitation may be waived on a case-by-case basis if the Secretary determines that environmentally sensitive land of special significance would be protected.

- the definition of “income from farming, ranching, or forestry operations” was expanded to include the following:
 - producing fish and aquaculture for food
 - packing, processing, shedding, storing, and transporting agricultural commodities
 - producing livestock products
 - farm-based production of renewable bio-energy
 - providing operational inputs to farmers, ranchers, and foresters
- the 3-year period for calculating an average AGI is the 3 taxable years preceding the most immediately preceding complete taxable year for which program benefits are requested

3 Legislative History of Payment Eligibility and Payment Limitation Provisions (Continued)

S The Agricultural Act of 2014 – Following Publication of Final Rule (Continued)

- different dates may be established for specific areas with the State

Note: EYR should be completed to the extent that follow-up actions are known and scheduled.

- the date final payments will be made.

Note: This paragraph must be supplemented by each State Office to specify dates by which EYR's must be completed.

17 State Office Specialist Responsibilities

A Introduction

The State Office specialist assigned the overall responsibility for the operation of payment limitation determinations within the State must:

- provide training
- provide technical assistance

The recording county must make all other eligibility determinations according to paragraph 351.

F Determination Priority

Determinations must be sorted to prioritize determinations involving newly filed CCC-902's, operations with payments exceeding \$125,000, or any other applicable limitation.

If the volume of determinations prevents timely determinations in all cases, producers must receive a default determination according to paragraph 390.

G Determination Required Action

State Office Specialist must:

- notify applicable producers of determinations made according to this handbook
- notify designated recording county for the producer of determinations
- maintain a record of determinations made by the State Office

18 DD Responsibilities

A Monitoring COC Determinations

DD's must monitor COC initial, end-of-year, scheme or device, and default determinations to ensure that proper and timely determinations are made.

B Annual Review Requirement

DD's must annually review 5 initial COC determinations per Service Center at the beginning of the fiscal year to ensure that COC has timely and accurately:

- made determinations for:
 - actively engaged in farming
 - cash-rent tenant provisions
 - commensurate contributions
 - significant contributions
 - substantive change rules
 - foreign person rules

- notified producers, in writing, of determinations

The annual review must include at least 2 joint operations, such as general partnerships and joint ventures.

C End-of-Year Determinations

DD's must review all cases selected for EYR to ensure that:

- cases for review were properly selected
- correct determinations were made based on documentation provided
- documentation was sufficient to support the determination
- reviews were made in a timely manner.

Note: In all cases, DD's should review **before** producer is notified of the outcome of the review.

18 DD Responsibilities (Continued)**D Scheme or Device Determinations**

DD's must:

- provide assistance to COC, as appropriate
- concur with COC's determination of scheme or device **before** the producer is notified of the determination

E Reporting Reviews to State Office

DD's must:

- notify the State Office on any discrepancies found during initial or EYR determinations
- notify the State Office on any scheme or device determination
- provide the State Office quarterly reports upon request.

19 COC Responsibilities**A Overview**

COC's are under the general supervision and direction of the Executive Vice President, CCC and the Administrator, FSA. COC's do not have authority to modify or waive any of the provisions contained in this handbook or 7 CFR Part 1400.

B Responsibilities

COC's are responsible for timely making payment limitation and payment eligibility determinations for producers of farming operations that are consistent with the rules provided in this handbook and 7 CFR Part 1400. See Part 6 for determination requirements.

The recording county COC is responsible for making determinations and hearing appeals for a multi-county producer.

19 COC Responsibilities (Continued)

B Responsibilities (Continued)

By February 1st each year, COC must identify dates that are normal and customary for the area that equipment and land rents are paid. COC must record these dates in the COC minutes. See subparagraphs 93 A, 145 C, and 146 C for additional information.

In maintaining the integrity of the rules, COC's have responsibility to select any farming operation for EYR according to Part 7 if there is reason to believe a farm operating plan was not followed.

20 Recording County Responsibilities

A Responsibilities

The recording county is responsible for:

- making payment limitation and payment eligibility determinations
- notifying the producer within 60 calendar days of the producer's filing date

Note: The recording county must not delay notification to the producer to obtain the concurrence of other COC's.

- obtaining concurrence from nonrecording counties using CCC-527, according to 3-PL (Rev. 2)

Note: If COC's in nonrecording counties do not agree with the determination made by the recording county, immediately contact the recording county to resolve the differences. Involve the DD's and State Offices if differences cannot be resolved.

- recording certifications and determinations in Subsidiary, according to 3-PL (Rev. 2).

Note: Update eligibility flags upon receiving concurrence from other COC's, according to 3-PL (Rev. 2).

20 Recording County Responsibilities (Continued)

B Changing Recording County for Multi-County Producers

The recording county for a farming operation is initially established according to procedure in 3-PL (Rev. 2).

COC's may consider written requests from producers to change the recording county. Producers must include the reason the request is being made.

COC's must approve only those requests that result in a change that is "significantly more convenient" for the producer. In this context, "convenience and inconvenience" refer to the attributes 1 servicing County Office may have over another (location, distance of travel to and from the farm headquarters or home, or office hours).

Requests for reasons that are not "significantly more convenient" may be disapproved by COC.

Requests that are meritorious in reason, and do not meet the "significantly more convenient" criteria may be approved by COC, with DD concurrence.

The establishment of a recording county and changing a recording county is an administrative matter that is outside the jurisdiction of 7 CFR Part 780 and the informal appeals process. See 1-APP for specific details. How FSA conducts its administrative operations and decides how records will be maintained are administrative (not program) decisions. For these reasons, decisions by FSA to process requests for changes in recording county are not subject to any sort of appeal or appealability review. Offices will provide neither appeal, nor appealability review rights on administrative decisions about recording county locations.

Determinations for changing the recording county must be recorded in the COC minutes.

21 Nonrecording County Responsibilities

A Overview

This paragraph explains the basic responsibilities of a County Office that receives forms and documentation from a multi-county or multi-State producer.

B Responsibilities

Nonrecording counties receiving forms and documentation, for a multiple county producer, must immediately date stamp, scan, encrypt, and e-mail to the recording county for determinations and subsidiary updates.

C Determination Deadline

The recording county COC **must** make determinations and notify the producer within 60 calendar days after the producer files a complete CCC-902. The 60-calendar-day period begins on the date a complete CCC-902 is filed, regardless of whether or **not** the County Office receiving the filing is the recording county.

22 Interaction Between Counties

A Other County Initial Determination Responsibilities

COC’s in nonrecording counties receiving an initial determination notification by the recording county COC for a multiple county producer must respond according to this table.

IF COC’s in nonrecording counties...	THEN the nonrecording county must...
agree with the determination	notify the recording county of the concurrence using CCC-527, according to 3-PL (Rev. 2).
do not agree with the determination made by the recording county	<ul style="list-style-type: none"> • immediately contact the recording county to resolve the differences • involve DD’s and State Offices if needed to resolve the differences • notify the recording county of concurrence, using CCC-527, when the differences have been resolved.

Note: If the original determination is changed for any reason, the recording county must immediately repeat the procedures in this paragraph.

23 Delegations of Authority

A Redelegation to CED

COC's authority to make actively engaged in farming and eligibility determinations may be redelegated to CED when the cases delegated are routine.

Note: Record all COC determinations in COC minutes, including determinations made by CED for COC.

B Spot-Checking Redelegated Determinations

Periodically, COC's and DD's must review a sufficient number of redelegated cases to ensure that proper determinations are being made.

C AGI

SED's are delegated authority to make AGI determinations.

Section 3 General Administration

48 Annual Notice to Producers

A When to Provide Information

Annually advise all producers of the payment eligibility and payment limitation requirements in this paragraph. Use newsletters and all other practical means available.

Note: It may be appropriate to provide the information in subparagraph B more than once during a calendar year, if there is more than 1 program operating in the county for which the rules in subparagraph B apply.

B Information to Provide

Notify producers, at **least** annually, of the following:

- payments and benefits under certain programs are subject to some or all of the following:
 - payment limitation by direct attribution; including substantive change requirements when there is an increase in persons for payment limitation purposes
 - payment limitation amounts for the applicable programs
 - actively engaged in farming requirements
 - cash-rent tenant rule
 - foreign person rule
 - average AGI limitation
 - programs subject to AGI limitation
 - effective date of implementation of AGI limitation
- no program benefits subject to payment eligibility and limitation will be provided until:
 - **all** required forms for the specific situation are provided
 - necessary payment eligibility and payment limitation determinations are made

48 Annual Notice to Producers (Continued)

B Information to Provide (Continued)

- payment eligibility and payment limitation determinations may be initiated by COC or requested by the producer
- a farm operating plan is **not** required to be filed annually, if the farming operation continues to be conducted as reflected on the farm operating plan and supporting documents on file in the County Office
- if any changes occur that could affect an actively engaged in farming, cash-rent tenant, foreign person, or average AGI determination, producers **must** timely notify the County Office by filing revised farm operating plans and/or supporting documentation, as applicable

Note: Failure to timely notify the County Office may adversely affect payment eligibility.

- there are statutory provisions that require entities, earning program benefits that are subject to limitation, to provide the names, addresses, and TIN's of the entities' members to COC
- all applicable payment eligibility and payment limitation forms submitted by producers are subject to spot check through the EYR process
- a determination of **not** actively engaged in farming results in the producer being ineligible for any payment or benefit requiring a determination of actively engaged in farming
- noncompliance with AGI provisions, either by exceeding the applicable limitation or by failure to submit a certification and consent for disclosure statement, will result in the determination of ineligibility for **all** program benefits subject to AGI provisions. Program benefits must be reduced in an amount that is commensurate with the direct and indirect interest held by an ineligible person or legal entity in any legal entity, general partnership, or joint operation that receives benefits subject to the average AGI limitations.

49 Public Information and Casual Advice

A Providing Information to the Public

Provide applicable pages from this handbook to any producer who requests information on any program provisions about payment eligibility, payment limitation, and average AGI compliance determinations.

B Casual Advice Rule

Casual advice must **not** be given on:

Section 4 Producer Filing Requirements

60 Filing Requirements

A If 1 or More Producers Fail to File

[7 CFR 1400.2 (e)] If 1 or more producers on a contract or application for benefits fail to file the applicable CCC-902, CCC-941, and related forms, the producers **not** filing the applicable forms will be ineligible to receive program benefits subject to eligibility and limitation applicable to that contract or application.

This failure to file will **not** affect the eligibility of other producers who meet all filing requirements.

Note: Shares **cannot** be adjusted to circumvent the ineligibility of the producer who failed to file the applicable forms and related documentation.

B Deadline for Filing CCC-901, CCC-902, CCC-941, and Related Forms

CCC-901, CCC-902, CCC-941, and related forms may be filed at any time.

Encourage producers to file these forms:

- according to the deadlines established for each applicable program for which payments are requested
- as timely as practicable.

Note: Using the business file process is recommended for collecting the information about producers' farming operations rather than using manual forms, whenever possible.

C Forms and Updates

All participants in programs subject to the provisions of this handbook are required to submit a completed CCC-902, CCC-941, and CCC-901, as applicable, for payment eligibility and payment limitation purposes.

A valid CCC-902 and, if applicable, CCC-901 filed by the producer are considered to be continuous certifications used for all payment eligibility and payment limitation determinations applicable for the program benefits requested.

60 Filing Requirements (Continued)

C Forms and Updates (Continued)

Producers are **not** required to annually submit new CCC-902's or CCC-901's for payment eligibility and payment limitation purposes unless a change in the farming operation occurs that may affect the determination of record.

Producers have the responsibility to:

- ensure that all CCC-902's, CCC-941's, and related forms on file in the County Office are correct at all times
- timely notify the County Office of any changes in the farming operation that may affect the determinations of record by filing a new or updated CCC-902 or CCC-901, as applicable.

Changes that may affect the determinations include, but are **not** limited to, a change of:

- shares of a contract, which **may** reflect:
 - a land lease from cash-rent to share-rent
 - a land lease from share-rent to cash-rent

Note: The producer would be subject to the cash-rent tenant rule.
- a modification of a variable/fixed bushel-rent arrangement
- the size of the producer's farming operation by the addition or reduction of cropland that may affect the application of a cropland factor
- the addition of new landowners/landlords that have provided funding/financing to the farming operation including but not limited to:
 - making a loan
 - guaranteeing a loan
 - cosigning a loan
 - securing a loan for the farming operation
- changes in members, partners or stockholders, including changes in ownership shares
- death or divorce of a family member

60 Filing Requirements (Continued)

C Forms and Updates (Continued)

- change in citizenship status
- change in status of a minor child (birthday before June 1 of the current program year)
- the contributions of farm inputs of capital, equipment, active personal labor, or active personal management
- the acquisition of farming interests **not** previously disclosed on CCC-902.

D Documenting Changes

Changes to a farming operation may be documented on 1 of the following, depending upon the nature and extent of the changes:

- a photocopy of the previously filed CCC-902

Note: The producer should initial and date **each** change.

- CCC-902 Continuation

Note: CCC-902 Continuation may be used to document changes affecting owned or leased land in the producer's farming operation.

- a new CCC-902
- a new CCC-901, if membership in an embedded entity changes.

If changes are documented using CCC-902 photocopy or CCC-902 Continuation, the CCC-902 photocopy or CCC-902 Continuation must **also** be signed and dated by the producer. For joint operations or general partnerships, only 1 signature is required when changes do **not** affect the determinations of record.

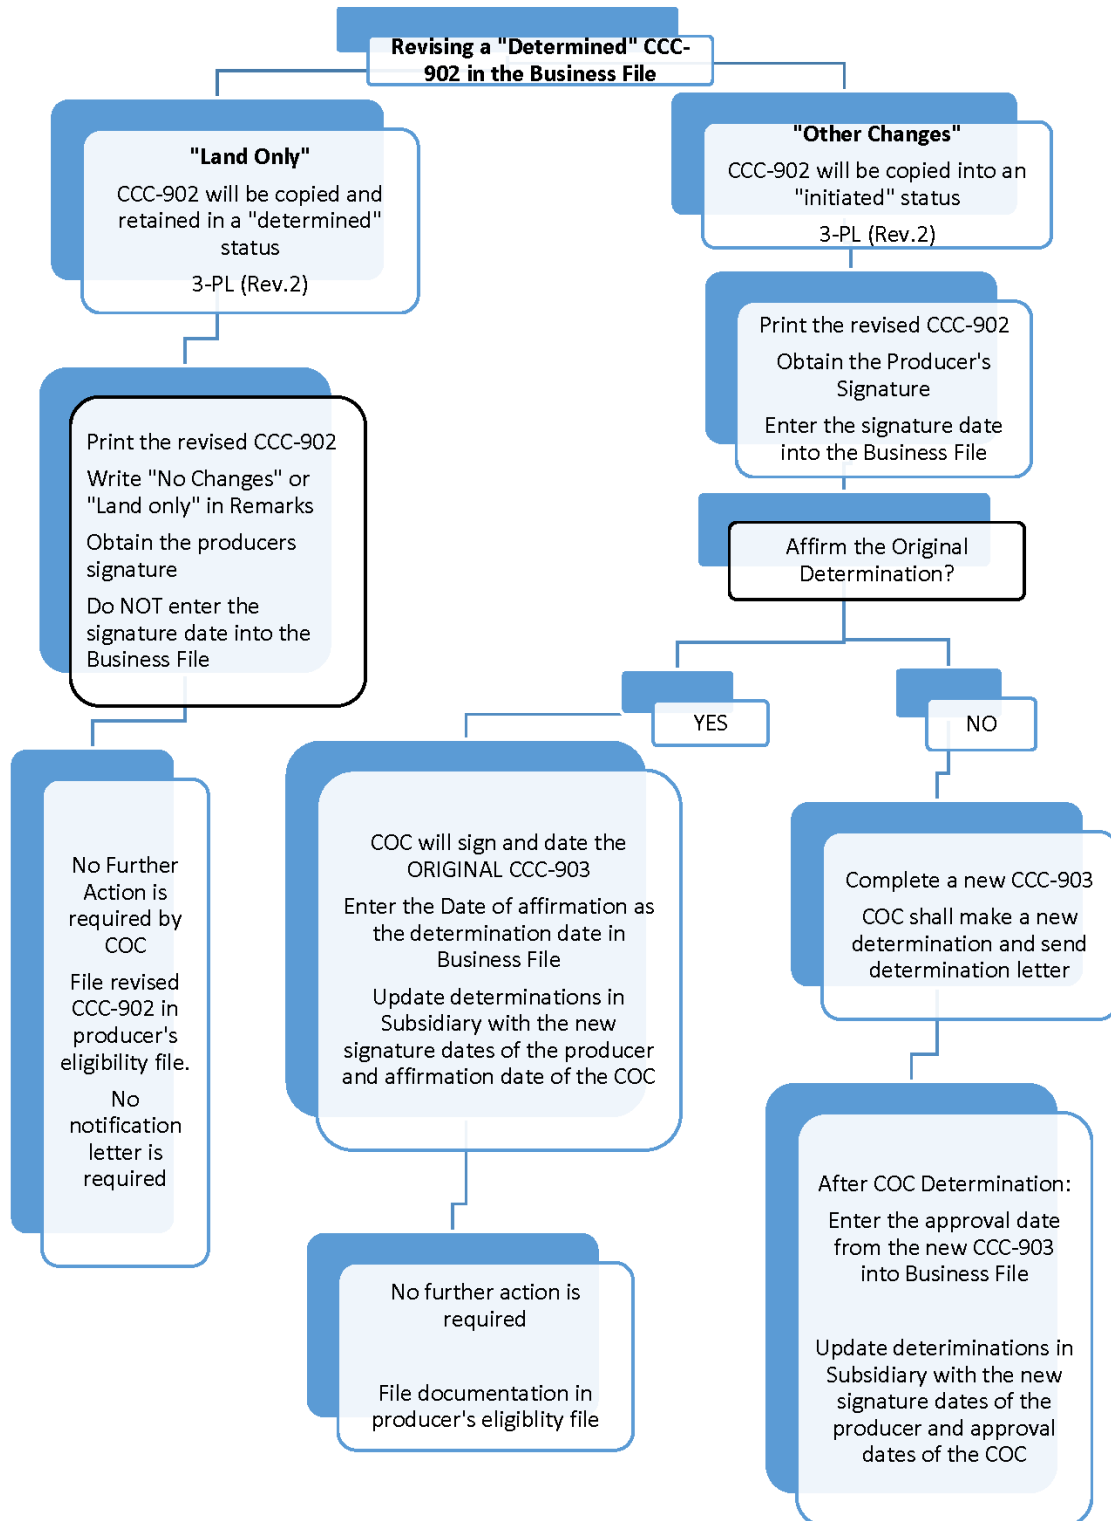

If a new CCC-902 is submitted:

- applicable determinations **must** be made and the producer notified according to Part 6
- flag the producer as "Awaiting Determination" according to 3-PL (Rev. 2), until all determinations are finalized.

60 Filing Requirements (Continued)

E Revising CCC-902 Using the Business File Application

The following illustrates procedures for revising CCC-902 using the Business File application.

61 Documentation

A Introduction

This paragraph provides guidelines on documentation needed to support COC determination.

B Adequate Documentation

COC must require adequate documentation to support the applicable farm operating plans and AGI compliance certification statements.

Definition: Adequate documentation means whatever documentation is required by the reviewing authority to make proper actively engaged in farming, attribution, and average AGI compliance determinations.

C Documentation Not Required

The reviewing authority should avoid requiring documents that are extremely personal if the determination can reasonably be made without the documents. COC may:

- accept documents with redacted information that is **not** relevant to the actively engaged in farming and average AGI determinations
- accept income tax returns to make the determination if **voluntarily** provided by the producer
- request income tax returns to verify compliance with all average AGI limitations.

D Lease Information

It is **not** anticipated that amounts paid for land leases or equipment leases will be needed unless the equipment or land is leased from a person or legal entity with an interest in the farming operation.

61 Documentation (Continued)

E Documentation That May Be Used

Supporting documents may include legal documentation, such as the following:

- articles of incorporation
- financial agreements, including letters of credit
- land and equipment leases
- land ownership records
- operating agreements
- partnership agreements
- trust agreements

Note: A copy of the trust agreement **must** be provided by the trust unless the trust is revocable or if the grantor (and co-grantors, if applicable) of a revocable trust is deceased.

- any other information, including income tax returns, needed to apply the payment eligibility and payment limitation rules.

61 Documentation (Continued)**F Changes to Farm Operating Plans After June 1 or in a Subsequent Program Year**

Additional scrutiny should be applied when requests for changes in farm operating plans (CCC-902's) are submitted late in the crop year, after June 1 or filed in a subsequent year.

Obtain additional documentation to verify changes are legitimate and have been carried out to ensure that changes are not created solely to evade or take advantage of payment limitation and payment eligibility rules.

The approving authority must ensure that the operation has instituted the changes proposed by reviewing similar documentation as listed in subparagraph E and any other documentation available such as grain sales, operating expenses, operating loan repayments to verify the operating plan was carried out as certified on the revised CCC-902.

G Determination Deadline

Additional information may be requested at COC's option. However, this will **not** extend the 60-calendar-day period for making a determination of actively engaged in farming. If the file, as submitted by the producer, does **not** support a favorable finding, COC must make a determination of whether or not a participant is actively engaged in farming based on the file as it exists at that time. See paragraph 351 for the start of the 60-calendar-day period to make determinations.

H Returning Documentation

Any legal documentation obtained should be returned to the producer as soon as possible. Keep photocopies for the payment limitation file if needed to support COC's determination.

62 FLP Participants

A Information Exchange

FLM or appropriate farm loan staff must be provided access to copies of the following information on any program participant that is also an FLP borrower:

- submitted CCC-901
- new or updated CCC-902 and supporting documentation submitted
- the resultant CCC-903 (COC record of determinations)
- written notice of determination for payment eligibility and payment limitation purposes
- written notice of selection for EYR for payment eligibility and payment limitation compliance purposes
- written notice of **any** determination that may adversely affect payment eligibility and payment limitation.

Note: This includes all farming interests of the FLP borrower, whether as a person, member, or interest holder in a legal entity or joint operation.

B Discrepancies

If representations made for program payment eligibility/limitation purposes and representations made for FLP purposes are found to be different, **and** have the appearance of adversely affecting payment eligibility or the application of any determination previously made, the discrepancies must be resolved:

- by the program participant/FLP borrower to the satisfaction of COC and FLP reviewing authority
- **before** any further disbursement of **any** program benefits subject to the regulations at 7 CFR Part 1400 and provisions of this handbook.

63 General Form Requirements

A Availability

All forms required to be filed by a producer are available:

- online at <http://www.sc.egov.usda.gov>
- at the local County Office or Service Center.

B Program Participant Reporting Requirements (CCC-901 and CCC-902)

This table provides an overview of CCC-901 and CCC-902 requirements.

C Collecting Land Contributions on Manual CCC-902 Forms

To collect land information on a manual CCC-902I or CCC-902E, a copy of the Producer Farm Data Report (10-CM) printed for the producer, may be used to record the land in the farming operation **only** with the addition of information on lease terms, rental rate, and whether the land interest was the same as the previous year. The producer **must** sign and date the Producer Farm Data Report **after** the information is added.

63 General Form Requirements (Continued)

D Completing Forms for Programs Not Requiring Actively Engaged in Farming and Cash-Rent Tenant Determinations

For persons and legal entities who are participants in FSA/CCC and NRCS programs subject to payment limitation and attribution (such as conservation, price support, disaster assistance, and other programs), CCC-902 will be used to collect information for the application of the following:

- substantive change rules
- common attribution rules
- minor child rules
- identifying foreign persons and entities
- foreign person rules
- determining contributions are commensurate with claimed share of the farming operation
- determining contributions are at risk.

Note: If using business file application, it is **not** necessary to complete manual forms.

All CCC-902's filed by program applicants must be completed in its entirety to support all required determinations and the COC must:

- **not** make a determination for “actively engaged in farming” or “cash rent tenant provisions”
- make all other required eligibility determinations based on information collected on CCC-902
- complete and document the required determinations on CCC-903 according to paragraph 353
- provide written notification to the participant according to paragraph 389
- update subsidiary files according to 3-PL (Rev. 2), Part 3
- record entities and joint operations according to 3-PL (Rev. 2).

64 Filing Payment Limitation Documentation

A Payment Eligibility and Payment Limitation Filing Requirements

County Offices must file producer and County Office documentation according to 32-AS and the File Maintenance and Disposition Manual for USDA/FSA.

65-75 (Reserved)

Section 5 General Application Rules

76 Denial of Program Benefits

A Introduction

Detecting schemes, fraudulent representations, and other equally serious actions of persons and legal entities to circumvent payment eligibility and payment limitation provisions is **essential** for producer compliance.

This paragraph provides rules and guidelines for detecting and determining schemes or devices, fraudulent representations, and other actions to circumvent payment eligibility and payment limitation provisions. Determining actions to circumvent payment eligibility and payment limitation provisions by a person or legal entity may result in the person or legal entity being ineligible for program benefits for 2 to 5 years.

B Consequences of Scheme, Device, or Fraud Determination

When the reviewing authority determines that a person or legal entity:

- adopts a scheme or device designed to evade, or has the effect of evading, the payment eligibility and payment limitation provisions, the person or legal entity must be **ineligible** for the crop year determined and the succeeding crop year for **all** program benefits subject to limitation
- perpetuates or commits fraud, or other equally serious actions, for the benefit of the person or legal entity, or for the benefit of any other person or legal entity, to circumvent any payment eligibility and payment limitation provision, the person or legal entity must be **ineligible** for **5 years** for **all** program benefits subject to limitation.

76 Denial of Program Benefits (Continued)**C Detecting Schemes, Devices, and Fraudulent Activities**

State and County Office personnel must be aware of their responsibilities in detecting and reviewing suspected schemes or devices or other questionable activities. To assist in detecting, State and County Offices, as appropriate, must:

- compare automated multi-County producer files with information reported on CCC-902's to identify unreported farming interests
- use other system-generated reports and queries to identify possible schemes or devices
- closely scrutinize joint operations having individual members who are also stockholders, members, etc., of a member entity
- request OIG's assistance through the State Office, as appropriate.

D Schemes or Devices

[7 CFR 1400.5] Acts, such as the following, may be considered a scheme or device:

- concealing information that affects the application of payment limitation provisions
- submitting false or erroneous information
- creating fictitious entities to conceal interest of a person or legal entity in a farming operation.

Note: Fraudulent intent is **not** required for determining scheme or device.

76 Denial of Program Benefits (Continued)

E COC or STC Scheme or Device Determinations

This table provides required action **after** COC or STC determination.

IF COC or State Office determines a scheme or device was...	THEN the...
adopted to evade, or that had the purpose of evading, the provisions of this handbook	State or County Office, as appropriate, must: <ul style="list-style-type: none"> • obtain DD concurrence of COC’s determination <p>Note: DD must initial the determination in COC minutes.</p> <ul style="list-style-type: none"> • notify all County Offices in which the scheme or device participants have an interest of the determination • notify the scheme or device participants of the determination • obtain a refund of all payments received by the scheme or device participants for the year in which the scheme or device was adopted • not make payments to the scheme or device participants in the succeeding year.
not adopted to evade, or that had the purpose of evading, the provisions of this handbook	program participants may be eligible to receive program benefits if all other applicable requirements are met.

F Fraud or Equally Serious Activities

[7 CFR 1400.5] Acts, such as the following, may be considered fraud or the equivalent:

- knowingly engaged in, or aiding in, creating a fraudulent document
- failure to disclose information relevant to administering the payment eligibility and payment limitation provisions
- other actions of the person or legal entity determined by the Deputy Administrator to circumvent the payment eligibility and payment limitation provisions.

76 Denial of Program Benefits (Continued)

G COC or STC Fraud or Equally Serious Activity Determinations

This table provides the required actions after COC or STC determination.

IF COC or STC determines...	THEN the...
<p>a program participant committed fraud, perpetuated a fraud, or initiated or participated in other equally serious actions to circumvent the payment limitation provisions</p>	<p>State or County Office, as appropriate, must:</p> <ul style="list-style-type: none"> • obtain DD concurrence of the COC’s determination (DD must initial the COC minutes) • notify all County Offices in which the participants affected by this determination have an interest • issue written notification to all participants affected by the determination and the results of the determination • obtain a refund of all payments received by the participants affected by this determination for the year or years in which these activities were determined to have been perpetrated, including the pro rata share of program payments issued to the participants through interests held in any other legal entities and joint operations • deny any program payments, both directly and indirectly to the participants, under any program subject to the payment limitation provisions for a period of time not to exceed 5 years • deny any program payments, subject to the payment limitation provisions, to any person or legal entity that is a cash-rent tenant on land owned or controlled by the participants to which this determination applies for a period of time not to exceed 5 years.
<p>fraud or other equally serious actions were not committed to circumvent the payment limitation provisions</p>	<p>program participants may:</p> <ul style="list-style-type: none"> • not have their payment eligibility adversely affected for a period of time in excess of 2 years • be eligible for program payments and benefits under programs subject to limitation only if all other payment eligibility and payment limitation requirements have been met.

77 Joint and Several Liability**A Rule [7 CFR 1400.6]**

Any legal entity, including joint ventures and general partnerships, and any member of a legal entity determined to have knowingly participated in a scheme or device, or any such other equally serious actions, to evade, or that has the purpose of evading, the payment limitation provisions must be jointly and severally liable for amounts as follows:

- determined payable as the result of these actions
- necessary to recover the payments.

B Release

Any person or legal entity that cooperates with the Secretary to enforce the payment eligibility and payment limitation provisions may be partially or fully released from liability, as determined by the Executive Vice President, CCC.

C Other Applicable Statutes

FSA determined liability is in **addition** to any liability that may arise under a criminal or civil statute.

78 Two or More Rules Apply**A Rule**

If 2 or more rules seem to be applicable, apply the rule that is **most** restrictive.

Section 6 Farming Operations

91 Determining Farming Operations

A Definition of Farming Operation

A farming operation means a business enterprise engaged in producing agricultural products.

B Description of Farming Operation

A person's, legal entity's, or joint operation's farming operation consists of the acreage on all farms in all counties in which the person, legal entity, or joint operation has an interest in the agricultural products or proceeds from the agricultural products produced. This includes all acreage in which the person, entity, or joint operation is a producer, regardless of whether the acreage is:

- rented on a crop-share basis
- rented on a cash-lease basis
- owned by the producer.

Note: In making determinations for a Landowner or Landlord, exclude owned or cash leased land that has been cash-rented to a cash-rent tenant, if the landowner or landlord has no interest in any crop or crop proceeds from the acreage for the year.

Exception: The farming operation of a landowner includes only the acreage owned by the landowner, if **both** of the following apply:

- land owned by different landowners is combined into 1 farm with other tracts so the claimed share of the crops or crop proceeds is proportionate to size and value of the land and CAB's contributed
- the landowner is **not** also a tenant on the farm.

C Multiple Farming Operations

A person or legal entity may have more than 1 farming operation if the person or legal entity has an interest in 1 or more joint operations. Each interest by a legal entity or person in a joint operation will be an additional farming operation for the person or legal entity.

91 Determining Farming Operations (Continued)

D Example 1, Farms Operated

Note: None of the persons or legal entities has any other farming interests.

Note: None of the persons or legal entities has any other farming interests. All ownership tracts are combined as 1 farm, Farm 9.

91 Determining Farming Operations (Continued)

F Example 3, Tracts Operated

This table shows the **tracts operated** by Brown and Black Partnership. Both tracts have 100 acres of corn base acres. Sam Brown receives a pro rata crop share regardless of where the crop is planted.

This table **defines** the farming operation of each person involved in this example.

IF the determination is for...	THEN the farming operation consists of...
Sam Brown	the acreage in Tract 5 of Farm 18 and all of Farm 19.
Bill Jones	the acreage in Tract 6 of Farm 18 because land is cash leased from Sam Brown.
Richard Alexander	the acreage in Tract 7 of Farm 18 because land is cash leased from Sam Brown.
Two Buddies Partnership	Farm 19.

Note: None of the persons or legal entities has any other farming interests. Pete Smith and Henry Black have no individual farming operation.

91 Determining Farming Operations (Continued)

H Example 5, Farms Operated

This table shows the **farm operated** by Brown and Black Partnership. The farm has 100 acres of corn base acres. Brown and Black Partnership hires Pete Smith to custom farm the acreage.

Farm 10 Tract 1 Owner – Sam Brown Rental – Cash Rent Operator - Brown and Black Partnership	Farm 10 Tract 2 Owner – Henry Black Rental – Cash Rent Operator – Brown and Black Partnership
---	---

This table **defines** the farming operation of each person involved in this example.

IF the determination is for...	THEN the farming operation consists of...
Sam Brown	no farming operation because land is cash leased to Brown and Black Partnership.
Henry Black	no farming operation because land is cash leased to Brown and Black Partnership.
Brown and Black Partnership	Land operated by Brown and Black Partnership.

Note: None of the persons in this scenario would qualify under actively engaged because even though Brown and Black Partnership is considered farming land, they cannot meet cash rent tenant rule, because they are not providing labor, or equipment.

92 Interest in Farming Operations

A Definition of Interest in a Farming Operation (7 CFR 1400.3)

Interest in a farming operation means any of the following:

- owner, lessor, or lessee of the land in the farming operation
- interest in the ag products, commodities, or livestock produced by the farming operation
- a member of a joint operation that is an owner, lessor, or lessee of the land in the farming operation or has an interest in the ag products, commodities, or livestock produced by the farming operation.

92 Interest in Farming Operations (Continued)**B Examples of No Interest in a Farming Operation**

The following situations are not considered an interest in the farming operation when the member, stockholder, or partner is not a landowner, lessee, lessor, or have an interest in the ag commodities produced in the farming operation:

- beneficiaries of trusts when the trust is a producer in the farming operation
- grantors of irrevocable trusts when the trust is a producer in the farming operation
- heirs to estates when the estate is a producer in the farming operation
- limited partners of LLP when LLP is a producer in the farming operation
- members of associations when the association is a producer in the farming operation
- stockholders in a corporation when the corporation is a producer in the farming operation
- trustees and personal representatives of trusts or estates when the trust or estate, respectively, is a producer in the farming operation.

C Most Restrictive Rule

A more restrictive rule may be applicable if a person or legal entity has an interest in another person's or legal entity's farming operation.

Example: Joe Farmer as an individual co-signs an operating note for Joe Farmer Corporation at 1st Bank of Farming. Joe Farmer, as an individual, is a landowner in the farming operation for Joe Farmer Corporation. An arrangement of this type results in the capital not being a significant contribution. Even though Joe Farmer is a stockholder/member in this corporation, which would not be considered an interest in the farming operation, Joe Farmer's role as a landowner constitutes an interest in the farming operation and the most restrictive rule will be applied.

93 Total Value of a Farming Operation**A Introduction**

The total value of a farming operation **must** be computed when determining whether:

- the contributions made by the person or legal entity are significant
- contributions are commensurate with the claimed share of profits or losses from the farming operation
- by February 1st each year, COC must identify dates that are normal and customary for the area that equipment and land rents are paid. COC must record these dates in COC minutes. See subparagraphs 145 C and 146 C for additional information.

B Definition of Total Value of a Farming Operation

Total value of a farming operation means the total of the costs, excluding the value of active personal labor and active personal management that is contributed by a member of the farming operation, needed to carry out the farming operation for the year for which the determination is made.

93 Total Value of a Farming Operation (Continued)**C Example 1**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 2,000 acres of cropland growing corn and various vegetables. All of the land that Partnership ABC farms has a rental value equal to \$42 per acre.

Partner A contributes land with a total rental value of \$24,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner A's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$12,000 of capital. None of Partner A's contributions are acquired as the result of a loan.

Partner B contributes land with a total rental value of \$12,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner B's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner B's contribution is acquired as the result of a loan.

Partner C contributes land with a total rental value of \$12,000 to the partnership. Partner C owns this land. Partner C's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner C's contributions are acquired as the result of a loan.

Partnership ABC rents land from other landowners for a 1/3 share of the crop with a value of \$36,000. Partnership ABC contributes owned equipment with a rental value of \$21,000 and \$99,000 of capital to the farming operation.

Each of the partners share equally in the labor and management of this farming operation and no additional labor or management is hired.

93 Total Value of a Farming Operation (Continued)

C Example 1 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC and the total value of the farming operation.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	24,000	12,000	12,000	Active	Active	48,000
Partner B	12,000	24,000	12,000	Active	Active	48,000
Partner C	12,000	24,000	12,000	Active	Active	48,000
Partnership ABC		99,000	21,000			120,000
Total	84,000 <u>1/</u>	159,000	57,000	0	0	300,000

1/ Includes the rental value of the land contributed by the share-rent landlord. Crop-share rent for the land is valued at \$36,000.

The total value of the farming operation was **determined** as follows.

The rental value of all the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$24,000
- Partner B's contribution of cash-rented land with a value of \$12,000
- Partner C's contribution of owned land with a rental value of \$12,000
- share-rented land with a value of \$36,000 that is **not** attributed to any 1 partner or to the partnership.

Note: If land is owned, a rental value that is normal for the area **must** be used when determining its value.

93 Total Value of a Farming Operation (Continued)**C Example 1 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this farming operation and subtracting any equipment and land costs that will be expended by the partnership. The capital is derived by the following inputs:

- Partner A's contribution of \$12,000 of capital
- Partner B's contribution of \$24,000 of capital
- Partner C's contribution of \$24,000 of capital
- Partnership ABC's contribution of \$99,000 of capital.

The rental value of the equipment used on this farming operation is \$57,000. This rental value is derived by the following inputs:

- Partner A's contribution of owned equipment with a rental value of \$12,000
- Partner B's contribution of leased equipment with a rental value of \$12,000
- Partner C's contribution of owned equipment with a rental value of \$12,000
- Partnership ABC's contribution of owned equipment with a rental value of \$21,000.

Note: If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

Each partner is equally providing active personal labor and active personal management; therefore, no value is assigned to these contributions in determining the total value of the farming operation.

The total value of this farming operation is equal to \$300,000.

93 Total Value of a Farming Operation (Continued)**D Example 2**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 1,500 acres of cropland growing cotton and soybeans.

Partner A contributes land with a total rental value of \$5,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner B contributes land with a total rental value of \$5,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner C contributes land with a total rental value of \$5,000 to the partnership. Partner C owns this land.

Partnership ABC contributes land with a total rental value of \$69,000 to the farming operation. Partnership ABC owns this land. Partnership ABC contributes owned equipment with a rental value of \$57,000 and \$159,000 of capital to the farming operation. The capital is borrowed from a local bank and is **not** secured by any of the partners individually.

Partnership ABC will hire all of the labor needed to conduct this farming operation. The labor cost for this operation will be \$30,000.

Each of the partners share equally in the management of this operation and no additional management is hired.

93 Total Value of a Farming Operation (Continued)

D Example 2 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	5,000	0	0		Active	5,000
Partner B	5,000	0	0		Active	5,000
Partner C	5,000	0	0		Active	5,000
Partnership ABC	69,000	159,000	57,000	30,000		315,000
Total	84,000	159,000	57,000	30,000		330,000

The total value of the farming operation was **determined** as follows.

The rental value of all the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$5,000
- Partner B's contribution of cash-rented land with a value of \$5,000
- Partner C's contribution of owned land with a rental value of \$5,000
- Partnership ABC's contribution of owned land with a rental value of \$69,000.

Note: If land is owned, a rental value that is normal for the area **must** be used when determining its value.

93 Total Value of a Farming Operation (Continued)**D Example 2 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this operation and subtracting any equipment, land, and labor costs that will be expended by the partnership. The capital for this operation is being provided by Partnership ABC.

The rental value of all of the equipment used on this farming operation is \$57,000. Partnership ABC is contributing owned equipment with a rental value of \$57,000.

Note: If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

All of the labor for this farming operation is hired by Partnership ABC and will cost \$30,000.

Each partner will equally provide active personal management; therefore, no value is affixed to this contribution in determining the total value of the farming operation.

The total value of this farming operation is equal to \$330,000.

Part 3 Payment Limitation Rules**Section 1 Payment Limitation by Direct Attribution****105 Program Payment and Benefit Limitations****A Person or Legal Entity**

Program payments and benefits specified in paragraphs 34 and 36 are limited to:

- persons
- legal entities

B Joint Operation

Program payments and benefits to a joint operation are limited by the total number of persons and legal entities that are first level ownership members multiplied times the dollar amount of the limitation of the program specified in paragraph 36.

106 Payment Reductions**A Proportionate Reductions**

Payments made to a legal entity will be reduced proportionately by an amount that represents the direct or indirect ownership of a person or legal entity that has otherwise reached the applicable maximum payment limitation.

107 Payment Attribution Defined (7 CFR 1400.105)**A Payments to a Person**

Program payments made, directly or indirectly to a person, are combined with the pro rata interest held in any other legal entity that received payments, **unless** the payments to the legal entity were reduced by the pro rata share of the person.

B Payments to a Legal Entity

Program payments made directly to a legal entity are attributed to those persons that have a direct and indirect interest in the legal entity, **unless** the payments to the legal entity have been reduced by the pro rata share of the person.

107 Payment Attribution Defined (7 CFR 1400.105) (Continued)

C Cooperative Associations

Farm program payments issued to a cooperative association on behalf of eligible producers will be attributed to the members as persons.

D Attribution Levels

Payment attribution to a legal entity will be tracked through 4 levels of ownership in the legal entity according to this table.

Levels of Ownership	Payment Attribution
First	Any payment made to a legal entity that is owned in whole or in part by a person will be attributed to the person in the amount that represents direct ownership interest in the payment entity.
Second	Any payment made to a legal entity that is owned in whole or in part by another legal entity at the second level will be attributed to this entity in the amount that represents the direct ownership interest in the payment entity. Note: If the second level entity is owned in whole or on part by a person, the amount of payment made to the payment entity will be attributed to the person in the amount that represents the indirect ownership interest in the payment entity.
Third and Fourth	Any payments made to a legal entity at the third and fourth levels of ownership must be attributed in the same manner as at the first and second levels of ownership.
Fourth Only	If any part to the ownership interest at the fourth level is owned by another legal entity, a reduction in payment will be applied to the payment entity in the amount that represents the indirect ownership interest of the fourth level entity in the payment entity.

107 Payment Attribution Defined (7 CFR 1400.105) (Continued)**E Definition of Common Attribution (7 CFR 1400.101 and 1400.102)**

Common attribution means crediting payments made to persons or legal entities collectively to 1 limitation, for the applicable program, based on a specific or unique relationship between the persons or legal entities.

Common attribution only applies to the following relationships:

- minor child and living parent or legal guardian (paragraph 108)
- revocable trust using Social Security number of grantor where grantor is the parent of a minor child (paragraph 109)
- parent organization and secondary organization with the parent organization exercises complete control over the secondary organization (paragraph 322)
- public schools in a State that does **not** meet population exception (paragraph 310)
- LLC using Social Security number when the sole interest holder is the parent of a minor child (paragraph 257).

See 3-PL (Rev. 2) for using CCC-904 to designate payments because of common attribution.

108 Specific Rules for Attributing Payments to a Minor Child and Parent**A Definition of Minor Child**

[7 CFR 1400.101] Minor child means a person who is **not** 18 years of age on or before June 1 of the current year.

June 1 of the applicable year must be the date used for the determination of minor child.

Notes: Court action conferring majority on this person does **not** change this person's status as a minor child.

Payments to a minor child will continue to be attributed to his or her parent for the applicable crop year, program year, or FY even though the age of majority is reached during the year.

108 Specific Rules for Attributing Payments to a Minor Child and Parent (Continued)**B Payments to a Minor Child**

Payments issued to a minor child:

- are attributed to the parent or court-appointed person who is responsible for the child
- who is a beneficiary of a trust or heir of an estate, are attributed to the parent or court-appointed person who is responsible for the child.

Exception: If both parents are receiving program payments, the minor child payments will be attributed to the parent receiving the larger amount in program payments.

If a revocable trust, program payments will be attributed **only** to the grantor of the revocable trust.

C Exception to Rule

Payments to a minor child will **not** be attributed to a parent or court-appointed person for payment limitation purposes if **both** of the following requirements are met:

- the minor child is a producer on a farm
- neither the minor child's parents nor court-appointed person has any interest in the minor child's farm or production from that farm.

D Exception Restrictions

Any of the following **must** be met for the minor child to remain under the exception in subparagraph C:

- the minor child meets **all** of the following:
 - has established and maintains a separate household from the parent or court-appointed person
 - personally carries out the farming activities in his or her operation
 - maintains a separate accounting for his or her farming operation
- the minor child meets **all** of the following:
 - does **not** live in the same household as his or her parents
 - is represented by a court-appointed person responsible for the minor child
 - has ownership of the farm vested in him or her.

109 Specific Rules for Attributing Payments to a Trust

A Attribution of Payments for Revocable and Irrevocable Trusts

Program payments to an irrevocable trust will be attributed to its beneficiaries.

Program payments to a revocable trust will be attributed **only** to the grantor of the revocable trust.

Note: Follow rules for common attribution according to paragraph 107.

110 Ownership Interest for Direct Attribution Purposes

A Determining Ownership Interest (7 CFR §1400.104 and §1400.105)

Ownership interest that a person or legal entity holds in a legal entity that receives payment subject to limitation for the program year will be determined according to the following table.

IF the legal entity...	THEN the date for the determination of ownership interest is...
existed on June 1 of the year for which program benefits were requested	June 1.
did not exist on June 1 of the year for which program benefits are requested	the date the legal entity was formed.

B Changes in Ownership Interest

See this part for policy on changes in ownership interests.

111 Notification of Interests – Legal Entity Responsibilities**A Introduction**

The Food Security Act of 1985, as amended, requires the entity to provide the information in subparagraph B. These requirements ensure that USDA can adequately control payment limitation by direct attribution.

B Responsibility for Providing Information Rule [7 CFR 1400.107]

Each legal entity that submits a contract for a program or an application for payment **must** provide COC the name, address, and TIN of each person and embedded legal entity that holds or acquires any interest, directly or indirectly, in the entity-earning payment. This information will be recorded on CCC-901 or CCC-902E. See paragraph 113.

C Information Deadline

Required information on CCC-902E and/or CCC-901 must be filed according to the deadlines established for each applicable program for which payments are requested.

The legal entity earning payment must provide the completed CCC-901 to COC when CCC-902E is filed **manually**.

D Nondisclosure Results

If the legal entity fails to provide COC with the name, TIN, and address of each applicable person and legal entity, COC must:

- deny any payment earned by the legal entity
- notify the legal entity of the denied payment and reason for denial
- **not** be responsible for notifying the members
- permit the legal entity to cancel the applicable contract or application according to applicable program procedures.

112 Notification Exceptions**A Introduction**

All legal entities receiving payment, including embedded legal entities, must submit the documentation required in paragraph 111, **unless** an exception in subparagraph B applies.

B Exception

Notification requirements do **not** apply if the legal entity is tax exempt under Internal Revenue Code, Section 501(c).

Notes: Approval by IRS must be indicated by providing COC with a copy of either of the following:

- IRS determination letter notifying the organization or legal entity of approval as a tax exempt entity for the year
- copy of the organization's or legal entity's most recently filed IRS Form 990 or comparable IRS tax form.

Documentation **not** effective for the current year may be accepted if COC is satisfied the status for the current year is the same as supported by the documentation.

113 Completing CCC-901's**A Who Must Complete CCC-901's**

Each legal entity that submits a contract for a program or an application for payment **must** provide the member's information required on CCC-901. Completing a manual CCC-901 for the collection of member information is not required when this same information is collected and recorded through the business file process used for filing farm operating plans. For information on the use and output of the business file process, see 3-PL (Rev. 2), Part 10.

Exception: If manually filing CCC-902E and CCC-901, CCC-901 is **not** required if **all** the first level members are persons.

Note: New CCC-901's are **not** required to be filed in subsequent years unless there are changes in the operation.

B Filing Responsibility

The legal entity that is earning payment is responsible for obtaining and providing the required information to COC.

C Filing and Distribution

File the original CCC-901 in the legal entity's payment limitation folder and give a copy to the payment entity. Attach the original of CCC-901 to the manual CCC-902E or automated CCC-902.

114 Exceptions to Payment Limitation for Inheritance and Estates**A Inheritance [7 CFR 1400.1]**

Payments received directly or indirectly by a person may exceed the applicable limitation if **all** the following apply to the heir/beneficiary:

- ownership interest in the land or commodity was transferred because of death
- the new owner (heir/beneficiary) succeeds to contract
- the new owner (heir/beneficiary) meets all other eligibility requirements.

Note: This provision also applies to an ownership interest in a legal entity received by inheritance if the legal entity was the owner of the land enrolled in an annual or multi-year program contract or agreement at the time of the shareholder's death.

The new owner (heir/beneficiary) determined eligible **cannot** exceed the amount the previous owner was entitled to receive under the applicable program contracts at the time of death. If the new owner (heir/beneficiary) meets **all** program and payment eligibility requirements, this provision will apply as follows:

Section 2 Substantive Change Requirements**125 Changes in Farming Operations Resulting in the Increase in Persons [7 CFR 1400.104]****A Background**

The Food Security Act of 1985, as amended, requires that the Secretary **not** approve, for purposes of applying payment limitations, any change in a farming operation that will increase the number of persons for payment, unless the Secretary determines that the change is bona fide and substantive. The Food, Conservation, and Energy Act of 2008 (2008 Farm Bill) revised the definition of “person”. “Person” means a “natural person” and does not include a legal entity.

B Substantive Change Rule [7 CFR 1400.104]

COC may **not** approve any change in a farming operation, including, but not limited to, establishing a new farming operation containing any person that was a member of the previous year’s farming operation, that will otherwise increase the number of persons to which payment limitation is applied for the current year, unless a substantive change in the farming operation occurs for the current year.

Note: The comparison for substantive change purposes is between the current year’s farming operation and the prior year’s farming operation in which a farm operating plan was filed and payment limitation is applied. Payment attribution will be used to determine increases in limitations.

Substantive Change provisions apply to all programs subject to a payment limitation.

126 Application of Substantive Change Rule**A Factors Requiring the Application of Substantive Change Rule**

The Substantive Change Rule applies when **both** of the following elements are present:

- There are changes in a farming operation from a prior year that result in “commonality” between the farming operation in the current year and a farming operation in a prior year; in other words, there is the ability to link a person (directly or indirectly) **and** land to a farming operation in a prior year.

126 Application of Substantive Change Rule (Continued)

A Factors Requiring the Application of Substantive Change Rule (Continued)

- There is an increase in the number of persons that have not participated in a program subject to payment limitation at or above, the fourth level of ownership in a legal entity or joint operation.

Note: Members added below the fourth level of ownership in a legal entity or joint operation are not considered an increase in persons to which payment limitation applies. Ownership interests below the fourth level of ownership are ineligible for payment.

The following diagram illustrates the 4 levels of ownership of a legal entity or joint operation.

126 Application of Substantive Change Rule (Continued)

B When Substantive Change Is Required

This table illustrates that substantive change is **required** for the current year’s farming operation when both elements of commonality exist (some of the same persons, legal entities or joint operations farming some of the same land in a prior year’s farming operation) **and** there is an overall increase in persons to which payment limitation applies.

If the farming operation is conducted by...	Substantive Change is required when...
a new joint operation	any of the persons in the new joint operation did not participate (directly or indirectly) in a program subject to limitation in a prior year.
an existing joint operation	<p>1 or more persons are added to the existing joint operation that did not participate (directly or indirectly) in a program subject to limitation in a prior year - resulting in an overall increase in the number persons to which payment limitation applies.</p> <p>Notes: Even if there is no overall increase in persons within the joint operation, substantive change is still required if both apply:</p> <ul style="list-style-type: none"> • any of the departing persons continue to participate in a program subject to limitation on the same land farmed by the joint operation in a prior year; and • a new person is added to the farming operation that has not participated in programs subject to limitation in a prior year. <p>If there is addition of more than 1 person and the farming operation does not have a substantive change, a representative of the farming operation must identify which person(s) will not be recognized.</p>
a new legal entity	some, but not all, of the persons who are stockholders or partners in the new legal entity participated directly or indirectly in a program subject to limitation in a prior year; and any of the stockholders have other farming interests.
an existing legal entity	any of the persons who are stockholders, including stockholders in an embedded entity have ownership interest in any other farming operation.

126 Application of Substantive Change Rule (Continued)

C When Substantive Change Is Not Required

This table illustrates when the substantive change rule does **not** apply even though there may be commonality between the current year’s farming operation and a prior year’s farming operation.

IF the farming operation is conducted by...	THEN Substantive Change is not required when...
an individual	the farming operation is that of the individual.
a new joint operation	either of the following occurred: <ul style="list-style-type: none"> • none of the persons who are members (including persons who are members of an embedded legal entity or joint operation) participated in programs subject to payment limitation or were associated with any farming operation that participated, directly or indirectly, in programs subject to limitation in a prior year • all the persons (including persons who are members of an embedded legal entity or joint operation) participated in programs (directly or indirectly) subject to limitation in a prior year.
a new legal entity	none of the persons who are shareholders (including persons who are members of an embedded legal entity or joint operation) participated, directly or indirectly, in programs subject to limitation in a prior year.
an existing legal entity	1 or more persons are added to the legal entity and none of the persons who are stockholders have interest in any other farming operation. Note: The legal entity remains restricted to 1 limitation regardless of the number of shareholders.

126 Application of Substantive Change Rule (Continued)

D Changes Made by June 1 [7 CFR 1400.5]

Ownership interest that a person holds in a legal entity or joint operation that receives payment subject to limitation for the program year will be determined according to the following table.

IF the legal entity or joint operation...	THEN the date for the determination of ownership interest is...
existed on June 1 of the year for which program benefits were requested	June 1.
did not exist on June 1 of the year for which program benefits are requested	the date the legal entity or joint operation was formed.

E Changes Not Made by June 1 [7 CFR 1400.5]

COC may determine that a change in ownership interest after June 1 is considered relevant or effective for the current year if:

- change of ownership interest is because of death of an interest holder
- the legal entity or joint operation did not exist on June 1 of the applicable year
- the change of ownership interest is because of the addition of a minor child (family member) when the parent or legal guardian is also a member, partner or stockholder in the same farming operation.

Note: COC must also consider rules for attributing payments to a minor child according to paragraph 108.

If COC determines the change is **not** relevant or effective for the current year, consider the change to be effective for the subsequent year.

127 Substantive Change Requirements When an Increase in Limitation Occurs

A Meeting Substantive Change

When there is an increase in persons to which payment limitation applies and commonality is determined, the farming operation must have a substantive change for the determining authority to approve the increase in persons for payment limitations. If bona fide, any 1 of the following is considered a substantive change.

Change	Requirement
Family Member	Adding 1 or more family members to a farming operation (at any ownership level), according to the adult family member provision as specified in paragraph 222, allows recognizing the added family members.
Land Rental	For a landowner only , a change from cash-rent to share-rent.
Increase in acres of Agricultural Land	<p>An increase through acquiring land used for agricultural purposes not previously involved in the farming operation. The increase in agricultural land:</p> <ul style="list-style-type: none"> • must be at least 20 percent or more of the total acres of agricultural land involved in the farming operation • will be applicable for the increase of only 1 person to the farming operation. <p>A State Office specialist may approve additional persons based on the magnitude and complexity of the change in the farming operation represented and if the increase in acres of agricultural land supports additional persons or legal entities to the farming operation. See subparagraph B.</p>
Ownership	<p>A change in ownership by sale or gift of equipment, land or livestock from a person or legal entity previously engaged in the farming operation to a person or legal entity who has not been engaged in this operation is considered substantive, only if:</p> <ul style="list-style-type: none"> • the transferred amount is commensurate with the new person’s share of the farming operation • the sale or gift of land, equipment or livestock was based on fair market value of the land, or equipment

127 Substantive Change Requirements When an Increase in Limitation Occurs (Continued)

A Meeting Substantive Change (Continued)

Change	Requirement
Ownership (Continued)	<ul style="list-style-type: none"> • the former owner has no control over the sold or gifted land, equipment or livestock • the transaction was not financed by the former owner • preference was not given to the former owner to re-purchase the land, equipment or livestock at a later date.
Equipment	<p>The addition of equipment not previously involved in the farming operation may be considered substantive, if the rental value of the additional equipment contributed is commensurate with the new person’s (direct or indirect) share of the rental value of all equipment used in the farming operation.</p>

Note: Substantive changes **must** be “arm’s length” business transactions. Documents **must** be provided to support any of the changes in this subparagraph.

B Increases of More Than 1 Person for Payment Limitation Purposes

If acres of agricultural land are increased more than 20 percent and the farming operation is requesting to add more than 1 member for payment limitation, the:

- authorized representative of the farming operation **must**:
 - submit written request for recognizing more than 1 additional member
 - include the reasons why additional members for payment limitation purposes are to be recognized
 - provide any other relevant documentation to support the request
- COC **must**:
 - document the request in the COC minutes
 - forward the request with comments or recommendations to the State Office
 - include all documentation provided by the producer

127 Substantive Change Requirements When an Increase in Limitation Occurs (Continued)**B Increases of More Than 1 Person for Payment Limitation Purposes (Continued)**

- State Office specialist designated to act on these requests **must**:
 - timely review requests and all supporting documentation
 - obtain STC comments, if determined necessary, on the request
 - approve or disapprove the requests
 - record all requests and determinations in the STC minutes
 - notify COC/County Office, in writing, of the determination
 - instruct COC/County Office to provide written notification of the determination to the producer and include appeal rights if considered adverse.

128 Determinations When Substantive Change Is Not Met**A If Substantive Change Is Not Met**

If there is an increase in the number of persons subject to payment limitation in a farming operation that results in applying the substantive change provisions, and substantive change is **not** met by the farming operation:

- continue to recognize the persons for payment limitation purposes (that were recognized in the previous year) for the current and future years
- consider the new persons in the farming operation ineligible for payment when the farming operation did **not** meet the substantive change until substantive change is met.

Note: The eligible person's shares **cannot** be adjusted to circumvent the ineligibility of the new person.

128 Determinations When Substantive Change Is Not Met (Continued)

B Duration of Ineligibility

Determinations that result in disapproving the increase in persons to which payment limitation applies must be perpetual until the farming operation realizes a bona-fide substantive change according to paragraph 127.

Users must ensure that the substantive change determination is recorded in Business File according to 3-PL (Rev. 2) for the current determination and any subsequent determination that may be required, until it is determined the farming operation has met the substantive change requirements.

129 Examples for Applying Substantive Change

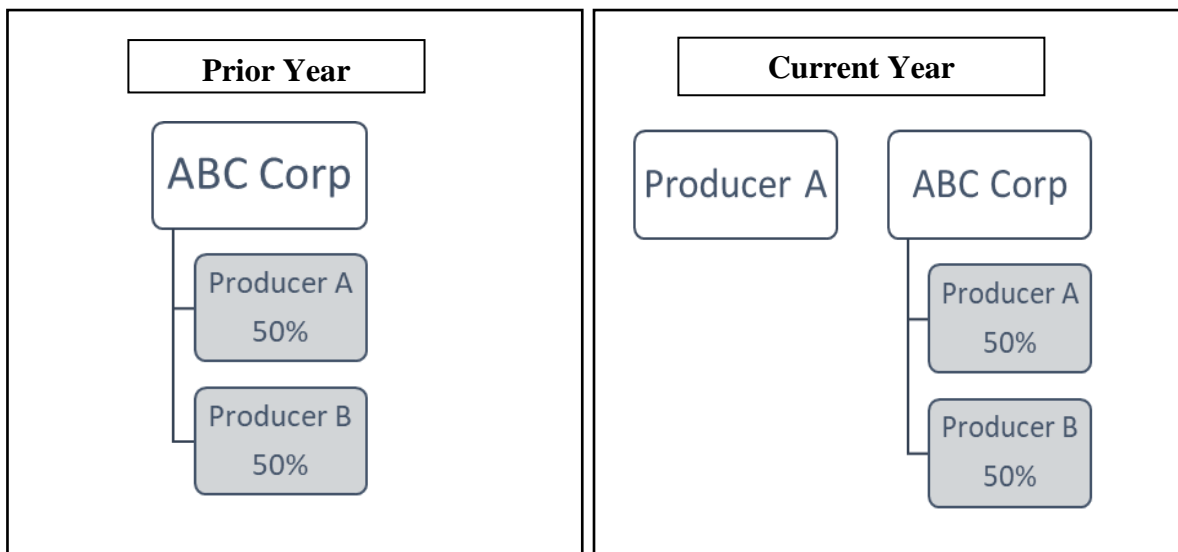

A Individual Beginning to Farm

Example 1 - Individual Beginning to Farm

Situation:

ABC Corp. operated farmland in the prior year and participated in programs subject to payment limitation provisions. Producer A and Producer B are equal share stockholders in the corporation. Neither Producer A nor Producer B had other farming interests.

In the current year, Producer A begins to farm some of the same land previously farmed by ABC Corp. Producer A will also retain his equal share in ABC Corp for the current year, that will continue to farm the rest of the acreage from the prior year’s farming operation.

129 Examples for Applying Substantive Change (Continued)

A Individual Beginning to Farm (Continued)

Analysis:

Is there commonality in the 2 farming operations? Yes, the same member of ABC Corp (Producer A) is farming some of the same land previously farmed by ABC Corp.

Is there an increase in persons to which payment limitation applies from ABC Corp in the prior year? No. Payment limits are controlled by attribution of amounts received both directly and indirectly; therefore, the earnings of Producer A will be summed with Producer A’s indirect earnings from ABC Corp. There is no increase in persons for payment limitation purposes.

Determination:

Substantive Change requirements do not apply. Although there is commonality (same land and same persons) between the 2 farming operations, there is no overall increase in persons for payment limitation.

B New Legal Entity Beginning to Farm

Example 2 - New Legal Entity Beginning to Farm

Situation:

Producer J, Producer K, and Producer L each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers J, K, and L propose a new farming operation by forming a corporation, JKL Corp, in which each person is an equal stockholder. The entity would cash lease a portion of the cropland previously operated by each of the Producers J, K, and L.

129 Examples for Applying Substantive Change (Continued)

B New Legal Entity Beginning to Farm (Continued)

Analysis:

Is there commonality in the 2 farming operations? Yes. The new entity, JKL Corp, is comprised of the same Producers J, K, and L, who participated in programs subject to limitation in the prior year **and** will be farming some of the same land previously farmed by 1 or more of the 3 persons.

Is there an increase in limitations from the 3 persons in the prior year? No. Payment limits are controlled by attribution, therefore the earnings of the 3 persons and their indirect earnings through JKL Corp will not result in an overall increase in persons for payment limitation in the current year.

Determination:

Substantive change requirements do not apply. There is no overall increase in persons for payment limitation considering payment attribution.

Example 3 – New Legal Entity Beginning to Farm

Situation:

Producer A, Producer B, and Producer C each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers A, B, and C propose a new farming operation, in addition to their individual operations, by forming a limited liability corporation, ABCF LLC. ABCF LLC adds an additional member, Producer F who has not participated in programs subject to limitation in a prior year. The 4 members are equal stockholders in the entity. The entity is **not** farming any of the land previously farmed by the 3 persons in the prior year.

129 Examples for Applying Substantive Change (Continued)

B New Legal Entity Beginning to Farm (Continued)

Analysis:

Is there commonality in the 2 farming operations? No. Although the new entity includes Producers A, B, and C who participated in programs subject to limitation in a prior year, the new entity is not farming any land previously farmed by Producers A, B, and C. There is no change in the prior year’s farming operation(s).

Is there an increase in limitations from the 3 persons in the prior year? No. ABCF LLC is a new legal entity that is not farming any of the land previously farmed by Producer A, Producer B, or Producer C. There is no change in Producer A’s, Producer B’s, or Producer C’s farming operation from the prior year.

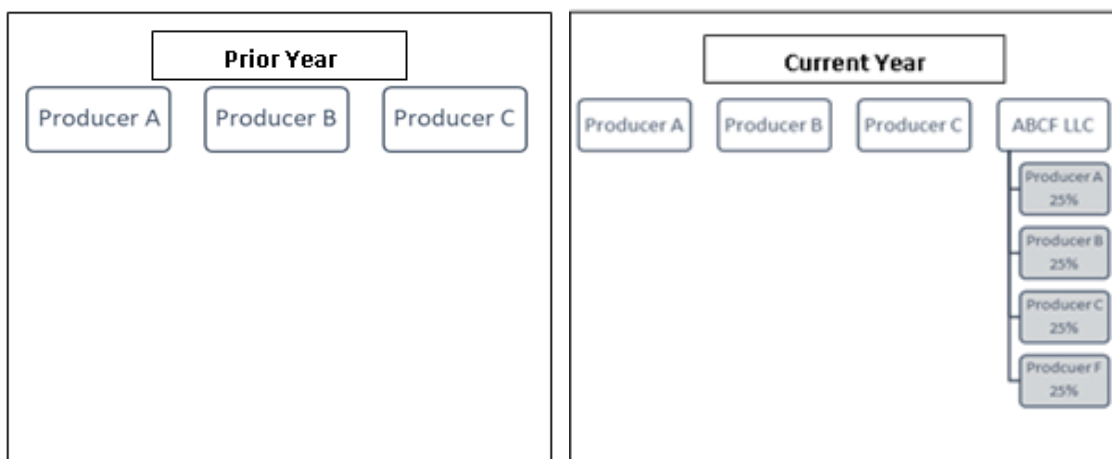

Determination:

Substantive Change requirements do not apply to the new legal entity. There is not commonality between the farming operations from the prior year, and the farming operation of the new legal entity. The new legal entity is not farming any of the same land previously farmed by Producers A, B, and C. Therefore, there is no change in Producer A’s, B’s, and C’s individual farming operations from the prior year.

Example 4 – New Legal Entity Beginning to Farm

Situation:

Producer A, Producer B, and Producer C each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers A, B, and C propose a new farming operation, in addition to their individual operations, by forming a limited liability corporation, ABCF LLC. ABCF LLC adds an additional member, Producer F who has not participated in programs subject to limitation. The 4 members are equal stockholders in the entity. The new legal entity **is** farming some of the land previously farmed by the 3 persons in the prior year.

129 Examples for Applying Substantive Change (Continued)**B New Legal Entity Beginning to Farm (Continued)****Analysis:**

Is there commonality in the 2 farming operations? Yes. The new legal entity includes Producers A, B, and C who participated in programs subject to limitation in a prior year; and the new legal entity is farming some of the same land previously farmed by Producers A, B, and C.

Is there an increase in limitations from the 3 persons in the prior year? Yes. Some, but not all, of the persons who are members of the new legal entity, ABCF LLC, participated in programs subject to limitation in a prior year. The addition of Producer F to the new legal entity results in an increase in persons for payment limitation.

Determination:

Substantive Change requirements apply to the new legal entity to recognize Producer F's share. There is commonality between the farming operations from the prior year and the new legal entity's farming operation. There is also an increase in persons to which payment limitation applies. The new legal entity must provide acceptable documentation supporting a bona fide change in the farming operation occurred.

Result:

Depending on the determination whether the new legal entity met Substantive Change, the substantive change determination for Producer F must be recorded in Business File as "Eligible" or "Not Eligible" according to 3-PL (Rev. 2). Producers A, B, and C will be set to "Eligible" to continue recognizing they are not an increase in persons for Payment Limitation from the prior year.

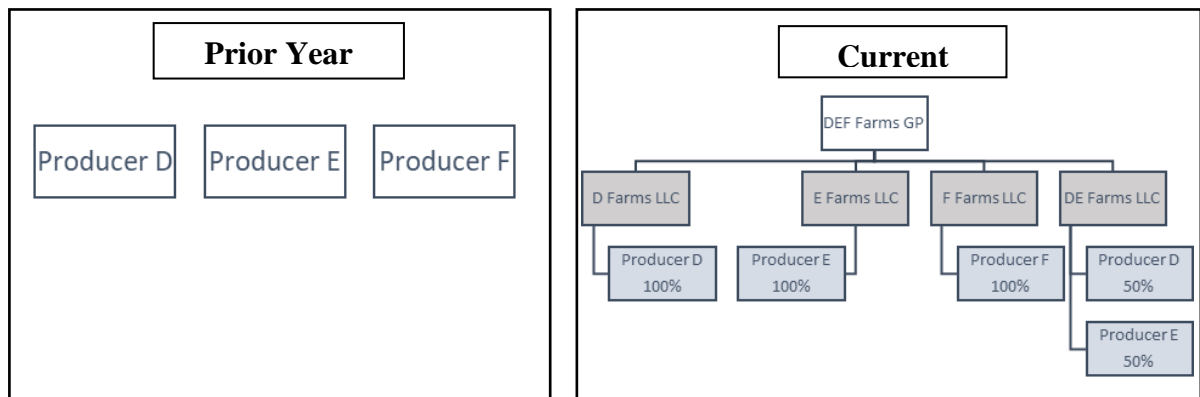

129 Examples for Applying Substantive Change (Continued)

C New Joint Operation Beginning to Farm

Example 5 – New Joint Operation Beginning to Farm

Situation:

Producer D, Producer E, and Producer F each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers D, E, and F each individually create an LLC and form a new General Partnership, DEF Farms, with each individual LLC as shareholders. A fourth LLC member, DE Farms LLC, with Producer D and Producer E as equal shareholders, is added to the General Partnership. The four LLC's are equal members in DEF Farms, and the general partnership is farming all the land previously farmed by Producer D, Producer E, and Producer F in the prior year.

Analysis:

Is there commonality in the 2 farming operations? Yes. DEF Farms GP is farming land previously farmed by Producers D, E, and F from the prior year and the members of each of the LLC's is Producer D, E and F.

Is there an increase in persons for payment limitation from the 3 producers in the prior year? No. Payments are limited by attribution, therefore the earnings of the 3 producers as individuals and their indirect earnings through DE Farms LLC will not result in an overall increase in persons for payment limitation in the current year.

Determination:

Substantive change requirements do not apply. There is no overall increase in persons for payment limitation through attribution.

129 Examples for Applying Substantive Change (Continued)

C New Joint Operation Beginning to Farm (Continued)

Example 6 – New Joint Operation Beginning to Farm

Situation:

Producer J, Producer K, and Producer L each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers J, K, and L each individually create an LLC and form a new General Partnership, JKLH Farms, with each individual LLC as members. A fourth LLC member, H Farms LLC, with Producer H as the sole member, is added to the General Partnership. Neither H Farms LLC, nor Producer H have ever participated in programs subject to limitation. The four LLC's are equal members in, JKLH Farms, and the general partnership is farming all the land previously farmed by Producer J, Producer K, and Producer L in the prior year.

Analysis:

Is there commonality in the 2 farming operations? Yes. JKLH Farms GP is farming land previously farmed by Producers J, K, and L who are also shareholders of the LLC's that are members of JKLH Farms GP.

Is there an increase in limitations from the 3 persons in the prior year? Yes. In this case, there are 3 new LLC's that include persons that participated in programs subject to limitation in a prior year. Producer H, through H Farms LLC is a new person that has not participated in programs subject to limitation in a prior year. Producer H, through H Farms LLC, is an additional person to which payment limitation applies.

129 Examples for Applying Substantive Change (Continued)

C New Joint Operation Beginning to Farm (Continued)

Determination:

Substantive change requirements apply. There is commonality between the 3 persons who participated in programs subject to limitation in a prior year and a fourth payment limitation was added in the current year to the new general partnership.

Result:

Substantive change determinations must be recorded in Business File according to 3-PL (Rev. 2). Depending on the determination whether the farming operation of JKLH General Partnership met Substantive Change, the determinations for Producer H (within H Farms LLC) must be recorded in Business File as “Eligible” or “Not Eligible” according to 3-PL (Rev. 2).

Example 7 – New Joint Operation Beginning to Farm

Situation:

DEF LLC is comprised of 3 shareholders; Producer D, Producer E, and Producer F all with equal shares of the LLC. The LLC participated in programs subject to payment limitations in the previous year and was eligible for 1 payment limit. In the current year, the producers decide to restructure DEF LLC and create DEF Farms General Partnership. The General Partnership will contain Producers D, Producer E, and Producer F as members with equal shares, and will farm all the land previously farmed by DEF LLC.

129 Examples for Applying Substantive Change (Continued)

C New Joint Operation Beginning to Farm (Continued)

Analysis:

Is there commonality in the 2 farming operations? Yes. DEF Farms GP will operate all the land that was previously farmed by DEF LLC, and all the members of DEF Farms were shareholders of DEF LLC in the previous year.

Is there an increase in limitations from the prior year? No. The members of DEF Farms GP participated in programs subject to payment limitation in a prior year indirectly through DEF Farms LLC.

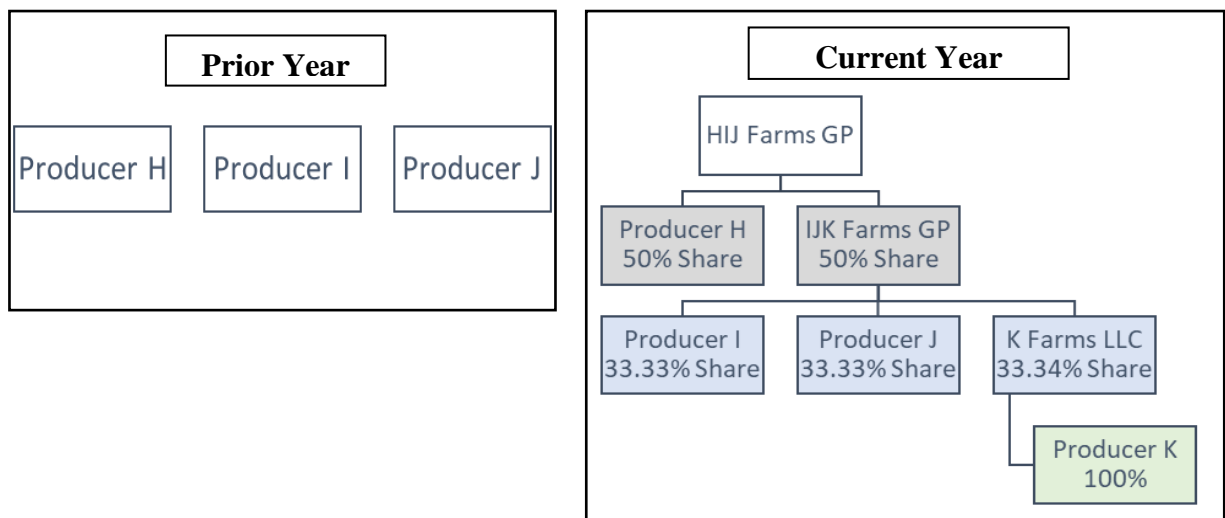

Determination:

Substantive change requirements do not apply.

Example 8 – New Joint Operation Beginning to Farm

Situation:

Producer H, Producer I, and Producer J each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 separate payment limitations. Producers H, I, and J form a new General Partnership, HIJ Farms GP, with Producer H and another new general partnership (IJK Farms GP) as members. IJK Farms GP consists of Producer I, Producer J, and K Farms LLC. Producer K (through K Farms LLC) has never participated in programs subject to payment limitation. HIJ Farms GP, is farming all the land previously farmed by Producer H, Producer I, and Producer J in the prior year.

129 Examples for Applying Substantive Change (Continued)**C New Joint Operation Beginning to Farm (Continued)****Analysis:**

Is there commonality in the 2 farming operations? Yes. HIJ Farms GP is farming land previously farmed by Producers H, I, and J who are also members of the new general partnerships HIJ Farms GP and IJK Farms GP.

Is there an increase in persons to which payment limitation applies from the 3 persons in the prior year? Yes. Some, but not all the persons who are members of the new embedded General Partnership, IJK Farms GP, participated in programs subject to payment limitation in a prior year. Producer K (through K Farms LLC) is an additional person to which payment limitation applies of the embedded GP from the prior year because Producer K (through K Farms LLC) participated in programs subject to limitation in a prior year.

Determination:

Substantive change requirements apply. There is commonality between the 3 producers who participated in programs subject to limitation in a prior year and there is an increase in persons who has not participated in programs subject to payment limitation. Producer K (through K Farms LLC) was added in the current year to the new IJK Farms General Partnership. HIJ Farms GP must have a substantive change to recognize the increase in “persons” to which payment limitation applies.

Result:

Substantive change determinations must be recorded in Business File according to 3-PL (Rev. 2). Depending on the determination whether the farming operation of HIJ Farms General Partnership met Substantive Change, the determinations for Producer K (within K Farms LLC) must be recorded in Business File as “Eligible” or “Not Eligible” according to 3-PL (Rev. 2).

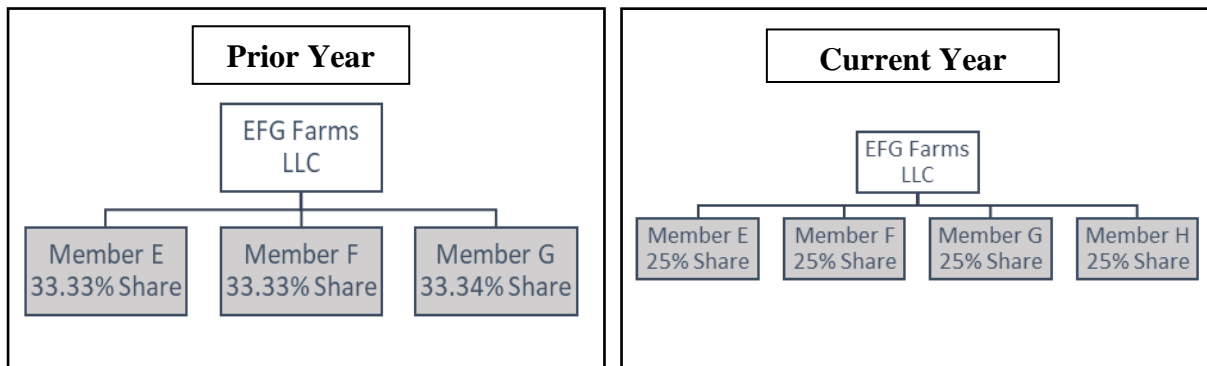

129 Examples for Applying Substantive Change (Continued)

D Existing Legal Entity

Example 9 – Addition of a Stockholder to an Existing Legal Entity

Situation:

EFG LLC is comprised of Member E, Member F, and Member G; all with equal shares of the LLC. The LLC participated in programs subject to payment limitation provisions in the previous year and was eligible for 1 payment limit. In the current year EFG LLC will add Member H to now include 4 members with equal shares within the LLC. Member H has not participated in programs subject to limitation in a prior year. EFG LLC will continue to operate all the farmland it operated in the previous year. None of the members of the EFG Farms LLC has any other farming interests.

Analysis:

Is there commonality in the 2 farming operations? Yes. EFG LLC is farming land previously farmed by the LLC from the prior year and 1 or more members are common to the prior year’s farming operation.

Is there an increase in payment limitations from the 1 limitation in the prior year? No. The addition of stockholder Member H to EFG LLC does not increase the overall persons for payment limitation allowed for the LLC.

Note: If any of the members do have an interest in any other farming operations, then the addition of Member H would be considered an increase in persons to which payment limitation applies.

Determination:

Substantive change requirements do not apply when none of the shareholders have other farming interests. Although there is commonality in the farming operations, the addition of Member H to EFG LLC does not result in an overall increase in the number of persons to which payment limitation applies from the prior year.

129 Examples for Applying Substantive Change (Continued)

E Existing Joint Operation

Example 10 – Changes to an Existing Joint Operation

Situation:

QRS Farms is a general partnership comprised of 3 family members Producer Q, Producer R, and Producer S, all with equal shares of the general partnership. QRS Farms participated in programs subject to payment limitations provisions in a prior year and was eligible for 3 payment limits. In the current year, a fourth member (Member T) is added to the general partnership. Member T has not participated in programs subject to payment limitation in a prior year. The general partnership will contain Member Q, Member R, Member S, and Member T with equal shares, and will farm all the land previously farmed by QRS Farms.

Analysis:

Is there commonality in the 2 farming operations? Yes. QRS Farms is farming all land previously farmed by the general partnership from the prior year and there are members in common between the current year’s farming operation and the prior year’s farming operation.

Is there an increase in persons for payment limitation from the 3 persons in the prior year? Yes. Some, but not all the first level members of the new General Partnership participated in programs subject to payment limitation in a prior year. The addition of Member T is an additional person for payment limitation from the prior year.

Determination:

Substantive change requirements apply to the General Partnership. There is commonality between the prior year’s farming operation and the current year’s farming operation and there is an increase in persons to which payment limitation is applied in the current year.

Result:

Substantive change determinations for Member T must be recorded in Business File as “Eligible” or “Not Eligible” according to 3-PL (Rev. 2).

129 Examples for Applying Substantive Change (Continued)

E Existing Joint Operation (Continued)

Example 11 – Changes Within an Existing Joint Operation

Situation:

QRS Farms is a general partnership comprised of 3 members; Producer Q, Producer R, and Producer S all with equal shares of the general partnership. QRS Farms participated in programs subject to payment limitations provisions in the previous year and was eligible for 3 payment limits. In the current year, a fourth member (Producer P) is added to the general partnership. Producer P participated in programs subject to payment limitation in a prior year. The general partnership will contain Producers Q, Producer R, Producer S, and Producer P with equal shares, and will farm all the land previously farmed by QRS Farms and Producer P.

Analysis:

Is there commonality in the 2 farming operations? Yes. QRS Farms is farming land previously farmed by Producers P, and QRS Farms from the prior year.

Is there an increase in limitations from the 3 persons in the prior year? No. The addition of Producer P in QRS Farms does not represent an increase in persons to which payment limitation applies from the prior year because **all** members participated in programs subject to limitation in a prior year.

Determination:

Substantive change requirements do not apply. There is no overall increase in persons to which payment limitation applies from the prior year.

129 Examples for Applying Substantive Change (Continued)

E Existing Joint Operation (Continued)

Example 12 – Changes Within an Existing Joint Operation

Situation:

QRS Farms is a general partnership comprised of 3 members Producer Q, Producer R, and Producer S, all with equal shares of the general partnership. QRS Farms participated in programs subject to payment limitations provisions in the previous year and was eligible for 3 payment limits. In the current year, the producers decide to form QRS Farms LLC, and add the LLC as a member in the general partnership. Producers Q, R, and S are all equal share members of the newly formed LLC. The general partnership will contain Producers Q, Producer R, Producer S, and QRS Farms LLC with equal shares, and will farm all the land previously farmed by QRS Farms.

Analysis:

Is there commonality in the 2 farming operations? Yes. QRS Farms GP is farming all land previously farmed by the general partnership from the prior year.

Is there an increase in persons to which payment limitation applies from the 3 producers in the prior year? No. The creation of QRS Farms LLC is comprised of stockholders who participate in programs subject to limitation in a prior year. There is no overall increase in persons to which payment limitation applies.

Determination:

Substantive change requirements do not apply. There is no overall increase in persons to which payment limitation applies.

130-140 (Reserved)

Part 4 Payment Eligibility Provisions

Section 1 Actively Engaged in Farming Rules

141 General Considerations

A Introduction

For a person or legal entity to be considered actively engaged in farming, the participant **must** make a significant contribution of certain farming inputs that are commensurate and at risk. This paragraph lists and defines significant contributions.

B General Provisions

In general, for a person or legal entity to be considered actively engaged in farming, **all** the requirements of this table **must** be met.

Item	Requirement
1	Significant “left-hand” contributions to the farming operation of 1 or a combination of the following: <ul style="list-style-type: none"> • capital • equipment • land. <p>Note: See paragraph 202 for an exception applicable to sharecroppers.</p>
2	Significant “right-hand” contributions to the farming operation of 1 or a combination of the following: <ul style="list-style-type: none"> • active personal labor • active personal management. <p>Note: See paragraph 152 for an exception applicable to landowners.</p>
3	A claimed share of the profits or losses from the farming operation that is commensurate with contributions to the farming operation.
4	Contributions that are at risk.

142 Significant Contribution of Capital, Equipment, and Land [7 CFR 1400.3]

A Introduction

When a significant contribution of capital, equipment, or land is required, use the rule in this paragraph to determine what is considered significant.

B Rules for Significant Contributions

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

Item	Rule
Capital	The capital must have a value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total capital necessary to conduct the farming operation, excluding outlays of capital for land or equipment.
Equipment	The equipment must have a rental value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total rental value of the equipment necessary to conduct the farming operation.
Land	The land must have a rental value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total rental value of the land necessary to conduct the farming operation. Note: Share-rented land is a contribution of the landlord, not the share-renter.
Any combination of capital, equipment, and land	The combined contribution of capital, equipment, and land must have a value equal to 30 percent of the person’s or legal entity’s commensurate share of the total value of the farming operation.

Note: If capital does not qualify as a significant contribution, other sources of operating funds must be identified to meet the Rules for Significant Contributions of equipment or land.

143 Custom Services**A Definition of Custom Services**

Custom services mean the hiring of a contractor or vendor that is in the business of providing such specialized services or to perform services for the farming operation in exchange for the payment of a fee for such services performed.

B Applicability

If a person, joint operation, or legal entity receives custom services in the farming operation:

- make actively engaged in farming determinations according to Part 5
- the ability to meet the cash-rent tenant provisions may be adversely affected on land that is cash-rented in the farming operation.

Note: The equipment used to perform the custom services **cannot** be considered a significant contribution of equipment toward meeting the actively engaged in farming requirements because the person, joint operation, or legal entity does **not** exercise complete control over the equipment.

144 Specific Rules for Capital**A Introduction**

For capital to be a significant contribution to the farming operation, the capital contributed **must** meet the requirements of this paragraph.

B Definition of Capital

For payment eligibility purposes, capital means the funding provided by a person or legal entity to the farming operation for the operation to conduct farming activities.

144 Specific Rules for Capital (Continued)**C General Rule**

The capital **must** be contributed directly to the farming operation from a fund or account separate and distinct from that of any other person or legal entity. with an interest in the farming operation.

Capital contributions to a farming operation **do not** include the following:

- the value of labor or management
- outlays for land or equipment.

An example of capital would be the funds used to pay for operating expenses such as seed, chemical, fertilizer, fuel, repairs, etc.

D Source of Capital

The capital may be a direct out-of-pocket input of either of the following:

- a specified sum by the person, legal entity, joint operation, or members of a joint operation
- an amount borrowed by the person or legal entity.

Note: Program payments are **not** considered a capital contribution for purposes of meeting the requirements of actively engaged in farming. The applicant is **not** eligible to receive program payments until **after** the determination of actively engaged in farming is made by COC or reviewing authority.

144 Specific Rules for Capital (Continued)

E Borrowed Capital

Capital used as a significant contribution may be borrowed. The rules in this table apply to borrowed capital.

IF the farming operation is conducted by either of the following...	THEN borrowed capital must...
<ul style="list-style-type: none"> • a person • a joint operation, in which the capital is contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation that has an interest in the farming operation.
<ul style="list-style-type: none"> • a legal entity • a joint operation, in which the capital is contributed by the joint operation rather than by a member 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation that has an interest in the farming operation.

145 Specific Rules for Equipment

A Introduction

To be credited as a significant contribution to the farming operation, owned or leased equipment **must** meet the requirements of this paragraph.

B Definition of Equipment

For payment limitation purposes, equipment means the machinery and implements used by the farming operation to conduct activities of the farming operation. This includes:

- machinery and implements for:
 - land preparation, planting, cultivating, or harvesting of the crops involved
 - establishing and maintaining conservation cover crops or conservation use acreages
 - conducting livestock operations
- irrigation equipment that is:
 - **not** of a permanent nature
 - commonly used in the area.

Custom Services that include equipment must not be considered towards meeting a significant contribution of equipment except as allowed for rules applicable to cash rent tenant rules found in paragraph 165. See paragraph 143 for information on custom services.

C Leased Equipment

COC's must annually establish, by February 1st, the following for leased equipment.

- Customary rental rates for the area. An example of sources used to determine this cost can be found in local University or Extension Service cost publications or from local equipment dealers.
- Payment date that is reasonable and customary for the area, taking in consideration whether the equipment is leased by the hour, day, or acre, or on an annual basis. An example of sources used to determine this date can be found in local University or Extension Service cost publications or from local equipment dealers.

145 Specific Rules for Equipment (Continued)

C Leased Equipment (Continued)

The equipment may be leased from any person, legal entity, or joint operation; however, use the following table to determine whether restrictions apply.

IF the equipment is leased from...	THEN the...
another person, legal entity, or joint operation that has an interest in the farming operation	<p>producer must:</p> <ul style="list-style-type: none"> • be able to prove to COC that the equipment was leased at a fair market value • make the payment within the time determined by COC to be reasonable and customary for the area, taking into consideration whether the equipment is leased by the hour, day, or acre, or on an annual basis.
a joint operation that has 1 or more members in common with the producer to whom the equipment is leased	
a person, legal entity, or joint operation not otherwise indicated in this table	restrictions provided in this table do not apply.

D Financing Rules for Equipment

The restrictions on financing for equipment in this table apply to both owned and leased equipment contributed for credit as a significant contribution.

IF the farming operation is conducted by either of the following...	THEN the equipment must...
<ul style="list-style-type: none"> • a person • a joint operation, in which the equipment is contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation that has an interest in the farming operation.
<ul style="list-style-type: none"> • a legal entity • a joint operation, in which the equipment is contributed by the joint operation rather than by a member 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation that has an interest in the farming operation.

145 Specific Rules for Equipment (Continued)**E Effects of Borrowed Capital on Equipment Contribution**

If any capital was borrowed by the person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, the cash-leased equipment will **not** be considered as a significant contribution unless the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

F Occasional Exchange of Equipment

The occasional exchange of equipment, including labor, with a neighbor will **not** affect the contribution determination if each person or legal entity has adequate equipment, through ownership or lease, to conduct their farming operation in a manner normally acceptable for the area.

146 Specific Rules for Land**A Introduction**

To be considered a significant contribution to the farming operation, owned or cash-leased land **must** meet the requirements of this paragraph.

B Definition of Land

For payment eligibility purposes, land means farmland consisting of cropland, pastureland, wetland, or rangeland that meets the specific requirements of the applicable program.

C Leased Land

COC's must annually establish, by February 1st, the following for leased land.

- Customary rental rates for the area. An example of sources used to determine this cost can be found in local University or Extension Service cost publications and from local equipment dealers.
- Payment date that is reasonable and customary for the area, taking in consideration whether the equipment is leased by the hour, day, or acre, or on an annual basis. An example of sources used to determine this date can be found in local University or Extension Service cost publications and from local equipment dealers.

The land may be leased from any person, legal entity, or joint operation.

If the land is leased from another person, legal entity, or joint operation that has an interest in any crop or crop proceeds in the farming operation, the producer **must**:

- be able to prove to COC that the land was leased at a fair market value
- make the payment within the time determined by COC to be reasonable and customary for the area.

Note: Share-rented land is a contribution of the landlord, **not** the share-renter.

146 Specific Rules for Land (Continued)

D Financing Rules for Land

The restrictions in this table apply to both owned and leased land contributed for credit as a significant contribution.

IF the farming operation is conducted by either of the following...	THEN the land must...
<ul style="list-style-type: none"> • a person • a joint operation, in which the land is contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan (including land acquired by Contract of Deed, Deed of Trust, Land Contract, or other similar arrangement) made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation that has an interest in the farming operation.
<ul style="list-style-type: none"> • a legal entity • a joint operation, in which the land is contributed by the joint operation rather than by a member 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan (including land acquired by Contract of Deed, Deed of Trust, Land Contract, or other similar arrangement) made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation that has an interest in the farming operation.

E Effects of Borrowed Capital on Land Contribution

If any capital was borrowed by a person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, cash-leased land will **not** be considered a significant contribution **unless** the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

147 Significant Contribution of Active Personal Labor or Active Personal Management**A Introduction**

[7 CFR 1400.3] When a significant contribution of active personal labor or active personal management is required, use the rules in this paragraph to determine what is considered significant.

B Definition of Active Personal Labor [7 CFR 1400.3]

Active personal labor means personally providing physical activities necessary in a farming operation. These activities include physical activities:

- involved in land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities
- required to establish and maintain conserving cover crops or conserving use acreages
- required in livestock operations.

C Definition of Active Personal Management [7 CFR 1400.3]

Active personal management means personally providing:

- the general supervision and direction of activities and labor involved in the farming operation
- services, whether formed on-site or off-site, reasonably related and necessary to the farming operation, including any of the following:
 - supervision of activities necessary in the farming operation
 - business-related actions that include discretionary decision making
 - evaluation of the financial condition and needs of the farming operation
 - assistance in structuring or preparing financial reports or analyses for the farming operation

147 **Significant Contribution of Active Personal Labor or Active Personal Management (Continued)**

C Definition of Active Personal Management [7 CFR 1400.3] (Continued)

- consultations in or structuring of business-related financing arrangements for the farming operation
- marketing and promoting agricultural commodities produced by the farming operation
- acquiring technical information used in the farming operation
- any other management functions necessary to conduct the farming operation and for which the operation would ordinarily be charged a fee.

D Rules on Significant Contribution [7 CFR 1400.3]

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

Item	Rule
Active personal labor	The active personal labor must be an amount that is the smaller of: <ul style="list-style-type: none"> • 1,000 hours per either FY or crop year • 50 percent of the total hours that would be required to conduct a farming operation comparable in size to this person’s or legal entity’s commensurate share in the farming operation.
Active personal management	The contribution of active personal management must be critical to the profitability of the farming operation, taking into consideration the person’s or legal entity’s commensurate share in the farming operation.
Any combination of labor and management	Combined contributions of active personal labor and active personal management must have a critical impact on the profitability of the farming operation in an amount at least equal to the significant contribution of either consideration when taken alone.

Note: If a member of a joint operation receives a guaranteed payment for any part of a contribution of labor or management, **exclude** all of the specific types of contributions for which payment is received.

148 Specific Rules for Active Personal Labor or Management**A Introduction**

It is difficult to measure a significant management contribution. The required hours of labor will be different in 1 type of farming operation than another. In some cases, it is difficult to distinguish between labor and management.

B Basis for Decisions

Decisions **must** be based on COC's best judgment considering the following:

- requirements in this section
- intent of significant contribution provisions is to provide program benefits to bona fide farmers, personally providing meaningful inputs on the farm.

Note: COC's are given discretion to make the subjective decisions required.

C Requiring Proof

If necessary, COC may require proof of who provides the following:

- labor equal to 50 percent or more of the person's or legal entity's commensurate share of the labor required

Note: Proof of labor exceeding 1,000 hours is **not** required.

- management equal to 25 percent or more of the persons' or legal entity's commensurate share of management required

Note: Proof of management exceeding 500 hours is **not** required.

- a satisfactory contribution of a combination of labor and management.

149 Inputs for Commensurate Contributions

A Introduction

For a farming input to be considered toward satisfying the requirements of commensurate contributions, the requirements of this paragraph **must** be met.

B Rules for Commensurate Contributions

After the requirements for significant contributions have been met, apply the rules in this table when determining commensurate contributions.

Farming Input	General Rule	Requirements	
<ul style="list-style-type: none"> • Capital • Equipment • Land 	Include if contributed directly to the farming operation by the person or legal entity.	<p>IF the contribution was acquired as a result of a loan to the...</p> <ul style="list-style-type: none"> • farming operation in which the person or legal entity has an interest • person, legal entity, or farming operation: <ul style="list-style-type: none"> • by the farming operation or any of its members, beneficiaries, or related entities • that was guaranteed or secured by the farming operation or any of its members, beneficiaries, or related entities 	<p>THEN the loan must...</p> <ul style="list-style-type: none"> • bear the prevailing interest rate • have a repayment schedule normal for the area.
<ul style="list-style-type: none"> • Labor • Management 	Include all contributions of labor and management, including hired labor and hired management.	<p>If a member of a joint operation receives a guaranteed payment for any part of a labor or management contribution, exclude all of the specific type of contribution for which payment is received.</p> <p>Note: “Draws” or advances for a member that have an effect on the member’s share of the partnership or proceeds of the partnership are not considered a guaranteed payment.</p>	

150 Determining Commensurate Contributions**A Introduction**

Use the guidelines in this paragraph to determine whether contributions are commensurate with claimed ownership shares. COC must follow steps in subparagraph C and D when there are discrepancies found in reported contributions that may impact shares being commensurate for the operation.

B General Rule

Total contributions that are “within reason” of being equal to the claimed share of profits and losses must be considered commensurate.

Note: COC’s must **not** establish a specific tolerance for “within reason.”

C Determining Contributions Using Farming Inputs

Farming inputs provided by each person or legal entity to the farming operation must be used to determine each person’s and legal entity’s contribution. See paragraph 93 for calculating the Total Value of a Farming Operation. Use dollar values for capital and the rental value of the land and equipment. For labor and management, use a dollar value to determine the value of the contribution. Farming inputs may include, but are not limited to:

- rental value of all land in the farming operation
- rental value of all owned and leased equipment used in the farming operation
- chemical and seed
- fertilizer
- fuel and maintenance
- insurance, interest, and miscellaneous
- labor cost
- value of all management contributed to the farming operation.

150 Determining Commensurate Contributions (Continued)

C Determining Contributions Using Farming Inputs (Continued)

COC must establish dollar values and hourly rates based on knowledge of local farming practices and customary rates and values in the area. COC’s may also use university cost publications and local supplier costs. Use the steps in this table to determine each person’s or legal entity’s contributions to a farming operation.

Step	Action
1	Determine the total amount of each farming input needed to conduct the farming operation.
2	Determine the type and amount of farming inputs provided by the person or legal entity that meet the requirements in paragraph 149.
3	Determine the percentage of each input required to conduct the farming operation provided by the person or legal entity.
4	<p>Does the person or legal entity provide the same percentage of all inputs required to conduct the farming operation?</p> <ul style="list-style-type: none"> • If yes, consider the person or legal entity as providing that percentage of the farming inputs required to conduct the farming operation. • If no, determine the value of the inputs provided by the person or legal entity relative to the total amount of farming inputs required to conduct the farming operation.
5	Determine whether the person’s or legal entity’s contributions to the farming operation are commensurate with the person’s or legal entity’s claimed share of the farming operation. See subparagraph D.

150 Determining Commensurate Contributions (Continued)

D Determining Commensurate Shares

Use the steps in this table to determine whether contributions to a farming operation are commensurate with the claimed share of the profits or losses.

Step	Review and Determination
1	<p>Review the person’s or legal entity’s claimed share of the profits or losses of the farming operation.</p> <p>For a joint operation, review the member’s claimed share of the profits or losses of the farming operation.</p>
2	<p>Are the person’s or legal entity’s total contributions to the farming operation commensurate with the claimed share of the profits or losses of the farming operation?</p> <p>For a joint operation, are the member’s total contributions to the farming operation commensurate with the claimed share of the profits or losses of the farming operation? If:</p> <ul style="list-style-type: none"> • yes, go to step 5 • no, go to step 3.
3	<p>Are the contributions by the person or legal entity that COC considers pertinent to the farming operation commensurate with the claimed share of the profits or losses of the farming operation?</p> <p>For a joint operation, are the contributions of the member that COC considers pertinent to the farming operation commensurate with the claimed share of the profits or losses of the farming operation? If:</p> <ul style="list-style-type: none"> • yes, go to step 5 • no, go to step 4.
4	<p>Determine the person or legal entity to be not actively engaged in farming.</p> <p>If a member of a joint operation, then determine the member of the joint operation to be not actively engaged in farming.</p>
5	<p>Determine the person or legal entity to be actively engaged in farming if all other provisions have been satisfied.</p> <p>If a member of a joint operation, then determine the member to be actively engaged in farming if all other provisions have been satisfied.</p>

150 Determining Commensurate Contributions (Continued)

E DD Responsibility

DD is responsible for:

- verifying that no “tolerance” for commensurate contributions is established in any county
- maintaining reasonable uniformity between counties
- ensuring that the integrity of the program is maintained.

151 Determining Contributions at Risk

A Introduction

In addition to other requirements for a person or legal entity to be considered actively engaged in farming, the contributions made by the person or legal entity **must** be at risk.

B General Rule

For a producer’s contribution to be considered at risk, there **must** be a possibility that the producer could suffer loss.

C Specific Rules for at Risk

Apply the rules in this table when determining whether contributions are at risk.

IF producer is a...	THEN the...
person	person’s contributions to the farming operation must be at risk.
joint operation	members’ contributions to the farming operation must be at risk.
legal entity	legal entity’s contributions to the farming operation must be at risk.

152 Landowner Exemption

A Actively Engaged Rule for Landowners [7 CFR 1400.207]

A landowner must be considered actively engaged in farming with respect to the owned land if **all** the following requirements are met.

Item	Requirement
1	The landowner contributes owned land to the farming operation for which the landowner receives rent or income for the use of the land, based on the land’s production or the operation’s operating results.
2	The landowner’s share of the profits or losses from the farming operation is commensurate with the landowner’s contribution to the operation.
3	The landowner’s contributions are at risk.

B Applicability of Rule

This rule applies to landowners who:

- are persons or legal entities, such as corporations, trusts, or estates
- are a revocable trust using the Social Security number of the grantor
- are persons with a life estate in the land
- have an undivided interest in the land, however a cropland factor may apply
- have a divided interest in land, however a cropland factor may apply
- are members of a joint operation if those members own the land and contribute the land to the joint operation without compensation

152 Landowner Exemption (Continued)**B Applicability of Rule (Continued)**

- are members of a joint operation if the joint operation holds title to the land.

Note: This rule applies to joint operations if either of the following apply:

- the members submit documentation to show the title to the land owned by the joint operation will revert to the individual members after dissolution of the joint operation according to each member's share in the joint operation

Note: This requirement is considered met if the documentation provides that upon dissolution of the joint operation, the land will be sold and the proceeds divided according to each member's share in the joint operation.

- if there is no documentation otherwise and the Regional Attorney advises that State law provides that upon dissolution of the joint operation the land will be sold and the proceeds divided according to each member's share in the joint operation.

Note: See paragraph 177 for rules and examples of partial eligibility and computing cropland factor.

153 Landlords**A Actively Engaged Rule for Landlords**

A landlord who is **not** a landowner must be considered to be actively engaged in farming under the same rules as any other person or legal entity that is **not** a landowner.

Notes: If the landlord provides leased or rented land to an operation in return for a share of the crop, the land will be considered a contribution. Other contributions, as applicable, are required.

See paragraph 165 for cash-rent tenant requirements.

153 Landlords (Continued)

B Example 1

Situation: Landowner A cash leases land to Person B. Person B subleases the land to Operator C. Person B contributes land and does **not** contribute a significant amount of active personal labor or active personal management to the farming operation.

Determination: Person B is **not** actively engaged in farming. Person B **cannot** be considered actively engaged in farming because of the landowner provision, since Person B is a landlord and **not** a landowner. Landowner A is **not** actively engaged on this farming operation since cash-rent is received for using the land. A separate determination will be made for Operator C.

C Example 2

Situation: Person D cash leases land from Landowner E. Person D subleases the land to Producer C on a share-rent basis. Person D contributes the land and active personal management to the farming operation.

Determination: Because Person D cash-rents the land from Landowner E, Person D:

- is a cash-rent tenant

Notes: A cash-rent tenant is eligible to receive program payments on the cash-rented land, if the cash-rent tenant provides a significant contribution of either of the following:

- active personal labor and capital, equipment, or land
- active personal management and equipment.

See paragraph 165 for cash-rent tenant requirements.

- is **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

153 Landlords (Continued)**C Example 2 (Continued)**

Because Person D has provided a significant contribution of land and management, Person D can be considered actively engaged in farming. However, Person D is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made. If Producer D has other land in his Farming Operation, it may require the application of a cropland factor which would be applied to all payments including the cash rented farm.

A separate determination will be made for Producer C.

D Actively Engaged in Farming Rule for Hybrid Seed Producers

The existence of a hybrid seed contract for a producer must **not** be taken into account when making an actively engaged in farming determination with respect to the producer. However, all other actively engaged in farming provisions must apply.

154-164 (Reserved)

Section 2 Cash-Rent Tenant Rules

165 Cash-Rent Tenant Rule (7 CFR 1400.214)

A Definition of Cash-Rent Tenant

Cash-rent tenant means a producer who rents land from another producer or landowner under either of the following conditions:

- for a fixed cash amount
- for a fixed quantity of the crop or crop proceeds.

Note: This does not include a share rental arrangement between a landowner, landlord, and tenant.

B Other Situations of Applicability

Cash-rent tenant provisions also apply to:

- tenants who rent land for zero dollars or farm the land in exchange for compensation other than cash, such as:
 - controlling weeds on land **not** owned
 - barter arrangements
- producers who have use of the land and there is **not** a lease agreement in place, such as:
 - individual operating land owned by his or her revocable trust
 - 1 spouse operating land owned by the other spouse.

Notes: In spousal operations, or if the grantor of a revocable trust is operating the land held by the trust, cash-rent tenant provisions will be considered to be met if both benefit from the land.

The revocable trust must be using the Social Security number of the grantor as its TIN.

For these situations:

- record the arrangement in Business File as land leased for cash
- COC must determine whether the cash-rent tenant provisions have been met by the producer.

165 Cash-Rent Tenant Rule (7 CFR 1400.214) (Continued)

C Payment Eligibility Requirements

In addition to meeting the requirements to be considered actively engaged in farming, a cash-rent tenant will be eligible to receive payments on cash-rented land if the cash-rent tenant makes either of the following:

- a significant contribution of active personal labor to the farming operation
- a significant contribution of owned or leased equipment **and** a significant contribution of active personal management to the farming operation.

Note: The spousal provision in paragraph 189 for determining actively engaged in farming can also be used by spouses in meeting these requirements.

D Partial Eligibility

If a producer meets all requirements to be considered actively engaged in farming, but fails to meet the cash-rent tenant provisions in subparagraph C, the producer will be:

- eligible to receive payments on land in the farming operation that is **not** cash-rented
- subject to a reduction in payments with the application of a cropland factor according to paragraph 177.

165 Cash-Rent Tenant Rule (7 CFR 1400.214) (Continued)

E Specific Rules for Equipment

Use the rules in this table if a significant contribution of equipment is necessary to meet the requirements of the cash-rent tenant rule.

IF the cash-rent tenant...	THEN...
provides the harvesting equipment	the rental value of harvesting equipment is included when determining whether a significant contribution of equipment is met.
meets both of the following requirements: <ul style="list-style-type: none"> • custom harvesting is used in the cash-rent tenant’s farming operation • the custom harvester has no interest in the farming operation 	the rental value of harvesting equipment is not included when determining whether a significant contribution of equipment is met. <p>Note: The rental value of harvesting equipment would still be considered in making actively engaged in farming determinations.</p> <p>Example: Person A, a cash-rent tenant, owns or leases all equipment for the farming operation except equipment needed for harvesting. Harvesting is custom hired. The custom harvester has no interest in the farming operation.</p> <p>The rental value of harvesting equipment must not be included in determining the total rental value of equipment needed to conduct the farming operation for cash-rent tenant rule purposes.</p>
leases the equipment from the landlord	the lease and payment must meet the requirements of subparagraph 145 C.
leases the equipment from the landlord, or the same person or legal entity that is providing hired labor to the farming operation	both of the following conditions must be met: <ul style="list-style-type: none"> • contracts for leasing the equipment and the hired labor must be 2 separate contracts that reflect the fair market value of the leased equipment and the hired labor • cash-rent tenant must exercise complete control over using a significant amount of the equipment during the current crop year. <p>Note: <u>Complete control</u> means exclusive access and use by the tenant.</p>

166 Cash-Rent Tenant Example**A Example 1**

Situation: Person A cash leases land from Landowner B. Person A subleases the land to Producer C on a share-rent basis. Person A contributes the land and active personal management to the farming operation.

Determination: Because Person A cash-rents the land from Landowner B, Person A is:

- a cash-rent tenant
- **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

Because Person A has provided a significant contribution of land and management, Person A can be considered actively engaged in farming. However, Person A is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made.

A separate determination will be made for Producer C.

Explanation: Landowner B is **not** considered to be actively engaged in farming for this farming operation, but may be considered actively engaged in farming for another farming operation.

B Example 2

Situation: A joint operation consists of Persons A, B, C, and D; all with equal shares. All land is cash-rented by the joint operation. Members A and B provide all the equipment, Members C and D provide all the capital, all necessary labor is hired by the joint operation, and active personal management is provided equally by the members.

Determination: Only Members A and B meet the cash-rent tenant rule requirements because they provide management and equipment. Therefore, payment to the joint operation is limited to the amount represented by the shares held by Members A and B.

Explanation: Since all labor is hired by the joint operation, significant contributions of both equipment and active personal management are **required**. Members C and D do **not** provide any contributions of equipment and; therefore, do **not** meet the requirements of the cash-rent tenant rule required for payment eligibility.

166 Cash-Rent Tenant Example (Continued)

C Example 3

Situation: Same as Example 2, **except** the joint operation provides all capital, equipment, and hired labor. Active personal management is equally provided by the members.

Determination: All members meet the cash-rent tenant rule requirement.

Explanation: Since all labor is hired by the joint operation, significant contributions of **both** equipment and active personal management of the members are required. A significant equipment contribution was provided by the joint operation and active personal management was provided by the members.

D Example 4

Situation: Same as Example 3, **except** the joint operation has all of the land custom farmed by unrelated persons and legal entities.

Determination: All members are ineligible for payment on the land cash-rented by the joint operation.

Explanation: Significant active personal labor contributions by the members, or a significant equipment and active personal management contribution, were **not** provided to the operation as required for payment eligibility.

166 Cash-Rent Tenant Example (Continued)**E Example 5**

Situation: A local Future Farmers of America chapter requests program payments on land that is cash-rented from an unrelated party. The chapter members are providing active personal labor and active personal management to the farming operation.

Determination: The National Future Farmers of America is a Federally chartered corporation with its purpose to create, foster, and assist subsidiary chapters composed of students enrolled in vocational agriculture in public schools. The corporation may **not** issue stock, or declare or pay any dividend.

All partners, stockholders, or members with an ownership interest are providing active personal labor, active personal management, or a combination of active personal labor and active personal management (7 CFR 1400.204).

Even though the chapter members may be providing active personal labor and/or active personal management, they do **not** have the **required** ownership interest in the corporation. Consequently, Future Farmers of America chapters **cannot** be considered to have met the cash-rent tenant rule requirements on the rented land.

F Example 6

Situation: Person A cash leases land from Landowner B. Person A custom hires the planting and harvesting on the cash leased farm. Person A has a livestock operation where a significant contribution of active personal labor is provided. Person A contributes the land, active personal labor, and management.

Determination: Because Person A cash-rents the land from Landowner B, Person A is:

- a cash-rent tenant
- not the landowner and cannot be considered actively engaged in farming using the landowner provision.

Because Person A provides a significant contribution of active personal labor in his farming operation which meets the Cash Rent Tenant Provisions. Person A is also eligible to receive program payments on the cash-rented land, because the necessary contribution of labor was met through labor contributed to the livestock operation.

167-176 (Reserved)

Section 3 Partial Eligibility for Actively Engaged in Farming and Cash-Rent Tenant Rules

177 Percent of Cropland Factor

A Introduction

In some cases, producers may only be partially eligible under “Actively Engaged in Farming” or “Cash Rent Tenant” rules on a portion of the effective DCP cropland in the farming operation. Therefore, FSA must determine the percentage of the farming operation that is eligible for payment. This is determined based on the percent of effective DCP cropland.

B When to Use the Percent of Cropland Factor

Use the percent of cropland factor when a producer:

- does **not** provide a significant contribution of active personal labor or active personal management to the entire farming operation
- is actively engaged in farming and eligible for payment on a portion of the land in the farming operation because of the landowner provision
- is a cash-rent tenant and is **ineligible** for payment for the cash-rented land.

Note: The automated system does **not** handle cases where the producer is actively engaged on some, but **not** all farming operations.

C Applying the Percent of Cropland Factor

The cropland factor **only** applies to programs subject to the actively engaged in farming requirements and the cash-rent rule.

For joint operations, the cropland factor will generally be recorded at the joint operation level (and not at the member level), except in the following situations:

- when the farming operation is a Joint Venture without a tax ID
- when members have different cropland factors computed based on contributions in the farming operation or other farming interests.

See 9-CM for additional information about payment processes and how the cropland factor is applied.

177 Percent of Cropland Factor (Continued)

D Determining the Factor

Determine a percent of cropland factor according to this table.

Step	Action
1	List the total effective DCP cropland acres for all land in which the producer has a farming interest, regardless of share, and total the acres.
2	List the effective DCP cropland acres in which the producer is considered eligible on all land, regardless of share, and total the acres.
3	Divide the result of step 2 by the result of step 1.
4	Enter the result of step 3 in the cropland factor value in subsidiary for the producer, according to 3-PL (Rev. 2). This will result in a reduction in payments on all farms, including farms in other farming operations in which the producer has a farming interest, that are subject to Actively Engaged and Cash Rent Tenant Provisions.

E Example 1

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation and provides no active personal labor or active personal management.

<p>Farm 20 Tract 1 - 100 acres Effective DCP Cropland Acres Operator - Sam Brown Owner - Sam Brown Rental - N/A</p>
<p>Farm 20 Tract 2 - 100 acres Effective DCP Cropland Acres Operator - Sam Brown Owner - Pete Smith Rental - Cash lease</p>

Result: The farming operation for Sam Brown is the entire acreage on Farm 20 (200 acres effective DCP cropland acres).

Because Sam Brown does **not** provide a significant “right-hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

177 Percent of Cropland Factor (Continued)**E Example 1 (Continued)**

Sam Brown owns 50 percent of the cropland in his farming operation (100 acres effective DCP cropland acres). Therefore, payments to Sam Brown would be subject to a 50 percent of cropland factor.

Calculation: 100 effective DCP cropland acres owned /200 effective DCP cropland acres in the farming operation equals .5000.

F Example 2

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation and contributes no active personal labor or active personal management.

<p>Farm 23 100 Effective DCP Cropland Acres Operator - Sam Brown Owners - Sam Brown and Pete Smith (undivided joint interest) Rental - Cash lease</p>

Result: Because Sam Brown does **not** provide a significant “right-hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Because Sam Brown and Pete Smith receive cash-rent for their contribution of land, landowner exemption does not apply.

177 Percent of Cropland Factor (Continued)

G Example 3

In this example, Sam Brown and Pete Smith each have a 50 percent share in the partnership. The partnership does **not** have any other farming interests. The general partnership is identified by an EIN. Sam Brown shares in the pro rata share of all crops, regardless of where the crops are planted. The partnership agreement stipulates that upon dissolution, the land ownership will revert to the members according to their current shares of the partnership. The partnership hires all labor and management necessary to conduct the farming operation, therefore no active personal labor or active personal management is being provided by the members.

Note: Determinations for Actively Engaged and Cash Rent provisions for Joint Operations are recorded in subsidiary at the member level rather than the Joint Operation itself. The Cropland Factor may be recorded for the Joint Operation, at the Member level, or both in subsidiary dependent on determinations made and interest in other farming operations.

<p>Farm 24 Tract 1 – 100 Acres of Effective DCP Cropland Operator - Brown and Smith, a general partnership Owner - Sam Brown Rental - .3333 crop share</p>
<p>Farm 24 Tract 2 - 100 Acres of Effective DCP Cropland Owner - Brown and Smith, a general partnership Rental - N/A</p>

Result: The partnership’s farming operation is the entire acreage in FSN 24, and would be represented on CCC-902 for the general partnership.

Sam Brown’s farming operation is the acreage in Tract 1, and would be represented on CCC-902 for the individual.

Because the members of the partnership do **not** provide a significant “right-hand” contribution to the farming operation, the members of the partnership are only considered to be actively engaged in farming under the landowner exemption for that portion of their farming operation represented by owned land. Therefore, a 50 percent of cropland factor would apply to payments made to the partnership. The cropland factor of .5000 will be loaded in subsidiary at the partnership level.

177 Percent of Cropland Factor (Continued)

G Example 3 (Continued)

Although Sam Brown is the owner of Tract 1 and also a member of the General Partnership he is not contributing the land to the Partnership but rather is taking a landowner share as an individual. As a result, the landowner provision cannot be used for Actively Engaged for his share of the Partnership in the partnership’s determination.

A percent of cropland factor of 1.000 would apply to Sam Brown as an individual since he is considered to be actively engaged in farming on his entire farming operation which is separate from the partnership. The cropland factor is defaulted to 1.000 in subsidiary.

H Example 4 – Joint Venture Without an EIN

In this example, Sam Brown and Pete Smith each have a 50 percent share in the Joint Venture. The Joint Venture does **not** have any other farming interests. The Joint Venture is **not** identified by an EIN. Sam Brown shares in the pro rata share of all crops, regardless of where the crops are planted. The members hire all labor and management necessary to conduct the farming operation, therefore no active personal labor or active personal management is being provided by the members.

Note: Determinations for Actively Engaged and Cash Rent provisions for Joint Operations are recorded in subsidiary at the member level rather than the Joint Operation itself. The Cropland Factor must be recorded at the Member level for Joint Operations that are not identified by an EIN.

<p>Farm 24 Tract 1 – 100 Acres of Effective DCP Cropland Operator - Brown and Smith, a Joint Venture Owner - Sam Brown Rental - .3333 crop share</p>
<p>Farm 24 Tract 2 - 100 Acres of Effective DCP Cropland Owner - Sam Brown and Pete Smith, undivided interest Rental – Contributed to Joint Venture without Compensation</p>

Result: The Joint Operation’s farming operation is the entire acreage in FSN 24, and would be represented on CCC-902 for the joint operation.

Sam Brown’s farming operation is the acreage in Tract 1, and would be represented on CCC-902 for the individual.

177 **Percent of Cropland Factor (Continued)**

H Example 4 – Joint Venture Without an EIN (Continued)

Because the members of the Joint Venture do **not** provide a significant “right-hand” contribution to the farming operation, the members of the Joint Venture are only considered to be actively engaged in farming under the landowner exemption for that portion of their farming operation represented by land owned as individuals, with an undivided interest and contributed to the Joint Venture without compensation. Therefore, a 50 percent cropland factor would apply to Pete Smith. The cropland factor of .5000 will be loaded in subsidiary in the individual’s eligibility record.

Sam Brown will also have a cropland factor applied. However, Sam Brown will be eligible on Tract 2, 100 acres and Tract 1, 33.33 acres. The total eligible acres 133.33/200 total acres in the farming operation results in a cropland factor of .665. The cropland factor of .665 will be loaded in subsidiary in the individual’s eligibility record.

Although Sam Brown is the owner of Tract 1 and also a member of the Joint Venture, he is not contributing the land, Tract 1, to the Joint Venture but is taking a landowner share as an individual. As a result, the landowner provision cannot be used to qualify him as Actively Engaged for his interest in the Joint Venture.

I Example 5

This example is similar to Example 3, except Farm 26 is owned by the individual members of the Partnership with an undivided interest in the land. In this example, Sam Brown and Pete Smith are members of Brown and Smith Partnership. Neither the partnership nor the members have any other farming interests. The partnership hires all labor and management necessary to conduct the farming operation and the members do not contribute any active personal labor or active personal management.

Farm 25
100 acres of Effective DCP Cropland
 Operator - Brown and Smith, a general partnership
 Owner - Sam Brown
 Rental - .3333 crop share

Farm 26
100 acres of Effective DCP Cropland
 Operator - Brown and Smith, a general partnership
 Owner – Sam Brown and Pete Smith as individuals- Undivided
 Rental - N/A- land contributed to the partnership by the individuals without compensation

177 Percent of Cropland Factor (Continued)

I Example 5 (Continued)

Result: The partnership's farming operation is the entire acreage in FSN 25 and 26, and would be represented on CCC-902 for the general partnership.

Sam Brown's farming operation is the acreage in FSN 25 and would be represented on CCC-902 for the individual.

Because the members of the partnership do **not** provide a significant "right-hand" contribution to the farming operation, each member of the partnership is only considered to be actively engaged in farming under the landowner exemption for that portion of land in which each owns and is contributed to the farming operation without compensation.

Each member owns (undivided) 50 percent of the cropland in the partnership's farming operation. The members of the partnership are actively engaged in farming on 50 percent of all the land in the partnership's farming operation. A cropland factor of .5000 would be entered at the Partnership level in subsidiary and would reduce the payments issued to the Partnership.

Sam Brown, as individual landowner of Farm 25, is considered actively engaged in farming under the landowner exception. This is 100 percent of Sam Brown's individual farming operation. Sam Brown's interest in the partnership is a separate farming operation.

Although Sam Brown is the owner of Farm 25 and also a member of the General Partnership he is not contributing the land to the Partnership but rather is taking a landowner share as an individual. As a result, the landowner provision cannot be used for Actively Engaged for his share of the Partnership in the partnership's determination.

A percent of cropland factor of 1.000 would apply to Sam Brown as an individual since he is considered to be actively engaged in farming on his entire farming operation which is separate from the partnership. The cropland factor is defaulted to 1.000 in subsidiary.

177 Percent of Cropland Factor (Continued)

J Example 6

In this example Farm 25 is owned by Sam Brown who contributes the land to the farming operation of the partnership without compensation. Farm 26 is owned by the individual members of the Partnership with an undivided interest in the land and is also contributed to the partnership. In this example, Sam Brown and Pete Smith are members of Brown and Smith Partnership. Neither the partnership nor the members have any other farming interests. The partnership hires all labor and management necessary to conduct the farming operation and the members do not contribute active personal labor or active personal management.

<p>Farm 25 100 acres of Effective DCP Cropland Operator - Brown and Smith, a general partnership Owner - Sam Brown Rental - .N/A land contributed directly to the Partnership by Sam Brown without compensation</p>

<p>Farm 26 100 acres of Effective DCP Cropland Operator - Brown and Smith, a general partnership Owner – Sam Brown and Pete Smith as individuals- Undivided Rental - N/A- land contributed to the partnership by the individuals without compensation</p>

Result: The partnership’s farming operation consists of Farms 25 and 26. Because neither member of the partnership provides significant “right-hand” contribution to the farming operation, the members of the partnership must **not** be considered actively engaged in farming.

However, the members of the partnership, as individual landowners of Farm 26, are considered actively engaged in farming under the landowner exception, contributing the land to the partnership without compensation.

Sam Brown, as individual landowner of Farm 25 contributes that ground to the farming operation of the Partnership without compensation and as a result also meets the landowner provision on that portion of the partnerships farming operation.

Sam Brown will be eligible on all land in the farming operation, using landowner exemption.

Pete Smith is partially eligible in the farming operation through his undivided ownership interest on Farm 26.

177 Percent of Cropland Factor (Continued)

J Example 6 (Continued)

Each member of the partnership will have a different cropland factor. The factor will not be entered at the Partnership level, but rather at the individual member level. Sam Brown’s cropland factor will be 1.000 and Pete Smith’s will be .5000.

Note: In this example member shares need to be evaluated to determine if shares are commensurate with contributions.

K Example 7

In this example, Brown, Smith, Black, and Jones Partnership is made up of the 4 individual landowners. The partnership and the members of the partnership do **not** have any other farming interests. Each farm is of equal size and value. The contributions of each partner are commensurate and at risk. Each landowner contributes their land to the partnership, so no rent will be paid. All payments go to the partnership.

The partnership hires all labor and management necessary to conduct the farming operation.

Farm 27
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Sam Brown
 Rental – contributed to the GP without compensation

Farm 28
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Pete Smith
 Rental - contributed to the GP without compensation

Farm 29
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Henry Black
 Rental - contributed to the GP without compensation

Farm 30
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Bill Jones
 Rental - contributed to the GP without compensation

177 Percent of Cropland Factor (Continued)

K Example 7 (Continued)

Result: The farming operation for the partnership consists of all the acreage in Farms 27, 28, 29, and 30. Because the members do **not** provide “right-hand” contributions, the members of the partnership are **not** actively engaged in farming. However, each person is actively engaged in farming with respect to the actual land owned under the landowner exception.

Because the members of the partnership are **not** actively engaged in farming on the entire farming operation, only that portion earned with respect to the owned land may be paid. The percent of cropland owned by each owner is 25 percent. Accordingly, a 25 percent of cropland factor would be applied to the partnership’s payment on each farm.

L Example 8

In this example, Brown, Smith, Black, and Jones Partnership is made up of the 4 individual landowners. The partnership and the members of the partnership do **not** have any other farming interests. Each farm is of equal size and value. The contributions of each partner are commensurate and at risk. Each landowner contributes their land to the partnership, so no rent will be paid. All payments go to the partnership.

Partner Pete Smith provides 1000 hours of active personal labor. No other member has significant contributions of active personal labor or active personal management.

Farm 27
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Sam Brown
 Rental - contributed to the GP without compensation

Farm 28
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Pete Smith
 Rental - contributed to the GP without compensation

Farm 29
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Henry Black
 Rental - contributed to the GP without compensation

Farm 30
100 acres of Effective DCP Cropland
 Operator - Brown, Smith, Black, and Jones, a general partnership
 Owner - Bill Jones
 Rental - contributed to the GP without compensation

177 Percent of Cropland Factor (Continued)**L Example 8 (Continued)**

Result: The farming operation for the partnership consists of all the acreage in Farms 27, 28, 29, and 30. Only Pete Smith provides a significant “right hand” contribution and meets actively engaged in farming requirements on all the land in the farming operation. Because the other members do **not** provide “right-hand” contributions, those members are **not** actively engaged in farming. However, each member is actively engaged in farming with respect to the actual land owned and contributed to the farming operation using the landowner exception.

Pete Smith is determined Actively Engaged and is eligible to receive his full share of the Partnership payment. Sam Brown, Henry Black, and Bill Jones are only eligible on the land that they own and contribute to the Partnership. Because the members of the partnership have differing cropland percentages the cropland factor must not be set at the partnership level. The cropland factor for the Partnership is 1.000. Pete Smith who is fully Actively Engaged also has a cropland factor of 1.000. The cropland factor for Sam Brown, Henry Black, and Bill Jones will be .2500 based on the percentage of land that they own.

Part 5 Actively Engaged in Farming Determinations for Farming Operations

Section 1 Rules for Spouses and Minor Children

189 Determinations for Spouses and Minor Children

A Actively Engaged in Farming Rule for Spouses (7 CFR 1400.202)

Use this table for actively engaged in farming determinations involving spouses.

IF the spouses are both...	THEN...
farming together: <ul style="list-style-type: none"> • in a joint operation • as an entity 	if 1 spouse is determined actively engaged in farming, the other is credited with significant contributions of active personal labor and active personal management to the same farming operation. The requirements of significant contributions of capital, land, or equipment, commensurate share, and risk remain applicable. <p>Note: This also includes the spouse’s estate.</p>
involved in separate farming operations	each spouse must independently meet all applicable requirements to be considered actively engaged in farming.

B Determinations for Spouses Example 1

Situation: Spouse A and Spouse B have a joint farming operation comprised of 500 acres of rented land. In addition, Spouse B has 100 percent interest in Corporation X that is participating in CRP and earning annual payments.

- Spouse A and Spouse B jointly own all the equipment and provide all the capital for their farming operation.
- Spouse A contributes at least 50 percent of the active personal labor and a significant contribution of active personal management for the joint farming operation. Spouse B does **not** provide active personal labor or active personal management.
- Spouse A’s and Spouse B’s share of the profits or losses from the farming operation are commensurate with their contributions and the contributions are at risk.

Determination: Spouse A is considered to be actively engaged in farming because he or she is making both a left-hand and right-hand contribution. Spouse B is also making a left-hand contribution, but is not making a right-hand contribution. However, by using the actively engaged rule for spouses, Spouse B is credited with contributing labor and management; therefore, Spouse B is considered to be actively engaged. Spouse A and Spouse B are each eligible to receive their respective share of the total program payments and benefits received by the joint operation and subject to limitation. Any contributions necessary for payment eligibility credited to Spouse B are **only** applicable to the joint operation and do **not** apply to the Corporation X farming operation.

189 Determinations for Spouses and Minor Children (Continued)**C Determinations for Spouses Example 2**

Situation: Spouse M and Spouse N have a joint farming operation comprised of 700 acres of owned and cash-rented land. Spouse N is an heir to the estate of his or her father who died in the previous year. Spouse N is a full-time employee at the local FSA office.

- Spouse M and Spouse N jointly own all of the equipment and provide all of the capital necessary for the farming operation.
- Spouse M contributes the majority of the active personal labor and the active personal management for the farming operation.
- Spouse N contributes active personal labor and active personal management, whenever able, to the farming operation, but the amount is **not** commensurate with his or her share.
- The estate owns land, of which Spouse N is an heir, and meets the requirements to be considered actively engaged in farming under the landowner provision.
- Spouse M's and Spouse N's share of the profits or losses from the farming operation are commensurate with their contributions to the farming operation and the contributions are at risk.

Determination: Spouse M, Spouse N, and the estate are all considered actively engaged in farming. Through the special provision for spouses, Spouse N is credited as making significant contributions of active personal labor and/or active personal management to the farming operation since Spouse M is considered to have met the requirement of actively engaged in farming. Both Spouse M and Spouse N made significant contributions of capital and equipment, and consequently, both met the requirements of the cash-rent tenant rule as well. In addition to his or her share of the program payments received through this joint farming operation, Spouse N will also be attributed payments earned by his or her father's estate according to his or her share held as an heir.

D Determinations for Minor Children

To meet actively engaged in farming and cash rent tenant provisions, the minor child must make the required significant contributions that are commensurate with the minor's claimed share and those contributions must be at risk.

190-199 (Reserved)

Section 2 Persons

200 Actively Engaged in Farming Determinations

A Rule [7 CFR 1400.202]

A person must be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The person makes a significant contribution to the farming operation of both of the following: <ul style="list-style-type: none"> • capital, equipment, land, or a combination thereof • active personal labor, active personal management, or a combination thereof.
2	The person's share of the profits or losses from the farming operation is commensurate with the person's contribution to the farming operation.
3	The person's contributions are at risk.

Note: Landowners will be considered Actively Engaged in Farming on owned land according to paragraph 152 even though the above contributions are not being made. Cropland factors may apply.

B Other Participants Who Use This Rule

This rule also applies to a person who is a:

- partner in a general partnership
- member in a joint venture.

201 Military Personnel

A Rule [7 CFR 1400.213]

COC may determine a person who is called to active duty in the military during the program year actively engaged in farming according to this table.

IF the person is called to active duty in the military...	THEN COC...
before the determination is made	must determine that the person was making a conscious effort to be, and would have been determined to be, actively engaged in farming and meet cash rent tenant provisions if not for being called to active duty in the military.
after the determination is made	must allow the determination to be in effect for the program year.

Note: These provisions must apply, for the current year and through the year, in which the person returns from active duty.

202 Sharecroppers

A Rule [7 CFR 1400.209]

A sharecropper must be considered actively engaged in farming if **all** the requirements in this table are met.

Item	Requirement
1	The sharecropper makes a significant contribution of active personal labor to the farming operation for which the sharecropper receives a specified share of the crop produced on the farm.
2	The sharecropper’s share of the profits or losses from the farming operation is commensurate with the contribution to the operation.
3	The sharecropper’s contributions are at risk.

Note: To be considered actively engaged in farming under this provision, the person may:

- **not** receive wages for labor and be considered a sharecropper for this purpose
- be provided housing and “draw” cash advances to be deducted later from proceeds of the crop.

202 Sharecroppers (Continued)

B Example

Situation: Person Y provides labor for Landowner Z on 500 acres of rice in exchange for a share of the crop. Person Y **only** contributes active personal labor to the farming operation and receives a cash advance that will be set off from the proceeds of the crop after harvest. Landowner Z provides Person Y with housing.

Determination: Person Y is considered to be actively engaged in farming since Person Y is a sharecropper and the requirements in subparagraph A are met. Landowner Z is considered to be actively engaged in farming since Landowner Z is a landowner.

203 Deceased and Incapacitated Persons

A Introduction

This paragraph describes the requirements for a person who dies or becomes incapacitated during the program year to be determined actively engaged in farming.

B Rule [7 CFR 1400.210]

COC may determine a person who dies or becomes incapacitated during the program year actively engaged in farming according to this table.

IF the person dies or becomes incapacitated...	THEN COC...
before the determination is made	must determine that the person would have been determined to be actively engaged in farming and meet cash rent tenant provisions, if not for the person's death or incapacitation.
after the determination is made	must allow the determination to be in effect for the program year.

Notes: This rule is also applicable to an entity if COC determines that the person who died or who became incapacitated would have qualified the legal entity as actively engaged in farming and cash rent tenant provisions.

The following year, the person, person's estate, or legal entity, as applicable, **must** meet all the necessary requirements to be actively engaged in farming and cash rent tenant provisions for that year.

204 Case Examples**A Example 1**

Situation: Person Z rents 1,500 acres of land on a share-rent basis. Person Z owns the equipment and contributes at least 50 percent of the commensurate share of active personal labor and contributes 100 percent of the farming operation's management. In this situation, Person Z's share of the profits or losses from the farming operation is commensurate with Person Z's contributions to the operation and the contributions are at risk.

Determination: Person Z is considered to be actively engaged in farming.

B Example 2

Situation: Person A rents land on a share-rent basis. Person A contributes a significant amount of leased equipment and a significant amount of active personal management to the farming operation. Capital is borrowed from another producer on the farm at the prevailing interest rate. The labor needed for Person A's farming operation is hired. Person A's share of the profits or losses from the farming operation is commensurate with Person A's contribution to the operation and the contributions are at risk.

Determination: Person A is considered to be actively engaged in farming since Person A contributes a significant amount of both equipment and active personal management. A contribution of capital, equipment, or land is used to meet the significant contribution.

Section 3 Joint Operations

220 Joint Operations, General Partnerships, and Joint Ventures

A Definition of Joint Operation [7 CFR 1400.3]

Joint operation means a general partnership or joint venture, whose members are jointly and severally liable for the obligations of the organization, in which 2 or more individuals or entities pool their resources, such as land, labor, capital, management, and equipment, to conduct the farming operation for a common purpose, sharing the profits and losses.

B Definition of General Partnership

General partnership means:

- comprised of 2 or more persons or legal entities
- formed under State law
- subject to the terms of a formalized agreement
- identified with EIN.

In a general partnership:

- the members combine assets or the partnership may acquire property and assets
- single or multiple business enterprises are conducted by the partnership that are separate and apart from any business enterprises of the individual members
- all members are held jointly and severally liable for obligations incurred by the partnership
- each member shares in the profits and losses.

C Definition of Joint Venture

Joint venture means an association of persons or legal entities, where the association exists without an actual partnership or corporate designation.

In a joint venture:

- the members combine their property, money, effects, skills, and knowledge
- a single business enterprise is conducted
- each member intends to derive a share or benefit
- each member sustains a mutual responsibility.

Note: See paragraph 91 for examples of recognized joint operations that are considered a farming operation.

220 Joint Operations, General Partnerships, and Joint Ventures (Continued)

D Comparison of General Partnerships and Joint Ventures

This table provides a comparison of general partnerships and joint ventures.

Inputs and Characteristics	General Partnership	Joint Venture
Capital	Contributed by the partnership	Contributed by each member
Land		
Equipment		
Labor (both active personal and hired labor)	Contributed by the members or the partnership	
Management	Contributed by the members	
EIN	Yes	Optional
Separate Bank Account	Yes	No
Risk and Liability	Joint and several liability	Joint and several liability
Members Share in the Profits and Losses	Yes	Yes
Longevity	Long term	Short term
Written Agreement	Yes	Optional
Business Activities	Wide range of projects and purposes with a common goal of the members	Limited to a specific project or purpose and common goal of the members

E Examples of Individual Operations and Joint Operations

Example 1: Tom cash leases 400 acres and his brother, John, has all of the equipment used in the operation. Tom pays the cash lease, but they share in all other input costs. The crop is shared 60/40 percent. Both have a risk and share in the profits and losses in the farming operation.

The joint venture of Tom and John is recorded on CCC-902E.

Example 2: Jill cash leases 160 acres and plants the crop. Her brother, Jack, does all the spraying and harvesting in exchange for planting and trucking that Jill performs on land that Jack owns. Jack has no investment, interest, or risk in the growing crop and will **not** share in the profits or losses on the 160 acres that Jill leases.

Jack and Jill each have their own separate farming operations. Jack and Jill each complete CCC-902I.

220 Joint Operations, General Partnerships, and Joint Ventures (Continued)**E Examples of Individual Operations and Joint Operations (Continued)**

Example 3: AB Corporation and CD Corporation cash rent 500 acres of land. AB Inc. pays the rent on 200 acres (40 percent of the land) and CD Inc. pays the rent on the balance (60 percent or 300 acres). Each corporation has separate financing and a separate line of equipment. Each corporation keeps track of the equipment use and expenses on this property. The crop production from the 500 acres is shared 60/40 percent. Both corporations are at risk and share in the profits and losses from the operation of this rented land.

The joint venture of these 2 corporations is recorded on CCC-902E.

Example 4: Larry and Daryl each have their own farming operations and occasionally perform field work for the other. Although they also own a tractor and cotton stripper together, each has their own accounts, equipment, and financing. Each is at risk, but crops and expenses are **not** shared on any land operated by either of them.

Larry and Daryl each have their own separate farming operations. Larry and Daryl each complete CCC-902I.

Example 5: Joe is the tenant on Dave's farm with each sharing in the crop production. Joe provides the equipment, performs all of the labor and field work necessary, and delivers Dave's share of the crop production to a local grain elevator. Dave's share of the crop is in exchange for the rent of the land. While Joe and Dave share in the crop production and each has a risk, their risk is **not** mutually shared.

Joe and Dave each have their own separate farming operations. Joe completes CCC-902I and Dave completes CCC-902I Short Form.

221 Eligibility Determinations

A Rule [7 CFR 1400.203]

Each member who shares in the income from a joint operation **must** be determined to be actively engaged in farming for the joint operation to be fully eligible for payment.

Members of a joint operation can be determined actively engaged in farming by meeting **all** of the requirements in this table.

Item	Requirement
1	Contributions to the farming operation of both of the following are made: <ul style="list-style-type: none"> • the member or joint operation makes a significant contribution of capital, equipment, or land, or a combination thereof • each member makes a significant contribution of active personal labor or active personal management, or a combination thereof, that are: <ul style="list-style-type: none"> • performed on a regular basis • identifiable and documentable • separate and distinct from contributions of any other member. <p>Note: See paragraph 189 for exceptions for spouses.</p>
2	The member must provide satisfactory evidence that the contributions of land, labor, management, equipment, or capital to the joint operation are commensurate with the member’s claimed share of the profits or losses of the joint operation.
3	The member’s contributions to the farming operation are at risk.

Note: Landowners will be considered Actively Engaged in Farming on owned land according to paragraph 152 even though the above contributions are not being made. Cropland factors may apply.

B Separate and Distinct Contribution of Labor

If a member provides active personal labor to the joint operation’s farming operation that is performed on a regular basis, and that is identifiable and documentable, the member will be considered to have met the requirement of a separate and distinct contribution of labor to the joint operation’s farming operation.

221 Eligibility Determinations (Continued)

C Contributions Not Commensurate

For a member of a joint operation whose contributions of inputs are **not** equal to his or her claimed share, if the contribution is:

- less than commensurate, that member is **not** considered actively engaged in farming and ineligible to receive any payment earned by the joint operation
- at least commensurate, that member may receive his or her share of the payment earned by the operation, but this share cannot be increased because of the ineligibility of another member.

222 Family Members in a Joint Operation

A Definition of Family Member [7 CFR 1400.3]

Family member means a person to whom another member in the farming operation is related as lineal ancestor, lineal descendant, sibling, spouse, or otherwise by marriage.

The term family member must include the following:

- great grandparent
- grandparent
- parent
- child, including legally adopted children and stepchildren
- grandchild
- great grandchild
- sibling of the family members in the farming operation
- spouse of family members
- niece
- nephew
- first cousin.

Notes: COC can request additional documentation from family members in situations where they question if a person meets the definition of “family member”.

“Otherwise by marriage” means to be a lineal relative of a person’s spouse by affinity, commonly referred to as in-laws. An example is a joint operation comprised of a parent and the daughter’s husband (Son In-Law). The daughter is not required to be a member of the joint operation to recognize this as a joint operation comprised of family members.

222 Family Members in a Joint Operation (Continued)

B Making Determinations

In making determinations, COC must consider the makeup of the operation at the time the determinations are made.

C Rule [7 CFR 1400.208]

A person who is an adult family member must be considered actively engaged in farming for a joint operation composed of a majority of who are family members, if **all** of the requirements in this table are met.

Item	Requirement
1	The family member makes a significant contribution of active personal management or active personal labor, or combination thereof, to the farming operation.
2	The family member’s share of the profits or losses from the farming operation is commensurate with the family member’s contribution to the operation.
3	The family member’s contributions are at risk.

D Example 1

Situation: In 2018, Partnership AB consists of Person A and Person B, 2 unrelated person members. In 2019, Person C, an adult son of Person A, will join the partnership.

- Persons A and B will **each** provide a significant contribution of active personal labor and active personal management.
- Person C will provide a significant contribution of active personal labor.
- The partnership will provide all of the capital and equipment. The land is share-leased by the partnership from 5 different landowners.

Determination: A majority of the persons of the joint operation are family members. Based on the contributions of each member, Persons A, B, and C are **each** considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

Person C is actively engaged in farming because of the adult family member provision, since the joint operation consists of 3 persons, a majority of whom are persons who are family members.

Note: The determination must take into consideration the provisions restricting the number of managers in non-family joint operations according to paragraph 236.

222 Family Members in a Joint Operation (Continued)

E Example 2

Situation: Father A has been farming owned land and rented land for many years. Son B, an adult, is starting to farm with his father. Son B contributes a significant amount of active personal labor. Father A contributes all the farming operation's capital, equipment, and active personal management.

Determination: Father A and Son B are both considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

F Example 3

Situation: In 2018, Partnership CD consisted of Person C and Grandfather D. In 2019, Grandson E is brought into the farming operation.

- Person C contributes all the capital and a significant amount of active personal management.
- Grandfather D contributes the use of a significant amount of equipment, owned land, and active personal management.
- Grandson E will provide all the active personal labor.

Determination: Person C, Grandfather D, and Grandson E will each be considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation.

Note: The determination must take into consideration the provisions restricting the number of managers in non-family joint operations according to paragraph 236.

G Example 4

Situation: ABC Partnership is a family-held partnership consisting of Father A, Son B, and Daughter C. In 2019, Father A brings Son-in-law D into the farming operation.

- Daughter C, who is married to Son-in-law D, does **not** provide a significant amount of active personal labor or active personal management to the farming operation.
- Son B contributes a significant amount of capital, active personal labor, and active personal management.
- Father A originally contributed his owned equipment to the partnership and contributes some capital and a significant amount of active personal management.

222 Family Members in a Joint Operation (Continued)

G Example 4 (Continued)

- Son-in-law D contributes a significant amount of both active personal labor and active personal management to the farming operation.

Determination: Father A, Son B, and Son-in-law D are considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation. Daughter C is considered to be actively engaged in farming, if the requirements of paragraph 189 apply. Son-in-law D was brought into the farming operation using the family member provision.

H Example 5

Situation: Mother A, Daughter B, and Son C are partners in a family partnership. Son D, a minor child, becomes a partner in 2019.

- Mother A contributes a significant amount of both capital and active personal management.
- Daughter B contributes a significant amount of both capital and active personal management.
- Son C contributes a significant amount of equipment, active personal labor, and active personal management.
- Son D contributes a significant amount of active personal labor.

Determination: Mother A, Daughter B, and Son C are considered to be actively engaged in farming. However, Son D is **not** considered to be actively engaged in farming because of the adult family member provision because he is **not** an adult family member.

223 Joint Operation Case Examples

A Example 1

Situation: Partnership AB farms 2,000 acres of land. The partnership owns the equipment and the partners provide at least 50 percent of their commensurate share of active personal labor and a significant amount of active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

Determination: Partners A and B are considered to be actively engaged in farming and each have a separate payment limitation.

223 Joint Operation Case Examples (Continued)**B Example 2**

Situation: Partnership CD farms 2,000 acres of land. Each partner contributes a significant amount of both capital and active personal management to the farming operation. Labor is hired. Equipment and land are rented from third parties. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

Determination: Partners C and D are considered to be actively engaged in farming and each have a separate payment limitation.

C Example 3

Situation: Partnership EFG farms 2,000 acres of land. The contributions of capital, land, and equipment are acquired from loans from a banking institution. The bank requires that all partners sign to guarantee the loan. The partners provide a significant contribution of active personal labor and active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contributions to the operation and each partner's contributions are at risk. None of the partners have any other farming interests.

Determination: Partners E, F, and G are considered to be actively engaged in farming and each have a separate payment limitation. The fact that the contributions of capital, land, and equipment are guaranteed by the members does **not** prevent the contributions from being considered for a significant contribution. See subparagraphs 144 D, 144 E, and 145 D.

D Example 4

Situation: Partnership CD farms 2,000 acres of land. Partner C and D each contribute 1,000 acres of land which they cash rent to the Partnership CD. They do not own the land. Each partner contributes a significant amount of both capital and active personal management to the farming operation. They have the land custom farmed. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

Determination: Partners C and D are not considered actively engaged. Even though members C and D make significant contributions of both capital and management, Partnership CD cannot meet the cash rent tenant rule, because they do not provide equipment or active personal labor to the farming operation.

This form is to be completed for an entity, including a joint operation, that is seeking benefits from the Farm Service Agency (FSA) under one or more programs that are subject to the regulations at 7 CFR Part 1400. This form collects farming and other information about the entity that receives program benefits directly using the tax identification number listed in Part A. This form also collects information about the members of such entity. A person who receives program benefits directly as an individual must complete a CCC-902I with respect to that person's operation. Payment eligibility is based upon the contribution of certain inputs to a farming operation such as land, capital, equipment, labor, and management by the entity listed in Part A. The information on this form will be used by FSA to determine payment eligibility and limitation of payments by direct attribution.

This form provides additional space for specific items on the CCC-902E.

Section 4 Joint Operations of Non-Family Members**236 General Partnerships, Joint Operations, and Joint Ventures of Non-Family Members
[7 CFR 1400.600]****A Applicability**

This section does not apply and does not change the requirements for actively engaged in farming and payment eligibility for the following:

- spouses
- landowner using the landowner exemption
- farming operations comprised of all family members as defined in subparagraph 222 A.

B Requirements Effective for 2016 and Subsequent Years

The new provisions are applicable for the:

- 2016 crop or program year to all non-family joint operations that plant any crop on or after February 1, 2016, with an intended use in 2016
- 2017 crop or program year to all non-family joint operations that have already planted any crop, or have reported prevented planted 2016 crop acreage before February 1, 2016, with an intended use in 2016
- 2017 and subsequent crop or program years to all non-family joint operations with either spring or fall planted crops.

Requirements of this section **are applicable** when a farming operation represents for 2016 and subsequent years, all of the following:

- general partnership, joint operation, or joint venture
- all members do not meet the definition of “family member” in subparagraph 222 A
- more than 1 member is seeking an actively engaged in farming determination with only a significant contribution of active personal management, or a significant contribution of the combination of active personal labor and active personal management.

**236 General Partnerships, Joint Operations, and Joint Ventures of Non-Family Members
[7 CFR 1400.600] (Continued)**

B Requirements Effective for 2016 and Subsequent Years (Continued)

Requirements of this section **do not apply** if a farming operation for 2016 and subsequent program years represents either of the following:

- all persons who are partners, stockholders, or persons with an ownership interest in the farming operation, or of a legal entity that is a member of the farming operation, meet the definition of “family member” in subparagraph 222 A

Example: A joint operation’s member are all LLC’s and/or corporations, but the interest holders of all the legal entities meet the definition of “family member”. This is considered a joint operation comprised of family members for the application of these new provisions.

- only 1 person with an interest in the farming operation is seeking an actively engaged in farming determination with only a significant contribution of active personal management, or a significant contribution of the combination of active personal labor and active personal management.

Note: All other requisite and at-risk contributions of land, capital, equipment, and labor are collectively made by the general partnership, joint operation, or joint venture, or by its members.

237 Definitions [7 CFR 1400.601]

A Terms and Documents

All terms defined and documents issued according to this handbook are applicable to this section, except as otherwise provided.

B Additional Definitions

Active personal management means:

- personally providing and participating in management activities considered critical to the profitability of the farming operation

237 Definitions [7 CFR 1400.601] (Continued)

B Additional Definitions (Continued)

- duties performed under 1 or more of the following categories.

Capital	Labor	Agronomics
Arranging financing and managing capital.	Hiring or all labor services.	Selecting crops.
Acquiring equipment.	Arranging custom services.	Planting decisions.
Acquiring land and negotiation of leases.	Management of all labor resources used in the operation.	Acquiring and purchasing of crop inputs.
Managing insurance.		Managing growing crops.
Managing the operation's participation in USDA programs.		Making harvest decisions.
		Pricing and marketing of crop production.

Farm manager means a person with an ownership interest in the farming operation who uses a significant contribution of active personal management, or a significant contribution of the combination of active personal labor and active personal management to meet the requirements to be considered actively engaged in farming.

Significant contribution of active personal management means the active personal management performed by a person, with a direct or indirect ownership interest in the farming operation that is:

- on a regular, continuous, and substantial basis for the farming operation
- meets at least 1 of the following to be considered significant:
 - equals at least 25 percent of the total management hours required for the farming operation on an annual basis
 - equals at least 500 hours of management activities annually for the farming operation.

237 Definitions [7 CFR 1400.601] (Continued)

B Additional Definitions (Continued)

Significant contribution of the combination of active personal labor and active personal management means a contribution of active personal labor and active personal management by a person with direct or indirect interest in the farming operation that:

- is critical to the profitability of the farming operation
- is performed on a regular, continuous, and substantial basis
- when added together, meets the following required number of hours.

Combination of Active Personal Labor and Active Personal Management – Requirement for a Significant Contribution (in Hours) (Annually)		
Management Contribution in Hours	Labor Contribution in Hours	Meets the Minimum Threshold for Significant Contribution, in Hours
475	75	550
450	100	550
425	225	650
400	250	650
375	375	750
350	400	750
325	425	750
300	550	850
275	575	850
250	600	850
225	625	850
200	650	850
175	675	850
150	800	950
125	825	950
100	850	950
75	875	950
50	900	950
25	925	950

There are 5 total hourly thresholds for a significant contribution of the combination of active personal labor and active personal management, based on a prorated combination of each type of contribution.

Note: A person or individual making a significant contribution of combined active personal labor and active personal management can only qualify themselves for actively engaged rules. See paragraph 238.

237 Definitions [7 CFR 1400.601] (Continued)**B Additional Definitions (Continued)**

Example: A combined contribution where the majority of the contribution is management is measured against the total 550-hour threshold, which is weighted toward the 500-hour standard for management; whereas a combined contribution, where the majority of the contribution is labor, is measured against a 950-hour threshold, which is weighted toward the 1,000 hours required for a significant contribution of labor.

This standard will apply to each person that a farming operation requests to qualify as actively engaged in farming by making a significant contribution of the combination of labor and management, rather than only a significant contribution of management.

Under these weighted thresholds, 2 contributions of the same total contributed number of hours could have a different result, as it will depend upon how many hours of total contribution are management and how many hours are labor.

Example: A total combined contribution of 650 hours consisting of 250 hours of management and 400 hours of labor would not qualify as a significant contribution, whereas a total combined contribution of 650 hours consisting of 400 hours management and 250 hours of labor would qualify as a significant contribution.

238 Restrictions on Active Personal Management Contributions [7 CFR 1400.602]**A One Member**

A person's contribution of active personal management, or the combination of active personal labor and active personal management, to a farming operation will qualify only 1 member of the farming operation as actively engaged in farming and with a separate payment limitation as defined in this section.

B Other Members

Other persons in the same farming operation are not precluded from making management contributions, but such contributions will not be recognized to meet the requirements of being a significant contribution of active personal management under this section.

238 Restrictions on Active Personal Management Contributions [7 CFR 1400.602] (Continued)

C Designating Farm Manager

Non-family joint operations, comprised of non-family members, where more than 1 member is seeking to qualify on management, must identify which farm managers will be recognized.

A representative of the joint operation must designate the managers to qualify as actively engaged in farming when more than 1 member is contributing management in the joint operation. The designation must be recorded in the remarks section of CCC-902.

239 Restrictions on Farm Managers

A One Farm Manager

Only 1 farm manager, as defined in this section, will be allowed for a farming operation with any nonfamily members, except as provided in subparagraph B.

B Exceptions for Additional Farm Managers

A farming operation with nonfamily members may qualify for additional farm managers, for a maximum of 3 managers for the operation, if the farming operation and its members meet the criteria in the following table.

Operation Size	Operation Complexity

247 Part 5, Section 4 Application Guide

A Application Guide

The following is a 1-page guide for the correct application of Part 5, Section 4, beginning with the review of the existing farm operating plan on record and ending with recording the new determinations of record.

Note: Written requests for additional managers must be received, and approval and/or disapproval must also be received before revision of the existing plan on record.

<p style="text-align: center;">Application of 6-PL, Part 5, Section 4 Start With the Existing Farm Operating Plan (CCC-902E) on File and Then... (move from top to bottom in the column, then right to next column)</p>					
Review and determine whether a family or nonfamily joint operation.	Affirm the number of farm managers from 1 person up to a maximum of 3 persons or members if specific conditions are met by the farming operation.	The farm manager(s) will be identified on the filed farm operating plan by the represented contribution of active personal management only; or the contribution of the combination of active personal labor and active personal management.	Complete CCC-903 and make all required determinations for payment eligibility and payment limitation purposes for the farming operation and its members. See 5-PL, Part 7.	Timely issue written notice to the farming operation and its members of all determinations made for payment eligibility and payment limitation purposes as reflected by the completed CCC-903.	Record all determinations in the web eligibility files for the farming operation and its members. See 3-PL (Rev. 2).
Definition of “family member” includes the following: great-grandparent; grandparent; parent; child (including legally adopted children and stepchildren); grandchild; great grandchild; sibling of family member; spouse of family member.	If more than 1 farm manager, a request for the additional farm manager(s) based on operational size and/or complexity must be submitted to the COC for consideration and approval or disapproval.	Management only requirement is the lesser of 500 hours or 25 percent of the total management required annually for the farming operation; or, 550 to 950 hours total of the combination of active personal labor and active personal management required annually for the farming operation.	For operations with 6 or more members, the State Office completes all required determinations for payment eligibility and payment limitation purposes.	Include appeal rights according to 1-APP.	
If all members are family members, then Part 5, Section 4 (Part 1400, Subpart G) does not apply. No further actions are required.	If request is for 2 additional farm managers, COC will forward request to STC for consideration and approval or disapproval with the concurrence of DAFP.	All members of the farming operation must maintain a record of <i>eligible</i> management activities performed throughout the entire program year.	Determinations include actively engaged in farming; cash rent tenant; spouses; foreign person; minor child; and the number of payment limitations applicable to the farming operation for the program year.		
If the joint operation includes a nonfamily member(s), then Part 5, Section 4 applies. Go to the top of the next column.	Revision of existing farm operating plan, or the filing of a new farm operating plan, as required to reflect the changes in the operation.	The contributions of management or combination of management and labor by a person may qualify only 1 person or member in the same farming operation as actively engaged in farming.

Section 5 Corporations, LLC's, LLP's, and LP's

257 Determination of Ownership Interest

A Ownership in Legal Entities

Ownership interest in a legal entity that receives payment subject to limitation for the program year will be determined according to this table.

IF the legal entity...	THEN the date for the determination of ownership interest is...
existed on June 1 of the year for which program benefits were requested	June 1.
did not exist on June 1 of the year for which program benefits were requested	the date the legal entity was formed.

Voluntary acquisition of interest after June 1, or date legal entity was formed, does **not** reduce the ownership share of any interest holder for payment limitation purposes.

For interest held in other legal entities that have minor children as heirs, beneficiaries, or members, consider any program payments received by or attributed to that interest of the minor child as being attributed to the minor child's parent or legal guardian.

Note: If the minor child is considered separate for payment limitation purposes according to paragraph 108, program payments received by or attributed to the minor child's interest will **not** be attributed to the parent or legal guardian.

B Stock Classes

For corporations with more than 1 stock class; such as preferred and common, the ownership percentage of stock, or unit of ownership, must be determined by the fair market value of outstanding stock.

Note: The value can be determined by COC, STC, DAFP, or designee, but should be determined at the earliest level **before** referring to the next higher level of authority.

257 Determination of Ownership Interest (Continued)**C Fair Market Value Factors**

To determine the fair market value of stock, or unit ownership, the following available factors must be considered:

- current market quotations for each stock class
- relevant factors affecting the value of each stock class
- rights and privileges of each stock class
- any other information that would assist in the determination.

D LP's

LP's normally have at least 1 general partner and 1 limited partner. In cases where LP has been reduced to 1 member, this will result in a change that requires a new CCC-902 be filed and a new determination. Producers will be required to complete CCC-902 with the correct member information and provide documentation to support the 1-member LP.

E Non-Profits/Tax Exempt, Associations, and Similar Entities

Legal entities created and governed under the laws of the State that are tax exempt or non-profit, generally a corporation, do not distribute earnings to its members. Members do not hold an ownership interest in the legal entity.

Refer to subparagraph 112 B for information regarding required documentation to support the legal entity's status as a non-profit or tax-exempt organization.

Refer to 11-CM, Exhibit 10 for creating and maintaining business type codes for non-profit or tax exempt organizations.

258 Eligibility Determinations

A Actively Engaged in Farming

[7 CFR 1400.204] A corporation, LLC, LLP, or LP must be considered to be actively engaged in farming, if **all** of the requirements in this table are met.

Item	Requirement
1	The legal entity independently and separately makes a significant contribution of capital, equipment, land, or combination thereof.
2	Partners, stockholders, or members with an ownership interest in the legal entity make contributions, whether compensated or not compensated, of active personal labor, active personal management, or a combination of active personal labor and active personal management to the farming operation.
3	The collective contribution of active personal labor or active personal management by partners, stockholders, or members must be a significant contribution to the farming operation.
4	The legal entity’s share of the profits or losses from the farming operation is commensurate with the contributions to the farming operation.
5	The legal entity’s contributions are at risk, with the level of risk being commensurate with the legal entity’s claimed share of the farming operation.

Note: Landowners will be considered Actively Engaged in Farming on owned land, according to paragraph 152, even though the above contributions are not being made. Cropland factors may apply.

B Member Contribution Requirements

In addition to the requirements of actively engaged in farming, all partners, stockholders, or members with an ownership interest in the legal entity **must** make contributions of active personal labor and/or active personal management to the farming operation of the legal entity that are:

- performed on a regular basis
- identifiable and documentable
- separate and distinct from contributions of any other partner, stockholder, or member.

Note: If a partner, stockholder, or member fails to meet this requirement, payments subject to the actively engaged in farming determination will be reduced by the share held by that partner, stock, or member.

258 Eligibility Determinations (Continued)

C Exceptions to Member Contribution Requirements

The following are exceptions to the requirements of subparagraph B.

Payments less than 1 limitation – If the total of program payments and benefits subject to payment limitation received, both directly and indirectly, for the program year by the partners, stockholders, and members does **not** exceed \$125,000, the requirement of a significant contribution of active personal labor or active personal management may be met by partners, stockholders, or members who collectively hold at least 50 percent of the ownership interest in the legal entity.

Note: When total ARCPLC payments and price support benefits for the applicable program year are unknown, timely make all payment eligibility and limitation determinations with the assumption that this exception is met by a farming operation that requests this exception. When the total amount of payments and benefits subject to the \$125,000 limitation received by the farm is known, revisit the eligibility determinations of record. If total program payments and benefits issued to the farming operation exceed the \$125,000 annual limitation, then redetermine eligibility accordingly.

Spouses – If both spouses are interest holders in the same legal entity, the contribution of active personal labor and/or active personal management of 1 spouse to the farming operation of the legal entity will also meet the other spouse's requirement to make a contribution of active personal labor and/or active personal management to the farming operation of the legal entity.

Minor children – If a parent is an interest holder in a legal entity in which his or her minor children are also interest holders, the parent's contribution of active personal labor and/or active personal management to the legal entity's farming operation will also meet the requirement that each minor child **must** make a contribution of active personal labor and/or active personal management to the same farming operation.

Spouses and minor children – If both spouses and minor children are in the same legal entity, the contributions of 1 spouse/parent of active personal labor and/or active personal management to the legal entity's farming operation will meet the requirements that all these interest holders of the legal entity **must** contribute active personal labor and/or active personal management to the legal entity's farming operation.

Note: Contributors of active personal labor and/or active personal management to a legal entity's farming operation **must** hold an ownership interest in the legal entity at the time the contributions are made.

Landowner – If all land in the legal entity's farming operation is owned by the legal entity, the requirements of subparagraph A do **not** apply to the interest holders of the legal entity.

258 Eligibility Determinations (Continued)**D Separate and Distinct Contributions of Labor**

If a partner, stockholder, or member provides active personal labor to the entity's farming operation that is performed on a regular basis, and that is identifiable and documentable, that partner, stockholder, or member will be considered to have met the requirements of a separate and distinct contribution of labor to the entity's farming operation.

E Burden of Proof Recordkeeping Requirements

All partners, stockholders, and members with an ownership interest must contribute active personal labor and/or active personal management to the entity's farming operation.

Each partner, stockholder, and member must be able to show by reasonable means that these activities are:

- performed on a regular basis throughout the crop year
- identifiable and documentable as to which partner, stockholder, or member made this contribution
- separate and distinct from any other partner, stockholder, or member with an ownership interest in the farming operation.

F Methods of Proof

Reasonable records may include, but are not limited to, the following:

- appointment books
- calendars
- narrative summaries
- phone logs
- contemporaneous records
- activity logs with date, time, and description of activity performed
- documents for goods and services used by the farming operation signed only by the interest holder.

258 Eligibility Determinations (Continued)

G Verification of Recorded Activities

COC may request verification from an interest holder if:

- the records provided for these activities seem unreasonable for the type and size of the farming operation
- performance of these activities is questionable as claimed
- the farming operation is selected for an end-of-year review for payment eligibility and payment limitation compliance purposes.

H Payment Reduction

If any partner, stockholder, or member fails to meet the requirements in subparagraph A, **all** payments to the legal entity subject to the actively engaged determination will be reduced by an amount commensurate with the ownership share held by the partner, stockholder, or member.

I Member Contribution Requirements and Joint Operations

This table provides guidance for the applicability of member contribution requirements when the payment entity is a joint operation.

IF the member is....	THEN member contribution provisions...

revocable trust	do not apply, unless the trust or estate is a member of an embedded entity in the organizational structure.

I Member Contribution Requirements and Joint Operations (Continued)

IF the member is....	THEN the member contribution provisions...
joint operation	do not apply to any members unless 1 of the members is a legal entity. If 1 member of the embedded joint operation is a legal entity, follow the provision for the members who are legal entities.

J Member Contribution Requirements for Estates and Trusts

Member contribution requirements do **not** apply to an estate, revocable trust, or irrevocable trust, unless the estate or trust is a member of a legal entity with members, such as the following:

- corporation
- limited partnership
- individual operating as a small business
- LLC using EIN.

This table provides guidance for the applicability of member contribution requirements for estates and trusts.

IF the payment entity is...	AND the member is...	THEN member contribution requirements...
<ul style="list-style-type: none"> • revocable trust • irrevocable trust • estate 		do not apply to any member of the organizational structure.

259 Corporation, LLC, LLP, and LP Case Examples

A Example 1

Situation: Corporation XYZ rents 3,000 acres of land for 1/3 share of the crop.

- Corporation XYZ contributes a significant amount of capital to the operation.
- Corporation XYZ hires the majority of all labor necessary for the operation.
- All 3 stockholders provide the balance of the labor needed.
- All 3 stockholders meet regularly during the crop year and all management decisions are made jointly during these meetings.
- Each stockholder has defined responsibilities, such as marketing, field operations and equipment, and financing and daily business activities.
- Each stockholder is on-site almost every day during the crop year.
- The corporation's share of the profits or losses from the farming operation is commensurate with the corporation's contributions and the contributions are at risk for a loss.

Determination: Corporation XYZ made a significant contribution of capital. All 3 stockholders collectively made a significant contribution of active personal management to the farming operation. Corporation XYZ is, therefore, considered actively engaged in farming. Each stockholder contributed active personal labor and active personal management to the farming operation on a regular basis, identifiable and documentable, and each stockholder's contribution was separate and distinct from contributions made by the other stockholder. No payment reduction will be applied to the program payments received by Corporation XYZ.

259 Corporation, LLC, LLP, and LP Case Examples (Continued)

B Example 2

Situation: Corporation AB consists of Father A and Son B, each having a 50 percent share. Corporation AB cash-rents land.

- Father A is a retired farmer who created the corporation for tax reasons and to aid in the transfer of the farm to Son B.
- The corporation contributes a significant amount of capital and equipment to the farming operation.
- Son B contributes both active personal labor and active personal management to the farming operation.
- Father A lives on the farm and contributes no active personal labor, but periodically advises Son B about farm-related matters.

Determination: Corporation AB provides significant contributions of capital and equipment, and Son B makes a significant contribution of active personal labor and active personal management to the farming operation. Corporation AB is considered actively engaged in farming; however, because Father A who holds a 50 percent ownership interest failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 229 B, Corporation AB will be subject to a 50 percent reduction in program payments received.

C Example 3

Situation: Corporation GH consists of Spouse G owning 70 percent of the corporate stock and Spouse H owning 30 percent of the corporate stock.

- Corporation GH provides all the capital, equipment, and leased land for the farming operation.
- Spouse G provides all of the active personal labor and active personal management necessary for the farming operation.

Determination: Corporation GH is actively engaged in farming through the contributions of the corporation and Spouse G. Even though Spouse H failed to make any contributions of active personal labor, active personal management, or a combination thereof, the exception applicable to spouses in subparagraph 229 C applies. No payment reduction will be applied to Corporation GH.

259 Corporation, LLC, LLP, and LP Case Examples (Continued)

D Example 4

Situation: Revocable Trust E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 229 B apply to Corporation D.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The revocable trust's grantor makes no contributions.

Determination: Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, Trust E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 229 B, Corporation D will be subject to a reduction in program payments commensurate with the ownership interest held by Trust E.

If the grantor of Trust E was making contributions of active personal labor and/or active personal management to the farming operation on behalf of Trust E that met the requirement of subparagraph 229 B, a payment reduction would **not** apply for Corporation D.

E Example 5

Situation: Irrevocable Trust E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 229 B apply to Corporation D.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The irrevocable trust's beneficiaries make no contributions.

Determination: Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, Trust E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 229 B, Corporation D will be subject to a reduction in program payments commensurate with the ownership interest held by Trust E.

If the beneficiaries of Trust E were making collective contributions of active personal labor and/or active personal management to the farming operation on behalf of Trust E that met the requirement of subparagraph 229 B, a payment reduction would **not** apply for Corporation D.

259 Corporation, LLC, LLP, and LP Case Examples (Continued)

F Example 6

Situation: Estate E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 229 B apply to Corporation D.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The estate's representative or heirs make no contributions.

Determination: Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, Estate E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 229 B, Corporation D will be subject to a reduction in program payments commensurate with the ownership interest held by Estate E.

If the heirs or personal representative of Estate E were making collective contributions of active personal labor and/or active personal management to the farming operation on behalf of Estate E that met the requirement of subparagraph 229 B, a payment reduction would **not** apply for Corporation D.

G Example 7

Situation: LLC E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 229 B apply to Corporation D.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation (payment entity) as actively engaged in farming.
- LLC's interest holders make no contributions.

Determination: Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, LLC E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 229 B, Corporation D will be subject to a reduction in program payments commensurate with the ownership interest held by LLC E.

If the interest holders of LLC E were making contributions of active personal labor and/or active personal management to the farming operation on behalf of LLC E that met the requirement of subparagraph 229 B, a payment reduction would **not** apply for Corporation D.

260 Member Contribution Share**A Determining Member Contribution Share**

A member contribution share for a member of a legal entity is necessary only when **both** of the following apply:

- part of the land in the farming operation is owned by the legal entity
- member fails to make contributions according to subparagraph 229 B.

B Calculating Member Contribution Share

Calculate the member contribution share as follows:

- total acres of cropland owned by the legal entity, **divided by**
- total acres of cropland operated/included in the legal entity's farming operation.

Example: Big Farms LLC has 2 interest holders, Jed and Jared. Neither make any contributions to the farming operation according to subparagraph 229 B.

Big Farms LLC operates a total of 500 acres. Of that total, 100 acres are owned by Big Farms LLC.

100 acres owned divided by 500 acres total in the farming operation equals a member contribution share of .2000 for Jed and Jared.

C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity

Calculate the member contribution share when a cropland factor is involved as follows:

- total cropland owned by the legal entity, **divided by**
- total acres of cropland operated **less** the acres of cropland responsible for the cropland factor applied to the payment entity.

260 Member Contribution Share (Continued)

C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity (Continued)

Example: Hawkeye Ag LLC has 2 interest holders, John and Jake, with equal shares. Hawkeye Ag LLC operates a total of 1,500 acres of land comprised of 500 acres owned, 500 acres share-rented, and 500 acres cash-rented.

John meets member contribution provisions. Jake does **not** meet member contribution provisions according to subparagraph 229 B and is only eligible for share of payments on the owned land.

Hawkeye Ag LLC earned \$30,000, but failed to meet the cash-rent tenant provisions according to subparagraph 229 B.

Both a cropland factor for Hawkeye Ag LLC and a member contribution share for Jake must be calculated and applied.

Calculate the cropland factor according to subparagraph 94 D as follows:

- total cropland acres owned plus acres **not** cash-rented, **divided by**
- total cropland acres in the farming operation.

500 acres owned plus 500 acres share-rented divided by 1,500 acres in the farming operation of Hawkeye Ag LLC equals a factor of .6666. This factor will be applied to the total payments earned of \$30,000 for a payment reduction of \$10,000 ($30,000 \times .6666 = 20,000$; $30,000 - 20,000 = 10,000$).

The failure of Hawkeye Ag LLC in meeting the cash-rent tenant provision will result in a payment reduction of \$10,000 applied to the entity.

The acres of cropland responsible for the cropland factor applied at the entity level will not be included in the calculation of the member contribution share.

Calculate the member share contribution for Jake as follows: 500 acres owned by Hawkeye Ag divided by 1,000 acres (1,500 acres total minus 500 acres cash-rented) equals a member contribution share of .5000.

- For John, the member contribution flag will be set to “Y”.
- For Jake, the member contribution flag will be set to “P” and the member contribution factor of .5000 will be entered.

B Rule for Estates in Existence Longer Than 2 Years

Section 7 Trusts

284 Revocable and Irrevocable Trusts

A Types of Trusts

For payment limitation purposes, there are the following 3 types of trusts.

Trust Type	Characteristics
Revocable	<ul style="list-style-type: none"> • Can be modified or terminated by the grantor, or the assets revert to the grantor after a specific period of time. • Does not meet the criteria for an irrevocable trust. • For payment limitation and payment eligibility determinations, the revocable trust and grantor will be considered the same. • Revocable trusts may become an irrevocable trust upon the death of the grantor(s). • Revocable trusts may be identified by the grantor’s social security number or an employer ID number. Refer to 1-CM and 11-CM. <p>Note: During the lifetime of the grantor of a revocable trust, and while the grantor is serving as trustee of his or her revocable trust, the grantor’s SSN may be used as the revocable trust’s TIN unless otherwise required by State law.</p>
Irrevocable	<ul style="list-style-type: none"> • May not be modified or terminated by the grantor. • The grantor does not have any future, contingent, or remainder interest in the corpus of the trust. • For trusts established after January 1, 1987, does not provide for transferring the corpus of the trust to the remainder beneficiary in less than 20 years from the date the trust is established, except in cases where the transfer is contingent upon the remainder beneficiary achieving at least the age of majority or upon the death of the grantor or income beneficiary. • Irrevocable trusts must be identified by an employer ID number. <p>Note: All trusts not meeting these requirements must be considered revocable trusts.</p>

284 Revocable and Irrevocable Trusts (Continued)

A Types of Trusts (Continued)

Trust Type	Characteristics
IRA's and Employee Profit Sharing Plans	<ul style="list-style-type: none"> • Are a type of bank account authorized by IRS for tax purposes. • May own assets including money and hold title to land. • Can be either a custodial account or trust account. <p>Note: According to IRS regulations, custodial accounts are not trusts and are not an eligible applicant for FSA/CCC/NRCS program benefits.</p> <ul style="list-style-type: none"> • Are created or organized in the United States for the benefit of a person or beneficiaries. • The “instrument” creating the trust must be in writing. • The trustee must be a financial institution or other person. The trust document must give all administrative power and authority to the trustee. • Must obtain an EIN separate from that of any other person or legal entity. <p>Note: See paragraph 285 for determining the IRA or Profit Sharing Plan an eligible program participant.</p>

B Trust Scrutiny

All trusts that receive payments must be carefully scrutinized to ensure that the trusts are legitimate legal entities and have **not** been created solely for the purpose of evading payment limitation provisions.

County Offices must:

- require producers to provide a copy of the trust agreement unless:
 - the trust is a revocable trust
 - the grantor of the irrevocable trust is deceased
- determine whether provisions are included in the trust that would require the trust to be considered a revocable trust for payment limitation purposes.

285 Trust Eligibility Determinations

A IRA's and Employee Profit Sharing Plans

An IRA or employee Profit Sharing Plan may be considered a valid program participant, as a trust **only**, if the Regional Attorney determines the account:

- meets the definition of “legal entity”
- has full function of a trust
- owns land or an agricultural commodity, or produces an agricultural commodity
- is a member, partner, or stockholder of a legal entity that owns land or an agricultural commodity, or produces an agricultural commodity.

The minimum information submitted for an IRA or Profit Sharing Plan **must** include documentation that:

- discloses the full trust agreement, naming the trust and trustee who will function for the trust about all FSA programs

Note: The trustee must be carrying out the duties of managing the trust.

- proves the IRA trust or Profit Sharing Plan owns land, owns an agricultural commodity, or produces an agricultural commodity; or is a member, partner, or stockholder of a legal entity that owns land, owns an agricultural commodity, or produces an agricultural commodity
- IRA or Profit Sharing Plan provides a valid TIN.

B OGC Approval

Approval from the Regional Attorney is required **before** any eligibility determinations are made or issued. The request must include a brief summary of the information provided for the IRA or Profit Sharing Plan.

Note: OGC's opinion is protected from release under attorney/client privileges and should not be released to the participant.

C IRA/Profit Sharing Plan Ineligibility

An OGC opinion that an IRA or Profit Sharing Plan does not meet the requirements to be an eligible participant or have the full function of a trust, COC or determining authority must:

- determine the IRA or Profit Sharing Plan ineligible on the basis cited by OGC in its opinion
- be notified in writing of the determination and afforded appeal rights according to 1-APP.

286 Trust Actively Engaged in Farming Determinations

A Rule

[7 CFR 1400.205] A irrevocable or revocable trust must be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The trust separately makes a significant contribution of capital, equipment, land, or a combination thereof.
2	Income beneficiaries that make contributions of active personal labor or active personal management, have a combined interest of at least 50 percent, and collectively make a significant contribution to the farming operation. Note: Notification of interests and disclosure requirements in paragraphs 111 through 113 apply to all trusts and all beneficiaries of trusts.
3	The trust’s share of the profits or losses from the farming operation is commensurate with the contribution to the farming operation.
4	The trust’s contributions are at risk.
5	The trust has provided TIN of the trust, unless the trust is a revocable trust and either of the following applies: <ul style="list-style-type: none"> • the grantor is the sole income beneficiary • TIN for the trust is TIN for the co-granter and co-income beneficiary and the other grantor and income beneficiary is their spouse who is not requesting benefits under his or her TIN.
6	The trust has provided a copy of the trust agreement to COC, unless the trust is a revocable trust.

Note: Landowners will be considered Actively Engaged in Farming on owned land according to paragraph 152 even though the above contributions are not being made. Cropland factors may apply.

B Trustee Actions

The personal actions of a trustee, either labor or management, **cannot** be considered as contributions of the trust in meeting the requirement of actively engaged in farming.

Only the income beneficiaries of a trust can provide the required, at-risk contributions of active personal labor, active personal management, or combination thereof, for the trust to be considered actively engaged in farming.

287 Trust Case Examples

A Irrevocable Trust Example 1

Situation: EF Trust meets the requirements to be considered an irrevocable trust for payment limitation purposes. The trust, with Persons E and F each having a 50 percent interest, contributes a significant amount of capital to the farming operation. Each beneficiary contributes a significant amount of active personal management. All labor is hired. The land and equipment are leased. The trust's share of the profits or losses from the farming operation is commensurate with the trust's contributions to the operation and the contributions are at risk.

Determination: EF Trust is determined actively engaged in farming because the trust provides capital and the beneficiaries, holding at least 50 percent interest, contribute a significant amount of active personal management.

B Irrevocable Trust Example 2

Situation: The terms of a late spouse's will made certain specific bequests of cash and nonfarm property to persons other than his or her widow. The balance of the estate, including farmland, is distributed to a testamentary trust. The widow has the sole right to the income of the trust during his or her lifetime. At the time of his or her death, the trust is to be terminated and the property distributed to his or her heirs.

Determination: Because the widow has the sole right to income of the trust during his or her lifetime, the widow is considered the sole beneficiary. The trust is considered actively engaged in farming because of the landowner provision.

287 Trust Case Examples (Continued)

C Revocable Trust Example

Situation: ST Trust is a revocable trust.

- Person U is the grantor and income beneficiary.
- ST Trust contributes a significant amount of both capital and equipment to the farming operation.
- Beneficiary contributes a significant amount of active personal management to the operation.
- All land is cash leased and all labor is hired.
- The trust's share of the profits or losses from the farming operation is commensurate with its contribution to the operation and the contributions are at risk.

Determination: ST Trust is considered to be actively engaged in farming and meets the cash rent tenant provision, through a contribution of equipment and active personal management. For payment limitation purposes, all payments issued to ST Trust will be attributed to Person U as grantor of the trust.

Indian tribe means any Indian tribe, band, nation, pueblo, or other organized group or community, including any Alaska Native village or regional corporation as defined in or established under the Alaska Native Claims Settlement Act, which is recognized as eligible for the special programs and services provided by the U.S. because of their status as Indians.

Note: This exemption only applies to Indian tribes. Refer to 11-CM, Exhibit 10 for recording the business type code for Indian Tribal Ventures.

See Exhibit 12 for the list of Federally recognized Indian Tribes.

310 Eligibility of States, Political Subdivisions, and Agencies (Continued)

D Updating Business Partner Records

Because different rules are applicable by program in how State and local government and public schools are treated, it is imperative that the business type is updated properly in Business Partner to reflect the determination required by this handbook.

Because payments to public schools for some programs are limited in States with a population greater than or equal to 1.5 million, all public schools within those States must be combined. Determine whether payments to public schools within the State are limited according to this handbook.

IF the public school is in a State with a population of...	THEN...
greater than or equal to 1.5 million	all public schools within the State must be combined. Payments to the combined public-school entity must be limited to \$500,000.

CCC-902E (09-28-20)	DEFINITIONS	Page 6 of 6
The following definitions apply to Form CCC-902E.		
<ol style="list-style-type: none"> 1. ACTIVELY ENGAGED IN FARMING – means providing both: 1) significant contributions of capital, equipment, or land, or combination thereof to the farming operation; and 2) significant contributions of active personal labor or active personal management, or a combination thereof, to the farming operation as described. Further, for a person or legal entity to be considered actively engaged in farming for program payment purposes, the contributions of the person or legal entity must be at-risk and commensurate with the person's or legal entity's claimed share of the profit and loss of the farming operation. Failure to meet these requirements will result in the determination of ineligibility for payments under programs specified in 7 CFR Part 1400. 2. INTEREST IN A FARMING OPERATION – a person or legal entity is considered to have an interest in a particular farming operation if the person or legal entity owns or rents land to or from that farming operation; has an interest in the agricultural commodities produced on the operation; or is a member of a joint operation that either owns or rents land to or from the farming operation, or has an interest in the agricultural commodities produced on that operation. 3. JOINT OPERATION - is a general partnership, joint venture, or similar organization. 4. PERSON – is a natural person (an individual) and does not include a legal entity. 5. To be considered a countable contribution for a person or legal entity, the capital must have been derived from a fund or account separate and distinct from that of any other person or entity involved in such operation. Countable capital does not include the value of any labor or management which is contributed to the farming operation. A capital contribution may be a direct out-of-pocket input of a specified sum or an amount borrowed by the person or entity. Capital does not include advance program payments. 8. CONTRIBUTION – with respect to a farming operation, is providing land, capital or equipment assets, and providing active personal labor, or active personal management to the farming operation in exchange for, or with the expectation of, deriving benefits based solely on the success of the farming operation. Contributions must be "significant". 9. 312-321 (Reserved)

Section 10 Non-Profit or Tax-Exempt Organizations**322 Clubs, Societies, and Fraternal and Religious Organizations****A Rule [7 CFR 1400.103]**

Charitable organizations, including clubs, societies, fraternal, and religious organizations, must be considered separate and distinct farming operations from the members of the organization or any other legal entity.

Refer to paragraph 112 for documenting the business's tax exempt status.

B Exceptions to Rule

If the land operated by the organization, or the production from the operation, may transfer to a legal entity that exercises control over the organization, the payments to the organization must be attributed to the parent organization.

Note: If parent organization's TIN is used by the organization, the payments to the organization must be attributed to the parent organization.

Important: The fact that an organization has a separate TIN does **not** mean that it qualifies for a separate limitation. If there is any indication that 1 organization exercises control over another organization and land or proceeds transfer to the parent organization, the payments must be attributed to the parent organization and payments limited accordingly.

Example: If land owned by a church within a diocese would transfer to the diocese upon closure of the church, payments to the church would be attributed to the diocese.

C Example of Determinations for Charitable Organizations

Situation: A charitable organization forms other charitable organizations that are represented to be separate organizations. The other organizations have separate TIN's and each is recognized by IRS as qualifying as a charitable organization. However, there is evidence that the parent organization continues to exercise control over the other organizations, and that the land, or proceeds from the land, may transfer to the parent organization.

Result: All payments will be attributed to the parent organization.

D Business Type Codes

Refer to 11-CM, Exhibit 10 for recording the business type code for creating or maintaining customer records for non-profit tax exempt and similar organizations.

Section 11 Foreign Person Provisions

334 Foreign Person Rule Applicability

A Introduction

Before making **any** actively engaged in farming or other eligibility determinations, it **must** be established whether persons or legal entities projected to share in applicable program benefits, are foreign persons or foreign entities.

CCC-902 is used to:

- collect information about a person's citizenship status
- collect information about the citizenship status of a legal entity's members, partners or stockholders and determine the entity's status as a foreign entity.

Changes in a person's citizenship status; or a member's, stockholder's, or partner's citizenship status; must be reported on CCC-902. Changes in citizenship status may affect eligibility to participate in FSA/CCC programs.

B Program Applicability

Apply the provisions in this part to any type of payment, loan, and benefit made for 1989 and subsequent crop years for the programs listed in paragraph 34.

Note: Unless otherwise specified, **all** other provisions of this handbook are applicable in determining payment eligibility for foreign persons.

C Person Applicability

The provisions in this part are applicable to foreign persons as defined in paragraphs 335 and 336.

Note: The provisions in this part are **not** applicable to a citizen of the U.S., lawful alien, or legal entity who is **not** subject to this part that is:

- in lawful possession, through a lease or otherwise, of a farm owned by a foreign person or foreign legal entity who is subject to this part
- successor-in-interest to a program contract or agreement for a farm owned by a foreign person or foreign legal entity who is subject to this part.

334 Foreign Person Rule Applicability (Continued)**D COC Determination**

COC must make the initial determination of foreign or nonforeign status for persons, legal entities, or other similar entities based on documentation provided.

E Recording Citizenship Status in Business Partner

Upon determining a person's citizenship status is not a U.S. citizen or resident alien, County Office employees must update the person's citizenship status in Business Partner according to 11-CM.

Upon determining an entity is a foreign entity, County Office employees must update the legal entity's originating country in Business Partner according to 11-CM.

335 Foreign Person Identification**A Definition of Foreign Person**

Foreign person means someone who is **not** a:

- citizen of the U.S.
- lawful alien possessing a valid I-551.

B Proof of Citizenship

If COC questions the citizenship of a person, acceptable proof of citizenship **must** be provided. Proof of citizenship includes the following:

- birth certificate
- nationalization and citizenship papers
- certificate of citizenship
- verification through the nearest Immigration and Naturalization Service office.

335 Foreign Person Identification (Continued)**C Description of New Permanent Resident Alien Card**

The new card designs enhanced graphics and fraud-resistant security features to create cards that are highly secure and more tamper-resistant than the ones currently in use. The new green card will:

- display the individual's photos on both sides
- show a unique graphic image and color palette

Note: Green cards will have an image of the Statue of Liberty against the American flag, and predominately green palette.

- have embedded holographic images on both sides
- no longer display the individual's signature
- no longer have an optical stripe on the back.

U.S. Citizenship and Immigration Services (USCIS) began issuing the new cards on May 1, 2017.

D Determining Card Validity

Some green cards issued after May 1, 2017, may still display the existing design format as USCIS will continue using existing card stock until supplies are depleted. Both the existing and new green cards will remain valid until the expiration date remain valid. Individuals who have green cards without an expiration date are **not** required to apply for a replacement card bearing an expiration date.

A conditional permanent resident receives a 2-year green card. To remain a permanent resident, a conditional permanent resident must file a petition to remove the condition during the 90 calendar days before the card expires. Also, the conditional card cannot be renewed. The conditions must be removed or the person will lose their permanent resident status.

335 Foreign Person Identification (Continued)

F Other Types of Identification

Foreign Persons may also possess a Social Security Card that can be validated with IRS in Business Partner according to 11-CM.

The following are examples of identification that may be presented by program applicants.

The first type is the basic identification known to hundreds of millions of people.

This provides the person's name and Social Security number and allows the person to work without restrictions.

The **second type** of card carries the words “**Valid for Work Only With DHS Authorization**” and may be presented by foreign persons.

This is issued to people who have permission to live and work here only for temporary periods with an appropriate Visa. Possession of this card indicates additional documentation is necessary to validate a person's residency status according to subparagraph B.

335 Foreign Person Identification (Continued)

F Other Types of Identification (Continued)

The **third type** has the words “not valid for employment”.

This type is issued to noncitizens who do **not** have work permission but need a Social Security number to apply for Government benefits or services such as Food Stamps, WIC program, and Medicare. Possession of this card indicates additional documentation is necessary to validate a person’s residency status according to subparagraph B.

A citizen of a foreign country, wishing to enter the U.S., generally must first obtain a visa. This type of visa is defined by immigration law and relates to the purpose of the person’s travel. Visas are issued by American embassies, consulates and are valid for specific periods of time. **A visa does not provide permanent resident status.**

336 Foreign Entity Identification

A Definition of Foreign Entity

Foreign entity means a corporation, trust, estate, or other similar organization, that has more than 10 percent of its beneficial interest held by persons who are **not**:

- citizens of the U.S.
- lawful aliens possessing a valid I-551.

B Determining Beneficial Interest

In determining whether beneficial interest is held, the beneficial ownership must be based on the higher amount of interest on either of the following dates:

- date applicable program contract or agreement is executed
- beginning harvest date for the commodity as determined by STC.

Note: All interest in an entity, including interest in an embedded entity, must be taken into account.

C Entity Ownership Share

Use this table to determine a person's or legal entity's ownership interest in a foreign entity.

IF ownership is of...	THEN the ownership percentage held by a person or legal entity must be based on...
1 class of stock or other similar unit	their outstanding share of ownership compared to the total outstanding unit of ownership.

Note: The value of different classes of stock or other unit of ownership can be determined by COC, STC, or DAFP, but must be determined by the earliest level **before** referring to the next higher level of authority.

D Less Than 10 Percent Interest

DAFP may determine that an ownership interest of 10 percent or less must be considered beneficial interest.

E Entity's Responsibility

The entity must inform COC of any increase in ownership by a member that occurs after the beneficial interest has been determined.

Note: If there has been an increase in foreign ownership after a payment, loan, or benefit has been made, the entity **must** refund the payment, loan, or benefit.

337 Categories of Foreign Person Provisions

A Three Separate Categories

Use this table to determine the appropriate foreign person provision for different programs.

B Insufficient Information

If the file does **not** contain adequate information for COC to make determinations, COC must request additional information. This does **not** extend COC’s 60-calendar-day time limit to make initial determinations.

Note: If the file does **not** contain sufficient information for a favorable determination, COC must make the determination, based on the file as it exists, to avoid a default determination.

C Determination Appeals

COC must hear appeals by applicants of the initial COC determinations of actively engaged in farming and eligibility.

352 COC Requirements to Make Timely Determinations

A Overview

COC must make the initial actively engaged in farming and eligibility determinations within the deadlines established in paragraph 351.

Note: See paragraph 366 for required State Office determinations.

B Definition of Default Determination

Default determination means all persons or legal entities are considered to be actively engaged in farming.

Note: Default determination only applies to actively engaged in farming and cash rent tenant provisions.

C Rule

If COC does **not** make the initial determinations within the 60-calendar-day time limit, the applicant must receive a default determination. COC **must** still make actively engaged in farming and eligibility determinations. If the correct determination is different:

- FSA will honor the default determination for the current year, if the farm operation plan is followed **exactly**
- the proper determination will apply, if the farm operation plan is **not** followed exactly
- the proper determination will apply the following year, if the operation is **exactly** the same.

D Notification to Producer

See paragraphs 390 and 391 for notification requirements of both the default and correct determination letters to the producer.

353 Completing CCC-903's

COC must use CCC-903 to document producer determinations for payment limitation and payment eligibility. A Introduction

If DD’s review of COC determinations or County Office determination handling reveals errors or other problems, DD’s must take immediate and appropriate action.

B Guidelines

DD’s must determine the magnitude of the situation when errors or problems are discovered. Based on the magnitude, DD’s must determine how to provide assistance to correct the situation.

DD’s must use this table to decide the best way to handle situations.

IF the error or problem is...	THEN...
isolated to a small number of cases	review with COC or County Office the correct procedure and corrective action, if applicable.
Widespread	<ul style="list-style-type: none"> • review with COC or County Office the correct procedure and corrective action • contact State Office specialist to determine whether additional action, such as training, is necessary.
recurring after DD’s guidance to correct	contact State Office specialist for assistance in correcting the situation.

- COC or County Office is following procedure.

D Report to State Office

DD must be prepared to report to STC or State Office any errors or problems encountered in the district.

355 DD Disagreement With COC Determinations

390 Default Determinations and Proper Determinations**A Rule**

Every participant must receive a Payment Eligibility determination and receive notification **no** later than 60 calendar days after submitting a completed CCC-902. If COC **cannot** make an initial determination within the required 60-calendar-day period, the producer will receive and be notified of a default determination.

A default determination applies only to determinations of Payment Eligibility, including:

- “Actively Engaged in Farming” Rules
- “Cash-Rent Tenant” Rules
- “Foreign Person Rules”.

A default determination does **not** relieve COC from making a proper determination. If the proper determination is different from the default determination, notify the producer of the following:

- that FSA will honor the default determination for the current year, if the operating plan is followed **exactly** as represented to FSA
- the proper determination.

Note: The proper determination will apply for the:

- current year, if it is determined that the farm operating plan is **not** followed **exactly** as represented to FSA
- following year, if the farming operation is conducted **exactly** the same in the following year.

Dear Producer:

The *[COC or other reviewing authority]* has determined that the addition of *[First/Last Name]* to the farming operation results in an increase in [members, stockholders, or partners] to which Payment Limitation applies. 7-CFR § 1400.104 requires that to recognize the increase in “persons” the farming operation must have a change that is substantive and bona-fide. Such changes must be a legitimate business transaction and may include any one of the following:

- For landowners, a change from cash rent to share rent
- The addition of land used for agricultural purposes (at least 20 percent)

Part 7 EYR's for 2014 and Subsequent Years

Section 1 Selections and Notifications

413 Overview

A Introduction

The determinations required by this handbook are made by the reviewing authority based on the producer's certification of the farming operation as represented on CCC-902's and supporting documents.

To maintain the integrity of payment limitation and payment eligibility provisions, EYR's are conducted to determine that farming operations were carried out as represented when initial determinations were made.

B Purpose

This section provides instructions for selecting and notifying producers of EYR.

414 Selection Process

A Introduction

Producers selected for EYR may be chosen for the following reasons:

- a judgmental selection by DAFP
- a required spot check
- an additional case selected for review by the reviewing authority.

B Judgmental Selection

A judgmental selection is performed on a nationwide basis to select producers for review using criteria including, but not limited to:

- the restructure of a farming operation in the past year by the addition of a new partner, deletion of a partner, change in stockholders, etc.
- the formation of a new farming operation in the past year
- a comparison of farming operations to determine whether an individual or legal entity is involved in more than 1 operation
- farming operations earning more than a specified dollar amount.

C Required Spot Checks

A default determination made according to paragraph 390 must be selected as EYR if the proper determination made according to paragraph 351 differed from the default determination.

Note: Determinations involving FSA employees are required to be selected for review only if selected according to this paragraph.

414 Selection Process (Continued)**D Additional Cases**

In addition to cases that are judgmentally selected, or otherwise required to be selected, the following cases will also be selected for EYR:

- any case which the reviewing authority has reason to believe the farm operating plan was not followed as represented
- any cases considered necessary by a State Office representative to maintain program integrity.

E Timing EYR's

Complete EYR's by the date established by STC, according to paragraph 16.

F Waiver Authority for State Offices

State Offices may waive judgmentally selected EYR's under the following circumstances:

- farming operations involving **only** a husband and wife
- farming operation was previously reviewed in the last 3 years, did **not** receive an adverse determination, **and** the reviewing authority has determined that there have been no changes that affect the original determinations
- farming operations with **all** land meeting the landowner exemption
- for 2014 and subsequent years, farming operation conducted by a corporation, LLC, trust, estate or similar legal entity with no embedded legal entities as members.

Notes: State Offices must record the waived judgmentally selected reviews in the EYRT System according to Section 4.

Any waiver request not within State Offices' approval authority may be sent to DAFP, along with adequate justification to support the request.

415 Producer Notification**A Overview**

After being notified, the producer is responsible for providing requested documents in a timely manner. This paragraph contains information to be included in the producer notification letter and explains what the producer must do after receiving the notification letter.

B Producer Notification

Producers who are required to submit documents must be notified about their selection for EYR no later than 90 calendar days before the EYR completion date established by STC according to paragraph 16.

The notification letter must contain the following:

- purpose of EYR
- documents required to be submitted
- the requirement to submit documents to the County Office within 30 calendar days
- actions that will be taken if documents are not submitted
- notification that the producer will receive results of EYR when completed.

It is the responsibility of the producer to submit requested documents within 30 calendar days from the date requested.

Note: It is recognized that some requested documents, such as crop sales documents, may not be available when the producer submits other documentation. The producer must submit all documents that are available at the time. The reviewing authority must schedule follow-up action to obtain additional information if necessary.

				YES	NO	N/A
Was capital used as a significant contribution? If "YES", complete this Part B. If "NO", go to Part C.						
Step	Action					
1	Determine how the capital used as a significant contribution was acquired. Note: Check the appropriate item or items, and go to the corresponding step of Part B. <input type="checkbox"/> A. Direct out-of-pocket input by individual, entity, joint operation, or members of joint operation. Go to step 2. <input type="checkbox"/> B. If a joint operation in which the capital is contributed by a member or members of the joint operation rather than the joint operation itself, review member accounting records, checks, and loan documents to determine amounts invested. C. Was each member's contribution of capital commensurate with their share of the operation? If "NO", other contributions may justify the claimed share of operation: D. Interview the individual, entity representative, or member of the joint operation to ensure that capital contributions were out-of-pocket if not adequately established by documentation. Determine whether they borrowed the capital to provide their contribution. Was capital borrowed? If "YES", go to step 3. If "NO", go to step 4.					
3	Determination if capital was borrowed. If the capital contribution was borrowed: A. Interview the producer to determine from whom the capital was borrowed, and annotate the lender's name: B. Indicate the percentage of capital contribution that was borrowed: ____% C. Review accounting records to determine whether the capital was contributed directly to the farming operation. D. Arrange with the producer to contact the lender and review the loan file. E. 2	Determination if land is owned by individual, entity, or joint operation. Obtain and review documents supporting ownership of land, such as deeds or other title documents. Note: If not available from the County Office, this information should be filed with the appropriate county court. A. Was ownership of the land established for the applicable crop, program, or FY? Note: If "NO", the individual, entity, or joint operation cannot qualify under the landowner provisions as actively engaged in farming. B. During the review of the deed and/or title documents, determine whether the land was acquired by "Contract for Deed," "Deed of Trust," "Land Contract," or other similar arrangement. Note: This is considered to be acquired as a result of a loan. C. Was this land acquisition guaranteed by, or secured by an individual, entity, or other joint operation, including members, that have an interest in the farming operation? Note: If "YES", the land cannot qualify as a significant contribution to the farming operation. Document and copy appropriate information: D. If the landowner provision is used by a joint operation holding title to the land, review the joint operation agreement for dissolution of the operation. Does this agreement provide that, upon dissolution, the title to the land owned or proceeds from the sale of the land will revert to the individual members according to their respective shares? Note: If "NO", the landowner provisions cannot be used unless the regional attorney advises that state law provides that, upon dissolution of the joint operation, the land will be sold and the proceeds divided according to each member's share in the joint operation and there is no documentation otherwise.

Section 4 EYRT System**450 Tracking EYR's****A Overview**

All EYR's will be tracked using the EYRT System.

B Responsibilities

DAFP and STC or COC EYR selections and review results will be tracked in the EYRT System for all reviews conducted in an FY.

The National Program Manager is responsible for entering the DAFP judgmental selections.

State Office Specialists with payment limitation/payment eligibility responsibility must enter COC and STC selections in the EYRT System.

State Office Specialists are responsible for entering all results/findings of EYR's in the EYRT System.

C Submission Date

STC must establish a date or dates for County Offices to submit adequate documentation to evidence the findings of the review and the COC's determination, including any overpayments to the State Office Specialist.

The National Program Manager must annually establish the date by which reviews must be completed and results of the review loaded in the EYRT System. This date will be announced in correspondence to each State Office when the DAFP judgmental selections are announced.

451 Introduction to the EYRT System

A Definition of EYRT System

EYRT System means a web-based system:

- in which National, State, and County Office users can record all findings, recommendations, and conclusions from EYR's completed on selected farming operations for 2009 and subsequent years' payment eligibility and payment limitation compliance purposes
- that provides reporting and summarization capabilities for EYR findings, determinations, and related information recorded for the farming operations reviewed.

B EYRT Design

EYRT was designed for the following:

- recording and tracking, by participant/farming operation and program year, all EYR review findings, results, and determinations
- as source data for status reports on the completion and results of EYR's
- providing information to use when evaluating the application and the effectiveness of current payment eligibility and payment limitation provisions.

C Accessing EYRT and Versions Available

EYRT is accessible from the Payment Limitation EYR's Share Point site at https://usdagcc.sharepoint.com/sites/fsa-dafp-disaster/PL_EYR/sitepages/Home.aspx.

451 Introduction to the EYRT System (Continued)

D Content of EYRT Database

The EYRT database has been populated with the following:

- 2009 and subsequent years DAFP EYR selections
- additional selections as determined by State Offices.

E State Office Action

For the 2009 and subsequent EYR records, State Offices are encouraged to do the following:

- review the records for accuracy
- update the preloaded records, if necessary
- enter records for additional EYR selections made
- enter results as EYR's are completed
- periodically run various EYRT reports to check the status of review completion, and to track the results of 2009 and subsequent years EYR's.

A Definition of AGI

[7 CFR 1400.501] AGI means, for a:

- person, the amount reported to IRS on the appropriate tax filing documents as AGI
- legal entity, the comparable measure according to this handbook.

B Definition of Average AGI for a Person or Legal Entity

Average AGI for a person or legal entity means the average AGI, or comparable measure, of the individual or entity over the 3 taxable years preceding the most immediately preceding complete taxable year for which benefits are requested.

Note: Exclude any years that the person or legal entity did not have taxable income. In this context, the term “taxable income” includes having \$0 of taxable income on IRS Form 1040, line 43 because of tax exemptions and tax deductions. The term “taxable income” for average AGI purposes is used in determining whether or not the person or legal entity had any income upon which a tax filing was required; not whether there was a tax liability level of income.

C Churches, Clubs, Fraternal Organizations, Societies, and Similar Associations

Persons who attend a church or belong to a club, fraternal organization, association, or similar type of entity that is requesting payments or benefits:

468 Average AGI Compliance Certification (Continued)**I Verifying AGI Certifications**

COC or reviewing authority **must rely on the IRS verification process or State Office Compliance Reviews to verify a participant's eligibility with average AGI provisions.**

J Deadline for AGI Certifications and Consents to Disclose

AGI certification and consent to disclose **must** be submitted:

- according to the deadlines established by the applicable programs
- **before** issuing any program benefit subject to AGI provisions.

K Multi-County Producers

Individuals or legal entities with multi-county farming interests will submit the required AGI certifications and consents to disclosure only in the recording county.

The recording county will do the following:

- accept a producer's certification of compliance of the AGI provisions
- review CCC-941 for acceptability
- set values in the eligibility file, according to 3-PL (Rev. 2)
- submit the consent CCC-941 to IRS for verification, according to paragraph 477
- if requested, share the information with other counties.

469 Rules for Special Cases

A Acceptable Documentation

For a person or legal entity, including a foreign person or legal entity that does **not** have tax records or is **not** required to file tax returns, acceptable forms of AGI documentation may include, but are **not** limited to, the following:

- CPA or Attorney Statement
- annual budgets and statement of operations
- annual public financial disclosures
- financial statements
- other documentation as deemed acceptable by the reviewing authority.

B Multi-Year Contracts and Agreements

For program contracts and agreements that extend more than 1 crop year, program year, or FY, the average AGI determination will:

- be based on the 3 taxable years preceding the most immediately preceding complete taxable year for which the contract or agreement is approved

Note: For a successor to an approved CRP-1, the 3-year period is based on the approval date of succession, **not** on the original approval date of CRP-1. See subparagraph 470 H. The approval date of succession is the effective date of change in interest in the CRP land according to 2-CRP.

- be made once and apply for the entire term of the contract or agreement.

C Succession-in-Interest

The average AGI limitations, according to this part, do **not** apply to multi-year contracts; such as CRP-1's that were effective **before** October 1, 2013. The average AGI provisions in this part were **not** part of the original contract or agreement when executed.

If succession occurs to a multi-year contract or agreement that was effective:

- **before** FY 2014, the successors **will not** be subject to AGI provisions in this part on the multi-year contract or agreement
- for FY 2015 or subsequent years, the successors **will** be subject to AGI provisions on the multi-year contract or agreement.

Note: See Exhibit 16 for the applicable payment eligibility/limitation rules and forms required for CRP.

470 AGI Rules for CRP Contracts and Conservation Multi-Year Agreements**A Policy for CRP-1's Approved May 13, 2002, Through September 30, 2008**

Beginning May 13, 2002, an average AGI limitation became effective for certain programs including CRP.

This provision is effective beginning with the 2003 crop year. The average AGI limitation provides that an individual or entity must not be eligible to receive certain benefits during a crop year, if the average AGI of the individual or legal entity exceeds \$2.5 million and less than 75 percent of the average AGI of the individual or entity is derived from farming, ranching or forestry operations. See 1-PL for specific rules.

B Policy for CRP-1's Approved Beginning October 1, 2008, Through September 30, 2013

The average AGI limitation provides that a person or legal entity must be ineligible to receive certain benefits during a crop year if the average AGI of the person or legal entity exceeds \$1 million, unless at least 66.66 percent of the average AGI of the person or legal entity is average **farm** AGI. See 4-PL for specific rules.

Note: If a succession in interest occurs to CRP-1 approved beginning October 1, 2008, the successor must meet the AGI provisions in 4-PL.

C AGI Certification

All producers with a share greater than zero, including members of entities and joint operations must provide a certification of AGI according to 1-PL, 4-PL, 5-PL, or this handbook, as applicable. For CRP, certifications of AGI are binding for the life of CRP-1. CCC-526, CCC-926, CCC-931, CCC-933, or CCC-941, as applicable, must be filed and appropriate flags set in the subsidiary file according to 3-PL (Rev. 2) before CRP-1 is approved. AGI determinations for CRP are for the duration of the contract period. See subparagraph H for AGI requirements for CRP contract revisions.

D Policy for CRP-1's Approved for CRP Signup 46

No AGI limitation was in effect for CRP signup 46.

470 AGI Rules for CRP Contracts and Conservation Multi-Year Agreements (Continued)

E Policy for CRP-1’s Approved Beginning October 1, 2014

The average AGI limitation provides that a person or legal entity is ineligible for payments and benefits for 2015 and subsequent FY’s if the average AGI exceeds \$900,000.

Note: If a succession-in-interest occurs to CRP-1 approved on or after October 1, 2014, the successor must meet the AGI provisions in 5-PL and 6-PL.

F Determining Which AGI Rule Applies to CRP-1 Contract

The following provides guidance on which:

- payment limitation and rules apply to CRP contracts and conservation multi-year agreements
- AGI certification form must be filed at the time of contract approval.

Original Contact Approved →	On or After May 13, 2002 and Before Oct. 1, 2008	On or After Oct. 1 2008	Oct. 1, 2013 Through Sept. 30, 2014 (FY 2014)	On or After Oct. 1, 2014
AGI Rule and AGI Limitation Amount	1-PL \$2.5 mil	4-PL \$1 mil nonfarm	Not subject to AGI Provisions	5-PL \$900,000
Required Form	CCC-526 or CCC-526C	CCC-931 CCC-933 CCC-931C		CCC-941

Note: CCC-926 may have been used and was acceptable before CCC-931 was made available.

G AGI Requirements for Producers Associated With Original Contracts

Beginning June 4, 2012, follow this table to determine the requirements for filing an AGI certification form for producers.

Note: See the table in subparagraph F to determine which AGI certification form should be filed.

If the producer is an entity or joint operation, all members with an ownership share are required to file the applicable AGI certification if the entity/joint operation is required to file the certification.

IF the producer's share is...	AND the producer is...	THEN the AGI certification is...
0 percent		not required.
greater than 0 percent	<ul style="list-style-type: none"> • an individual • entity without members 	required for the producer.
	<ul style="list-style-type: none"> • joint operation • entity with members 	required for: <ul style="list-style-type: none"> • the producer, except for a joint operation • each member with an ownership share greater than 0 percent.

470 AGI Rules for CRP Contracts and Conservation Multi-Year Agreements (Continued)

H Contract Revisions

This table provides guidance for the requirements for filing an AGI certification form for producers and members of entities and joint operations when a contract is revised for either of the following reasons:

- new producer is added to the CRP contract
- new members are added to an entity or joint operation that has an interest in the CRP contract.

Note: See the table in subparagraph F to determine which AGI certification form should be filed.

If the contract is revised because...	AND the new producer has...	AND the producer is...	THEN an AGI certification is...
a new producer was added to the contract	0 percent share a share greater than 0 percent	<ul style="list-style-type: none"> • an individual • entity without members 	not required. required for the year the change became effective for the producer. Example: Producer A has CRP contract #2117 with an effective date of October 1, 2014. Producer A sells the land to Producer B on September 20, 2015. Producer B informs the County Office on January 10, 2016, that he purchased the land under CRP contract #2117. Producer B must file AGI forms for 2015 (the year the change became effective).
		<ul style="list-style-type: none"> • joint operation • entity with members 	required as follows for the year the producer is added to the contract: <ul style="list-style-type: none"> • the producer, except for a joint operation • each member with an ownership share greater than 0 percent. See exception in subparagraph I.

470 AGI Rules for CRP Contracts and Conservation Multi-Year Agreements (Continued)

H Contract Revisions (Continued)

If the contract is revised because...	AND the new producer has...	AND the producer is...	THEN an AGI certification is...
an existing producer's share was increased from 0 percent		<ul style="list-style-type: none"> an individual entity without members 	required for year the producer was originally added to the contract with a 0 percent share.
		<ul style="list-style-type: none"> joint operation entity with members 	required as follows for the year the producer was originally added to the contract with a 0 percent share: <ul style="list-style-type: none"> the producer, except for a joint operation each member with an ownership share greater than 0 percent.
a new member is added to a joint operation or an entity with members			required for year the member was added to the operation with an ownership share greater than 0 percent. See exception in subparagraph I.

I Exception to Year AGI Certification Must Be Filed

If a producer or member of an entity or joint operation was previously associated with the CRP contract, then the original AGI certification continues to apply for that producer or member if their role changes.

Example: John Farmer has 100 percent interest in a CRP contract approved in 2015.

Farmers LLC replaces John Farmer as a producer on the CRP contract in 2016. John Farmer is a member of Farmers LLC and has a 100 percent ownership interest in Farmers LLC.

Because John Farmer was already associated with the contract, the 2015 AGI certification continues to be applicable for John. However, an AGI certification **must** be filed for 2016 for Farmers LLC.

Note: The AGI certification must be for the AGI limitation applicable at the time of CRP contract approval.

470 AGI Rules for CRP Contracts and Conservation Multi-Year Agreements (Continued)

J Examples of Applicable AGI Years for Succession to CRP Contracts

In cases where there are questions on CRP contract provisions, contact the appropriate program division. For AGI questions, contact the Safety Net Division. In all cases, review 2-CRP. The following are examples of applicable AGI years for succession to CRP contracts:

- **CRP Rule for Original Contract Holders.** For effective date of contract, see 2-CRP. Skip the previous year of the initial contract year and use the 3 years before the initial year of the contract, as follows.
 - Original contract holder's contract was approved by COC on June 1, 2011. Contract is effective October 1, **2011**. First payment is October 2012. 2007, 2008, and 2009 are used for **2011** AGI.
 - Original contract holder's contract was approved by COC on June 1, 2011. Contract is effective October 1, **2012**. First payment is October 2013. 2007, 2008, and 2009 are used for **2011** AGI.

Note: The AGI certification must be for the AGI limitation applicable at the time of CRP contract approval.

- **CRP Rule for Successors.** Start with the date that caused the succession (date the land was purchased; date of inheritance), skip the previous year and use the 3 years before that.
 - Successor purchased land June 1, 2012. County Office is notified August 1, 2012. COC approved successor on October 1, 2012. Effective date of succession is determined according to 2-CRP as June 1, 2012. 2008, 2009, and 2010 are used for **2012** AGI.
 - Successor inherited land June 1, 2012. County Office is notified January 12, 2013. COC approved successor on January 19, 2013. Effective date of succession is determined according to 2-CRP as June 1, 2012. 2008, 2009, and 2010 are used for **2012** AGI.

471 AGI Waiver for Conservation Programs (7 CFR 1400.500)**A AGI Waiver**

The Administrator or NRCS Chief may waive the limitation under this section on a case-by-case basis for the protection of environmentally sensitive land of special significance. A waiver request must:

- be in writing
- show that use of conservation program funding on or adjacent to environmentally sensitive land of special significance is critical to the success of a project that provides conservation benefits to multiple producers or landowners in a community, watershed, or other geographic area
- demonstrate that the proposed action achieves enduring protection of environmentally sensitive land of special significance through use of a long-term agreement that is greater than 15 years in duration or through use of a deed restriction on the land
- present evidence that otherwise demonstrates, as determined by the Administrator or NRCS Chief, that the waiver is necessary to address the critical natural resources referenced in the definition of “environmentally sensitive land of special significance”.

Note: A waiver does not mean the applicant does not need to file CCC-941.

472 Determining AGI and Average AGI

A Determining Total AGI (Farm and Nonfarm)

Determine AGI according to the following table.

IF certification is by...	THEN AGI is the...
a person filing a separate tax return	amount reported as AGI on the final IRS tax return for the person for the applicable year.
a person filing a joint tax return	full amount reported as AGI on the final IRS tax return for the applicable year. Exception: A certification is provided by CPA or an attorney that specifies what the amounts would have been if separate tax returns would have been filed for the applicable year.
an LLC, LLP, LP, or similar type of organization	income from trade or business activities plus the amount of guaranteed payments to the members as reported on the final IRS tax returns for the applicable year.
an estate or trust	adjusted total income plus charitable deductions as reported on the final IRS tax return for the applicable year.
a corporation, including subchapter S corporation	total taxable income plus the amount of charitable contributions as reported on the final IRS tax return for the applicable year.
a tax-exempt or non-profit organization	unrelated business taxable income as reported to IRS less any income that CCC determines to be from noncommercial sources.

472 Determining AGI and Average AGI (Continued)

B Using IRS Data for AGI Determinations

This table provides guidance on AGI determinations using data reported to IRS.

IF determining AGI for...	THEN see IRS Form...	AND use the amount entered on...
corporations	1120	either of the following: <ul style="list-style-type: none"> line 30 (total taxable income) plus line 19 (charitable contributions) for S corporations, use only IRS Form 1120S, line 21 (ordinary business income).

LLC's, LLP's, LP's, or other similar type organization	1065	line 22 (total income from trade or business) plus line 10 (guaranteed payments to partners).
persons	1040	line 37 (AGI). Note: Beginning in 2018, line 7 (AGI).
tax-exempt or charitable organizations	990-T	line 34 (unrelated business taxable income) minus income that CCC determined to be from noncommercial activity. Note: Beginning in 2018, line 38 (unrelated business taxable income) minus income that CCC determined to be from noncommercial activity.

Note: See **Exhibit 17** for examples and illustrations of various tax forms and line items commonly used in the determination AGI for persons and legal entities. Variations of the referenced IRS tax forms, or comparable forms, may apply in which the line items for the appropriate income amounts will be different.

472 Determining AGI and Average AGI (Continued)

C Applicable Years for Determining Average AGI

Use this table for applicable years to be used for determining average AGI.

IF crop year is...	THEN Average AGI will be based on the following years...
2011	2007, 2008, and 2009.
2012	2008, 2009, and 2010.
2013	2009, 2010, and 2011.
2014	2010, 2011, and 2012.
2015	2011, 2012, and 2013.
2016	2012, 2013, and 2014.
2017	2013, 2014, and 2015.
2018	2014, 2015, and 2016.
2019	2015, 2016, and 2017.
2020	2016, 2017, and 2018.
2021	2017, 2018, and 2019.
2022	2018, 2019, and 2020.
2023	2019, 2020, and 2021.

D Determining Average AGI

Determine the average AGI according to the following table.

IF determination is for a...	THEN average AGI is the average...
<ul style="list-style-type: none"> • person • legal entity in business for all of the applicable 3-year period 	of AGI, including losses, for the 3 taxable years preceding the most immediately preceding complete taxable year. Note: This includes legal entities not required to file an IRS tax return or legal entities that did not have taxable income in 1 or more years of the applicable 3-year period.
legal entity not in business for all of the applicable 3-year period	AGI, including losses for only the years in the base period that the new legal entity was in business.

E AGI Compliance Worksheet

For AGI compliance determinations, use worksheet in paragraph 309.

472 Determining AGI and Average AGI (Continued)

F Rule for New Entity

A new legal entity must **not** be considered new to the extent that it takes over an existing operation and has any elements of common ownership or interests with the preceding legal entity, or persons and legal entities, with an interest in the old legal entity.

The income of the old legal entity will be averaged with the income of the new legal entity for the base period if any of the elements of commonality are present.

Example for 2014: Twin Falls Corporation is comprised of Joe Plummer (50 percent) and John Plummer (50 percent).

The average AGI from the 3 complete taxable years 2010, 2011, and 2012 for Twin Falls Corporation was \$900,000. Twin Falls Corporation had \$1 million AGI in 2013.

Twin Falls Corporation met the average \$900,000 AGI limitation, and; therefore, was determined eligible for 2014 PLC program benefits.

Example for 2015: Plummer LLC is comprised of Joe Plummer (5 percent), John Plummer (5 percent), and Twin Falls Corporation (90 percent).

Plummer LLC takes over the farming operation previously represented as Twin Falls Corporation.

The average AGI for Plummer LLC for 2015 payment eligibility purposes will be \$ the average AGI of Twin Falls Corporation for the years 2011, 2012, and 2013. Twin Falls Corporation had \$1 million AGI in 2013; \$900,000 AGI in each of the tax years 2011 and 2012. The average AGI for Plummer LLC for 2015 payment eligibility is \$933,330 (average of \$1 million, \$900,000, and \$900,000). Plummer LLC does not comply with the \$900,000 AGI limitation and therefore, is not eligible for 2015 PLC program benefits.

472 Determining AGI and Average AGI (Continued)**G Section 179 Depreciation Expense**

Section 179 depreciation expense is an elected expense that may reduce AGI, if it is not elected on the applicable tax return, then it may be considered the AGI of the following:

- individual
- partnership
- corporation
- Subchapter S corporation
- LLC.

Note: An estate or trust **cannot** make this election.

See **Exhibit 18** for additional information, examples, and illustrations of the location of section 179 depreciation amounts, if calculated and elected, on the appropriate IRS tax forms.

473 Average AGI Compliance Reviews

A Selecting Cases

Reviews for compliance with average AGI provisions may be:

- initiated by a COC through a STC representative
- STC representative
- selected on a nationwide basis by DAFP.

B Verifying Compliance

Information necessary to verify compliance with the average AGI provisions includes, but is not limited to, the following:

- balance sheets
- financial statements
- information prepared for a private lender
- Federal and State income tax returns
- reports prepared for other Government agencies
- other credible information of income for the qualification period

479 Submitting CCC-941's to IRS

A Required Submissions Beginning in FY 2020

Beginning in FY 2020, FSA will submit program year 2020 (and subsequent year) CCC-941's to IRS for a determination according to the following table.

IF a person or legal entity (including entity members, partners, or stockholders)...	THEN...
<p>has not received any determination from either IRS or State Office/SED and the AGI 2014/2018 Farm Bill flag is set to both of the following in any of the 3 prior years:</p> <ul style="list-style-type: none"> • IRS Determination = “Not Processed” • State Office/SED Determination = “No Determination” <p>Note: This is applicable to new producers or producers who previously certified to exceed the statutory limitation.</p>	<p>CCC-941 is required to be sent to IRS for verification and determination.</p>
<p>has received any of the following determinations in any of the previous 3 years:</p> <ul style="list-style-type: none"> • IRS Determinations: <ul style="list-style-type: none"> • Not Compliant • Failed Verification • State Office/SED Determinations: <ul style="list-style-type: none"> • Not Compliant – Review 	
<p>is an applicant for an FSA or NRCS multi-year conservation contract, including NRCS's easement programs</p> <p>Note: CCC-941 previously filed and not sent to IRS may need to be refiled at the time of application if the original CCC-941 signature date is over 120 calendar days old.</p>	
<p>submits CCC-941 and COC, or its designee, has reason to question the producer's certification</p>	
<p>receives an IRS determination “compliant – FSA determined” in the prior FY</p>	

479 Submitting CCC-941's to IRS (Continued)**B CCC-941's Not Required To Be Submitted to IRS Beginning in FY 2020**

CCC-941's are not required to be sent to IRS if the person or legal entity has received any of the following IRS or State Office/SED determinations in all 3 prior FY's:

- **IRS Verification/Determinations:**
 - Compliant Producer
 - Compliant – less than 3 years
- **State Office/SED Determinations:**
 - Compliant Review
 - Mismatch Verified.

CCC-941's not sent to IRS will be determined "compliant – FSA determined" for the current FY. Person and legal entity eligibility flags updated with the IRS determination "compliant – FSA determined" for the current year will require an IRS determination in the subsequent year.

See 3-PL (Rev. 2) for detailed messaging that County Offices will receive when recording the producer's AGI certification and date documentation filed.

C FY 2021 and Subsequent Year IRS Submissions

To effectively maintain integrity in the AGI certification process, FSA will require an IRS determination at least bi-annually (once every other year) for all producers submitting CCC-941 unless any conditions identified in subparagraph A apply.

480 Review and Validation Process**A IRS Calculations and Comparisons**

For each CCC-941 submitted to IRS, IRS will:

- match person's or legal entity's supplied information with IRS tax records and filings
- perform a series of calculations to determine AGI and average AGI amount for the applicable 3-year period
- compare calculated amounts to established average AGI limitation amount
- report the results of the data-matching and calculations to FSA on a regular basis.

480 Review and Validation Process (Continued)**B IRS Results Reported to FSA**

IRS provides results to FSA indicating the following information:

- whether or not the person or legal entity appears to meet the average AGI limitation
- number of years in the applicable 3-year period that tax data was available for the person or legal entity and used in the calculations
- IRS forms series on file and used in the data comparison for each person or legal entity.

IRS does **not** provide to FSA the following:

- dollar amounts representing the person's or legal entity's income
- AGI or average AGI amount calculated and used in the comparison
- a determination whether or not the person or legal entity is eligible or ineligible for payments under program that are subject to average AGI compliance.

C Receipt and Storage of Data From IRS

The information transferred from IRS to FSA is:

- received and stored in a secure database
- only accessible by authorized personnel
- used only in the AGI verification process
- **not** releasable under FOIA
- **not** available for any other purposes or uses.

D Using Data Received From IRS

The data received from IRS will be:

- validated with SCIMS and producer eligibility records
- the foundation of reports to be used for AGI compliance verification purposes.

481 Average AGI Compliance Reports**A Reports**

The average AGI compliance reports will identify persons or legal entities with the following:

- no data return from IRS
- average AGI amount that exceed the threshold levels
- average AGI amount at or below the threshold levels
- no matching records on file with IRS.

B Responsibility for Reports and Associated Mailings of Notifications

All AGI compliance reports will be completed by the National and Kansas City Offices.

Refer to 3-PL (Rev. 2) for IRS AGI Not Compliant/Failed Verification Report and IRS Mismatch Reports.

482 Unsuccessful IRS Verifications**A IRS Rejection “No Record Found on Master File”**

If CCC-941 was rejected by the IRS for the selected reason of, “No record found on Master file. No return filed for years checked using this TIN/SSN”, then:

- retain a copy of the IRS rejection letter with the returned CCC-941 in the individual’s or legal entity’s eligibility file
- send a copy of the returned CCC-941 and IRS rejection letter to the State Office specialist responsible for conducting an AGI compliance review
- State Office specialist must verify average AGI and update the applicable year AGI subsidiary value under the SED/State Office section of the subsidiary software based on the results of the review.

See Exhibit 22 for additional information.

482 Unsuccessful IRS Verifications (Continued)

B Unsuccessful IRS Verification – No Response Received From IRS

When a producer’s CCC-941 will not successfully pass IRS verification **and** the producer is not on the IRS mismatch report after 3 attempts to mail CCC-941 to the IRS, the **County Office must complete and document all of the following.**

- Provide documentation to the State Office showing that at least 3 attempts were made to send the producer’s AGI certification to the IRS.
- Provide verification from CED and other County Office personnel that all actions in steps 1 through 9 have been completed as provided in 3-PL (Rev. 2), subparagraph 26 J.

Note: The State Office specialist must review Eligibility AGI 2014 Farm Bill IRS determinations in the subsidiary system for at least 2 program years immediately before and/or after the program year in question.

IF the State Office/SED determination is...	AND/OR IRS determination is...	THEN...
<ul style="list-style-type: none"> • “Not Compliant-Review” • “No Determination” 	“Not Compliant”	compliance review must be completed.
<ul style="list-style-type: none"> • “Compliant-Review” • “Mismatch Verified” 	<ul style="list-style-type: none"> • “Compliant-Producer” • “Compliant - Less than 3 years” 	producer is AGI compliant.

Example: Missing IRS determination for 2016. If the 2014 SED determination is “Compliant-Review” and the 2015 IRS determination is “Compliant-Producer,” then the 2016 determination for the producer can be determined as AGI compliant; set the State Office/SED determination AGI subsidiary value to “Compliant-Review”.

- Document all SED/State Office determinations (based on historical AGI compliance information) on a copy of the Producer Subsidiary Print Report printed according to instructions in 3-PL (Rev. 2).
- If producer is determined AGI compliant based on historical AGI compliance and payment eligibility records, update the producer as “Compliant-Review” according to instructions in 3-PL (Rev. 2), subparagraph 26 J.

482 Unsuccessful IRS Verifications (Continued)**B Unsuccessful IRS Verification – No Response Received From IRS (Continued)**

- Place the documented Producer Subsidiary Print Report, with the producer's CCC-941 filed for the applicable program year, in the producer's eligibility file.

Note: Subsidiary Print Report must include payment eligibility records for all program years used as the basis for the determination for the person or legal entity.

If the State Office is unsure of the producer's AGI compliance following a review of the producer's AGI compliance history:

- an AGI compliance review must be timely completed by the State Office for the person or legal entity for the applicable program year
- record the AGI compliance determination for the person or legal entity in the subsidiary file for the applicable program year.

483 Average AGI Amounts Above Threshold Level**A Average AGI Above Limitation**

A report will list participants with an indicator that the average income amount exceeds the \$900,000 limitation. See paragraph 481 and 3-PL (Rev. 2).

B Producers Identified

Persons and legal entities identified on this report will be:

- notified in writing by the reviewing authority of the results of the IRS data analysis
- required to provide within 30 calendar days of notification to the reviewing authority:
 - a third-party verification from CPA or an attorney that demonstrates that average AGI does **not** exceed established limits
 - actual tax records for the years in question to demonstrate that average AGI does **not** exceed the established limits.

See paragraphs 473 and 474 for procedure and examples of nonresponsive participants.

484 Average AGI Amounts at or Below Threshold Levels**A Average AGI Within Limitations**

A report will list participants with an indicator that the average AGI amount is within the limitation for all programs.

No further actions will be required of:

- participants identified for the applicable crop, program, and FY
- County Offices in regard to eligibility files of identified participants for the applicable crop year, program year, and FY.

485 FSA Review and Compliance Determinations**A Review of Questionable Average AGI Certifications Identified Through Using IRS Data**

The reviewing authority will:

- **not** be the local FSA office staff or COC
- **be** SED
- review tax data or other information supplied by the person or legal entity
- if necessary, calculate the average AGI values based on supplied information
- confer with the person or legal entity if questions arise in this process
- determine AGI compliance for the person or legal entity
- provide results and conclusions of the review.

Note: SED's are delegated authority to act on initial AGI review determinations referenced in subparagraph B, after performing the review actions specified in this subparagraph.

B Determination of Person's or Legal Entity's Compliance With Average AGI

SED's will:

- issue written notice of determination, adverse or otherwise, to the person or legal entity
- include right to SED reconsideration, mediation, and appeal rights to NAD according to 1-APP
- send a copy of determinations involving NRCS participants to the State Conservationist
- follow paragraph 488 for an example notification letter for AGI compliance.

485 FSA Review and Compliance Determinations (Continued)**C AGI Compliance Review File for State Office Only**

An AGI Compliance Review File created for each person or legal entity and program year reviewed should contain the following after completing the review:

- all documentation (CPA or attorney statement, or tax information) received from the person or legal entity
- copy of the original AGI certification (CCC-941 or CPA or attorney certification)
- copy of the Average AGI Calculation Worksheet (Required only for Tax Return submissions) (subparagraph 486 E)
- copy of the written notice of determination or completion of the review sent to the person or legal entity.

Note: AGI Compliance Review Checklists (CCC-770 CPA and CCC-770 TAX) are required for the first five AGI compliance reviews, beginning October 1st of the current FY. SED's may require additional reviews at the SED's discretion. See Exhibit 24.

486 Average AGI Compliance Review Process**A Producer Notification**

Producers who are identified by IRS to exceed the AGI limitation according to paragraph 483 must be notified of their ineligibility for FSA/CCC and NRCS program benefits subject to AGI provisions. Such notification must include applicable appeal rights according to 1-APP. See paragraph 488 for sample notification letter.

B Producer Requests for Reconsideration

Producers may timely request reconsideration of the SED decision or appeal the SED's decision to NAD. In a request for reconsideration, the appellant must provide complete tax returns or an acceptable CPA/Attorney statement to reestablish eligibility with the average AGI provisions.

Note: A producer's failure to timely request reconsideration or appeal will result in the initial determination becoming final. The State Office Specialists must:

- set the State Office/SED Determination to "Not Compliant-Review" in Subsidiary (3-PL (Rev. 2)) to indicate the compliance review process has been completed
- notify the recording county of the results of the compliance review.

486 Average AGI Compliance Review Process (Continued)**C Reviewing Documentation Provided Under Appeal**

A review of average AGI compliance requires the following actions:

- collecting the copy of average AGI certification (CCC-941, or acceptable statement from CPA or attorney) submitted by the person or legal entity for the applicable year
- reviewing the complete tax returns for each of the 3-year qualification period; or acceptable financial documents if filing tax returns is not required; or an acceptable statement from CPA or attorney with all required items that illustrate and document income levels and average AGI compliance for the person or legal entity for the applicable year
- comparing both sets of information to the rules and regulations governing average AGI for payment eligibility for the applicable year subject to review
- verify the following:
 - subsidiary flags are accurately set to reflect the certification of record
 - there is a valid CCC-941 on file supporting record certification.

D Results and Findings

The results and findings of the review and evaluation are the basis to determine whether person or legal entity meets or exceeds the average AGI limitation.

Notify the producer of the appeal determination and afford applicable appeal rights.

When errors are discovered in either determinations or in the recording of determinations, take applicable corrective actions that include, but are not limited to the following:

- reset the eligibility AGI values according to 3-PL (Rev. 2)
- document on the report that AGI values were reset according to this subparagraph.

C FSA and NRCS Responsibilities

Each Agency will be responsible for all follow-up actions as required under the following:

- respective program procedures for payment refunds
- DCIA.

C Example Letter With Attachment for Determining AGI Ineligibility

The following is an example notification letter for use when IRS indicates the average AGI exceeds the limitation. This example letter includes an attachment.

[Date]

[Address Block]

Dear [Name]:

The Agricultural Act of 2014 (2014 Farm Bill) and Agriculture Improvement Act of 2018 (2018 Farm Bill) provides an average adjusted gross income (AGI) limitation for participants who enroll in farm and conservation programs administered by the Farm Service Agency and the Natural Resources Conservation Service. This limitation applies to individuals, legal entities, as well as to members of legal entities, that receive farm and conservation program payments.

The Farm Service Agency (FSA) and Internal Revenue Service (IRS) formed a partnership to ensure that only those participants who comply with AGI requirements receive farm and conservation program benefits. This data-sharing process maintains the confidentiality and privacy of tax return information while providing FSA information necessary to verify your average AGI certification.

You provided written consent allowing the IRS to average your AGI for the applicable tax years and to provide FSA information about whether or not your AGI exceeds the limitation amount.

For the program year identified below, IRS indicates that for program payment eligibility purposes, your average AGI exceeds the \$900,000 total average AGI limitation.

Program Year	Tax Years used to Compute Average AGI
Example: 2018	Example: 2014-2015-2016

Because the IRS has identified that your average AGI exceeds the statutory \$900,000 limitation, the FSA State Executive Director has determined that you are ineligible for benefits and payments from FSA, CCC and NRCS programs that are subject to the average AGI provisions.

You may submit documentation to the SED in support of your average AGI and if it is found that the documentation results in a different finding from that of IRS's indications, it may result in the SED reversing this determination. If you want the SED to review your average AGI, please provide either one of the following in support of this review:

- A signed statement from a CPA or attorney for the program year identified that verifies your average AGI did not exceed the applicable AGI limitation (example statement attached). If a signed statement from a CPA or attorney is provided, the statement must include all of the elements shown in the sample letter and Attachment 1.
- Copies of the complete Federal Tax Returns that were filed with the IRS, or official transcripts from IRS, for the years used to compute the average AGI.
NOTE: If your average AGI exceeded the \$900,000 limitation because you filed a joint tax return, and you would have been eligible had you filed taxes separately, you must provide a CPA or Attorney statement certifying that your average AGI, if you had filed separately, would have been at or below the \$900,000 limitation. If a CPA or attorney certification is not provided, the AGI shown on your joint tax return will be considered your AGI for program purposes.

Following a review of either the tax returns or CPA/Attorney certification, FSA will provide written notice of the results of the review.

If you discover that your applicable certification of average AGI may have been in error, you may submit a signed acknowledgment that your income exceeded the average AGI limitation in lieu of tax returns or CPA/Attorney certification statement.

C Example Letter With Attachment for Determining AGI Ineligibility (Continued)

To avoid delay or interruption in program payments or benefits, please provide the documentation to FSA within 30 days of receiving this letter. Information may be mailed to:

Farm Service Agency

Your documentation may also be emailed to:

Failure to provide documentation to support your compliance with the average AGI limitations within 30 days from the date of receipt of this letter will result in the Agency assuming the information received from IRS is correct and this notification will become a final determination based on IRS' indications. As a result you will be ineligible for program payments or benefits for the applicable program year. A refund of program payments subject to the AGI limitation for which you received directly or indirectly through another entity will be required. A separate letter will be sent with the required refund amount and instructions for submitting the refunds. If you earned benefits indirectly through a legal entity or joint operation, the entity or joint operation will be notified of the amount of refund that is required

If circumstances prevent you from providing documentation to support your eligibility for this review within the 30-day timeframe, please contact this office to request an extension.

If you believe that FSA has not properly considered the facts related to the determination of your eligibility under the AGI provisions, you have the following options:

/s/
State Executive Director

E Example of Letter Granting Reconsideration

The following is an example of a letter approving the participant's eligibility on reconsideration.

[Date]

[Address Block]

Dear [Name of Participant]:

This letter is in further reference to the appeal of the Farm Service Agency's (FSA's) decision concerning your eligibility under the Average Adjusted Gross (average AGI) income provisions for the [Insert applicable program year].

You submitted a form CCC-941, Average Adjusted Gross Income (AGI) Statement for the [2019] program year and affirmed on this form that your average AGI for the year identified in section 4 of the form, was within the limitation set forth in questions 5.

On May 1, 2014, FSA wrote you advising that information from the U.S. Department of Treasury, Internal Revenue Service (IRS), indicated that your average AGI may exceed the AGI limitation for a particular program. FSA requested additional information to assist in its review. In response, you furnished documents that, when examined without any explanation from you, showed that you exceeded the \$900,000 AGI limitation for 2014 Price Loss Coverage benefits. Accordingly, you were determined ineligible for program payments subject to that AGI limitation. A letter advising you of this decision was issued on October 27, 2014. Upon receipt of that decision, you subsequently sought reconsideration from FSA.

On December 20, 2014, FSA representatives spoke with you in a telephone hearing. In the hearing you explained that the tax documentation you submitted reflected not only your income, but also income of your spouse. You mentioned having provided additional documentation specifying the manner income of you and your spouse would have been declared and reported if you each had filed two separate returns. In addition, you affirmed that the calculations were consistent with the information supporting the joint return. At the time of the hearing, FSA had received your documentation but did not have an acceptable statement by a certified public accountant or attorney affirming the calculations on division of the joint return. On December 22, 2014, FSA received a September 19, 2014, letter from an attorney affirming your calculations and certification of not having income in excess of the \$900,000 AGI limitation for 2014.

Based on all the information submitted, including the information submitted on reconsideration, FSA has determined that you do not exceed the \$900,000 AGI limitation for 2014 Price Loss Coverage benefits.

This concludes FSA's reconsideration of this matter in accordance with 7 CFR parts 780 and 1400. A copy of this decision will be provided to local FSA offices.

F Example Letter for Disapproving Reconsideration

The following is an example of a letter disapproving the participant on reconsideration.

[Date]

[Address Block]

Dear [Name of Participant]:

This letter is in further reference to your appeal of the Farm Service Agency's (FSA's) decision concerning your eligibility under the Average Adjusted Gross Income Limitation Provisions for the 2015 program year.

BACKGROUND

You submitted a form CCC-941, Average Adjusted Gross Income (AGI) Statement, for the 2015 program year and affirmed that your average AGI for the period of years identified in section 4 of the form was within the limitation set forth in questions 5.

On June 1, 2015, FSA wrote you advising that information from the U.S. Department of Treasury, Internal Revenue Service (IRS), indicated that your average AGI may exceed the AGI limitation for a particular program benefit. FSA requested additional information from you to assist in its review. In response, you furnished documents maintaining that when your gambling losses are deducted, your average AGI was less than the \$900,000 AGI limitation applicable to the Agricultural Risk Coverage program. Consequently, you were determined ineligible for program payments subject to that average AGI limitation. A letter advising you of the decision was issued on August 27, 2015. You subsequently appealed FSA's decision to the State committee.

ISSUE

Does [Name] have average AGI in excess of average AGI limitation for particular programs?

GENERAL PROGRAM PROVISIONS

The regulations governing average AGI limitations appear at 7 CFR part 1400.

APPELLANT'S POSITION

You assert that FSA's decision is in error because it is based on the amount recorded on Line 37 of the IRS Form 1040, which is an amount before gambling losses are considered or deducted. You indicate that your income, less gambling losses, is far below the average AGI limitation of \$900,000.

FINDINGS OF FACT

1. [Name]'s average AGI as calculated for 2015 was not equal to or less than \$900,000. (IRS information received by FSA on June 10, 2015).
2. The majority of [Name]'s average AGI for three-year period applicable to the 2015 program year was from cash rents received from substantial farm and residential real estate property holding; majority of expenses and deductions were from gambling losses. (IRS information and copy of tax returns for 2013, 2012, and 2011 provided by the producer's tax preparer, Jason Accountant, CPA).
3. In accordance with 7 CFR 1400.501(c)(1), FSA correctly calculated the [Name]'s average AGI by using the amounts represented as "adjusted gross income," and recorded on Line 37 of the [Name]'s 1040 forms filed with the IRS for years 2013, 2012, and 2011. (Copies of [Name]'s tax returns for 2013, 2012, and 2011 as provided by producer's tax preparer, Jason Accountant, CPA)
4. [Name]'s average AGI is in excess of the \$900,000 AGI limitation for commodity programs specified at 7 CFR § 1400.1 for 2015. ([Name]'s September 10, 2015, letter to FSA with attachments.)

ANALYSIS

A review of the IRS information, the documentation supplied by you with your written appeal, and the tax returns provided by Jason Accountant, CPA, indicate, contrary to your certification, that your average AGI was not equal to or less than \$900,000 for the period applicable to 2015. While the IRS allows for the deduction of gambling losses to decrease your tax liability, such deductions are not and cannot be considered for the calculation of your AGI as recorded on Line 37 of your IRS 1040 forms that you filed for tax purposes. You confirmed these facts in your correspondence to FSA and in the hearing with the FSA. Accordingly, you are ineligible for payments and benefits under the \$900,000 average AGI limitation for commodity programs specified at 7 CFR § 1400.1 for 2015.

If you believe that this decision is erroneous, you have the following options:

Mediation

Mediation is available as part of FSA's informal appeal process. Mediation may enable us to narrow the issues and resolve the matter by mutual agreement. You may have to pay all or part of the cost of mediation. If you request mediation, the running of the time frame in which you may file an appeal stops. When mediation closes, the clock restarts and you will have the balance of the days remaining in that period to file an appeal. To request mediation, you must submit your written request no later than 30 calendar days after you receive this notice. To request mediation, write to the FSA State Executive Director at the following address: *[Insert SED address or Mediation Program address, as applicable.]*

Appeal to the Department of Agriculture National Appeal Division (NAD)

You may appeal this determination to NAD by filing a written request no later than 30 calendar days after you receive this notice in accordance with the NAD Appeal procedures found at 7 CFR Part 11. If you appeal to NAD, you have the right to a hearing which you or your representative may attend. Once a hearing with NAD begins, you waive any rights you might have to reconsideration, appeal to FSA, and mediation. To appeal, you must write to NAD at the following address, explain why you believe this determination is erroneous, and provide a copy to FSA. You must personally sign your written appeal to NAD and include a copy of this letter. *[Insert applicable NAD address.]*

If you do not timely exercise one of the preceding options, this must be the final administrative determination with respect to this matter in accordance with the regulations at 7 CFR Part 780 and 7 CFR Part 11.

Sincerely,

[Name]

State Executive Director

489 Determining 75 Percent Average Farm AGI (Continued)

B Definition of Average Farm AGI

Average farm AGI of a person or legal entity means income or benefits derived from the following sources.

Income Related to Livestock and Crops	Other Types of Income
Production of livestock, including but not limited to: <ul style="list-style-type: none"> • cattle, sheep, goats, swine • elk, reindeer, bison, deer • horses • poultry • fish and other aquaculture products used for food • honeybees. 	The sale of land that has been used for agriculture. The sale of easements and development rights to: <ul style="list-style-type: none"> • farmland, ranchland, or forestry land • water or hunting • environmental benefits.
The feeding, rearing, or finishing of livestock.	The rental or lease of land or equipment used for farming, ranching, or forestry operations, including water or hunting rights.
Products produced by or derived from livestock.	
Production of crops, specialty crops, and unfinished raw forestry products.	Any payment or benefit, including benefits from risk management practices, crop insurance indemnities, and catastrophic risk protection plans.
The processing, packing, storing, shedding, and transporting of farm, ranch, and forestry commodities, including renewable energy.	Payments and benefits authorized under any program made applicable to payment eligibility and payment limitation rules.
	Production of farm-based renewable energy.
Any other activity related to farming, ranching, or forestry as determined by the Deputy Administrator.	
Any income reported on IRS Schedule F or other schedule used by the person or legal entity to report income from farming, ranching, or forestry operations to IRS.	
The sale of equipment used to conduct farm, ranch, or forestry operations and the provision of production inputs and services to farmers, ranchers, foresters, and farm operations, if the average farm AGI is at least 66.66 percent of the average AGI.	
Beginning in program year 2020, wages or dividends received from a “closely held” corporation, IC-DISC, or legal entity comprised entirely of family members may be considered farm income when the legal entity is “materially participating” in farming, ranching, or forestry activities. “Materially participating” means more than 50 percent of the legal entity’s gross receipts for each tax year are derived from farming, ranching, or forestry sources. A representative of the legal entity must attach a certification to CCC-942 attesting that the legal entity “materially participates” in a farm, ranch, or forestry activity.	

489 Determining 75 Percent Average Farm AGI (Continued)**C Definition of Income From Fishing**

Income from fishing means income derived from catching, taking, harvesting, cultivating, or farming aquatic resources, such as fish, shellfish, crustacea, and other aquatic forms of animal or vegetable life, according to IRS Publication 595 or other applicable IRS instructions.

D Sources of Income Data

Income from farming, ranching, forestry operations, and related activities is:

- recorded on the IRS Schedule F, IRS Form 4835, or comparable form
- any other schedule as allowed by applicable IRS tax code to report farming, ranching, forestry operations, and related activity income
- reflected in and attached to IRS Form 1040 or other appropriate IRS income tax return filed by the person or legal entity with the IRS for tax purposes.

Income from fishing is:

- recorded on IRS Schedule C, or Schedule C-EZ, as allowed by applicable IRS tax code
- reflected in and attached to IRS Form 1040 or other appropriate IRS income tax return filed by the person or legal entity for IRS tax purposes.

E Source of Income

Pass-through income received by a person from an interest held in a legal entity may be considered income from farming, ranching, or forestry if all of the following are met:

- the legal entity is a subchapter-S corporation or similar legal entity in which all the income passes through to the interest holders
- a person who is an interest holder reports income received from the legal entity as income from farming, ranching, or forestry to the IRS
- the legal entity is primarily engaged in farming, ranching, or forestry activities.

489 Determining 75 Percent Average Farm AGI (Continued)

F Wages and Dividends

Beginning in program year 2020, wages or dividends may be considered income from farming, ranching, or forestry only **if** received from any of the following legal entities.

- IC-DISC materially participating in a farming, ranching, or forestry activity. The dividend must be derived from sources identified to be from farming, ranching, or forestry.

Note: IC-DISC is a domestic corporation that has elected to be IC-DISC according to IRS code. The corporation must be organized under the laws of a State and must meet specific IRS requirements to qualify as IC-DISC. The IC-DISC dividend is derived from the sale of exported products. Special provisions in the tax code reclassifies the income from ordinary income to dividends to obtain a preferential capital gains tax rate on the income. This provision in the tax code was enacted to make U.S. exporters competitive with other countries that had much lower corporate tax rates.

- A “closely held” legal entity materially participating in a farming, ranching, or forestry activity.

Note: A “closely held” legal entity is described as owned, directly or indirectly, by 5 or fewer individual persons holding more than 50 percent ownership interest in the legal entity structure.

Example: ABC corporation is comprised of 100 stockholders. Five or fewer stockholders must own more than 50 percent of ABC Corporation (directly or indirectly) to be considered a “closely held” legal entity.

- A legal entity comprised entirely of family members as described in 5-PL, paragraph 213, when the legal entity is materially participating in a farming, ranching, or forestry activity.

Materially participating means more than 50 percent of the legal entity’s gross receipts for each tax year in the 3-year period used to compute the average farm AGI are derived from farming, ranching, or forestry sources described in 5-PL, paragraph 312.

The producer **must** provide the legal entity’s name and TIN from which the wage or dividend is received. An authorized representative of the legal entity **must** provide a signed statement attesting that the legal entity materially participated in a farming, ranching, or forestry activity in each of the 3 years used to compute the average farm AGI.

Example: “I, [First Name Last Name], am an authorized representative of [Name of Legal Entity] and certify that more than 50% of the corporate’s annual gross receipts are derived from farming, ranching, or forestry activities for each year in the 3-year base period used to calculate the farm AGI. [signature, date]”

Note: The certification must be attached to CCC-942.

489 Determining 75 Percent Average Farm AGI (Continued)

G Formula for Calculating Average Farm AGI

Farm AGI is not the same as the gross farm income reported to IRS. Farm AGI for FSA purposes is comparable to the net income from farming and related operations. In many cases, this may be the same as the “Net Farm Profit” or “Loss” determined on Schedule F of IRS Form 1040.

FSA’s definition of “average farm AGI” also includes income from the sale of items such as agricultural related land, breeding livestock, and agricultural/conservation easements.

Additionally, it is important to consider if income was received from the sale of farm-related equipment and/or if income was received from the sale of production inputs and services before answering this question. Usually, income from these items is not considered farm income. However, if the income from farming is at least 66.66 percent of the total AGI from all sources, both farm income and nonfarm income, a special rule applies and income from these items **must** be included in the farm AGI.

H CPA/Attorney Certification Requirements

Persons, legal entities (including members, stockholder or partners) and members of joint operations seeking to qualify for program benefits subject to a calculation of the 75 percent AGI derived from farming, ranching and forestry operations must provide a certification from a licensed CPA or attorney affirming the calculation.

Certifications from a licensed CPA or attorney may be provided to FSA by either of the following:

- signing a specific form developed for the program
- a written statement affirming the person or legal entity’s percent of AGI from farming ranching and forestry operations.

CPA or attorney statements must contain all required elements as outlined in the AGI Enclosure 1 found in subparagraph 468 E.

I Recording 75 Percent Farm AGI Certifications

Record certifications in the Subsidiary web application according to 3-PL (Rev. 2) only after the producer has completed the applicable form **and** either the CPA or attorney’s signature has been provided on the form or a written certification statement from the CPA or attorney has been received.

The person claims 2 exemptions on the tax return and thereby reduces taxable income using IRS-allowable exemptions and/or deductions to \$0. Federally Recognized Indian Tribes (Continued)

Published below is an updated list of federally acknowledged Indian Tribes in the contiguous 48 states and Alaska, to reflect the addition of an Indian Tribe and various name changes and corrections.

The addition to the list of Indian entities results from the January 28, 2016, Interior Board of Indian Appeals dismissal of a request for reconsideration in docket number 16-003, *In Re Federal Acknowledgment of the Pamunkey Indian Tribe*.

To aid in identifying Tribal name changes and corrections, the Tribe's previously listed or former name is included in parentheses after the correct current Tribal name. We will continue to list the Tribe's former or previously listed name for several years before dropping the former or previously listed name from the list.

The listed Indian entities are acknowledged to have the immunities and privileges available to federally recognized Indian Tribes by virtue of their government-to-government relationship with the United States as well as the responsibilities, powers, limitations, and obligations of such Tribes. We have continued the practice of listing the Alaska Native entities separately solely for the purpose of facilitating identification of them and reference to them given the large number of complex Native names.

Dated: April 25, 2016.

Lawrence S. Roberts,

Acting Assistant Secretary—Indian Affairs.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-531-532 and 731-TA-1270-1273 (Final)]

Polyethylene Terephthalate Resin From Canada, China, India, and Oman

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially injured by reason of imports of polyethylene terephthalate ("PET") resin, provided for in subheading 3907.60.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce ("Commerce") to be sold in the United States at less than fair value ("LTFV") with respect to Canada, China, India, and Oman and have been found by Commerce to be subsidized by the governments of China and India.²

Background

The Commission, pursuant to sections 705(b) and 735(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)), instituted these investigations effective March 10, 2015,

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² All six Commissioners voted in the affirmative. The Commission also finds that imports subject to Commerce's affirmative critical circumstances determinations are not likely to undermine seriously the remedial effect of the countervailing and antidumping duty orders on PET resin from India.

A Section 179 Depreciation Expense

Section 179 depreciation expense is an elected expense that may reduce the AGI of the following:

- Individual
- Partnership
- Corporation
- Subchapter S corporation
- Limited liability company (LLC).

Note: An estate or trust **cannot** make this election.

B Applicability and Limitations

An elected section 179 depreciation expense deduction is:

- allowable for all tax years used in the calculation of the \$900,000 AGI amount for the 2011 and subsequent crop, program, and FY's
- an annual amount calculated by the tax filer.

C Calculation of Section 179 Depreciation Expense

Qualified tax filers that elect this expense deduction:

- enter this amount on the appropriate line item on the appropriate tax form(s)
- attach the completed IRS Form 4562 to the tax forms filed with the IRS.

D AGI Determination and Section 179 Expense Deductions

If a producer elected and reported a section 179 expense deduction on IRS tax filings, this deduction, if allowable and equal to the maximum amount determined on Form 4562:

- may or may not be included in the IRS calculations of the income amounts as shown at specific line items on the applicable tax filings
- if not included in the IRS calculations on the tax forms, additional or manual calculations will be necessary to account for this deduction in determining AGI when using these specific income amounts as reported to the IRS on the producer's tax filings.

Section 179 Depreciation – Information, Examples, and Illustrations (Continued)

E Record of Calculated Section 179 Depreciation Expense Amount on IRS Tax Forms

Memorandum of Agreement

The following is the Memorandum of Agreement between NRCS, FSA, and CCC for implementing common provisions, including payment eligibility and payment limitation provisions through September 30, 2014.

<p style="text-align: center;">Memorandum of Agreement (MOA)</p> <p style="text-align: center;">Between</p> <p style="text-align: center;">Natural Resources Conservation Service (NRCS),</p> <p style="text-align: center;">Farm Service Agency (FSA), and</p> <p style="text-align: center;">Commodity Credit Corporation (CCC)</p> <p style="text-align: center;">For</p> <p style="text-align: center;">Implementation of Common Provisions, Including</p> <p style="text-align: center;">Payment Eligibility and Payment Limitation Provisions</p> <p style="text-align: center;">Through September 30, 2014</p> <p>I. PURPOSE</p> <p>The purpose of this (MOA) is to provide for the implementation, cooperation, expectations and responsibilities between FSA, NRCS, and CCC in administering provisions common to the agencies including all payment eligibility and payment imitation provisions as found in the Food, Security Act of 1985, as amended by the Agricultural Act of 2014, and regulations at 7 CFR Part 1400</p> <p>II. GENERAL PROVISIONS</p> <p>FSA and NRCS administer various farm commodity and conservation programs in which participants are subject to payment eligibility and payment limitation requirements in 7 CFR Part 1400. The administration of these programs requires the obtaining of information, determination of eligibility, and maintenance of this data. FSA has the administrative responsibilities for collecting and maintaining data that includes the name and address of the participant (SCIMS and farm records); information about the participant's farming operation (subsidiary files); and information on the participant's annual income (AGI files). FSA uses this information to make determinations of the participant's eligibility for program payments and restrictions on the amount of such payments that can be received by the participant, both directly and indirectly, for direct attribution. FSA has developed custom software applications for web-based environments to store the eligibility data of all participants. FSA maintains this data and ensures the credibility and accuracy of this data. FSA performs the administrative compliance duties of the payment eligibility requirements and determinations of all participants of record. As such, FSA has also entered into agreements with the IRS and the Social Security Administration to verify and validate the accuracy of the participant information. FSA provides this data and develops common eligibility routines for use by NRCS in the administration of conservation programs for which they have responsibility.</p>

 24. Provide to NRCS a list of participants determined to be non-compliant with the average AGI limitations for appropriate actions
 25. Conduct regular reconciliation processes to identify participants that have received current year benefits, but have not been included on any data return from the IRS, which indicates a consent form has not been submitted.
 26. Provide to NRCS a list of participants identified as current year payment recipients, but have not provided a consent form to the IRS for appropriate follow-up actions.
