24 Collecting Commodity Assessments and Other Fees

A Applicability

[7 CFR 1405.9] The Secretary of Agriculture has the authority to collect approved State and Federal commodity assessments on behalf of State or Federal entities from the proceeds of MAL's. The assessment may be collected at the time MAL is disbursed or forfeited. The provisions outlined in this paragraph include new and existing collections.

Grain sorghum and soybeans have Federal assessments that would be collected in addition to any individual State assessment.

B Conditions for Collection

For State commodity assessments the State entity **must**:

- submit a written request for commodity assessment collection and a copy of the State legislation authorizing the commodity assessment to the applicable SED; the written request **must** indicate when the assessment is to be collected according to subparagraph A, and the name of the State entity director or official authorized to enter into an agreement with CCC
- provide a written opinion from the Office of the Attorney General that verifies the State director or authorized official has legal authority to enter into an agreement with CCC and that the State legislation authorizing commodity assessment collection is in compliance with Pub. L. 108-470
- have the director or authorized signing official of the State entity sign MOU agreeing to the terms and conditions as provided in MOU according to subparagraph C.

For Federally mandated commodity assessments, the Federal entity **must** submit a written request and a copy of the Federal statute authorizing the commodity assessment collection to the PSD Director.

CCC will deduct the commodity assessments according to the Federal statute.

24 Collecting Commodity Assessments and Other Fees (Continued)**C MOU's**

State entities are **required** to enter into an agreement with CCC for the collection of commodity assessments. The authorized SED or authorized official will be **required** to sign MOU (subparagraph D), **before** assessment collection can begin.

For State entities, MOU will be sent to SED, if the request is approved, to obtain final signatures of the respective parties. State entities have 30 calendar days to return the signed and dated MOU to SED. SED or designee will sign MOU on behalf of CCC and submit the original signed and dated MOU to PSD as soon as possible.

24 Collecting Commodity Assessments and Other Fees

D Example MOU

The following is an example of an MOU that **must** be obtained to continue the collection of existing commodity assessments.

<p style="text-align: center;">MEMORANDUM OF UNDERSTANDING BETWEEN (name of State association, board, or commission) AND COMMODITY CREDIT CORPORATION</p> <p>1. This Memorandum of Understanding supersedes all previous Memoranda of Understanding entered into by CCC regarding such collections.</p> <p>2. CCC will cooperate with the (association, board, or commission) in the collection of such assessments with respect to (specify commodity) which is pledged as collateral for a CCC MAL or forfeited to CCC in satisfaction of such loan.</p> <p>3. Section _____, Revised Statutes of _____ authorizes the creation of the (name of State association, board, or commission) whose duties include, among other things, conducting programs of market development, education, publicity, research, and the promotion of the sale and use of (specific commodity). This Act provides authority for an assessment to be levied on (specific commodity) for the purpose of carrying out the activities of the (association, board, or commission).</p> <p>4. The producer is responsible for payment of the assessment to the (association, board, or commission) with respect to (specify commodity) pledged as collateral for a CCC MAL or forfeited to CCC under such loan. CCC will undertake to deduct from loan proceeds otherwise owed the producer the amount of the assessment which shall be determined by multiplying the applicable assessment rate by the quantities of (specify commodity) pledged as collateral for a CCC MAL or forfeited to CCC. CCC shall have no obligation or liability for failure to collect the (specific commodity) assessment from any producer. The (association, board, or commission) agrees that, in the event of suit against CCC to recover any sums collected as assessments, the (association, board, or commission) will arrange for the defense of such action or, at the election of CCC, the (association, board, or commission) will reimburse CCC for any costs incurred by the CCC in the defense of such action. In addition, the (association, board, or commission) will indemnify CCC for any amount which CCC is required to repay to a (specify commodity) producer from whom the assessment was collected.</p> <p>5. The producer's copy of the MAL or delivery documents, which will show the amount of the (specify commodity) assessment collected, will serve as the producer's invoice and evidence the assessment has been collected. In cases where double assessments have been paid by producers the (association, board, or commission) agrees upon receipt of substantiating documents to promptly grant a refund of the double assessment.</p>

24 Collecting Commodity Assessments and Other Fees

7. The **(association, board, or commission)** will not release any information received under this Memorandum of Understanding to any other individual or organization.

8. Any refund of the amount of such assessment shall be made directly to the producer by the **(association, board, or commission)**. CCC shall have no responsibility for making refunds.

9. CCC will not have any responsibility to make additional collection of any **(specify commodity)** assessment where, owed to error, the amount of such assessment was undercollected. CCC will notify the producer of the amount owed as the result of an error and a copy of this notification will be provided to the **(association, board, or commission)**.

10. The provisions of this Memorandum of Understanding shall not apply to **(specify commodity)** handled by a CCC-approved cooperative marketing association (CMA) or a CCC-approved designated marketing association (DMA). *--**Note:** CCC-601(6)(i) contains lobbying disclosure requirements. Loan applicants certify to compliance when signing CCC-677 or CCC-678. Therefore, for loans exceeding \$150,000 where the loan proceeds will **not** be used to lobby or otherwise influence the actions of a Federal official about a particular loan, CCC-674, SF-LLL, and SF-LLL-A are **not** required.--*

G Assistance

For situations **not** covered in this paragraph, County Offices shall contact PSD through their State Office price support specialist for additional assistance.

29 Misaction/Misinformation and Finality Rule

A Misaction/Misinformation Provisions

Follow 7-CP if an otherwise eligible producer is deprived of the benefits of the loan and LDP programs because administering the programs resulted in:

- errors
- misaction
- misinformation
- omissions.

B Definition of Misaction/Misinformation

[7 CFR Part 718] Misaction/misinformation means performance rendered in good faith based on action of, or information provided by, an authorized COC or STC representative.

C Applicability

Misaction/misinformation is **not** applicable when producers:

- knew, or had sufficient reason to know, that the action or advice on which the producer relied was improper or erroneous
- relied or acted upon their own understanding or misinterpretation of program provision, notices, or advice.

D Reason to Know

Misaction/misinformation policies do **not** apply to cases where a producer has reason to suspect the information was erroneous or the action to be improper.

There is **no** legal authority to grant relief in cases where misaction/misinformation **cannot** be determined.

E Equitable Relief for Misaction/Misinformation and the Finality Rule

See 7-CP for policies and procedures for granting equitable relief.

30 Offsets**A Basic Provisions**

Offsets are applicable for amounts owed CCC, FSA, or other creditors. The offset amount may be shown on CCC-679 or established as the result of a claim against the producer.

Make administrative offsets from loan or LDP proceeds owed to producers, if appropriate.

B Joint Disbursement of Loan Proceeds

The balance of the loan proceeds may be disbursed jointly to the producer and lienholder **after** applicable administrative offsets to CCC, FSA, or other creditor agencies according to 58-FI, have been made when the lienholder requests joint disbursement on CCC-679 for:

- recorded lien
- unrecorded lien, if **actual** notice of lien is given to the County Office.

For other creditor agency debts received in the County Office:

- **before** the filing date of any recorded lien or notification of an unrecorded lien, the lienholder **must** agree to the creditor agency debt offset **before** disbursement of loan proceeds jointly to the producer and lienholder by checking CCC-679, item 5, block (c)
- **after** the filing date of any recorded lien or notification of an unrecorded lien, the creditor agency debt shall be offset **only** if the lienholder agrees to disburse the loan proceeds solely to the producer by checking CCC-679, item 5, block (a).

30 Offsets (Continued)

C Authorizing Offsets

A loan disbursement can be offset to provide for charges other than in-handling, if the warehouse receipt indicates in-handling charges have been provided for or paid.

If using rice EWR's, the prepaid in-handling indicator must be set to "Y" to indicate in-handling charges have been provided for or paid, for the quantity to be eligible for a warehouse-stored MAL.

* * * Producers must provide acceptable documentation specifying that all in-handling charges have been provided for or paid **before** either of the following:

- a warehouse-stored MAL will be disbursed for the commodity
- recording settlement of a forfeiture farm-stored MAL.

Note: See subparagraph 540 E.

Offsets may be made for amounts contained on a separate statement of unpaid charges, or for a separate bill for unpaid charges, if **both** of the following apply:

- charges on the statement or bill are associated with other than handling of the commodity represented by the warehouse receipt
- charges have been approved by DAFP.

These charges are **not** considered a lien, but **must** be included on CCC-679, item 5, block (c), if an offset will be made for the charges (paragraph 404).

If an offset applies, do **not** disburse the loan unless the lienholder agrees to the offset on CCC-679 by checking item 5, block (a) or (c). If any lienholder checks item 5, block (b), the loan shall **not** be approved.

D Offsets from Other Program Payments

A producer with an outstanding MAL may request the County Office to offset other specific payments to apply to a specific outstanding MAL. Any requests **must** be writing.

If requested, County Office shall:

- set the "Other Agency Claim" flag in Financial Services
- request applicable payment be made to CCC and sent to County Office
- apply to applicable outstanding MAL as a "lump sum" repayment
- **not** establish a receivable in NRRS to offset a payment.

Note: The producer's request is only applicable if the commodity is still in storage.

31 Overdisbursements, Overpayments, and Receivables

A Overdisbursements, Overpayments, and Receivables

A producer is personally liable for repaying:

- any loan amount disbursed or LDP exceeding the amount authorized, including any charges plus applicable interest
- any deficient amount determined to be owed CCC, plus interest.

B Notifying Producers

For loans and LDP's, producers will be notified of amounts owed of \$25 or more in writing, *--according to Exhibit 11. Take action, as applicable, according 58-FI and the following.--*

IF...	THEN...
the overdisbursement or overpayment is not because of a loan or LDP violation	<p>collect the amount owed as follows:</p> <ul style="list-style-type: none"> • for loans, if the amount owed is \$25 or less and is discovered: <ul style="list-style-type: none"> • before settlement, do not collect immediately; however, collect on the next repayment • after settlement, do not send the producer a demand letter; immediately write off the small balance according to 12-PS • *--for LDP's processed through eLDP or APSS, if the amount--* owed is: <ul style="list-style-type: none"> • \$25 or less, write off the small balance according to 12-PS • more than \$25, follow procedure in 58-FI for demanding payment.

--34 Payment and AGI Limitation for 2013-2018 Crops*A Payment Limitation for 2013-2018 Crops**

For the 2013 crop year, CCC will **not** limit market loan gains and LDP's.

For the 2014 through 2018 crop years, there are payment limitations on LDP's, and market loan gains associated with the MAL program.

The total amount of payments received, directly or indirectly, by a person or legal entity (except joint ventures or general partnerships), for all commodities other than peanuts, is limited to no more than \$125,000 annually, for a combination of the following programs:

- price loss coverage
- agricultural risk coverage
- market loan gains
- LDPs.

A person or legal entity that receives payments for peanuts, directly or indirectly, has a separate \$125,000 payment limit annually for the same programs.

Payment limitations do **not**:

- apply to MAL disbursements
- prohibit individual or entities from receiving an MAL, but the MAL must be repaid at principal plus interest
- apply to loan forfeitures because indirect benefits realized by producers are not applicable.

Note: There was not a payment limitation for market loan gains and LDP's for the 2008 through 2013 crop years.

B AGI Limitation Rule for 2013-2018 Crops

A person or legal entity shall not be eligible to receive:

- market loan gains or LDP benefits for the 2013 crop year, if the average nonfarm AGI exceeds \$500,000.
- market loan gains or LDP benefits during the **2014 through 2018** crop years if the average AGI exceeds \$900,000.--*

Exception: The person or entity is eligible for MAL, but the loan **must** be repaid at principal plus interest.

C Estates and Trusts

F Hybrid Seed Contract Producer Eligibility

When determining if a producer under a hybrid seed contract is eligible for MAL or LDP, the County Offices shall **not** take into consideration existing hybrid seed contracts when determining beneficial interest eligibility. However, all other MAL and LDP program requirements are applicable.

Note: The contract **must:**

- specify that it is a hybrid seed contract
- be for an eligible loan commodity.

201 Ineligible Producers**A Ineligibility**

Ineligible producers are producers who:

- *--have **not** reported acreage for all cropland on the farms requesting MAL and/or LDP for the current crop year according to 2-CP

Note: Acreage reports must be obtained for the specific commodity on the farm **before** MAL disbursements and LDP benefits are received for that specific commodity. Report acreage, according to 2-CP, for all cropland on the farm on which the crop pledged as collateral or LDP was produced. Failure to report all cropland on a--* farm shall be considered noncompliance with program requirements and considered a violation according to 2-CP, Part 2.

- are convicted under Federal or State law of a controlled substance violation according to 1-CM
- have a delinquent nontax debt to the Federal Government according to paragraph 202
- violate FCIC provisions as determined by FCIC.

202 Delinquent Federal Nontax Debtors

A DCIA Rule

DCIA mandated a new eligibility requirement for persons seeking Federal financial assistance. DCIA provides that a person owing a delinquent Federal nontax debt to the Federal Government is ineligible for Federal financial assistance, including direct loans (other than disaster loans), loan insurance, or guarantees.

This table provides action that County Offices shall take when a producer is a delinquent Federal nontax debtor.

IF the...	THEN...
delinquent Federal nontax debt has been resolved before the final loan availability date	use the rate in effect on the day the original MAL or LDP request was made.
producer certifies that he or she has an unresolved delinquent Federal nontax debt	hold the request until the final loan availability date and if the producer does not resolve the delinquent Federal nontax debt before the final loan availability date, immediately notify the producer that he or she is ineligible and the request is disapproved.

Notes: See 58-FI for alternate methods for resolving delinquent Federal nontax debts.

See subparagraphs E and F for additional information about DCIA.

For barring delinquent debtors from obtaining Federal financial assistance purposes, a debt is **not** in delinquent status if the debtor is the subject of, or has been discharged in, a bankruptcy proceeding. Producers with an unresolved delinquent Federal nontax debt **are** considered eligible to receive MAL or LDP if the unresolved delinquent Federal nontax debt is the subject of a bankruptcy proceeding.

--Producers owing tax debt to IRS are still eligible for MAL or LDP as long as all other eligibility and program requirements are met. See subparagraph 505 A for MAL's.--

202 Delinquent Federal Nontax Debtor (Continued)**B MAL's or LDP's Issued Before a Delinquent Federal Nontax Debt Is Discovered**

If it is discovered, after MAL or LDP is issued, that the producer has a Federal nontax debt that becomes delinquent, the County Office shall:

- notify the producer that the delinquent Federal nontax debt **must** be resolved **before** the final loan availability date
- discuss, with the producer, alternatives to resolve the delinquent Federal nontax debt
- inform the producer that, if MAL was obtained and the delinquent Federal nontax debt is **not** resolved **before** the final loan availability date, MAL **must** be immediately called and **must** be repaid at principal plus interest
- inform the producer that, if LDP was received and the delinquent Federal nontax debt is **not** resolved **before** the final loan availability date, LDP **must** be repaid with interest.

C Producer Incorrectly Certifies to the DCIA Question

If it is discovered that a producer incorrectly certified to the DCIA question, the County Office **must**:

- immediately notify the producer that the loan is called and **must** be repaid at principal and interest
- follow procedures in Part 4 for MAL or LDP violations.

If the producer has resolved the delinquent debt and COC makes a good faith determination, then MAL or LDP may be disbursed.

202 Delinquent Federal Nontax Debtor (Continued)**D Delinquency Resolution**

For DCIA purposes, a producer's delinquent debt is resolved **only** if the producer does 1 of the following:

- pays or otherwise satisfies the delinquent debt in full
- pays the delinquent debt in part if the creditor agency accepts partial payment as a compromise instead payment in full
- cures the delinquency under terms acceptable to the creditor agency in that the person pays any overdue payments, plus all interest, penalties, late charges, and administrative charges assessed by the creditor agency because of the delinquency
- enters into a written repayment agreement with the creditor agency to pay the debt, in whole or in part, under terms and conditions acceptable to the creditor agency.

Note: If a portion of a debt has been written off or compromised instead of payment in full, after the person has paid the debt in part through an approved payment agreement, the debt would be considered "resolved".

Follow 58-FI, Part 9 for working out debts by installments.

202 Delinquent Federal Nontax Debtor (Continued)**E Additional Information About Delinquent Federal Nontax Debt**

This example represents a farm program delinquent debt.

As a result of LDP spot check, the producer over-certified to production and was overpaid \$50; therefore, the County Office shall establish a receivable through NRRS, according to 12-PS.

F DCIA Questions and Answers

Q1. If a producer has an unresolved delinquent Federal nontax debt, can the producer lock-in on CCC-697?

A1. No. If the producer has an unresolved delinquent Federal nontax debt at the time of the CCC-697 request, the producer can only repay at principal plus interest.

Q2. If a partnership applies for LDP and 1 member (25 percent shareholder) of the partnership has a delinquent Federal nontax debt, is the partnership eligible to receive LDP?

A2. Yes. The partnership will receive 75 percent of LDP and the delinquent debtor's pro-rata share (25 percent shareholder) of the partnership is offset and applied to the delinquent Federal nontax debt.

Q3. Are delinquent producers who enter into Federal agency-approved payment agreements eligible for MAL's and LDP's if the producer is current on the payment agreement?

A3. Yes. The producer is eligible if the producer is able to resolve the delinquent Federal nontax debt with the creditor approved payment agreement on or before the date MAL's and LDP's are issued.

202 Delinquent Federal Nontax Debtor (Continued)

F DCIA Questions and Answers (Continued)

Q4. If a producer forwards the MAL disbursement or payment from LDP to cover part or all of the producer's delinquent Federal nontax debt, can MAL or LDP be issued?

A4. Yes, as long as an approved payment agreement has been completed according to 58-FI and the MAL disbursement or payment from LDP is applied to the delinquent debt under the terms of the approved payment agreement.

Notes: It is the creditor agency and the producer who develop the terms in the approved payment agreement that will resolve the delinquent Federal nontax debt. If the LDP will resolve the delinquent Federal nontax debt in full or in part, the producer may apply the LDP to the delinquent Federal nontax debt and make acceptable payment arrangements with the creditor for the remainder of the delinquent Federal nontax debt. For FLP purposes, at the time of disbursement MAL or LDP must cure the delinquency in full.

If a portion of the debt has been written off, after the person has paid the debt in part and where the creditor agency accepts this partial payment as a compromise instead of payment in full, the entire debt would be deemed resolved.

Q5. If a producer repays MAL and a market gain is earned and it is later discovered that the producer had a delinquent Federal nontax debt at the time of the MAL repayment, is the producer entitled to retain market gain?

A5. No. The producer must repay the market gain with interest since it was discovered that he/she had a delinquent Federal nontax debt at the time of MAL repayment.

Q6. If 2 producers sign the same CCC-633 EZ page 2 and Producer A is not delinquent debtor, but Producer B has a delinquent Federal nontax debt, can FSA pay Producer A his/her share of LDP?

A6. Yes. Producer A is entitled to receive his/her share of LDP and, if Producer B resolves the delinquent Federal nontax debt before the final loan availability date, he/she then will be entitled to receive his/her share of LDP.

203 Eligible Foreign Person

A Foreign Person Eligibility

--See 4-PL and 5-PL to determine eligibility requirements for foreign persons.--

The applicable CCC-902 is needed to be on file at the time of MAL disbursement or LDP request to determine foreign person status. * * *

B Handling Disbursements Involving an Ineligible Foreign Person

If a County Office determines that an ineligible foreign person has received a loan or LDP disbursement, the County Office shall follow this table.

If program year requirements are in effect for the crop year, producer eligibility will be determined according to 1-CMA, Part 7.

- **not** contain mercurial compounds, toxin-producing molds, or other substances poisonous to humans or animals

Exception: For commodities containing vomitoxin and aflatoxin, see paragraph 231.

- meet the definition for the applicable commodity in the Official United States Standards for grain, rice, whole dry peas, split peas, and lentils, or beans for pulse crops, as applicable

Note: See subparagraph J for eligible commodities, classes, subclasses, and varieties.

- **not** be:
 - substituted, purchased, bartered, or received as a gift
 - produced on land owned by the Federal Government, if the land is occupied without lease, permit, or other rights of possession.

Note: A commodity pledged as collateral for loan or LDP that is **not** produced and harvested by the eligible producer, but was exchanged for a commodity produced and harvested by the eligible producer is ineligible for loan and is considered a substitution.

B Substituted Commodities

Substituted commodities are commodities that are not harvested, sheared, or slaughtered by the eligible producer for the applicable crop year. Substituted commodities are **ineligible** for MAL's and LDP's.

If a County Office determines that a loan or LDP has been disbursed on substituted commodities, handle according to Exhibit 11, subparagraph M.

225 Eligible Commodities (Continued)

225 Eligible Commodities (Continued)

D Established STC Maximum Acceptable Moisture Level

STC shall:

- establish maximum acceptable moisture levels for all harvested commodities listed in paragraph 225 that are applicable for the State
- annually review the maximum acceptable moisture levels to assess CCC's risk.

Note: Starting with the 2010 crop, the maximum acceptable moisture levels established for Price Support purposes will also be used for SURE program purposes.

E Commodities Exceeding Maximum STC Moisture Levels

All harvested loan commodities with moisture exceeding the established maximum STC level are **only** eligible for recourse loans according to paragraph 1210. Eligible quantity shall be adjusted for moisture to the applicable standard in 2-LP (see shrink factors in Exhibit 12).

Harvested loan commodities with moisture exceeding the established maximum STC level are **ineligible** for LDP's.

F Commodities Exceeding the Moisture Standard in 2-LP

All harvested loan commodities with moisture levels falling between the applicable 2-LP standard and maximum STC are eligible for nonrecourse loans and LDP's. Eligible quantity shall be adjusted for moisture to the applicable standard in 2-LP. See shrink factors in Exhibit 12.

***--Note:** The applicable shrink factors shall apply when adjusting the quantity for excess moisture, according to subparagraph 528 C and Exhibit 12.--*

Only corn and grain sorghum are also eligible for recourse loan if the moisture levels fall between the applicable 2-LP standard and maximum STC.

Note: See paragraph 1210.

G Commodities At or Below the Moisture Standard in 2-LP

All harvested loan commodities with moisture levels at or below the applicable 2-LP standard are eligible for nonrecourse loans and LDP's. Quantity adjustments are **not** needed for moisture.

H Low Quality Commodities

Low quality commodities include:

- sample grade commodities
- commodities that do **not** meet warehouse-stored loan standards excluding moisture
- commodities that have a test weight discount on the additional schedule of discounts.

***--Note:** Wheat is not a low quality commodity when the **only** discount on the additional schedule of discounts is falling numbers. See information on falling number discounts for wheat in 2-LP Grains and Oilseeds.--*

Low quality commodities:

- are eligible for nonrecourse loans; however, the loan rate is 20 percent of the applicable base county loan rate; no other discounts will be applied to the nonrecourse loan disbursed at the reduced loan rate

Example: Base county loan rate is \$2 x 20 percent = \$0.40 low quality commodity nonrecourse loan rate.

- must be repaid at principal plus interest
- that are delivered to CCC in settlement of a nonrecourse outstanding loan, have a settlement rate of zero.

I Subsequent Crops

Subsequent crops produced and harvested on acreage that previously produced a loan eligible commodity are eligible for MAL and LDP, if STC determines that the subsequent crops are of a type or variety that could produce a crop that would meet U.S. standards for the applicable commodity. The subsequent crop produced and harvested **must** be reported on the annual acreage report. For crops that are harvested as silage or hay, COC shall base the reasonable yield on farming practices and other pertinent information that may impact the yield determination.

B Requesting Loans and LDP's

Requests for loans and LDP's shall be made on or before the final availability date for the respective commodities.

226 Loan and LDP Final Availability Dates (Continued)

C Final Availability Date

[7 CFR 1421.7] This table provides the final availability date for loans and LDP's for the commodities listed.

Commodity	Final Availability Date

Note: The Continuing Appropriations Resolution, 2013, suspended mohair MAL's and *--LDP's for FY 2013. Mohair is eligible for 2014 through 2018 crop year MAL's and LDP's.--*

When the final availability date falls on a nonworkday, the final date shall be extended to the next workday.

D Final Disbursement Date

The approved disbursement date shall **not** be later than 30 calendar days after the final loan availability date. When the final loan availability date falls on a nonworkday, the final date shall be extended to the next workday.

State Offices may grant extensions in 15-calendar-day increments, as applicable.

227 Beneficial Interest

A Applicability

[7 CFR 1421.6] To be eligible for a loan or LDP, **both** of the following shall apply:

- eligible producers, heirs of the producer, or another producer who succeeds in interest to the farming unit, according to paragraph 200, **must**:
 - have beneficial interest in the commodity
 - be in compliance with HELC and WC provisions
- commodity must have been produced by an eligible producer on a farm that is in compliance with the annual program requirements.

For LDP's only, if the producer filed CCC-633 EZ page 1, **before** loss of beneficial interest the:

- the commodity would be eligible for LDP
- LDP rate would be based on the rate in effect on the day beneficial interest was lost, if before final loan availability date and both of the following are true:
 - payment is requested on CCC-633 EZ page 2, 3, or 4
 - required documentation is presented.

Note: Purchasing a growing crop does **not** transfer beneficial interest **unless** the producer is succeeding in interest to the farming unit.

B Definition of Conditions for Beneficial Interest

Conditions for beneficial interest mean a producer * * * has **both** control of the commodity and title to the commodity.

Note: CCC has determined that if a producer has control of the commodity, it is assumed that the producer has risk of loss of the commodity; therefore, the risk of loss component is removed when determining whether a producer has beneficial interest in the commodity.

227 Beneficial Interest (Continued)

B Definitions of Conditions for Beneficial Interest (Continued)

This table defines beneficial interest, but is **not** limited to the following.

Condition	Definition
Control of the commodity.	A producer has control of the commodity if the producer retains: <ul style="list-style-type: none"> the ability to make all decisions affecting the commodity all risk of loss associated with producing and maintaining the quality and quantity of the commodity.
Title to the commodity.	A producer may be considered to have title to the commodity if the producer has not sold or delivered the commodity, including delivering warehouse receipts.

C Definition of Option to Purchase

Option to purchase means an agreement allowing the buyer, at the buyer's option, to enter into a contract at a later date to buy a commodity. The option to purchase does **not** give the buyer any interest in the commodity and expires at a specified time.

227 Beneficial Interest (Continued)

D Definition of Sales Contracts

Sales contracts, including advance sales contracts, contracts to sell, price later contracts, and contracts for future delivery, mean the buyer has an interest in the commodity at a time specified in the contract or at a time implied by law.

In many cases, deferred price, forward, or price later contracts allow producers to select the sales price of the commodity at the time the contract is entered into or at a later date.

Producers under a deferred price, forward, or price later contract will be considered to have:

- beneficial interest in the commodity, if there are **no** restrictive or contradictory clauses within the contract that may cause the producer to lose beneficial interest in the commodity until the earlier of the following:
 - date payment is received
 - date commodity is applied in fulfillment of the contract
- lost beneficial interest if the contract states that ownership or title in the commodity transfers at any of the following specific times:
 - commodity is priced
 - date of contract signing
 - date the commodity is delivered.

227 Beneficial Interest (Continued)

E Option to Purchase Language

If a producer has entered into an option to purchase, the producer may receive a payment from the buyer and retain beneficial interest if the option to purchase contains a provision **exactly** as follows:

“Notwithstanding any other provision of this option to purchase, title and control of the commodity, and beneficial interest in the commodity, as specified in 7 CFR Part 1421 shall remain with the producer until the buyer exercises this option to purchase the commodity. This option to purchase shall expire, notwithstanding any action or inaction by either the producer or the buyer, at the earlier of: (1) the maturity of any Commodity Credit Corporation loan which is secured by such commodity; (2) the date the Commodity Credit Corporation claims title to such commodity; or (3) such other date as provided in this option.”

Inserting this language into a sales contract does **not** mean that the producer retains beneficial interest when a payment from the buyer is made under the contract.

If a producer has or will receive any payment from the buyer in return for a sales contract, beneficial interest is lost when the payment is made.

F Retaining Beneficial Interest

For a producer to retain eligibility to obtain a loan or LDP, **any** contract signed by a producer must conform to **all** provisions for beneficial interest.

Beneficial interest **must** be retained by a producer from harvest continuously through:

- for LDP, the date LDP is requested
- for loan, the earlier of the following date:
 - the loan is repaid
 - CCC takes title to the commodity.

227 Beneficial Interest (Continued)

G Losing Beneficial Interest

If a producer sells the equity in the commodity, the commodity is immediately ineligible for a loan or LDP. If the commodity has been pledged as collateral for a loan, or LDP has been made, immediate repayment of the loan principal and charges, plus interest, or LDP amount plus interest, as applicable, is **required**.

When beneficial interest in the commodity is lost by the producer, the commodity remains ineligible for loan or LDP even if the producer regains any of the following:

- control of the commodity
- title to the commodity.

The producer loses beneficial interest upon signing any contract that contains, but is **not** limited to, the following provisions:

- buyer has the option to require the producer to obtain loan or LDP
- requires producer to obtain permission from buyer to request a loan or LDP
- requires that casualty losses be paid to the buyer's account.

H Transferring or Assigning Interest

Interest in a commodity or the right to redeem a commodity under loan may **not** be transferred or assigned **except** according to paragraphs 205 and 206, or by executing FSA-211.

I Integrated Entity

The fact that a buyer may also be the storing warehouse operator, lender, or other business shall **not** be considered a reason to cause beneficial interest to be transferred.

Note: If the contract between the buyer and the producer restricts the producer's ability to take possession of the commodity or warehouse receipts, the producer would be considered to have lost control when the commodity or warehouse receipts are delivered to the integrated entity.

227 Beneficial Interest (Continued)**J Commodity Rejected and Returned**

If the commodity is delivered to a buyer, processor, or mill that rejects the commodity because minimum standards are not met, beneficial interest shall **not** be considered lost by the producer if the commodity is returned to the producer.

The commodity is **not** considered rejected if the producer receives a reduced contract price for the commodity.

K Payments for Services

Payments by buyers to producers for services, such as transportation and storage, shall **not** cause beneficial interest to be transferred unless the payment is conditional on the eventual sale of the commodity.

L Feedlot, Feedyard, or Grain Bank

If the commodity is delivered to, but not limited to, a feedlot, feedyard, dairy, pit, poultry facility, or grain bank, beneficial interest in the commodity is considered to be lost at the time of delivery, **unless** other events cause beneficial interest to be lost before delivery according to subparagraph 228 E.

Delivery of the commodity by a producer to, but not limited to, the feedlot, feedyard, dairy, pit, poultry facility, or grain bank, removes the producer's ability to make all decisions affecting the delivered commodity. Therefore, control of the commodity does **not** remain with the producer.

227 Beneficial Interest (Continued)

M Beneficial Interest and Open Storage Policy

Producers who deliver commodities to a Federally, non-Federally, or State-licensed warehouse and the commodity is placed in open storage **must** be able to receive, from the warehouse, a negotiable warehouse receipt or other form of acceptable production evidence, if requested (see subparagraphs 335 C and D for acceptable types and requirements for production evidence).

For State-licensed facilities, each State FSA Office shall contact their State Department of Agriculture to obtain a copy of the State warehousing license to determine the existing State law as it relates to producers delivering commodities to open storage. The specific State law, if applicable, may dictate the timeframe of when title and ownership transfers or when a warehouse receipt can be written for commodities delivered and placed in open storage. For State FSA Offices that do **not** have a specific State law governing open storage, see paragraphs 227 through 228 for events that will cause producers to lose beneficial interest in the commodity.

Example: A producer delivers a commodity to a Federally, non-Federally, or State-licensed warehouse. The State law specifies that after 30 calendar days of open storage the producer must decide to either:

- apply the commodity to a contract
- place the commodity into warehouse inventory that would enable the producer to obtain a warehouse receipt indicating title and control remains with the producer.

228 Reviewing Contracts

A Documents for Review

[7 CFR 1421.6] County Offices shall review contracts or leases, as applicable, only when there is reason to believe the producer may have lost beneficial interest in the commodity.

When requested by the County Office, producers shall provide the following, as applicable:

- copy of the combination lease agreement
- copy of all options to purchase and all sales contracts
- certification of **no** contract according to subparagraph B.

Producers who provide the certification according to subparagraph B shall be advised that, for loans **only**, if a contract is negotiated at a later date, the following, as applicable, **must** be provided to the County Office:

- copies of written contracts
- terms and conditions of verbal contracts.

If a commodity contract is received in the County Office, and it is known that the company has filed for bankruptcy protection, State and County Offices may:

- review the contract
- make a beneficial interest determination based on the submitted contract.

Regional attorneys may need to be consulted before the beneficial interest determination can be made.

Producers with a commodity contract from a company that has filed for bankruptcy protection are eligible to request MAL's or LDP's.

Important: The contract status is **not** affected by the bankruptcy. FSA does **not** intend to intervene with legal matters about commodity contracts.

State and County Offices shall **not** provide recommendations or suggestions to producers regarding legal matters about contracts.

Producers must seek their own counsel to determine and establish any legal rights and/or discrepancies about their contract.

228 **Reviewing Contracts (Continued)****B Certification of Verbal or No Written Contract**

The following certification may be provided if the producer does **not** have a written contract **and** there is reason to believe the producer may have lost beneficial interest in the commodity.

D County Office Review

When a contract or lease review is necessary, County Offices, **before** approving a loan or LDP for commodities subject to market loan provisions, shall:

- determine whether the requirements of beneficial interest or succession of interest are complied with
- review all options to purchase and sales contracts provided according to subparagraph A
- determine the date the producer would be considered to have lost beneficial interest
- determine whether the producer has retained beneficial interest in the commodity according to subparagraph 227 F.

For any option to purchase or sales contract on which a determination cannot be made, send a copy of the option to purchase or sales contract to the State Office for a determination according to paragraph 229.

228 Reviewing Contracts (Continued)

E Events Causing Loss of Beneficial Interest

Producers shall be considered to have lost beneficial interest in a commodity the earlier of any 1 of the following events:

- receipt of a payment (without option to purchase)
- date of invoice
- F.O.B. bin, when the commodity is loaded for shipment from farm storage bins or other storage to the buyer
- F.O.B. warehouse, when the commodity is loaded for shipment from the warehouse to the buyer
- delivery of warehouse receipts to the buyer or agent
- the time of signing a contract with clauses restricting the producer's decision to obtain a loan or LDP from CCC, such as:
 - buyer may require the producer to obtain a loan or LDP
 - producer may obtain a loan or LDP **only** with prior approval of the buyer
 - producer may obtain a loan if the producer executes certain documents designating the buyer as agent
- when the commodity enters the warehouse, if contract contains a casualty clause that provides that after commencement of insured warehouse cover, insurance settlement shall be for the buyer's account
- when the commodity is redeemed from CCC loan
- when the commodity is delivered to, but not limited to, a feedlot, feedyard, or grain bank according to subparagraph 227 L.

228 **Reviewing Contracts (Continued)****F Written Opinions**

County Offices may give an opinion with respect to an option to purchase or a sales contract when **both** of the following apply:

- if the producer is **not** applying for benefits
- the producer requests an opinion.

County Offices shall:

- provide the opinion to the producer in writing
- send a copy of the option to purchase or sales contract to the State Office with a copy of the opinion provided to the producer for review according to subparagraph H.

Note: Opinions given for options to purchase and sales contracts are **not** appealable unless the producer has been denied benefits.

228 Reviewing Contracts (Continued)

G Hybrid Seed Contract Review

If a producer submits a hybrid seed contract for review, County Offices shall maintain a copy for file purposes **only** and are **not** required to review for a beneficial interest determination for producer eligibility.

Producers under hybrid seed contracts will be considered to have lost beneficial interest in the seed, the earlier of the date of:

- delivery to the hybrid seed company
- receipt for any payment justifying the seed.

For producers under a hybrid seed contract and an advance payment is received before harvest of the commodity, the producer:

- **must** file CCC-633 EZ page 1 **before** harvest of the hybrid seed
- will receive LDP based on the LDP rate in effect on the date of the advance payment for the hybrid seed
- **must** provide production evidence justifying the hybrid seed advance payment.

LDP shall **not** be issued until the hybrid seed is harvested.

Note: Not all seed contracts are considered as hybrid seed contracts.

H Addendum

An addendum to an option to purchase or sales contract to amend any contract provision, including removing any restrictive clause, **must** be agreed to by **all** parties.

For CCC to consider the addendum valid, it must be executed **before** the earlier of the following:

- harvest of the commodity
- date beneficial interest is considered to have been lost.

228 Reviewing Contracts (Continued)

I Canceling Contracts

An option to purchase or a sales contract entered into may be canceled at any time **before** harvest of the commodity if beneficial interest has not been lost.

If the option to purchase or sales contract to be canceled was previously provided to the County Office, a copy of the following must be provided to the County Office:

- the canceled option to purchase or sales contract, as applicable, with the signatures of all parties canceling the contract
- any subsequent option to purchase or sales contract.

J State Office Action

State Offices shall:

- review options to purchase and sales contracts submitted by County Offices, including purchase and sales contracts submitted for which the County Office gave the producer a written opinion

Note: If the written opinion provided to the producer by the County Office is inaccurate, **immediately** notify the County Office.

- determine whether the producer retains beneficial interest and the date the producer would be considered to have lost beneficial interest
- for any option to purchase or sales contract on which PSD's concurrence with the State Office's preliminary determination is requested, FAX a copy of the contract for PSD review
- advise the County Office of PSD's determination when notified by PSD of the date beneficial interest would be considered to have been lost
- send to all County Offices and applicable States a copy of the following:
 - option to purchase or sales contract, as applicable
 - decision for reference.

228 Reviewing Contracts (Continued)

K Action After Contract Review

A loan or LDP shall **not** be approved when both of the following apply:

- the contract is reviewed after harvest
- it is determined that the producer has lost beneficial interest in the commodity.

Exception: LDP's may be approved, based on the LDP rate in effect on the date of delivery, when the producer maintained beneficial interest until the date of delivery.

If an application for loan or LDP is:

- approved, attach a copy of the option to purchase or sales contract, as applicable, to the applicable loan or LDP document signed by the producer
- **not** approved because of loss of beneficial interest:
 - send a letter of the determination to the producer and attach the letter to the option to purchase or sales contract, as applicable
 - do **not** provide the producer appeal rights, the beneficial interest requirement is **not** appealable.

Notes: Use example letter in Exhibit 11, subparagraph K.

See 1-APP for determining issues that are **not** appealable.

Note: Producers may appeal the beneficial interest determination, but **not** the denial of benefits, if beneficial interest was lost. Beneficial interest is a statutory requirement.

When notified by the State Office of the determination of the date beneficial interest would be considered to have been lost, COC shall approve or disapprove loan or LDP.

229 Guidelines for Submitting Contracts**A Submission Guidelines**

For **each** contract submitted for review to the State Office or PSD:

- provide a preliminary determination with respect to when producers would be considered to have lost beneficial interest in the commodity under the terms and conditions of the contract
- ensure that the:
 - general terms, exhibit, addendum, etc., referenced in the contract are also submitted with the contract
 - copies are legible
- by FAX, do **not** submit a hard copy by mail **unless** requested to do so
- by mail, do **not** submit a FAX copy **unless** requested to do so
- and for which a previous determination was received, do **not** submit a subsequent identical contract for review
- number each page in the proper order and provide the total number of pages for each contract.

State or County Offices, as applicable, will be requested to submit this information, if these documents are **not** submitted with the contract.

A determination will **not** be rendered until **all** documents pertinent to the contract have been received.

230 Eligible Quantity**A Determining Eligible Quantity**

[7 CFR 1421.8] All applicable commodity produced on eligible acreage by an eligible producer and mechanically harvested is considered eligible for loan or LDP.

B Using Crop Appraisals

If a producer has applied for crop insurance indemnity or NAP on the acreage related to the disaster, the crop appraisal on file **must** be used when determining the maximum eligible quantity for commodities harvested as other than grain for loans or LDP's.

C Exception for Using Crop Appraisals

COC's may determine maximum eligible quantity determinations by using other methods according to subparagraph 336 C.

230 Eligible Quantity (Continued)

D Determining Eligible Dry Pea Quantity for Loan or LDP

MAL's and LDP's for dry peas will be based on net weight excluding nonpea material. Nonpea material consists of foreign and other material.

Producers must submit production evidence that indicates net weight has been reduced for foreign and other material.

Example: Producer requested LDP on 7,000 cwt. of marrowfat peas at \$2.68 (LDP rate). The settlement sheet includes:

- the statement, "Sample contains 97.5 percent of whole broken or pieces of peas."
- dockage breakdown: small peas, 2.0 percent; splits, 1.8 percent; other material, 1 percent
- defects and foreign material breakdown: foreign material, 1.5 percent; bleached, 86.2 percent.

The quantity will be reduced by 2.5 percent (foreign and other material **only**). The producer would receive LDP for \$18,291 based on 6,825 cwt. (97.5 percent of 7,000 cwt) x \$2.68 (LDP rate).

E Establishing Yield Estimates

COC shall:

- *--annually, in close proximity to harvest of price support commodities grown in the county:

- document the beginning of harvest
- determine reasonable maximum yields for each commodity based on crop and weather conditions in the county--*

Note: A 3-5 year average of NASS yields could be used as a guide when establishing yields. The State Office may require a review of COC yields to determine reasonableness.

- *--document both determinations in COC minutes--*
- review questionable applications.

230 Eligible Quantity (Continued)**F Using Price Support Queries**

County Offices shall use the automated Price Support queries according to 12-PS. Instructions for entering yields established by COC are in 12-PS. Price Support queries:

- are useful in determining a producer's reasonable production
- provide for a running account total by the producer for remaining MAL and LDP eligible quantities.

***--Note:** The automated Price Support queries are not available. An interim process has been provided in PS Directives.--*

G Questionable or Commingled Production

For quantity offered for loan or LDP that exceeds COC maximum established yield by:

- up to 10 percent:
 - producer shall provide a statement of reasonableness considering for things, such as farming practices and prior year's production
 - CED will make a determination to approve or deny the request based on his/her knowledge and current yields in the area

Notes: Approvals **must** be documented in the loan or LDP file.

Denials will automatically be referred to COC.

- more than 10 percent:
 - producer shall provide a statement of reasonableness considering for things, such as farming practices and prior year's production
 - COC will make a determination to approve or deny the request based on comparable yields and farming practices in the area.

Notes: The decision **must** be documented in the loan or LDP file, according to this note and in the COC minutes. Statement of reasonableness from producer shall be attached to applicable CCC-666 or CCC-633 EZ.

If COC denies the request, send Exhibit 11, subparagraph L letter to the producer. The letter shall be revised to meet the specific circumstances and provide the producer appeal rights.

Using yields from other producers' farms is not permitted.

230 Eligible Quantity (Continued)**G Questionable or Commingled Production (Continued)**

*--All approvals and justification for approvals shall be documented in the file and include the CED or COC chairperson's signature and date, as follows:

- for loans, in CCC-666, item 19 B, "Remarks" section
- for LDP's, on applicable CCC-633 EZ page as follows, in the "Additional Information" section:
 - page 2, item 32
 - page 3, item 56
 - page 4, item 86.--*

H Determining Ineligible Quantity

A quantity of a commodity is **not** eligible for loan if:

- it was previously placed under loan and redeemed at the CCC-determined value
- LDP benefits have been requested or made on the quantity.

Note: LDP quantities requested on CCC-633 EZ Page 2 are **ineligible** to be pledged for loan.

231 Poisonous Substances and Contamination**A Contaminated Commodities**

[7 CFR 1421.5(c)] A producer is personally liable for any damages resulting from tendering, to CCC as loan collateral, commodities that contain:

- mercurial compounds
- toxin producing molds, such as aflatoxin
- other substances poisonous to humans or animals.

Illegally contaminated and nonmarketable commodities that test positive are **not** eligible for loan or LDP.

All contaminated commodities **must** be merchantable to be eligible.

***--Note:** FDA considers both unharvested commodities and harvested commodities in storage that are exposed to flood waters as not acceptable for human consumption or use in animal feed. These commodities may contain chemical contaminants, are susceptible to the development of mold and toxins, and are **not** eligible for loan or LDP.--*

B Acceptable Levels for Aflatoxin and Vomitoxin

This table provides the acceptable levels for toxins.

Contaminant	Acceptable Level
Aflatoxin in corn	20 parts per billion or less.
Vomitoxin	5 parts per million or less.

See Part 5 for applicable county loan rates.

231 Poisonous Substances and Contamination (Continued)**C Monitoring Corn Containing Aflatoxin**

In areas of the State where it is determined that the corn may contain aflatoxin, STC shall:

- designate affected areas each crop year, as applicable
- monitor the aflatoxin situation
- notify DAFP when the first area in the State is designated.

Producers who request farm- or warehouse-stored corn loans in the designated areas shall, **before** disbursement of the loan:

- have the corn tested for aflatoxin at the producer's expense
- provide the County Office with the results of the aflatoxin test.

If the test results indicate the aflatoxin level is:

- 20 parts per billion or less, the loan may be disbursed as nonrecourse, according to Part 5, as applicable, if the corn is otherwise eligible for a nonrecourse loan
- more than 20 parts per billion, a loan may be disbursed as nonrecourse using the applicable adjusted county loan rate according to paragraph 520.

D Commodities Containing Vomitoxin

This table provides policies and procedures for commodities containing vomitoxin.

IF...	AND contains vomitoxin of...	THEN County Offices shall...
producers indicate a commodity was tested	5 parts per million or less	disburse loans as nonrecourse according to Part 5, if the commodity is otherwise eligible.
	more than 5 parts per million	disburse loans as nonrecourse using the applicable adjusted county loan rate according to paragraph 520.
nonrecourse loan is delivered to CCC	5 parts per million or less	base the settlement rate on the quality of the commodity as shown on the warehouse receipt.
	more than 5 parts per million	use a zero settlement rate.

232 Repledging Commodities

A Basic Provisions

Before the final loan availability date, producers may re-offer as security or repledge as collateral for a loan, any commodity that has been previously mortgaged or pledged, **except** for situations described in subparagraph B.

B Ineligible for Repledge

This table provides situations when a commodity is ineligible to be repledged.

IF the commodity represents a loan...	THEN...
that was called because of a violation of provisions for: <ul style="list-style-type: none"> • loans or LDP's • HELC or WC according to 6-CP 	the commodity shall not be repledged for loan.

disbursed under distress loan provisions	

232 Repledging Commodities (Continued)

C Repledged Loan Maturity Date and Interest Rate

The maturity date shall be the same as the original loan maturity date.

In APSS, enter the approval date of the original loan to establish the proper maturity date for the repledged loan.

The repledged loan interest rate shall be the applicable rate on the day the repledged loan is disbursed.

D Commodity Assessment Deductions

Commodity assessments, when applicable, shall **not** be deducted on the repledged loan quantity.

233 Loans Ineligible for Delivery or Forfeiture

A Ineligible for Delivery or Forfeiture

The following are ineligible for delivery to CCC if the collateral is for:

- recourse loan

Note: See Part 12, Section 1.

- nonrecourse loan and the:
 - producer is determined ineligible
 - commodity is determined ineligible.

B COC Notification to Producer

Send the producer the notification letter in Exhibit 11, subparagraph M if COC determines:

- an ineligible commodity was placed under loan
- the producer is ineligible for loan.

233 Loans Ineligible for Delivery or Forfeiture (Continued)**C Action for Nonpayment**

If the loan is **not** repaid by 31st calendar day after the call notification and CCC must acquire the commodity, the County Office shall take action according to the following.

IF the loan is...	THEN...
recourse farm- or warehouse-stored	<ul style="list-style-type: none"> begin foreclosure proceedings according to paragraph 866 and Part 8, Section 4 for provisions for: <ul style="list-style-type: none"> selling warehouse receipts completing a local sale use the sales price as the value of the commodity follow: <ul style="list-style-type: none"> *--Exhibit 9, subparagraph A for “recourse loans” Exhibit 10, subparagraph A for “distress loans”.--*

233 Loans Ineligible for Delivery or Forfeiture (Continued)

D Insufficient Value or Excess Sales Price

If the settlement value was insufficient to clear the amount owed on the loan, establish the receivable in NRRS.

If the sales price exceeds the amount needed to repay principal and charges plus interest on the loan, the excess shall be for:

- recourse loans, refunded to the producer
- nonrecourse loans, retained by CCC.

234 Second Party Reviews

A Reviews

A second party review of eligibility requirements for CCC-633WM's, CCC-666, CCC-677's, ~~CCC-677S~~, CCC-678's, CCC-678S, and CCC-633 EZ, pages 1 through 5, as applicable, shall be performed **before** disbursement. Reviewer **must** initial CCC-633WM or CCC-666, as applicable, and CCC-677 or CCC-677S for farm-stored loan, CCC-678 or CCC-678's for ~~CCC-678S~~ warehouse-stored loan, or CCC-633EZ for LDP application, when review is completed.

The second party reviewer shall also check that the correct loan or LDP rate is used on all bins and/or receipts on each loan or LDP. The correct rate is determined according to paragraphs 506 and 1004.

Before a loan or LDP is issued, CCC-770 LDP/eLDP or CCC-770 MAL **must** be completed according to paragraph 23.

--Note:** CCC-677S and CCC-678S were the applicable Note and Security Agreements for crop year 2013 MAL's disbursed on or after October 1, 2013, where the loan amount was reduced 5.1 percent for sequestration.**--

B Approving Reviews

If the program technician accepts eLDP/LDP or MAL request, then he/she will **not** initial as the second party reviewer.

It is recommended that CED's in 2-person County Offices:

- initial as second party reviewer
- sign as approving official, as designated by COC.

--235 Commodities From ACRE-Elected Farms for Crop Year 2013 Only*A Crop Year 2013 Commodities Harvested from ACRE-Elected Farms**

The ACRE Program reduces applicable (county, regional, or national) loan commodity rates by 30 percent if producers on a farm make the decision to elect to participate in the ACRE Program on the farm for the 2013 crop year.

Note: The Agricultural Act of 2014 did not continue the ACRE program. Therefore, the ACRE reduction will not apply after the 2013 crop year.--*

Commodities harvested from an ACRE-elected farm will have a 30 percent reduction in MAL rates.

Example: \$2 base county loan rate x 70 percent = \$1.40 applicable loan rate.

Notes: The applicable loan repayment option (the lesser of loan rate principal plus interest, 30-day, or alternative rate) will **not** be similarly adjusted with a 30 percent reduction to calculate the applicable CCC-determined value (PCP, regional county price, national posted price, or AWP).

The loan rate used to determine LDP rates on ACRE elected farms will be reduced by 30 percent, accordingly.

Commingled commodities harvested from ACRE and non-ACRE elected farms must be placed under separate loans.

Warehouse stored ACRE commodities require separate warehouse receipts.

If ACRE and non-ACRE production cannot be distinguished separately, then the entire quantity is subject to the 30 percent reduction in MAL rates.

Wool, mohair, and honey are **not** subject to ACRE provisions.

Part 3 Spot-Checking and Production Evidence

Section 1 Spot-Check Policy

300 Compliance Reviews for MAL's and LDP's

A Spot-Check Selection Process Overview

The compliance review/spot-check selection process will:

- help reduce the number of spot checks performed monthly
- provide a more comprehensive and meaningful compliance review by covering all program activity for the selected producer
- enhance the way spot-check findings are recorded
- implement OIG recommendations included in an audit of FSA compliance activities.

B Handling Spot-Check Selection Process for MAL's and LDP's

Producers will be selected based on their participation in various programs. FSA employees, STC and COC members, and other required producers are included in the national selection.

FSA employees, STC and COC members, and other required producers **are** included in the selection; therefore, County Offices shall no longer conduct separate spot checks on required producers.

Early each calendar year, the National Office will post the list of producers selected for annual spot-check reviews on the Intranet at

--<http://fsaintranet.sc.egov.usda.gov/ffas/farmbill/coc/default.htm>.

The producer selection list is broken down by State and county. Under each county, the list displays the producer's first and last name and/or business name.

300 Compliance Reviews for MAL's and LDP's (Continued)**B Handling Spot-Check Selection Process for MAL's and LDP's (Continued)**

Producers will be listed for each State and county with which they are associated.

Notes: The producer selection list includes producers selected (based on program participation) and the representative sample of FSA employees, committee members, and other required spot checks.

Producers may operate as an individual and legal entity. The producer selection list will identify the tax ID associated with the selected producer. County Offices shall only review MAL's and LDP's associated with the tax ID selected.

County Offices shall print and maintain the producer selection list. The National Office will **not** make another selection of producers for the year.

County Offices are:

- required to spot check all MAL and LDP activity for the selected producers
- responsible for recording spot-check results of MAL's and LDP's identified for the selected producers in the newly developed National Compliance Review Database at **www.agcounts.usda.gov**
- required to determine when the farm visit will be completed during the loan period.

When the spot check reveals, and it is determined, that a shortage or violation occurred, County Offices shall continue to record the shortage or violation in APSS according to 12-PS and 15-PS.

300 Compliance Reviews for MAL's and LDP's (Continued)**C Conducting Farm Visits**

On-farm visits are required if farm-stored loan collateral or LDP quantities are still stored on the farm. At the storage site, commodity inspectors shall complete the spot check according to subparagraphs 316 B and 1553 B for mohair, unshorn pelts, and wool.

Because MAL's and LDP's are disbursed throughout the applicable crop year, multiple farm visits may be necessary to complete the requirement to spot-check all the producer's MAL and LDP activity.

When multiple visits are made to the same farm, previously measured farm storage structures are **not** required to be measured again, **unless** the commodity inspector has reason to believe a violation has occurred or CCC security interest is at risk. Previously spot-checked loans or LDP's:

- will be treated as related loans and LDP's according to subparagraphs 316 B and 1553 B
- shall always be visually inspected for proper storage maintenance, commodity existence, and quality.

Note: County Offices will be responsible for determining when the on-farm visits shall be completed.

Spot-check results shall be recorded on and according to the following:

- CCC-677-1 (Exhibit 15)
- MAL and LDP questionnaires provided in 2-CP.

The spot-check results shall be recorded in the National Compliance Review Database at www.agcounts.usda.gov.

300 Compliance Reviews for MAL's and LDP's (Continued)**D Adding Producers for Spot Check**

Additional producers may be added to the list of producers selected during the annual spot-check reviews, when it is reported or determined that the:

- quantity of the loan collateral or the applicable LDP quantity is questionable
- storability of the loan collateral is questionable.

MAL and LDP spot-check results for the additional producers selected for spot-check will **not** be required to be entered in the National Compliance Review Database. County Offices shall record the following:

- reasons why the producer was selected for spot-check in the COC minutes
- results on CCC-677-1.

If a shortage or violation is determined as a result of the spot check, County Offices shall record the shortage or violation in APSS, as applicable.

E STC-Established Guidelines for Conducting Additional Spot-Checks

STC's shall:

- establish guidelines for conducting additional spot-checks
- determine how and when County Offices should select additional producers for spot-check
- record the established guidelines in the STC minutes for auditing purposes.

F Additional Spot-Check Policy

See 2-CP for additional spot-check policy.

301 Outstanding Farm-Stored Loans**A Basic Spot-Checking Policy**

[7 CFR 1421.11] Farm-stored loans shall be spot-checked:

- during and after the loan availability period
- for up to 9 months from date of disbursement.

County Offices shall make onsite spot-checks of outstanding farm-stored loans, if the producer is either of the following:

- selected through the national selection process
- added to the list of producers selected during the annual spot-check reviews.

***--B Required Spot Checks**

County Offices shall spot-check quantities for all **farm-stored**:

- nonrecourse and recourse outstanding loans, including loans that are:
 - open on the first workday after maturity
 - transferred out of APSS and a receivable established in NRRS, but with a debt not fully repaid

Note: These spot checks shall be done on the first workday after maturity.--*

- outstanding loans repaid under marketing loan provisions, in part or in full, if production or disposition evidence is not provided at time of repayment
- loan collateral when certain situations require spot-checks according to subparagraph D
- loans repaid to zero with a market loan repayment without production evidence will be subject to spot-check through the loan maturity date.

Do **not** spot-check commodities stored in structures that **cannot** be safely measured.

301 Outstanding Farm-Stored Loans (Continued)**C Not Subject to Spot-Check**

Outstanding farm-stored loans repaid under the marketing loan gain provisions are **not** subject to spot-check **on the amount repaid under the marketing loan gain provisions if** production evidence is provided on the date of repayment.

Delivery evidence is considered production evidence for all marketing loan repayments.

D Situations Requiring Spot-Checks

In addition to national selection spot-checks, other situations require that spot-checks be performed for loans. These situations include, but are **not** limited to, the following:

- quantity of the loan collateral is questionable
- storability of the loan collateral is questionable
- **all** of a producer's loans when a second or subsequent violation is determined
- loan collateral is reported to be going out-of-condition (paragraph 322).

302 LDP's**A Basic Spot-Check Policy**

[7 CFR 1421.11] LDP's are subject to spot-check for up to 9 months from date of disbursement.

B What to Spot-Check

If a producer is selected through the national selection process, or added by the County Office as an additional spot-check, County Offices shall spot-check:

- **all** quantities certified for LDP
- LDP's when certain situations require spot-checks according to subparagraph D.

Once a specific LDP has been selected for spot-check, that LDP is no longer subject to additional spot-checks.

Do **not** spot-check commodities stored in structures that cannot be safely measured.

C Not Subject to Spot-Check

LDP's are **not** subject to spot-check **if**:

- production evidence was submitted on date of request
- LDP's are paid on the amount shown on production evidence
- maximum eligible quantity was determined for:
 - commodities harvested as other than grain
 - commodities that exceed the moisture standard that are stored in structures that **cannot** be measured
 - commodities immediately fed during harvest.

D Situations Requiring Spot-Checks

In addition to national selection spot-checks, other situations may require spot-checks to be performed for LDP's. Situations may include, but are **not** limited to, the LDP quantity being questionable.

303 Loans Delivered to CCC

A Review of Deliveries

County Offices shall:

- determine whether deliveries were made according to program provisions
- determine that quantities delivered to CCC do **not** include any purchased quantities
- document the spot-check results of the review in the COC minutes and file documents in the producer's folder.

B Questionable Deliveries

When there is reason to question the quantity delivered or the eligibility of the commodity delivered, County Offices shall:

- examine the warehouse operator's copy of scale tickets or weight certificates for the commodity delivered to determine whether the quantity and quality are the same quantity and quality as shown on CCC-691
- follow paragraph 820 for provisions for splitting warehouse receipts if it is determined that an ineligible quantity was included on CCC-691.

C Action if COC Determines Violation

If COC determines a violation has occurred, take administrative actions according to Part 4 for all shortages of loan quantities discovered by spot-checking loan deliveries according to this paragraph.

304 Commodity Inspector Spot-Check Review**A County Office Responsibility**

County Offices shall ensure that commodity inspectors are performing their duties properly, including completing and signing forms used to record spot-check results.

B State Office Responsibility

State Office representatives shall annually spot-check commodity inspectors' work in each County Office according to this table.

Handle single and combined County Offices in the same manner.

Step	Action
1	Check at least 1 loan or LDP for each commodity inspector. Check more loans and LDP's for an inspector if the State Office representative believes that additional checks are warranted.
2	To determine accuracy of employee's work, for each loan or LDP spot-checked: <ul style="list-style-type: none"> • draw a sample to determine the quality of the stored commodity • measure the structure and determine the quantity.
3	Complete a new CCC-677-1, according to Exhibit 15, to record spot-check results. Do not use the same CCC-677-1 completed by the commodity inspector.
4	Compare spot-check results with information recorded by the commodity inspector, and resolve any differences.
5	Record the quantity determined in step 2 on CCC-677-1, item 30.

305-314 (Reserved)

Section 2 Spot-Check Process

315 Notifications

A Contacting Producers

When repaid MAL's with earned market gain and LDP's have been selected for spot-check, County Offices shall:

- notify the contact producer by telephone or memorandum, as applicable
- inquire if the commodity:
 - has been sold
 - is still on the farm.

B Initiating Loans and LDP's Selected for Spot-Check

Determine how to proceed with the spot check as follows.

IF the commodity...	THEN...
is still on the farm and a spot check has not been performed	<p>complete a farm visit according to paragraph 316. If the producer does not want to pay the measurement service fee to use the spot-checked quantity for production evidence, request the producer to provide production evidence by the earlier of the following:</p> <ul style="list-style-type: none"> • 15 calendar days after the commodity has been sold • loan maturity date • the last day of the 9th calendar month after the month in which LDP was disbursed. <p>If production evidence has not been submitted by the due date, the producer must pay the measurement service fee for the spot-checked quantity to be used for production evidence or the producer may have to refund the market gain or LDP amount.</p>

315 Notification (Continued)

B Initiating Loans and LDP's Selected for Spot-Check (Continued)

IF the commodity...	THEN...
has been previously spot-checked and the producer requests to use the spot-checked quantity for production evidence	<p>require the producer to pay the measurement service fee for the spot-checked quantity.</p> <p>No farm visit is required except for outstanding loans, as applicable.</p>
has been sold	<p>request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of:</p> <ul style="list-style-type: none"> • certified LDP's • loan repayments when market gain was earned. <p>Review the loan for a violation according to Part 4 if loan is not repaid.</p>
has been fed	determine maximum quantity eligible according to paragraph 336.

Require the producer to submit evidence on commodities **sold** within 15 calendar days from date of request.

316 On-Farm Visits

A When to Complete On-Farm Visits

[7 CFR 1421.11] Complete on-farm visits if commodities are still stored on the farm for:

- outstanding loans
- outstanding loans and a market gain has been earned
- certified LDP's.

B Spot-Check Process

At the storage site, commodity inspector shall complete the spot check by measuring farm-stored quantities for all loans and LDP's selected by the national selection process according to this table.

Notes: Measurements are required even if commodity was previously measured for farm-stored regular loans.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

Step	Process	Action
1	Check CCC-683.	Replace CCC-683 if missing or incorrect loan data is shown (Exhibit 16).
2	Inspect storage structure and determine commodity storability and sanitary conditions.	Annotate any structure, storability, or sanitary problems on reverse side of CCC-677-1, "Remarks" section.
3	Measure commodity in all applicable structures that can be safely accessed.	Complete CCC-677-1 according to Exhibit 15.
4	<ul style="list-style-type: none"> • Obtain commodity sample from all storage structures applicable for the loan or certified LDP. • Use representative sample to determine test weight, and if applicable, moisture content. 	

C Shortages of Commingled Commodities

Shortages determined by spot-checking commingled commodities **must** be prorated among the entire quantity stored in the designated storage structure, including quantity for other producers, whether or not under loan or LDP.

317 Completing Spot Checks**A Reviewing Documentation**

Once the on-farm visit is complete or production evidence is submitted, County Offices shall:

- calculate the measured quantity or quantity provided on submitted documentation, as applicable
- review the documentation submitted to ensure that all production evidence requirements are met according to Section 3.

B Determining Quantity and Quality

County Offices shall determine the quantity of the loan collateral or the applicable LDP quantity from information provided by the:

- commodity inspector on CCC-677-1
- producer on other types of production evidence.

For loans, CCC is considered secured when a sufficient quantity of the commodity is found in any individual or number of structures designated on CCC-677 or CCC-687-1.

C Verifying Loan and LDP Quantity

County Offices shall:

- verify the quantity determined in subparagraph B
- compare the determined quantity to the:
 - outstanding loan quantity
 - market gain quantity
 - LDP quantity.

D Tolerance Level

Normal tolerance level for loans and LDP's is 10 percent. However, any shortage can be considered a violation.

Examples: Shortage is only 3 percent, but there is evidence of feeding before repayment.
Shortage is 7 percent, but producer is moving grain without authorization.

For spot-check shortages **within** the tolerance level, CED's have the authority to determine whether a violation occurred according to Part 4.

318 Loan Quantity Determination and Action Required

A Outstanding Loans and No Market Gain Was Earned

When a spot check reveals the **measured** quantity is less than the certified or measured outstanding farm-stored loan quantity, take applicable action according to the following.

IF the spot check reveals the...	THEN...
adjusted measured quantity is within tolerance and no violation has occurred	COC shall not take any action.
measured quantity is both of the following: <ul style="list-style-type: none"> • before adjustment, within tolerance • after adjustment, not within tolerance 	<p>notify the producer, using the notification letter in Exhibit 11, subparagraph M, that repayment of the shortage at principal and charges plus interest is required.</p> <p>COC shall not consider the shortage incorrect certification.</p> <p>See Part 4 if another type of violation has occurred.</p>
measured quantity is not within tolerance before or after adjustment	COC shall consider a violation has occurred. Follow Part 4 for notifying the producer of the violation.

318 Loan Quantity Determination and Action Required (Continued)

B Loans Repaid and Market Gain Was Earned

When a spot check reveals the quantity supported by **production evidence** is less than the quantity on which market gain was earned, take applicable action according to the following.

IF the quantity verified is...	THEN...
greater than the market gain quantity	<p>a new loan or LDP may be requested for any overage provided the producer still has beneficial interest in the commodity and it is before the final loan availability date.</p> <p>Additional market gain payments to the original loan disbursement are not available.</p>
determined based on spot-check measurements and the producer does not pay the measurement service fee	<p>no action is necessary at this time if:</p> <ul style="list-style-type: none"> • commodity is still stored on the farm • measurement service fee has not been paid • the quantity has not been sold • other production evidence has not been submitted.
<ul style="list-style-type: none"> • based on paid measurements, or any other type of production evidence • less than the quantity on which market gain was earned • within tolerance 	<p>establish receivable for the amount owed through NRRS.</p> <p>Good faith determinations are not necessary.</p>

318 Loan Quantity Determination and Action Required (Continued)

B Loans Repaid and Market Gain Was Earned (Continued)

IF the quantity verified is...	THEN...
<ul style="list-style-type: none"> • based on paid measurement or any other type of production evidence • less than the market gain quantity amount • not within tolerance 	<p>COC shall:</p> <ul style="list-style-type: none"> • consider a discrepancy has occurred • review discrepancies to determine whether a violation has occurred according to Part 4 • record the discrepancy according to subparagraph C. <p>If the discrepancy is the result of a County Office error and the producer did not have reason to know a violation had occurred, the County Office shall:</p> <ul style="list-style-type: none"> • document in the COC minutes reasons why to the fullest extent possible • not assess liquidated damages • demand the shortage, plus interest as applicable, using the notification letter in Exhibit 11, subparagraph M • not make good faith determinations • complete FSA-321 according to 7-CP. <p>For all other violations, COC shall determine any of the following according to Part 4:</p> <ul style="list-style-type: none"> • good faith • misrepresentation, scheme, or device.

When spot check verifications are complete, notify producers and record results according to paragraph 323.

318 Loan Quantity Determination and Action Required (Continued)

C Calculating and Recording the Discrepancy

If the quantity is **not** within tolerance, for the:

- quantity involved in the violation, any payment will be processed at principal plus interest
- amount of liquidated damages determined, manually determine the liquidated damages and deposit the liquidated damages on the current CCC-257 using the code of “PSLIDACOMM” (“COMM” equals the commodity code).

Example: 10,000 bu. of corn under loan; 2,000 bu. determined as an unauthorized disposition.

- Repayment of 2,000 bu. will be at principal plus interest.
- Liquidated damages will be calculated as follows:

$$2,000 \text{ bu.} \times \$2 \text{ (example loan rate for corn)} \times 10 \text{ percent} = \$400.$$

- When liquidated damages are paid, deposit on the current CCC-257 using the code of “PSLIDACORN.”

If there are any unpaid violation balances, use the APSS “Transfer to Claims” option according to 12-PS, and establish the receivable in NRRS according to 64-FI.

319 LDP Quantity Determination and Action Required

A LDP Spot Checks

Handle spot-check verifications according to this table.

IF the quantity verified is...	THEN...
greater than the LDP quantity	<p>a new LDP with a new LDP rate, or a new loan, may be requested for any overage provided the producer still has beneficial interest in the commodity and it is before the final loan availability date.</p> <p>Additional LDP payments to the original loan disbursement are no longer available.</p>
determined based on spot-check measurements, is less than the LDP amount, and is within tolerance	<p>no further action is necessary at this time if:</p> <ul style="list-style-type: none"> • still stored on the farm • measurement service fee has not been paid • quantity has not been sold • other types of production evidence have not been submitted.
<ul style="list-style-type: none"> • based on measurements and the producer agrees and pays for the measurement service, or is based on any other type of production evidence submitted • less than the LDP quantity • within tolerance 	<p>record the shortage in APSS using the violation software, or if eLDP, correct the quantity according to 15-PS.</p> <p>Do not assess liquidated damages and demand the shortage, as applicable, using the notification letter in Exhibit 11, subparagraph M.</p> <p>Good faith determinations are not necessary.</p>

319 LDP Quantity Determination and Action Required (Continued)

A LDP Spot Checks (Continued)

IF the quantity verified is...	THEN...
<ul style="list-style-type: none"> • based on paid measurement or any other type of production evidence • less than the LDP amount • not within tolerance • delivered on a date other than the delivery date certified 	<p>COC shall:</p> <ul style="list-style-type: none"> • consider a discrepancy has occurred • review discrepancies to determine whether a violation has occurred according to Part 4. <p>If the discrepancy is the result of a County Office error and the producer did not have reason to know a violation had occurred, the County Office shall:</p> <ul style="list-style-type: none"> • document in the COC minutes reasons why to the fullest extent possible • not assess liquidated damages • demand the shortage, plus interest as applicable, using the notification letter in Exhibit 11, subparagraph M • not make good faith determinations • complete FSA-321 according to 7-CP. <p>For all other violations, COC shall determine any of the following according to Part 4:</p> <ul style="list-style-type: none"> • good faith • misrepresentation, scheme, or device.

When spot check verifications are complete, notify producers and record results according to paragraph 323.

319 LDP Quantity Determination and Action Required (Continued)

B Reducing On-Farm Visits for LDP's

For LDP's **only**, County Offices, **with State Office concurrence**, may elect to forgo the farm visit by sending the producer a notification letter that includes all of the following:

- identification of LDP to be spot-checked, as applicable
- options to the producer for quantities still on the farm to:
 - request measurement service within 7 calendar days at the expense of the producer and use the measurements as final production evidence
 - provide production evidence by the earlier of the following:
 - 15 calendar days after the commodity is sold
 - the last day of the 9th month after the month in which LDP was disbursed
- the following statement, "Failure to provide acceptable production evidence may result in repayment of the entire LDP amount plus applicable interest."

County Offices shall:

- consider the spot check complete when the producer:
 - does **not** respond within 7 calendar days, agreeing to provide required production evidence by the deadlines
 - agrees to provide required production evidence by the deadline
 - requests and pays for measurement service, and the measurement service is complete
- monitor all letters and determine when production evidence is due
- collect unearned LDP amounts, plus interest, according to paragraph 339.

State Offices shall:

- authorize County Offices to use the letter
- provide a time limit when providing the authorization.

320 Producer Requests for Redetermination of Quantity or Quality**A Requests for Redetermination**

A producer may request redetermination of quantity or quality if the producer disagrees with the:

- quantity determined
- quality determined.

B Producer Action

The producer shall:

- make a written request that a redetermination be made for:
 - quantity measured
 - test weight and moisture
- pay for the measurement service.

C County Office Action

When redetermination requests are received and producers have complied with subparagraph B, County Offices shall:

- remeasure and redetermine the quantity or quality, as applicable
- apply the test weight, combined test weight and pack factors (Exhibit 17), and moisture shrink, as applicable, on remeasurements.

D Results of Redetermination

County Office shall review results of redetermination. When the remeasured quantity indicates the quantity or quality determined on the initial spot check was incorrect, County Offices shall:

- refund the producer's measurement service fee collected according to subparagraph B
- remove the producer's name from the list of loan and LDP violators, if a violation had previously been determined based on the initial spot check.

--321 Loan Maturity Date Acceleration and Loans Called Before Maturity*A Accelerating Loan Maturity Date and Calling Loans Before Maturity--***

COC may authorize and call farm-stored loans, accelerating the maturity date on an individual basis **before** the established maturity date when necessary, to protect CCC's interest or in emergency situations.

Examples: Uncontrollable insect infestation.

Danger of flood or fire.

Damage to the structure or other condition that makes it unsafe to continue storage on the farm.

Involuntary loss of control of the storage structure.

B Notifying Producer

Notify producers using the notification of a loan call letter, according to Exhibit 11, subparagraph O, that:

- the loan, or part of the loan, if applicable, is immediately due and payable because CCC's interest is not protected
- amounts due must be paid, with cash, on or before the accelerated maturity date
- commodities for nonrecourse loans may be delivered to CCC
- commodities for recourse loans, if not repaid, will be sold.

321 Loan Maturity Date Acceleration and Loans Called Before Maturity (Continued)**C Action When Producer Does Not Repay**

If the producer fails to make the requested repayment by the accelerated maturity date, the County Office shall, **immediately** after the accelerated maturity date, for a:

- *--nonrecourse farm-stored loan:
 - authorize delivery on CCC-691
 - issue demand letter according to Exhibit 7, subparagraph A, “farm-stored--* nonrecourse loan” * * *
 - handle delivery in the normal manner
 - record settlement according to 12-PS
- *--nonrecourse warehouse-stored loan shall be forfeited to CCC according to paragraph 900
- recourse loan:
 - follow local sale procedures according to Part 8 and Exhibit 9, subparagraph A, “recourse loan” and Exhibit 10, subparagraph A, “distress loan”--*
 - transfer loan from APSS using the “Transfer to Claims” option in 12-PS
 - establish a receivable in NRRS according to 64-FI to match the amount on the Transfer to Claims Report
 - issue announcement of sale according to paragraph 858
 - apply sales proceeds to the NRRS-established receivable.

D Deducting Storage Charges

When a nonrecourse loan is called before maturity, make a storage deduction as a separate item instead of reducing the settlement rate.

APSS will determine storage charges:

- through the loan maturity date
- when “Y” is entered in response to “Are storage charges for early delivery applicable?”
- from the appropriate offer shipping rate table.

Exception: County Offices shall **not** make a storage deduction when deliveries of farm-stored commodities are called by CCC under general acceleration of the loan maturity date for a particular geographic area.

321 Loan Maturity Date Acceleration and Loans Called Before Maturity (Continued)

E Additional Action

If the loan has not been liquidated by repayment or delivered by the specified final date, County Offices shall take steps to acquire the commodity by foreclosure according to paragraph 866.

If the producer appeals the loan call, follow paragraph 20.

322 Loan Collateral Storability Questioned

A Producer's Responsibility

The producer is responsible for any loss in quantity and quality of the commodity placed under farm-stored nonrecourse or recourse loan.

***--Note:** Each producer signing CCC-677, CCC-677S, CCC-678 or CCC-678S is jointly--* and severally liable for repayment of the amount due.

CCC shall **not** assume any loss in quantity or quality for any reason.

Note: This includes commodities under loan that are affected by flood waters. See note in subparagraph 231 A.

B Action When Collateral Storability Is Questioned

When it is reported or determined the nonrecourse or recourse loan collateral storability is questioned, the County Office shall, as applicable:

- immediately spot-check the commodity
- draw samples of the commodity to verify the condition
- notify the producer of **all** of the following:
 - condition of the collateral, using the letter in Exhibit 11, subparagraph M
 - if the condition of the collateral can be corrected, to correct the problem within 30 calendar days
 - if the condition of the collateral **cannot** be corrected, the loan shall be called according to paragraph 321.

322 Loan Collateral Storability Questioned (Continued)

C Action When Corrective Action Is Taken

Send the producer the following letter when **both** of the following apply:

- County Office is notified by the producer that corrective action has been taken and the commodity is ready for a followup spot check
- followup spot check confirms the collateral appears to be in storable condition.

(Date)

Dear _____:

A recent inspection of the collateral for your (*year*)-crop (*commodity type*) loan (*number*) was completed on (*month, day, year*) to determine the result of corrective actions you have taken to resolve the storability problems.

The current inspection shows the following results:

Storage Structure

Condition

The collateral now appears to be in a storable condition. Thank you for your prompt action in correcting the situation. You should; however, continue periodic checks to see that the collateral remains in good condition.

Sincerely,

County Executive Director,
_____ County FSA Office

322 Loan Collateral Storability Questioned (Continued)

D Nonrecourse Loan Action

When the nonrecourse loan has been called according to subparagraph B, County Offices shall:

- include delivery instructions on CCC-691, according to paragraph 801, with the *--applicable demand letter in Exhibit 7, subparagraph F or G--*
- complete delivery according to this subparagraph and Part 8
- when CCC is unable to accept delivery in a reasonable length of time:

- obtain a representative sample and submit to GIPSA for grade determination

Note: Quality determination fees shall be paid according to 1-FI.

- redetermine quality when final delivery is made
- base the settlement on the **higher** of the following:
 - quality determined at final delivery
 - initial quality determination by GIPSA.

Note: When settlement is based on GIPSA's quality determination, enter the following on CCC-691:

- the quantity delivered according to paragraph 816
- rate for the quality on which settlement is based (see 12-PS for entering special settlement rate).

E Recourse Loan Action

Recourse loan collateral is ineligible for delivery to CCC. When the recourse loan has been called, County Offices shall:

- use the APSS "Transfer to Claims" option , according to 12-PS
- record receivables in NRRS according to 64-FI
- complete the local sale, if applicable, according to Part 8, Section 3
- **not** issue CCC-691.

323 County Office Spot-Check Review**A Reviewing Spot-check results**

County Offices shall:

- notify the producer of any discrepancies using the applicable notification letter according to the following:
 - paragraph 322 for:
 - storability problems
 - storage structure damage

 - subparagraph 402 B for shortages resulting in loan or LDP **violation**
- record spot-check results in the National Compliance Review Database at **www.agcounts.usda.gov**
- document any discrepancies found, because of a spot check, in COC minutes.

323 County Office Spot-Check Review (Continued)**B Quality of Nonrecourse Loan**

For nonrecourse loans, if the quality as determined from the sample indicates the commodity is **ineligible** for a nonrecourse loan at the full loan rate, notify the producer using the notification letter in Exhibit 11, subparagraph M that the loan collateral is eligible **only** for an adjusted loan rate.

Note: Farm-stored commodities ineligible for a nonrecourse loan at the full loan rate include commodities with a test weight on the additional schedule of discounts, low quality (sample grade) commodities, contaminated commodities, and commodities harvested as other than grain.

Within 30 calendar days, the producer shall do 1 of the following:

- agree to reduce the loan rate to 20 percent of the applicable county loan rate
- convert to recourse loan according to paragraph 1200
- repay the entire loan at the lesser of the following:
 - principal plus interest
 - market loan repayment rate in effect on the day the repayment is received.

If the producer does **not** respond within the 30-calendar-day notification period, the loan shall be called according to paragraph 321 and Exhibit 11, subparagraph O.

C Converting to a Recourse Loan

County Offices shall convert a nonrecourse loan to a recourse loan as follows:

- correct the nonrecourse loan according to 12-PS, Part 11
- re-record as a manual recourse farm-stored measured loan according to 12-PS, Part 3
- adjust the loan rate according to paragraph 1201.

324 State Office Spot-Check Review**A Reviewing County Office Spot Checks**

State Offices shall:

- establish controls to monitor County Office spot check completions
- annually review County Office spot check folders to ensure that:
 - spot checks are being performed in a timely manner
 - appropriate followup action is taken to correct problems detected
 - document the results of these reviews according to subparagraph C
 - maintain documented review results for 24 months.

B Reviewing Loans Open After Maturity

State Offices shall monthly review the SOR's List of Loans Open After Maturity to ensure that matured or unsettled loans are being properly handled and, when applicable, transferred out of APSS and a receivable established in NRRS on a timely basis.

C STC and State Office Spot Check Requirements

STC and State Office spot check requirements are as follows.

Paragraph Reference	Spot Check
230	STC, or STC designee, shall annually spot check 25 percent of COC-determined reasonable estimate of yields for each commodity.
304	State Offices shall annually spot check the commodity inspector's work to determine the accuracy of the employee's work.
324	State Offices shall * * * review: <ul style="list-style-type: none"> • *--county spot-check folder annually to ensure that spot checks are--* performed timely and that appropriate followup action is taken to correct problems • the list of loans open after maturity on a monthly basis to ensure that matured or unsettled loans are properly handled.
336	STC, or STC designee, shall annually spot check COC-determined yields established for producers harvesting commodities as other than grain.

325-334 (Reserved)

Section 3 Production Evidence**335 Requirements****A Required Production Evidence**

[7 CFR 1421.12] Production evidence is **required** for any farm-stored loan quantity on which a market gain is received or LDP **selected for spot check** according to 2-CP.

B Production Evidence Not Required

Production evidence is **not** required to be submitted for any producer's loan or LDP that is not selected for spot check.

Outstanding loans repaid under CCC-681-1 provisions are not subject to spot check if delivery or production evidence was submitted at time of repayment.

LDP's are not subject to spot check if production evidence was submitted at time of request for LDP.

335 Requirements (Continued)

C Acceptable Production Evidence

Acceptable types of production evidence are:

- cleaning tickets for seed
- delivery evidence
- evidence of sales
- load summaries from warehouse, processor, or buyer
- maximum eligible quantity determined according to paragraph 336
- paid measurement service
- scale tickets, if **not** issued by the producer for the producer's own production and issued as a commercially acceptable arm's length transaction
- spot check measurements with paid measurement service
- warehouse receipts.

Production evidence may be handwritten, but is **not** acceptable for any type of production evidence submitted by the producer for the producer's own production.

D Requirements

All production evidence submitted including scale tickets, except for maximum eligible quantity determined, **must** show the following requirements:

- producer's name
- crop year may be certified or provided by the producer
- commodity
- net weight for grain sorghum and oilseeds, **except** soybeans
- net bu. for barley, corn, oats, soybeans, and wheat
- class, if applicable
- date of sale, if commodity was sold.

Note: County Offices may convert the weighed quantity to the applicable unit of measure, with concurrence from the producer, using the unit equivalency according to 2-LP Grains and Oilseeds, as applicable.

335 Requirements (Continued)

E Production Evidence Requirements for Open Storage

It is **not** mandatory at the time of LDP request that the producer deliver a negotiable warehouse receipt or acceptable production evidence to the FSA County Office for the commodities placed in open storage.

The producer must have the capability to obtain a negotiable warehouse receipt or provide another form of acceptable production evidence, if requested. Any other form of acceptable production evidence that is submitted may be verified by the warehouse that ownership or title of the delivered commodity remains with the producer if required by the County Office.

If load summary sheets or delivery records are provided instead of negotiable warehouse receipts, it is the responsibility of the producer to provide production evidence that includes a certification statement from the warehouse indicating the following:

“Title and control remains with the producer and a negotiable warehouse receipt can be issued to the producer for the quantity physically delivered to the warehouse.”

The warehouse operator certification statement is good for 30 calendar days. If the producer provides the certification statement 30 calendar days after the warehouseman’s signature and date, County Offices **must** call the elevator to verify the commodity is still in open storage.

Note: A certified CCC-633 EZ can be accepted if the producer is submitting a CCC-633 EZ page 2 and is requesting the date of the LDP request as the LDP rate.

If the LDP request is based on the date beneficial interest is lost, production evidence **must** be submitted with CCC-633 EZ.

335 Requirements (Continued)**F Unacceptable Production Evidence**

Unacceptable production evidence may be documentation that:

- indicates someone other than the producer
- does **not** meet the requirements for acceptable production evidence.

If the producer submits production evidence with a different person/entity name, COC shall review the evidence thoroughly to verify whether the production is eligible. Different names on the production evidence should be reviewed to determine relationships to producer and other farming interests and to ensure that beneficial interest has been maintained.

These different person/entity names are, but **not** limited to, the following:

- church organizations
- minor children
- other charitable entities
- owners
- spouse.

G Production Evidence Voluntarily Submitted

County Offices shall accept production evidence when producers **voluntarily** provide production evidence and were not selected for spot check.

See Part 4 for determining possible violations.

335 Requirements (Continued)

H Moisture Determinations

Follow this table when moisture **is** indicated on the production evidence.

IF...	THEN adjust the quantity to the eligible moisture level according to...
moisture level is indicated on the production evidence and the net quantity has not been adjusted	paragraph 1005 or 528, as applicable.
production evidence indicates the net quantity has been adjusted for moisture but not to the acceptable moisture level shown in 2-LP Grains and Oilseeds Note: A monetary reduction for moisture in the form of a discounted sales price is not a quantity reduction.	paragraph 1005 or 528, as applicable. Note: Do not adjust the quantity upward if the evidence indicates the quantity was adjusted below the acceptable moisture level.

335 Requirements (Continued)

I Measurements as Production Evidence

Quantities determined by measurement service may be used to determine whether **new** LDP's or refunds are applicable.

Use this table when measurements are used as production evidence for a requested loan or LDP.

IF the producer...	AND the...	THEN...
requests and pays for measurement service for loan or LDP	moisture content: <ul style="list-style-type: none"> exceeds the standard moisture level for the applicable commodity is equal to or less than the moisture level set by STC 	<ul style="list-style-type: none"> reduce the quantity by applying the applicable shrink factor use the test weight to determine quantity, if applicable.
requests and pays for measurement service for loan or LDP, after disbursement and before spot check selection	producer agrees to use the measured quantity as production evidence	<p>producer must:</p> <ul style="list-style-type: none"> request, at the County Office, to use the measured quantity as production evidence for the requested loan initial and date CCC-677-1 place CCC-677-1 in producer's file. <p>Note: Other forms of acceptable production evidence, according to subparagraph C, will not be accepted.</p>

335 Requirements (Continued)

I Measurements as Production Evidence (Continued)

IF the producer...	AND the...	THEN...
requests and pays for measurement service for loan	producer does not use the measured quantity as production evidence	other forms of acceptable production evidence, according to subparagraph C, shall be used. If the producer later requests to use the measurement service as production evidence, the producer must initial and date CCC-677-1.
does not request and pay for measurement service		other forms of acceptable production evidence shall be provided according to subparagraph C if selected for spot check.
will use part of the quantity measured as either of the following: <ul style="list-style-type: none"> • for seed • for feed 		producer must do either of the following: <ul style="list-style-type: none"> • agree to use the measured quantity as production evidence • pay for the commodity to be used for seed or feed to be measured separately from other production.
requests to use the measurements resulting from a spot check for loan or LDP	producer agrees to use the measured quantity as production evidence	producer must do both of the following: <ul style="list-style-type: none"> • pay the measurement service fee • initial and date CCC-677-1.

Note: If using measurements from CCC-677-1 as production evidence, producer **must** initial and date CCC-677-1 within 30 calendar days of the completed measurement.

335 Requirements (Continued)**J Combinations of Production Evidence**

To meet time requirements for submitting production evidence or for other reasons, producers may use a combination of measurement services and other forms of acceptable production evidence for each loan or LDP spot-checked.

COC **must** be satisfied that documentation submitted and quantities measured do **not** represent the **same** quantity. If questionable, COC may require the producer to submit documentation to account for **all** of the production.

K Production Evidence Shows Less Quantity

If the total quantity shown on production evidence provided is less than the original loan or LDP quantity, see paragraph 339 for determining repayment of unearned market gain or LDP amount. If production evidence is **not** provided, see paragraph 338 for determining repayment of unearned market gain or LDP amount.

Deficient production evidence without evidence that supports a violation does **not** mean that a violation occurred. Accordingly, when shortages appear excessive, COC's must determine whether additional research is necessary to verify whether there is a violation according to Part 4.

335 Requirements (Continued)

L Maintaining Copies of Production Evidence Submitted

When production evidence is submitted, County Offices shall:

- date-stamp and write the County Office name on the original evidence, **except** warehouse receipts, **before** copying
- make copies of the evidence submitted
- place copies in the loan or LDP folder
- review production evidence to determine eligibility
- return the originals to the producer.

336 Maximum Eligible Quantity**A Actual Production**

LDP's for commodities harvested as other than grain will be made on actual production.

Maximum eligible quantity is considered production evidence for:

- commodities harvested as other than grain according to Part 10, Section 2
- silage and commodities harvested as hay
- commodities stored in structures that cannot be measured
- commodities immediately fed during harvest
- commodities fed or seed quantities planted after LDP is disbursed or market loan repayment with no paid measurement service:
 - before feeding
 - before seeding
 - after spot check.

Note: Complete CCC-633EW according to subparagraph E, as applicable.

336 Maximum Eligible Quantity (Continued)**B STC and COC Responsibilities**

STC and COC have major roles and responsibilities determining, reviewing, and approving certain determinations that affect many producers, such as determining whole kernel grain yields for producers who harvest crops as other than grain.

STC's should play an active role in providing guidance to COC's to ensure that responsible and equitable determinations are made.

COC's **must**:

- ensure that the actual production determinations fairly reflect what a producer's anticipated yield would have been had that actual crop been harvested as grain

Example: If the commodity is affected by any disaster, such as drought, hail, etc., the yield shall be adjusted to accurately reflect the actual yield if the crop was allowed to be harvested as grain.

- protect program integrity by ensuring that actual production determinations are made in a realistic manner, are well documented, and can be supported when reviewed by auditors.

STC's and COC's are in the best position to know what production levels or practices are reasonable for their area. This responsibility is being entrusted to STC's and COC's to deliver the program in the most feasible, reasonable, and reliable manner possible. Adjoining County Offices that are divided by State boundaries are encouraged to work with both STC's when determining acceptable production levels and practices for those applicable counties.

STC or designee shall monitor maximum eligible quantity determinations established by the COC.

336 Maximum Eligible Quantity (Continued)**C Determining Maximum Eligible Quantity**

Determine the maximum eligible quantity of commodities listed in subparagraph A according to this table. All determinations **must**:

- be equivalent to the whole grain yield for that crop
- reflect disaster conditions, as applicable.

COC shall exercise judgment and rely on their knowledge of practices and growing conditions when:

- determining the maximum eligible quantity from any method
- adjusting the results of any method according to STC guidelines, as applicable.

Note: COC's **must**:

Notes: Except for the conversion factor method, calculate maximum eligible quantity for commodities harvested as other than grain by multiplying acres harvested times the yield.

COC **must** approve all maximum eligible quantity determinations and document accordingly, including notifying the producer of the yield determination and providing appeal rights, as applicable.

Comparing 3 similar farms is **not** permitted.

336 Maximum Eligible Quantity (Continued)**D Using CCC-633EW's**

CCC-633EW is a:

- worksheet for determining maximum eligible quantity for all producers of a specific commodity per farm
- a ledger to account for each loan or LDP quantity.

Note: Producers who request a loan at the reduced loan rate or LDP on a commodity harvested as other than grain cannot request a quantity that exceeds the maximum eligible quantity according to CCC-633EW.

County Offices shall complete one CCC-633EW if all of the following apply:

- there are multiple farms
- producer is the same for all farms
- production is commingled.

Note: Eligible acres of grain production obtained from FSA-578 **must** include all totals from all farms. The yield will be the same for the commodity from all farms regardless of which farm the commodity was actually produced.

E Completing CCC-633EW's

Complete CCC-633EW for **each** request when maximum eligible quantity must be determined.

Item	Instructions
1-5	Self-explanatory.
6	Complete item 6 to determine a whole grain yield if whole grain has been harvested.
6 A	Enter farm number if different from item 5.
6 B	Enter the eligible acres of grain production from FSA-578.
6 C	Enter actual grain production. Actual production must be verifiable or supported by acceptable production evidence.
6 D	Divide item C by item B to determine the actual whole grain yield.
7-8	Complete items 7 and 8 to determine a reasonable production yield based on COC's judgment, knowledge of practice, and grazing conditions, if method 1 or 2 is not applicable..

9 A	Enter COC-established yield or other yields or production, as applicable.
9 B	Record COC justification when determining COC yield or other yields or production, as applicable.
10	Enter yield from item 6 D, 7 F, or 9 A, as applicable.

Do not allow the producer to receive loan or LDP on quantities in excess of the maximum eligible quantity.</p> <p>If individual producers from joint operations apply on separate loan or LDP applications, create a separate ledger showing their share of the maximum quantity available.</p>

336 Maximum Eligible Quantity (Continued)**E Completing CCC-633EW (Continued)**

After item 11 has been completed to determine the maximum quantity available, complete item 11 according to the following to maintain the balance of maximum quantity available.

11 A	Enter LDP or loan number, as applicable.	
11 B	Enter acreage applicable to the quantity certified on CCC-633 EZ.	
11 C	Enter share of the producer, as applicable.	
11 D	Enter name of the producer, as applicable.	
11 E	No further action is necessary.	
11 F	No further action is necessary.	
11 G	Step	Action

 - loan maturity date
 - last day of the 9th calendar month after the month in which LDP was disbursed.

B Production Evidence Not Submitted

If producers have **not** submitted production evidence by the final date to submit evidence, County Offices shall notify applicable producers in writing that:

- production evidence must be submitted within 30 calendar days from the date of notification
- LDP's and loan market gains, plus interest, must be refunded to CCC if production evidence is not received in the County Office within 30 calendar days from the date of notification.

- the total loan quantity is determined ineligible.

See paragraph 336 if the producer reports the commodity was fed.

Step	Action
1	<p>Cancel the loan according to 12-PS. A receivable will be established in NRRS. Liquidated damages may be waived if good faith has been determined. County Offices shall:</p> <ul style="list-style-type: none"> • manually track the loan • repay the loan at principal plus interest • transfer the loan to claims after 30 calendar days according to 12-PS • establish a receivable through NRRS according to 64-FI
2	<p>Interest will begin to accrue:</p> <ul style="list-style-type: none"> • at the interest rate in effect for loans for the month the loan was disbursed • from the date the loan was disbursed to the earlier of the following: <ul style="list-style-type: none"> • date of repayment • date a receivable is established.

338 Failure to Provide Acceptable Production Evidence (Continued)**B LDP Provisions**

County Offices shall follow the procedures in this table for LDP's when:

- **no** acceptable production evidence is received in the County Office within 30 calendar days from date notified according to subparagraph 337 B
- the total LDP quantity is determined ineligible.

See paragraph 336 if the producer reports the commodity was fed.

Step	Action
1	Correct eLDP according to 15-PS. Assess liquidated damages, as applicable. A receivable will be established in NRRS.
2	<p>The interest on the LDP overpayment amount will be calculated from the date LDP was made to the earlier of the following:</p> <ul style="list-style-type: none"> • date of repayment • date of demand letter. <p>Notes: Interest will begin to accrue:</p> <ul style="list-style-type: none"> • at the interest rate applicable to CCC loans, excluding the additional 1 percent, for the month in which LDP was made • from the initial LDP date to the earlier of the following: <ul style="list-style-type: none"> • date of refund • date a receivable is established. <p>Interest is not subject to adjustment each January 1.</p>

339 Insufficient Production Evidence

A Quantity Less Than Loan Quantity or Portion Determined Ineligible

Follow this table for market loan repayments when there is market gain earned if the quantity shown on the production evidence is **less than** the loan quantity or a portion of the loan quantity is determined ineligible.

Step	Action
1	<p>If the quantity shown on the production evidence provided by the producer is:</p> <ul style="list-style-type: none"> less than the quantity repaid with market gain, and is: <ul style="list-style-type: none"> within tolerance, or not within tolerance and determined to be a discrepancy, correct the repayment according to 12-PS and do not assess liquidated damages not within tolerance and determined to be a violation, correct the repayment according to 12-PS manually calculate liquidated damages according to paragraph 412 equal to or greater than the quantity repaid with market gain, no further action is necessary.
2	<p>The unearned market gain for the ineligible quantity will be established as an overdisbursement.</p> <p>Note: Interest will begin to accrue from the date the loan was disbursed to the earlier of the following:</p> <ul style="list-style-type: none"> date of repayment date of demand letter.

339 Insufficient Production Evidence (Continued)**B Quantity Less Than LDP Quantity or Portion Determined Ineligible**

Follow this table for LDP's if the quantity shown on the production evidence is **less** than the LDP quantity or a portion of the LDP quantity is determined ineligible.

Step	Action
1	<p>If the quantity shown on the production evidence provided by the producer is:</p> <ul style="list-style-type: none"> • less than the original LDP quantity and is: <ul style="list-style-type: none"> • within tolerance, or not within tolerance and determined to be a discrepancy, correct the LDP according to 15-PS and do not assess liquidated damages • not within tolerance and determined to be a violation, correct the LDP according to 15-PS and manually calculate liquidated damages according to paragraph 412 • equal to the original LDP quantity, no further action is necessary.
2	The unearned LDP for the ineligible quantity will be established as a receivable in NRRS.

340 Apportioning Commingled Production Evidence**A Commingled Production Evidence**

If the producer provides production evidence, the production evidence is considered commingled if it represents:

- 1 or more loans **and** different market gain rates were used for repayment
- more than one LDP **and** different LDP rates were used
- a combination of loans and LDP's **and** different market gain rates were used for repayment or to make LDP's.

340 Apportioning Commingled Production Evidence (Continued)

B Reviewing Production Evidence

County Offices shall follow this table to review production evidence when provided.

Step	Action
1	<p>Determine whether the production evidence represents 1 of the following:</p> <ul style="list-style-type: none"> • more than one LDP • more than 1 loan • a combination of LDP's and loans.
2	<p>Determine whether:</p> <ul style="list-style-type: none"> • more than one LDP or market gain rate applies • evidence represents a farm that does not have LDP or loan.
3	<p>Review the production evidence submitted to determine loan eligibility based on grading factors, if shown.</p>
4	<p>Identify any ineligible quantity including quantities:</p> <ul style="list-style-type: none"> • for which beneficial interest was lost before LDP or loan was approved • from ineligible acres. <p>Notes: If commingled evidence includes a farm on which LDP or loan was not obtained, require the producer to provide total production for all farms commingled in the production.</p> <p>County Offices shall apportion the submitted production evidence based on each farm's acreage multiplied times the expected yield before proceeding.</p>
5	<p>Deduct the following from the total production evidence submitted:</p> <ul style="list-style-type: none"> • apportioned quantity from farms without a loan or LDP • ineligible quantity.

340 Apportioning Commingled Production Evidence (Continued)

C Apportioning Resulting Evidence to Each Loan and LDP

After the evidence is separated according to subparagraph B, the eligible evidence must be adjusted and apportioned to each LDP and loan repayment associated with the evidence.

Adjust and apportion the eligible production evidence using this table. See subparagraph D for an example.

Step	Action	Result
1	Add the following for farm-stored LDP's and loans: <ul style="list-style-type: none"> • quantity on which payment was made for each LDP • quantity for each loan. Exception: Do not include LDP or loan quantities for which measurement service was used as production evidence for the entire LDP or loan.	The quantity that will be used to apportion the result of step 2.
2	From the total eligible production evidence determined according to subparagraph B, subtract: <ul style="list-style-type: none"> • total LDP quantity for all LDP's • total loan quantity for farm- and warehouse-stored loans. 	The additional quantity for payment that shall be apportioned between LDP's and loan repayments.
3	Multiply the quantity determined in step 1 times 10 percent.	The maximum quantity that can be apportioned.
4	Divide the smaller of the result in step 2 or 3 by the result in step 1, and round to 4 decimal places. Note: This factor will not exceed .1000 if steps 1 through 4 are properly determined.	A factor for apportioning the additional quantity.

340 Apportioning Commingled Production Evidence (Continued)

C Apportioning Resulting Evidence to Each Loan and LDP (Continued)

Step	Action	Result
5	<p>Multiply the factor determined in step 4 by each quantity determined in step 1, and round to 2 decimal places.</p> <p>When different market gain rates were used to repay an individual loan, multiply the factor times:</p> <ul style="list-style-type: none"> • each repayment quantity to determine the additional quantity at each market gain rate for manual calculations • the total quantity repaid for automated transactions. 	The additional quantity as prorated to each LDP or loan repayment.
6	Add the results of step 5 to each corresponding LDP or loan repayment quantity.	The quantity used to recalculate LDP or loan amount for each applicable loan repayment.

340 Apportioning Commingled Production Evidence (Continued)**D Example of Apportioning Eligible Production Evidence**

In this example, the producer cash rents 5 farms. Each farm has received a corn loan, LDP, or a combination of the loan and LDP.

- **Loan Information**

Loan No. 1: Certified 5,400 bu. (5400-loan) from farms A and B.

3 repayments:

- 2,000 bu. market gain was \$0.50 per bu.
- 2,000 bu. market gain was \$0.00 per bu.
- 1,400 bu. market gain was \$0.30 per bu.

Loan No. 3: Warehouse-stored 10,000 bu. from farms B and C.

Loan No. 5: Warehouse-stored 12,000 bu. from farm E.

- **Production Evidence**

The producer provided, before final loan availability date, a load summary sheet from 1 warehouse with 50,300 bu. of corn delivered.

The producer stated that the production evidence includes the total production from all 5 farms cash rented and cannot be identified by farm, loan, or LDP. All production has been sold.

340 Apportioning Commingled Production Evidence (Continued)**D Example of Apportioning Eligible Production Evidence (Continued)**

- Results of County Office Review of Production Evidence**

The following determinations were made in the County Office review of production evidence:

- the evidence submitted was for all of the production from all of the farms represented by LDP's and loans requested
- evidence was commingled between all loans and LDP's requested
- all production was eligible at the time LDP or loan was approved.

341 New Loans or LDP's Based on Submitted Production Evidence

A Basic Provisions

Additional market gain payments or additional LDP's are not available when production evidence is submitted. Any amount that exceeds LDP quantity or the market gain amount must be requested on a new LDP or new loan.

B New Payments

New LDP's and MAL's based on the quantity eligible for additional market gain may be requested when all of the following apply:

- production evidence is provided
- loan and LDP is requested by the final loan availability date
- producer maintains beneficial interest in the commodity through the date the new LDP request is received in the County Office according to paragraph 127.

C Applicable Rates

For:

- LDP's, the rate is the rate in effect on the date of the new LDP request, as applicable
- loans, the loan rate is applicable to the loan according to Part 5.

342-399 (Reserved)

Part 4 Violations

Section 1 General Provisions

400 Producer Liability

A Liability

When a producer obtains a commodity loan or requests LDP, the producer agrees:

 - remove or dispose of a quantity of a commodity pledged as collateral for CCC commodity farm-stored loan without prior COC approval.

See Exhibit 2 for definitions of types of violations, as applicable.

B Violating Terms and Conditions

Violation means the breach of any of the terms and conditions of the loan or LDP agreement, which includes the regulations by reference. Any discrepancy in the loan collateral whether or **not** within tolerance may be considered a violation.

Any producer determined to have discrepancies not within tolerance, and/or COC determines a violation occurred or has violated the terms and conditions of the applicable forms identified in subparagraph A, shall be subject to:

- liquidated damage assessment and other administrative actions, and shall be liable for monetary amounts as specified in the applicable regulations and terms and conditions of the applicable forms
- criminal prosecution under Federal law.

***--Note:** All shortages shall be recorded in APSS using the violation software according to 12-PS.--*

In cases of illegal activity, such as fraud, see 9-AO.

See subparagraphs C and D for COC and County Office action.

401 Loan and LDP Violations**A List of Loan and LDP Violators**

County Offices shall:

- maintain a list of producers who have been determined to have an loan or LDP discrepancy and COC determines a violation occurred, or who have violated the terms and conditions of the applicable forms identified in subparagraph 401 A
- keep producer's name on the list for 24 months after the date the discrepancy and/or when the violation is discovered
- notify all other counties in which the producer has an interest.

This list of violators is:

- not considered an administrative action and placement on the list is not appealable
- a method of determining whether the producer has had previous violations.

B Notifying Producer

When a discrepancy that is within tolerance is discovered, County Offices shall send the producer the notification letter according to Exhibit 11, subparagraph M.

When a discrepancy exceeding the tolerance violation is discovered, County Office shall:

- assume good faith **cannot** be determined for:
 - flagrant violations of loan and LDP agreement terms and conditions
 - incorrect certifications
 - unauthorized dispositions
 - unauthorized removals
- determine what administrative actions are to be taken according to subparagraph 410 A and the amounts due according to subparagraphs 410 D and 412 A
- notify the producer of the violation and the actions to be taken, send the violation notification letter to the producer according to Exhibit 11, subparagraph N

401 Loan and LDP Violations (Continued)

C Violations Involving COC Members

If the violation involves COC member, refer the case to STC for determination.

- Submit a memorandum explaining the details of the situation along with the complete case file.
- COC shall **not** make any determinations or recommendations about COC member discrepancies.

STC shall follow this part when determining violations and assessing liquidated damages for all COC members considered being involved in violations of loan or LDP.

401 Loan and LDP Violations (Continued)**D Actions Taken After Notification**

Use this table to determine what actions are required after the notification letter in subparagraph B has been sent to the producer.

IF the producer...	THEN COC shall...	
does not respond within the 30-calendar-day notification period	determine whether a violation has occurred. Follow paragraph 410 for assessing administrative actions for which the producer was notified, including administrative actions for no good faith. 	cannot be determined or the producer has already been involved in more than 2 violations in the previous 24 months	subparagraph 410 C for assessing administrative actions, as applicable, using the no good faith demand letter in subparagraph 410 F.

Note: If COC determines the violation is an unauthorized disposition or a flagrant incorrect certification, COC shall **not** make any other determination **until** the actions in paragraph 413 are taken.

402-409 (Reserved)

Section 2 Administrative Action

410 Determining Administrative Actions

A Types of Administrative Actions

The following administrative actions are possible for loan and LDP violations:

- assessing liquidated damages
- calling the loan
- denying future certified LDP's
- denying future farm-stored loans
- requiring repayment of the entire LDP quantity
- requiring repayment of LDP quantity involved in the violation
- requiring repayment of loan quantity involved in the violation.

Producers who remove or dispose of any part or all of the commodity loan collateral without prior authorization or do not provide required production evidence:

- have violated the loan or LDP program
- are subject to assessment of liquidated damages or other administrative actions, as applicable.

Note: For unauthorized disposition of loan collateral or for flagrant cases of incorrect certification, see paragraph 413 **before** taking any additional administrative actions or making COC determinations.

410 Determining Administrative Actions (Continued)**B Good Faith Determinations**

COC shall determine whether a producer is considered to have acted in good faith if 1 of the following applies:

- there is evidence to support that the producer made every effort to comply with CCC-601 terms and conditions and CCC's security interest was protected
- violation was inadvertent, accidental, or unintentional according to STC-established guidelines (subparagraph 412 B)
- actions that resulted in a violation prevented the spoilage of the commodity or were necessary to protect CCC's security interest in the commodity.

The good faith determination does **not** negate the producer's responsibility to repay MAL and fulfill MAL terms and conditions.

If a producer can show he/she acted in good faith when the loan or LDP violation occurred, and the producer has had 2 or less loan or LDP violations in the previous 24 months, COC shall demand:

- as applicable, repayment of:
 - loan principal and charges plus interest applicable to the loan quantity affected by the violation according to Part 7

Note: For violation repayments based on:

- incorrect certifications, see paragraph 714 A
 - unauthorized disposition or removal, see paragraph 416.
- LDP amount and charges plus interest applicable to the LDP quantity affected by the violation
- payment of liquidated damages assessed according to paragraph 412.

See subparagraph:

- 412 B for authority to waive liquidated damages
- 417 A for additional actions if amount due is not repaid within 30 calendar days of this demand.

410 Determining Administrative Actions (Continued)**C Good Faith Not Determined or Multiple Violations Are Applicable**

If COC cannot determine the producer acted in good faith when the violation occurred, or if the producer has more than 2 loan or LDP violations in the previous 24 months, COC shall:

- demand payment of liquidated damages assessed according to paragraph 412

***--Note:** Only STC or DAFP has the authority to waive liquidated damages when lack of good faith is determined.--*

- for loans:
 - call the applicable loan involved in the violation
 - demand repayment of any market gain previously realized on the loan, plus interest according to subparagraph F

Note: If the producer repays the previously realized market gain, interest, and liquidated damages, then County Offices shall **not** send the demand letter.

- for LDP's, demand repayment of entire LDP amount plus interest.

410 Determining Administrative Actions (Continued)**D Determining the Offense**

The number of violations during a 24-month period is used in determining the applicable offense.

Example: To be considered as a first offense, the producer must not have had any loan or LDP violations in the 24 months previous to the current violation.

Notes: If 1 or more loan or LDP violations are determined for the same producer during the same spot-check selection, and only if production evidence is provided for all loans or LDP's spot-checked, consider only 1 offense to have occurred.

A second offense may be determined if a shortage exists for any loan or LDP spot-checked when production evidence is submitted at a later date.

If the producer is a multi-county producer, County Offices shall include violations that occurred in other counties when determining the number of violations that occurred within the 24-month period.

*--The liquidated damages penalty for **all** violations is 10 percent. Until the MAL software is moved to a web based system, enter all violations as the first offense to correctly calculate the 10 percent liquidated damages.--*

410 Determining Administrative Actions (Continued)

E Good Faith Demand Letter

If good faith is determined and the producer has been involved in 2 or less violations in the previous 24 months, use the following demand letter.

RE: **(Enter crop year, commodity, and loan/LDP number.)**

Dear _____:

The County FSA Committee (COC) has determined that you acted in good faith concerning the violation of the **(loan agreement/LDP application)** of which COC had previously notified you. Based on this determination, and because this is your **(first/second)** violation in the previous 24 months, the following amounts are now due for the quantity applicable to the violation **(enter as applicable)**:

- | | | |
|-------------------------|-----------------------------|--------------------------|
| • loan principal | • interest | • market gain |
| • LDP amount | • liquidated damages | • other charges). |

Applicable interest will continue to accrue from the date of this letter until these amounts are repaid or transferred to NRRS. If these amounts are not repaid within 30 calendar days, the following actions will be taken **(enter as applicable)**:

- **entire loan will be immediately called**
- **foreclosure proceedings will begin on any ineligible commodity**
- **a receivable will be established for the following amounts due (enter as applicable):**
 - **loan principal, plus accrued interest applicable to the ineligible commodity**
 - **entire LDP amount**
 - **all market gain realized on the loan, plus interest**
 - **amount of liquidated damages**
 - **other charges).**

After the receivable is established:

- the receivable may be reported to other Federal agencies for offset from any amounts that may be due you
- late payment interest, based on the rate established by the Department of the Treasury, will be applied to your debt on a daily basis from the date the receivable is established until your debt is paid in full.

An additional 3 percent will be assessed on the unpaid balance of the debt retroactively from the date the receivable is established if payment in full is not made within 60 calendar days after the date the receivable is established.

(Include appeal options according to 1-APP.)

410 Determining Administrative Actions (Continued)**F No Good Faith Demand Letter**

If good faith **cannot** be determined **or** the producer has more than 2 violations in the previous 24 months, use this demand letter.

RE: (Enter crop year, commodity, and loan/LDP number.)

Dear _____:

You were notified on (enter date of notification of violation) of the situation with respect to your (loan or LDP). The amount due has been recorded for offset from any FSA or CCC payment due you. (Describe the situation, including the determinations made because of an appeal, reconsideration, or failure by the producer to taken any action.

Add paragraph in subparagraph:

- **G for nonrecourse farm-stored loans**
- **H for nonrecourse warehouse-stored loans**
- **I for recourse loans.)**

The following amounts are now due and payable (enter as applicable:

- **outstanding loan principal**
- **interest**
- **previously realized market gain**
- **LDP amount**
- **liquidated damages**
- **other charges).**

Applicable interest will continue to accrue from the date of this letter until these amounts are repaid or transferred to receivable. If the above amounts are not repaid within 30 calendar days of this letter:

- *--a receivable may be established
- foreclosure proceedings will begin on any ineligible commodity.--*

After the receivable is established:

- the receivable may be reported to other Federal Agencies for offset from any amounts that may be due you
- late payment interest, based on the rate established by the Department of the Treasury, will be applied to your debt on a daily basis from the date the receivable is established until your debt is paid in full.

An additional 3 percent will be assessed on the unpaid balance of the debt retroactively from the date the receivable is established if payment in full is not made within 60 calendar days after the date the receivable is established.

(Include appeal options according to 1-APP.)

410 Determining Administrative Actions (Continued)**G Nonrecourse Farm-Stored Loans**

If the violation involves a nonrecourse farm-stored loan, use the following paragraph in the no good faith demand letter according to subparagraph F.

Based on this determination, the maturity date for your nonrecourse loan was accelerated to **(enter the 31st calendar day after the date of the notification letter)**.

Because the loan has matured and the debt has not been repaid, the collateral not involved in the violation must be delivered to CCC. Follow the delivery instructions enclosed on CCC-691, Commodity Delivery Notice. If the principal and charges plus interest applicable to the quantity on CCC-691 are not repaid or delivery of the loan quantity shown on CCC-691 is not completed on or before the 30th calendar day after the date of the expiration, or extended expiration date of CCC-691, the following will apply:

- foreclosure proceeding will begin
- the amount due will be recorded for offset from any FSA or CCC payment due you
- a receivable will be established.

410 Determining Administrative Actions (Continued)**H Nonrecourse Warehouse-Stored Loans**

If the violation involves a nonrecourse warehouse-stored loan, use the following paragraph in the no good faith demand letter according to subparagraph F.

Based on this determination, the maturity date for your nonrecourse loan was accelerated to **(enter the 31st calendar day after the date of the notification letter)**.

Because the loan has matured and the debt has not been repaid, the loan collateral not involved in the violation has been forfeited to CCC.

Note: If the producer has appealed or requested reconsideration, notify the producer that if the principal and charges, plus interest applicable to the quantity not involved in the violation, is not repaid within 30 calendar days of this letter, the loan collateral will be forfeited to CCC.

I Recourse Loans

If the violation involves a recourse loan, use the following paragraph in the no good faith demand letter according to subparagraph F.

Based on this determination, the maturity date for your recourse loan was accelerated to **(enter the 31st calendar day after the date of the notification letter)**.

Because the loan has matured and the debt has not been repaid, foreclosure proceedings will begin on the loan collateral not involved in the violation. In addition, the amount of principal and charges, plus interest, is due and payable and has been recorded for offset from any FSA or CCC payment due you. If the amount due is not repaid within 30 calendar days of this letter, a receivable will be established.

411 Calling Loans**A CCC's Interest Not Protected**

COC's may, if CCC's interests are not or will not be protected, call any or all of the producer's farm-stored loans.

412 Assessing Liquidated Damages

A Calculating Liquidated Damages

For loan and LDP violations, calculate liquidated damages by multiplying the quantity involved in the violation times 10 percent of the loan or LDP rate.

***--Notes:** The liquidated damages penalty for **all** violations is 10 percent. Until the MAL software is moved to a web based system, enter all violations as the first offense to correctly calculate the 10 percent liquidated damages.

For 2013 crop year loans disbursed on or after October 1, 2013, that were reduced for sequestration, the liquidated damages penalty is determined using the full loan rate, **not** the sequestered rate.--*

B Authority to Waive Liquidated Damages

[7 CFR 1421.109] COC's may grant relief by waiving **any or all** of the liquidated damages determined according to subparagraph A when COC determines good faith and both of the following apply:

- violation occurred inadvertently, accidentally, or unintentionally
- first or second offense.

STC's:

- shall establish written guidelines for determining when a violation occurred inadvertently, accidentally, or unintentionally
- shall ensure that COC's are following STC guidelines and making equitable determinations based on the merits and facts involved in the violation
- may grant relief on a case-by-case basis by waiving **any or all** of the liquidated damages for both good faith and lack of good faith determinations, as long as the dollar amount falls within their authority.

C Canceling Liquidated Damages

Liquidated damages not waived cannot be canceled.

413 Special Provisions for Unauthorized Disposition or Flagrant Incorrect Certification Cases

A COC Action

For each violation for unauthorized disposition or flagrant incorrect certification cases, COC shall:

- submit a memorandum to SED summarizing the situation that includes **all** of the following:

- all actions COC has taken to date

An appeal hearing may be held, but do not determine good faith or waive liquidated damages until notified by SED of OIG action. COC shall notify producers of demand for payment according to subparagraphs 410 F or G when notification is received from SED.

- copies of documents about the violation, as appropriate, including a **complete** copy of the loan file
- meet with producers if they appeal, but do **not** make a good faith determination or waive liquidated damages before receiving notification from the State Office indicating OIG action

Note: COC shall assume good faith **cannot** be determined when notifying the producer.

- **not** make recommendation as to whether an investigation is warranted
- **not** acknowledge that an investigation may be conducted or provide any other information to anyone, including the producer, unless authorized by OIG.

413 Special Provisions for Unauthorized Disposition Cases (Continued)

B State Office Action

DOJ attorneys may provide prosecutive guidelines to OIG for SED's to use in determining cases to be referred to OIG for investigation. State Offices shall follow this table.

413 Special Provisions for Unauthorized Disposition Cases (Continued)**C No Response From OIG**

Assume that OIG will **not** investigate the unauthorized disposition if OIG does **not** respond to the State Office within 30 calendar days.

SED will notify COC to take administrative actions, as applicable, according to paragraph 410 and 9-AO.

D Action When Investigation Is Scheduled

When OIG schedules an investigation:

- farm-stored loans
- LDP's requested without production evidence.

B Additional Denial Timespan

Depending on the violation severity, COC may deny farm-stored loans and LDP's without production evidence for an additional period designated by COC.

415 Waiving Administrative Actions**A COC Action**

COC may request STC waive any administrative action of loan or LDP violations that COC does **not** have the authority to waive.

For all requests for waivers, COC shall submit copies of the complete case file to STC.

B STC Action

STC may request DAFP waive any administrative action that STC does **not** have the authority to waive, if **all** of the following apply:

 - occurred inadvertently, accidentally, or unintentionally, or the producer acted to prevent spoilage of the commodity
 - did **not** result in harm or damage to the rights of any person or Government agency
- the complete case file is submitted, including the request by COC for the waiver.

416 Accepting Payments for Violations

A Accepting Payments From Producers

For any violations, including violations referred to OIG, accept payments offered by the producer according to Part 7. County Offices shall notify the producer that payment will **not**:

- release the producer from administrative or legal action
- relieve producer of additional administrative actions.

B Unacceptable Payments

County Offices shall **not**:

- accept repayments with restrictive endorsements.

Examples: “Final payment” or “Payment in full”.

- permit producers to repay loan quantity involved in violations at a repayment rate that is less than the principal and charges, plus interest, **except** as authorized in subparagraph C.

C Repayment Rate for Unauthorized Disposition and Removal

Determine the repayment rate, according to this table, for quantities involved in unauthorized:

- removal
- disposition.

IF COC...		THEN the repayment rate is...
determines good faith according to subparagraph 410 B	and the producer has 2 or less violations	the lesser of: <ul style="list-style-type: none"> • principal and charges plus interest • CCC determined value on the date the violation occurred as determined by CCC plus 15 percent of the loan rate.

416 Accepting Payments for Violations (Continued)

D Repayment for Incorrect Certification

Any incorrect certification of loan or LDP quantity shall be repaid at principal plus interest.

For multi-county producers, the loanmaking County Office shall perform or obtain lien searches at the appropriate location according to State law.

Contact the regional attorney, through the State Office:

- when assistance or advice is needed
- for assistance when any of the following conditions apply:
 - producer has farming operations in more than 1 State
 - commodity is stored in another State
 - commodity is moved to another State during the loan period.

--When requesting lien searches, States and counties shall follow specific search instructions from their appropriate State recording official to ensure that all liens on the requested producer are listed.--

504 Lien Searches (Continued)

B Criteria for Performing Lien Searches and File UCC-1's

County Offices shall perform lien searches and file UCC-1's according to the following.

Loan Amount / Loan Type	Perform Lien Searches		UCC-1 or Applicable Financing Statement

Warehouse-Stored		X		X
= or > \$50,000

Warehouse-Stored	X			X
Note: If performing lien searches is a free service provided through the State, lien searches may be performed on all loans regardless of the dollar amount.

- producer is, at the time of the loan request, either of the following:
 - involved in a bankruptcy
 - under investigation by OIG
- producer committed a MAL/LDP violation in the current or preceding crop year
- CCC is notified by the producer, lending institution, or lienholder that a lien exists on the commodity
- aggregate loan principal for the crop year will equal or exceed \$50,000
- **STC required** additional search actions.

Note: County Offices shall file applicable UCC-1's required by State law, to protect CCC's security interest according to paragraph 521, regardless of MAL principal.

C Recording UCC-1's for Chattel Mortgage Filing Date in APSS

APSS was enhanced to **not** require filing dates of UCC-1's for loans less than \$50,000. County Offices are instructed to enter the date UCC-1 was filed in the "UCC-1 or Chattel Mortgage Filing Date" field on Screen PLA13005 for **all** loans.

504 Lien Searches (Continued)**D When to Perform Lien Searches**

Lien searches shall be performed:

- **after** the loan request is filed and **before** the loan is approved and disbursed
- when collateral for a warehouse-stored loan is transferred to farm storage according to paragraph 617.

* * *

Do **not** perform the lien searches **before** requests are filed.

Advise producers that loans **cannot** be disbursed until lien searches are completed and necessary CCC-679's are obtained according to paragraph 505.

E Action After Lien Searches Are Performed

When lien searches are completed, County Offices shall:

- file results of searches in applicable loan folders
- **before** loan disbursement, **require** producers to provide CCC-679's according to paragraph 505, for each lienholder discovered on lien search.

CMA's, DMA's, and LSA's shall be reminded of their responsibility to pledge eligible commodities for CCC loan free of any liens based on their respective financial agreement.

If CMA, DMA, or LSA has pledged the commodity offered or to be offered for loan to obtain a line of credit, CMA, DMA, or LSA shall provide CCC-679 that is:--*

- completed according to subparagraph 505 D
- signed by the applicable lending institution.

G Paying Lien Search Fees

Issue payment using the online payment web-based application for the lien search fees.

504 Lien Searches (Continued)**H Lien Search and Filing Fees Paid by Producers**

--To decrease the lag time between a loan request and loan disbursement, producers may-- pay for lien search and filing fees with a negotiable document made out to the applicable recording office using checks, cashier's checks, or money orders.

The producer is responsible for any charges resulting from insufficient funds for returned checks. If payment is made by cashier's check or money order, the producer is responsible for the applicable service fees. Producer-paid charges shall **not** be deducted from the loan proceeds.

Note: County Offices shall advise producers that paying the lien search and filing fees may decrease the lag time between a loan request and loan disbursement, but does not guarantee faster fund disbursement.

County Offices shall continue to process UCC-1's in the normal manner and attach the producer's check to UCC-1 when submitting UCC-1 for filing.

505 CCC-679's**A Obtaining CCC-679's**

CCC-679's shall be obtained by the producer or CMA, DMA, or LSA, as follows:

- **before** loan disbursement
- if liens or encumbrances are recorded, include CCC-679's from FSA FLP representatives
- even if the liens or encumbrances will be satisfied from the loan proceeds
- if **actual** notice is received from a lienholder
- for IRS Federal tax liens, if the producer certifies that the lien exists.

CCC-679's are **not** required for unrecorded liens **unless** the County Office has received actual notice of a lien from the lienholder.

Note: Notice of Levy received from IRS is considered evidence of a lien; therefore, CCC-679 **must** be sent to IRS.

CCC-679 shall be obtained from CMA, DMA, or LSA, according to 1-CMA, when CMA, DMA, or LSA informs the County Office that a lien is present.

Note: Lienholder may sign CCC-679 and FAX to the County Office.

505 CCC-679's (Continued)

A Obtaining CCC-679's (Continued)

--CCC-679's can be submitted by producers or CMA's, DMA's, and LSA's at the beginning-- of a crop year. After CCC-679 is obtained for the first loan made for a specific crop year, the same CCC-679 may be used for all subsequent loans made for the specific crop, if CCC-679 is applicable for "all" the quantity on specified farms, including "all" farms. However, a lien search shall be performed for all loan requests according to paragraph 504.

Note: Producers are responsible to provide completed CCC-679's before loan disbursements. 520 Nonrecourse Loan Requests and Loan Rates

A Requesting Farm-Stored Loans

[7 CFR 1421.105] When requesting farm-stored loans, producers shall:

- for certified loans, certify the quantity in farm storage on CCC-666 according to paragraph 524
- for measured loans:
 - complete CCC-666 according to paragraph 524
 - request measurement service according to paragraph 525 and Exhibit 15.

B Loan Rates

Use the loan rate for the county where the commodity is stored to calculate the loan amount for certified or measured farm-stored loans according to paragraph 506.

C Adjusting Loan Rate

Adjust the base county loan rate for the following:

- commodities harvested as other than grain, **except** silage and hay (subparagraph D)
- contaminated commodities (subparagraph E)
- low quality or sample grade commodities (subparagraph F).

***--Note:** The loan rate for commodities harvested from ACRE-elected farms for crop year 2013 **must** be adjusted according to subparagraph 235 A.--*

D Loan Rate for Commodities Harvested as Other Than Grain

For certified or measured farm-stored loans on commodities harvested as other than grain, the loan rate shall be 30 percent of the loan rate for the county where the commodity is stored to calculate the loan amount. Silage and hay are **not** eligible for a MAL.

The following illustrates how the commodity harvested as other than grain MAL rate is ***--computed for ACRE-elected (for 2013 crop only) and non-ACRE-elected farms. For crop year 2014, see the Non-ACRE column.--***

Determining Commodities Harvested as Other Than Grain MAL Rate

The following table illustrates how the contaminated commodity MAL rate is computed for *--ACRE-elected (for 2013 crop only) and non-ACRE-elected farms. For crop year 2014, see the Non-ACRE column.--*

See subparagraph 225 H. For the falling number discounts for wheat, see 2-LP Grains and Oilseeds.

520 Nonrecourse Loan Requests and Loan Rates (Continued)**G Premiums and Discounts**

* * * Premiums and discounts will **not** apply for all eligible commodities at loan disbursement, **except** for peanut and cotton MAL's; however, premiums and discounts will apply if the eligible loan commodities are forfeited and delivered to CCC and any deficiency **must** be repaid to CCC.

H Adjustments to Loan Rate After Forfeiture or Settlement

Except for peanuts and cotton, loan rates will be adjusted to reflect applicable premiums and discounts and/or storage charges owed to CCC at the time of recording the forfeiture or settlement.

521 Filing UCC-1's**A 1998 Revision and 2010 Amendments to UCC Article 9**

All States have adopted the 1998 revision to UCC Article 9. One of the key changes included centralizing the electronic filing of most security interests for States without a pre-existing centralized filing system. However, as States transition to a centralized, electronic UCC filing and recording system, the means by which UCC-1's are filed and paid for may vary from State to State. State Offices shall:

- continue to follow the regional attorney's advice
- request, from PSD, isolated exceptions to policy in this paragraph based on the following:
 - written direction or recommendations from the regional attorney
 - PSD concurrence.

Example: The regional attorney advises that filing UCC-1 without a loan applicant's signature negates the double jeopardy protection afforded secured lenders by certain State laws according to Pub. L. 99-198, Section 1324. In this case, upon PSD concurrence, the State Office may direct County Offices to continue **requiring** that a loan applicant sign UCC-1, as advised by the regional attorney.

Many States have enacted the 2010 amendments to UCC Article 9. The 2010 amendments:

- modify the existing statute to respond to filing issues and addresses other matters that have arisen in practices following a decade of experience with the 1998 revision to UCC Article 9

521 Filing UCC-1's (Continued)

***--A UCC Article 9 1998 Revision and 2010 Amendments (Continued)**

- provide new standards for the names of individual debtors to be used on UCC-1.

Note: In States that have enacted the 2010 amendments to UCC Article 9, the effective date of the new law is July 1, 2013. In States that have not yet adopted the 2010 amendments, the effective date will be the date specified by State Statute in its adoption of the 2010 amendments.

State Offices shall contact their regional attorney for information on the status of the 2010 amendments to UCC Article 9 in their State.--*

B Applicability

County Offices shall file applicable UCC-1's required by State law to protect CCC's security interest after CCC-10 is obtained:

- for all farm-stored loans
- for warehouse-stored loan collateral transferred to farm storage
- immediately after the lien search and **before** loan disbursement so there can be no intervening security interests filed; obtain CCC-679 to ensure CCC's first lien position.

Notes: If UCC-1 has previously been filed, ensure UCC-1 will **not** lapse **before** loan maturity.

The procedure for filing UCC-1's, and the time period before the filing appears on the lien search, is different in every State. The loan can be disbursed provided the County Office has the results of the requested lien search, documentation showing the filing date and the reference number for the filed UCC-1, and the necessary lien waivers.

521 Filing UCC-1's (Continued)**C Where to File UCC-1's**

Generally, UCC-1's are filed in the State where, in the case of an:

- individual, the individual resides
- organization or entity, the organization or entity is registered.

Note: See paragraph 502 to determine the UCC filing location based on CCC-10 data.

The UCC-1 filing location is **not** based on the location of the commodity, as shown in this table.

IF...	THEN, unless otherwise advised by the regional attorney...
commodity is stored in: <ul style="list-style-type: none"> • multiple counties within the same State • a State different from the producer's principle residence 	file UCC-1 in the State having jurisdiction according to the current CCC-10.
farm-stored loan collateral is moved to another State for storage after perfecting the lien	no additional UCC-1 is filed because the lien is still perfected.

D Describing Collateral on UCC-1's and Other Situations

Describe collateral on UCC-1's according to the following.

IF...	THEN...
additional quantity is placed under loan	file another UCC-1 describing the collateral, if the quantity is not covered by a previously recorded UCC-1.
existing UCC-1 for that commodity covers all the current year production	it is not necessary to file additional UCC-1's.
producer requests a specific quantity	only that quantity needs to be described on UCC-1 before the loan is disbursed.
producer agrees to lien on quantity greater than the loan quantity requested that may also apply to more than 1 crop year or may be effective until UCC-1 expires	describe the collateral on UCC-1 as advised by OGC.

--If the 2010 amendments to UCC Article 9 have been enacted in a State, the State Office shall contact the regional attorney for information on what County Offices need to include on UCC financing statements.--

521 Filing UCC-1's (Continued)**E Paying Filing Expenses and Termination Fee**

County Offices shall pay filing and termination fees according to the following.

IF the...	THEN...
filing cost is for a financing statement, such as UCC-1	use the online payment web-based application. Special provisions allow the producer to pay the filing fee (subparagraph 504 H).
producer requests termination of CCC's security interest	*--prepare and file the applicable UCC form--* after receiving the termination fee from the producer. State Offices may issue more detailed instructions on terminating UCC-1's applicable to their State.
termination fee was included in the initial filing fees	after producer requests termination of lien, *--prepare and file the applicable UCC form.--*

Note: Do **not** include **any** of these fees in the service fee for the loan.

F Debtor's Name on UCC Documents

The 2010 amendments to UCC Article 9 included new standards for the name used by individual debtors on UCC financing statements. There are 2 alternatives a State can choose to adopt for the proper naming of an individual debtor that can include using debtor's valid driver license or State-issued ID card for documentation. State Offices shall contact their regional attorney for information on the naming alternative adopted in their State, and for all other guidance on the correct name to provide on a financing statement. UCC-1's that fail to properly identify debtors will **not** perfect security interests.

G UCC Forms

The 2010 amendments to UCC Article 9 implemented many new UCC forms. If the 2010 amendments to UCC Article 9 have been enacted in user's State, the regional attorney shall be contacted by the State Office to determine which forms should be used under State law.

522 Eligible Storage Structures**A Approved Farm Storage**

[7 CFR 1421.103] Approved farm storage shall consist of storage structures:

- located on or off the farm, excluding unauthorized (commercial storage) warehouses as defined in Exhibit 2, that provide safe storage for the commodity through the maturity date for the loan
- adequate to maintain the quality and quantity as determined by the County Office
- designed so that the commodity can be:
 - measured, safely inspected, and sampled, if necessary
 - safely stored in oxygen-limiting structures, as applicable.

Commodities stored in all types of bags may be eligible for loan if **all** of the following apply:

- COC determines CCC's interests are not at risk and that the bags provide safe storage
- COC determines that storing in bags of a particular size is normal for the commodity in that county

Note: COC, with STC concurrence, may waive this requirement on a case-by-case basis.

- the commodity shall **not** be accepted in bags for delivery to CCC for a farm-stored loan settlement.

Commodities stored in pits or bunkers are **not** approved farm storage **unless** the grain is a commodity harvested as other than grain. The loan rate will be adjusted according to subparagraph 520 D.

522 Eligible Storage Structures (Continued)**B Approved Warehouse Storage**

Warehouse-stored loans are available for commodities stored in authorized warehouses or at the time either of the following occurs:

- warehouse-stored loan is requested
- farm-stored loan collateral is transferred to warehouse storage.

Authorized warehouse storage, as defined in 7 CFR 1421.103(c)(1), consists of warehouses that:

- are Federally licensed under USWA
- if **not** Federally licensed:
 - are in compliance with State laws in a State with an operating warehouse licensing program and that issue warehouse receipts that meet the criteria for MAL's, as specified in 7 CFR 1421.107
 - or in a State without an operating warehouse licensing program, have entered into UGRSA with CCC.

523 Producer Certifications for Loans**A Using CCC-666's**

Producers shall certify to the quantity and quality of a commodity and the eligibility for a certified farm-stored loan. County Offices shall accept the producer's certification on CCC-666.

Remind producers of the administrative actions applicable for incorrect certification.

COC shall **not** require that all loans based on the producer's certification be spot-checked or measured before or after disbursement.

523 Producer Certifications for Loans (Continued)

B Signing CCC-666's

The producer shall sign CCC-666 certifying:

- to having beneficial interest in the commodity
- the quantity in the structures and how the determination was made
- the quantity on which to base the loan
- the storability of the commodity
- *--to the quality of the commodity--*
- the location of the commodity and, if applicable, additional designated storage structures
- that CCC-683 will be posted on the structures containing loan collateral as instructed when the loan is disbursed
- whether there are lienholders having an interest in the commodity that will secure the loan
- the class applicable to the commodity
- that the identity of the commodity securing the farm-stored loan will remain unchanged
- the commodity securing the farm-stored loan will **not** be moved or commingled with any other commodity without prior written approval of the County Office.

If producers designate additional storage structures according to paragraph 526, loan collateral may be moved without prior County Office approval.

Before signing CCC-666, the producer must ENTER “**yes**” or “**no**” to the question, “Are you or any co-applicant delinquent on any Federal non-tax debt?” If the producer answers “**yes**”, see subparagraph 202 B.

File original in the producer's loan folder and provide a copy to the producer.

525 Measurement Service for Loans or LDP's

A Requesting Measurement Service

The producer may request and receive measurement service for a loan application or LDP for all commodities. County Offices shall:

- complete the request for measurement service according to 2-CP
- initially prepare CCC-677-1 for use by the commodity loan inspector (Exhibit 15).

A paid measurement service may be requested up to 30 calendar days before a producer submits a loan application. If a loan request is not made within 30 calendar days after measurement service is completed, the producer may certify to the quantity pledged for a loan or pay for another measurement service.

See Part 10 when measurement service is needed to determine quantity for LDP request.

County Offices shall **not** provide measurement service for commodities stored in:

- authorized warehouses (commercial storage)
- structures that **cannot** be safely accessed
- **sealed structures**, such as oxygen-limiting structures.

Measurement service may be used for production evidence if fee is paid and producer indicates on CCC-677-1, block 32, within 30 calendars of measurement service completion. Producer should be immediately notified of measurement service results.

If the loan is spot-checked, the spot check results may be used as production evidence, if the producer pays for measurement service within 30 calendar days of the spot check being completed and CCC-677-1, block 32 is checked.

525 Measurement Service for Loans or LDP's (Continued)**B Measurement Service Fees**

Establish measurement service fees according to 2-CP.

Fees may be either:

- collected when the producer requests the measurement service or after completion
- deducted from the loan or LDP proceeds as a payee to CCC.

C Producer Responsibilities

[7 CFR 1421.105] The producer **must** provide access to the commodity during inspection. If safe access to the structure and commodity is **not** available, the commodity inspector shall:

- not complete the measurement service request
- record the conditions on CCC-677-1 and report the findings to the County Office.

To ensure accurate measurements, the producer should:

- leave excess space on top of commodity in structure
- level the commodity, if possible
- square ends and sides of commodity piles by using bulkheads if commodity is stored in a flat structure.

525 Measurement Service for Loans or LDP's (Continued)

D Commodity Inspector Responsibilities

Commodity inspectors shall follow the steps in this table when measurement service has been requested.

Step	Action
1	<p>Measure commodity stored in all structures that may be safely accessed that will be included in the disbursement.</p> <p>To ensure accurate measurements, if the commodity is not level:</p> <ul style="list-style-type: none"> • record depth of commodity from several places in the storage structure • use the average measurements for entries on CCC-677-1. <p>Commodity inspectors shall not measure any commodity stored in a structure that is not safe to measure.</p>
2	<p>Check the commodity and structures, as applicable, for any of the following conditions:</p> <ul style="list-style-type: none"> • insect infestation • *--heating because of excess moisture--* • rodent or other animal or bird damages • structural damage. <p>Record on CCC-677-1, "Remarks" section, any factors that could affect storability or quality of the commodity.</p>
3	<p>Draw a representative sample, using the method according to 5-LP, with a standard grain probe from varying depths of the commodity throughout all storage structures that will be included in the disbursement.</p> <p>Note: Do not obtain sample solely from the surface of the stored commodity.</p>

5	Complete CCC-677-1 according to Exhibit 15.

E County Office Responsibilities

Before disbursing loans or LDP's, County Offices shall follow these steps after measurement service has been completed.

Step	Action
1	<p>Review all entries and calculations of quantity on CCC-677-1 and notate any comments entered by the commodity inspector.</p> <p>Refer loan or LDP application information to COC for review if there:</p> <ul style="list-style-type: none"> • are comments from the commodity inspector about the adequacy of the storage structure or storability of the commodity • is reason to question quantity eligibility.
2	<p>Enter measurements through APSS according to 12-PS. The quantity in the storage structure will be calculated by APSS from the measurements entered.</p> <p>Manual calculations are required before entry into APSS for the following:</p> <ul style="list-style-type: none"> • inverted cone when a pit measurement • pit calculation when a peak measurement • quality factors to determine the applicable loan rate for recourse warehouse-stored grain processed as farm-stored loans in APSS.

525 Measurement Service for Loans or LDP's (Continued)

F Applying Certain Factors to Loan and LDP Quantities

Apply, to loan and LDP quantities, test weight factor, combined test weight and pack factors, and moisture shrinkage factor, as applicable. Use the following:

- combined test weight and pack factors to determine the measured quantity of barley, corn, oats, grain sorghum, soybeans, and wheat
- test weight and pack factors to determine the measured quantity for oilseeds, **except** soybeans
- as applicable, moisture shrinkage factors, according to Exhibit 12, when determining the measured quantity for:
 - oilseeds, **except** soybeans (subparagraph B)
 - all other commodities, including soybeans and ear corn (subparagraph A).

Do **not** apply the combined factors to any of the following:

- grain not stored in a structure
- corn and grain sorghum exceeding the maximum STC moisture levels
- cracked, rolled, or crimped shelled or ear corn.

For soybeans, the net weight and net bu. shall be the gross weight minus the weight of the foreign material exceeding 1 percent.

Exhibit 17 provides the combined test weight and pack factor tables for commodities that match calculations in APSS. When determining quantity using the combined test weight and pack factors in Exhibit 17, County Offices shall:

- enter the measurements in APSS on Screen PLB12000 in the normal manner; APSS calculates measurements using all columns in Exhibit 17
- remind producers they **must** verify the measurements and are responsible for the entire loan amount.

--Exhibit 75 provides the combined test weight and pack factors for pulse crops. The factors in columns 2 through 4 of the tables match the combined test weight and pack factors used in APSS when calculating quantity. For larger structures, the last 3 columns have been developed but are not equal to the combined test weight and pack factors used in APSS.--

525 Measurement Service for Loans or LDP's (Continued)**F Applying Certain Factors to Loan and LDP Quantities**

*--When determining quantity using the combined test weight and pack factors for pulse crops in Exhibit 75, County Offices shall:

- enter the determined test weight when entering the measurement in APSS on Screen PLB12000 in the normal manner
- manually compute the quantity using the last 3 columns of Exhibit 75 for larger structures, as applicable
- enter the manually calculated quantity on Screen PBL12000 in the field, "If measured quantity is not used, enter the weighted quantity."--*

526 Additional Storage Structure Designation for Loans**A Designating Additional Structures**

Producers shall be provided the opportunity to designate **additional** eligible storage structures to which loan collateral may be moved during the loan period.

Producers may request to designate structures at time of loan application on any of the following, as applicable:

- CCC-666 according to paragraph 524
- at loanmaking on CCC-677
- after loanmaking on CCC-687-1 according to paragraph 600.

B Designated Structures

The designated structures may be:

- any or all structures under the producer's control
- structures that contain:
 - the producer's loan collateral
 - other producer's loan collateral.

The designated structures shall meet the eligible storage requirements according to paragraph 522.

527 Completing CCC-665's for Commingled Production**A Commingled Commodities**

All producers whose commodities are stored commingled in a storage structure, when all or a portion of the commodity is or will be collateral for **separate** CCC loans, shall sign CCC-665. See subparagraph B for an example of CCC-665.

Note: If all applicable producers do **not** sign CCC-665, loans shall, as applicable:

- **not** be disbursed
- be called.

Producers whose commodities are stored commingled in the same storage structure may ~~*-~~obtain **joint** loans in the normal manner when **all** producers sign CCC-677 or CCC-677S. CCC-665 is not required in this situation.

Note: Each producer signing CCC-677, CCC-677S, CCC-678 or CCC-678S is jointly--* and severally liable for repayment of the amount due.

See Part 6, Section 1 for additional commingling provisions.

B Example of CCC-665

528 Quantity Determinations**A Maximum Quantity**

The loan quantity for certified or measured farm-stored loans shall **not** exceed 100 percent of the eligible quantity certified by the producer.

For maximum quantity limitations for:

- distress loans, see paragraph 1220
- acquired commodities applicable to recourse loans for commodities exceeding the maximum STC moisture levels, see paragraph 1121.

The quantity for measured loans may be based on either of the following:

- measured quantity determined according to paragraph 525
- a quantity that was previously determined by measurement for other program purposes, such as disaster determinations, when COC:
 - has no reason to believe any commodity has been removed
 - determines the commodity is in storable condition
 - documents these facts in the COC minutes.

The mortgaged quantity shall be the loan quantity.

528 Quantity Determinations (Continued)

B When to Conduct Moisture Tests

Conduct moisture tests according to the following.

IF...	THEN...
there is reason to believe the moisture exceeds the standard level applicable to the commodity	field representatives shall draw samples for moisture testing when completing: <ul style="list-style-type: none"> • spot checks on farm-stored commodities • measurement service.
moisture problems are known to exist	<ul style="list-style-type: none"> • COC's may direct field representatives to draw samples for moisture testing • STC's may direct COC's to require moisture testing in 1 or more counties.
	County Offices shall determine the moisture content for: <ul style="list-style-type: none"> • certified loan and LDP requests made in designated areas • measurement service requests • all spot checks.

--C Applying Shrink Factor for Excess Moisture--

When moisture level is determined, adjust the certified or measured quantity as follows:

- for oilseeds, **except** soybeans, 1.1 times each percent or fraction thereof over the standard moisture percentage in 2-LP Grains and Oilseeds
- for all other commodities, including soybeans, 1.3 times each percent or fraction thereof over the standard moisture percentage in the applicable 2-LP.

See shrink factors in Exhibit 12, as applicable. The factors in Exhibit 12, page 1, are the factors for APSS.

529 Quality Determinations

A Quality Adjustment

Quality determinations for test weight are required for farm-stored loans at the time of loan settlement for:

- certified loans in designated counties
- measurement service.

Use the test weight sample to determine eligibility for nonrecourse or recourse loans for measured commodities at the time of loanmaking.

See subparagraph 528 B for conducting moisture tests.

B Official Quality Determinations

Official quality determinations shall **not** be made for farm-stored loans.

530 Reducing Farm-Stored Loan Rates in Designated Areas**A Requesting State Office Approval**

[7 CFR 1421.105] If COC believes CCC's interest would not be adequately protected if loans are made for the base county loan rate, COC may request State Office approval for a reduced loan rate for a commodity for:

- the entire county
- designated portions of the county.

The area to be included shall be the area where the commodity is produced, not where stored.

B State Office Action

State Offices shall:

- **not** establish a blanket policy that all farm-stored loan rates be reduced for the State, particular county, or specific area of the State or county
- approve or disapprove COC requests to reduce loan rates to provide CCC with the necessary protection
- notify PSD of COC requests for approved reduction of loan rates for certified loans.

530 Reducing Farm-Stored Loan Rates in Designated Areas (Continued)**C Obtaining Test Weight and Moisture Samples**

If reduced loan rates are approved for designated areas of the county according to subparagraph B, County Offices shall obtain a representative sample of the commodity produced in designated areas to determine test weight and, if applicable, moisture according to paragraph 528, for **all** of the following:

- certified farm-stored loan requests
- when completing a measurement service
- when performing a spot check.

Do **not** submit the sample for an official grade.

D Determining Loan Rates

Adjust the reduced base county loan rate according to paragraph 520.

E Fails to Meet Nonrecourse Requirements

See recourse provisions in Part 12 for commodities that do **not** meet the minimum eligibility standards because moisture exceeds STC-level or quality makes the commodity ineligible for a nonrecourse loan.

531-534 (Reserved)

Section 3 Warehouse-Stored Loans**535 Warehouse-Stored Loans****A Warehouse Storage**

Warehouse-stored loans are available for commodities stored in authorized warehouses or at the time either of the following occurs:

537 Obtaining CCC Warehouse Code in States With an Operating Warehouse Licensing Program

A County Office Responsibilities

For States listed in subparagraph 536 B, County Offices shall do the following:

- determine licensing status of all warehouses used by producers in the county by accessing https://saltlake.sc.egov.usda.gov/approved_whses/ugrsa/approved_ugrsa_whses.asp

IF the warehouse...	THEN...
has a State license and an assigned CCC warehouse code	State Office determines whether the warehouse is in good standing and if good standing is confirmed, proceed as normal
is not listed on the web site in this subparagraph	obtain the following from the warehouse and provide to WLED, SCB, through the State Office: <ul style="list-style-type: none"> warehouse name *--location including county--* point of contact phone number State licensing number Capacity FAX number e-mail address *--how commodity is received – truck, rail, and/or barge.--*

- verify that no duplication of loan benefits occurs, when the warehouse is also a producer, on the same commodity that may already be erroneously under farm-stored loan.

B State Office or Designee Responsibilities

State Office shall develop, establish, and implement Statewide policy by working with the State licensing authority to assist County Offices to do the following:

- determine good standing status of warehouses
- identify warehouse structures approved under the State licensing authority
- identify when a warehouse changes name and/or ownership
- obtain KC-350 (Grain) or KC-350 (Oilseed), if applicable.

Note: See subparagraph 536 B.

537 Obtaining CCC Warehouse Code in States With an Operating Warehouse Licensing Program (Continued)

C KCCO Responsibilities

KCCO is responsible for the following:

Note: This responsibility only applies to States listed under subparagraph 536 B.

538, 539 (Reserved)

540 Requesting Warehouse-Stored Loans**A Warehouse Receipts**

[7 CFR 1421.106] When requesting warehouse-stored loans, producers shall present acceptable warehouse receipts from an authorized warehouse, as specified in subparagraph 535 B.

See 2-LP Grains and Oilseeds for commodity specific warehouse receipt requirements.

B Warehouse-Stored Quantity

Warehouse-stored loans stored in an approved warehouse will be limited to 100 percent of the eligible net weight specified on the warehouse receipt or, if applicable, KC-350 (Grain) or KC-350 (Oilseed).

If the quantity on the receipt represents eligible and ineligible quantities, require the producer to obtain a receipt representing only the eligible quantity.

Any cost for replacement receipts shall be at the producer's expense.

C Commodity Loan Eligibility

To be eligible for CCC commodity loan, the quantity and quality of grain represented by a warehouse receipt must reflect the commodity produced and delivered by the producer.

540 Requesting Warehouse-Stored Loans (Continued)**D Loan Rates**

CCC will **not** adjust loan rates for warehouse-stored loans using premiums and discounts at loanmaking for any commodities **except** cotton and peanuts. Follow PS directives, 7-CN, and 12-PS for applicable software instructions.

***--Note:** Each producer signing CCC-677, CCC-677S, CCC-678, or CCC-678S is jointly--* and severally liable for repayment of the amount due.

Use the loan rate for the county where the commodity is stored **except** for situations covered in this table.

IF the commodity is warehouse-stored and...	THEN use the loan rate...
stored in a warehouse operating under a merged code agreement	for the location to which the producer delivered the commodity. The warehouse receipt issued under merged warehouse code agreements must show the location and county to which the commodity was delivered.
represented by a warehouse receipt indicating the "grain covered by this receipt has been redeposited"	where the receipt is issued. The commodity is considered stored at the original point of delivery.
physically moved to the warehouse location indicated on the warehouse receipt	where the receipt is issued. The commodity is eligible because the commodity was physically moved to the location on the warehouse receipt.

The loan rate shall be adjusted according to subparagraphs 520 C through H.

540 Requesting Warehouse-Stored Loans (Continued)**E Handling Charges**

Beginning with the 2008 crop year, producers must provide acceptable documentation specifying that all in-handling charges have been provided for or paid before either of the following:

- a warehouse-stored loan will be disbursed for the commodity
- recording a settlement of a forfeited farm-stored loan.

Acceptable documentation includes either of the following:

- prepaid in-handling charges recorded directly on the warehouse receipt
- certification signed by the warehouse operator with the following language:

“Arrangements for the payment of all in-handling charges have been made by the depositor of the commodity covered by the receipts numbers (*insert receipt numbers*). No lien will be asserted by the warehouse operator against Commodity Credit Corporation or any subsequent holder of the warehouse receipt for in-handling charges.”

Notes: A loan disbursement can be offset to provide for charges other than in-handling, if the warehouse receipt indicates in-handling charges have been provided for or paid.

If using rice EWR's, the prepaid in-handling indicator **must** be set to “Y” to indicate in-handling charges have been provided for or paid for the quantity to be eligible for a warehouse-stored MAL.

Other references for offsets are found in paragraphs 30, 547, and 548.

F Storage Charges

Do not require producers to prepay storage charges. However, the producer must make arrangements for storage charges through the maturity date of the warehouse-stored loan.

Keep proof of prepaid storage in the producer's loan folder.

540 Requesting Warehouse-Stored Loans (Continued)

G Storage Not Paid Through Maturity of Loan

If the warehouse receipt does **not** show the storage has been paid through maturity of the loan, the warehouse operator shall provide either of the following:

- an endorsement prepared and signed by the warehouse operator on the warehouse receipt or applicable KC-350 (Grain) or KC-350 (Oilseed) indicating storage charges have been prepaid through maturity
- the attached statement cross-referenced to the warehouse receipt and signed by the warehouse operator.--***

Example:“Storage arrangements have been made by the depositor of the grain covered by this receipt through (date through which storage has been provided). No lien will be asserted by the warehouse operator against CCC or any subsequent holder of the warehouse receipt for the storage charges that accrued **before** the date forfeited to CCC.”

--Note:** Do **not** disburse the loan if the warehouse operator fails to provide a **signed-- endorsement or statement.

The County Office shall reduce the loan rate to reflect storage through maturity date of the loan, **only** if the loan is forfeited and storage charges had not been prepaid through maturity.

Note: County loan rates will no longer be reduced at loanmaking to account for unpaid storage charges through maturity.

If a reduction is made, the reduction is computed through APSS by multiplying the daily storage rate times the number of days; round the result to the nearest tenth of a cent.

The number of days is determined by the later of the following dates through the maturity date:

- date the commodity was received in the warehouse
- date storage charges started
- date from which storage was provided.

Note: For policy on peanuts, see applicable LP and PS notices.

540 Requesting Warehouse-Stored Loans (Continued)

- official United States Standards for Grain even if quality determinations are **not** made on the basis of an official inspection
- quality factors determined by CCC for commodities not listed in the official United States Standards for Grain.

The warehouse operator shall obtain official grade determinations when requested by the producer. However, CCC shall **not** pay for official grade determinations.

B Upgraded Quality Ineligible

Warehouse receipts that have been upgraded to reflect a better grain and quality than the quality that was delivered by the producer to the warehouse are ineligible for CCC loan whether or not the warehouse operator received monetary compensation.

Note: This is considered substitution and substitution is **not** authorized.

- preparing applicable KC-350 showing the following:
 - rate of freight paid into the storage point
 - amount of penalty, if any, for outbound transit billing

- advise the warehouse operator of the errors
- return the warehouse receipt to the warehouse operator for reissuance or correction
- KC-350 (Grain) or KC-350 (Oilseed) **cannot** be used to correct the warehouse receipt.

544 When Warehouse Operator Is Producer

A Applicability

Warehouse-stored loans may be made to a warehouse operator who is operating under subparagraph 535 B provisions and is also the producer under the following conditions:

- in States where it is valid under State law for the warehouse operator to issue and pledge warehouse receipts covering the warehouseman's own commodity
- in any State when the warehouse is operating under USWA.

A warehouse operator, who is also a producer, is **not** eligible for a warehouse-stored loan if:

- there is not a State law addressing a warehouse operator issuing and pledging warehouse receipts covering the warehouse operator's **own** commodity
- the warehouse is not operating under USWA.

B Verification for States Requiring UGRSA

Through the State Office, the County Office shall contact KCCO to examine warehouse diagram and WA-302, if applicable, to:

- identify:
 - structures that are approved
 - owner, partners, or officers associated with the warehouse
- verify that no duplication of loans is being made on the same commodity that may be erroneously under farm-stored loan.

Note: If there is a duplication of loans, erroneously made farm-stored loans shall be called.

If necessary, visit the storage location to determine whether there is:

- loan duplication
- sufficient commodity in proper storage space to cover loan obligations.

544 When Warehouse Operator Is Producer (Continued)**C Verification for States Not Requiring UGRSA**

Through the State licensing authority, the State Office shall assist County Offices in identifying:

- structures that are approved under the applicable State licensing authority
- owner, partners, or officers associated with the warehouse.

County Offices shall verify that no duplication of loans is being made on the same commodity that may be erroneously under farm-stored loan.

Note: If there is a duplication of loans, erroneously made farm-stored loans shall be called.

If necessary, visit the storage location to determine whether there is:

- loan duplication
- sufficient commodity in proper storage space to cover loan obligations.

545 General Warehouse Receipt Requirements**A General Requirements**

[7 CFR 1421.107] All warehouse receipts shall:

- represent eligible commodity actually stored in an authorized warehouse
- be negotiable
- be issued to the eligible producer or CCC, as applicable, or in the case of loans made to CMA's, the receipt should be issued to CMA
- be endorsed on the back by the producer
- show ownership, if commodity is owned by the warehouse operator, solely, jointly, or in common with others
- contain a statement that commodity is insured
- *--be a paper receipt or an electronic receipt issued through a DACO-approved EWR provider.--*

If the warehouse receipt is accompanied by applicable KC-350, KC-350 shall contain the insured statement if **not** stated as such on the warehouse receipt.

545 General Warehouse Receipt Requirements (Continued)**A General Requirements (Continued)**

All warehouse receipts shall show **all** of the following:

- type of commodity
- name and location of storing warehouse
- CCC-assigned warehouse code
- warehouse receipt number
- date receipt was issued
- date commodity was deposited or received
- date to which storage has been paid according to subparagraph 540 G **or** storage start date
- whether commodity was received by rail, truck, or barge
- amount per bu. or cwt of prepaid in or out charges
- signature of the warehouse operator or authorized agent
- prepaid in handling charges (if **not** prepaid, a statement **must** be provided according to subparagraph 540 E.)

Note: Grading factors **must** substantiate the grade assigned by the warehouse operator.

B Merged Warehouse Receipt Requirements

Warehouse operators operating under a merged warehouse code agreement shall show, on warehouse receipts, the location and county to which the producer delivered the commodity.

546 KC-350, Warehouse Operator's Supplemental Certificate

A Attaching KC-350 to Warehouse Receipt

A warehouse receipt requiring KC-350 shall have the applicable KC-350 attached to the warehouse receipt.

Entries on KC-350 (Grain) or KC-350 (Oilseed) supersede entries on the warehouse receipt.

See Warehouseman's Handbook for example of KC-350.

546 KC-350, Warehouse Operator's Supplemental Certificate (Continued)

--B Receipts Showing Infested or Excess Moisture--

Applicable KC-350 **must** show the following information when the warehouse receipt shows that the commodity is infested or contains moisture over the acceptable limit for the commodity.

IF the warehouse receipt shows that the commodity...	THEN applicable KC-350 must show the...
is infested	<ul style="list-style-type: none"> • same grade without the “infested” designation • same grading factors and quantity shown on the warehouse receipt.
has more moisture than the acceptable limit for the commodity	<ul style="list-style-type: none"> • grade, grading factors, and quantity after drying or blending • quantity to reflect a minimum shrinkage in the receiving weight, or receiving weight excluding dockage, as applicable, of the applicable shrink factor times the difference in the following: <ul style="list-style-type: none"> • moisture content when received • acceptable limit for the commodity. <p>The receiving weight:</p> <ul style="list-style-type: none"> • applies to corn and oats • excluding dockage applies to the following: <ul style="list-style-type: none"> • barley • grain sorghum • oilseeds • wheat. <p>The moisture shrink factor is:</p> <ul style="list-style-type: none"> • 1.1 percent for oilseeds, except soybeans • 1.3 percent for all other commodities, including soybeans.

546 KC-350, Warehouse Operator's Supplemental Certificate (Continued)**C Example of Quantity Entries on KC-350 (Grain) for Corn**

If a warehouse receipt shows 33,600 net lbs. of corn with 17.5 percent moisture, the calculation would be as follows:

- 17.5 percent minus 15.5 percent equals 2.0 percent
- 2.0 percent times 1.3 equals 2.6 percent
- 2.6 percent of 33,600 lbs. is 874 lbs.

The quantity shown on KC-350 (Grain) must **not** exceed 33,600 lbs. minus 874 lbs., or 32,726 lbs.

D Example of Quantity Entries on KC-350 (Oilseeds) for Soybeans

If a warehouse receipt shows 60,000 net lbs. of soybeans with 2.2 percent foreign material, the calculation would be as follows:

- 2.2 percent minus 1 percent = 1.2 percent
- 100 percent minus 1.2 percent = 98.8 percent
- 60,000 net lbs. times 98.8 percent = 59,280 net lbs.

The quantity shown on KC-350 (Grain) must **not** exceed 59,280 net lbs.

547 Statement of Charges Attached to Warehouse Receipts

A Applicability

[7 CFR 1421.107] A separate statement of charges or bill that is **not** part of the warehouse receipt, but is attached to or submitted with the warehouse receipt that indicates charges for other than handling the commodity represented by the warehouse receipt, shall:

- be considered an offset amount
- **not** be considered a lien.

***--Note:** Statement of charges or bills **must** be signed by the producer according to subparagraph 505 C.--*

To ensure that only the appropriate charges are being considered as an offset amount, each State Office must submit a list of charges that are normally associated with handling (other than handling) of the commodity to DAFP for concurrence.

Written concurrence must be obtained from DAFP before any **new charges** on a statement of charges or bill can be offset.

Note: See subparagraph 30 C.

B Handling as an Offset

The amount of applicable charges shown on the statement of charges or bill shall be considered an offset. County Office shall record the applicable charges on CCC-679 by doing either of the following:

- adding the total dollar amount of the charges shown on the statement of charges or bill to any CCC, FSA, or other Government agency debt
- modify the sentence in CCC-679, item 5, block (c) to add language that state whose charges are being offset without specifying the type or amount of the charges.

If the loan is approved, the amount of applicable charges shown on the statement of charges or bill shall be handled as an offset for an alternate payee.

See paragraph 505 for an example of CCC-679.

547 Statement of Charges Attached to Warehouse Receipts (Continued)

C Charges Not Handled as an Offset

Producers **must** provide acceptable documentation specifying that **all** in-handling charges have been paid or provided for **before** a warehouse-stored MAL will be disbursed for the commodity, or **before** recording settlement of a forfeited farm-stored loan. Acceptable documentation includes either of the following:

- in-handling charges are recorded directly on the warehouse receipt
- certification signed by the warehouse operator with the following language:

“Arrangements for the payment of all in-handling charges have been made by the depositor of the commodity covered by the receipts numbers (*insert receipt numbers*). No lien will be asserted by the warehouse operator against Commodity Credit Corporation or any subsequent holder of the warehouse receipt for in-handling charges.”

County Offices, CMA’s, and DMA’s shall:

- ensure that in-handling charges have been paid or provided for by the producer **before** disbursing funds for a warehouse-stored MAL or recording settlement of a forfeited commodity
- contact the warehouse operator by telephone when specific information related to the in-handling charges is not recorded on the warehouse receipt or on acceptable documentation as specified in subparagraph A.

Notes: For forfeited farm-stored commodities, failure to present the required documentation will result in reduction of the producer’s settlement value to reflect the amount of unpaid in-handling charges at the rate provided in the warehouse’s public tariff rates.

A loan disbursement can be offset to provide for charges other than in-handling, if the warehouse receipt indicates in-handling charges have been provided for or paid.

548 Examining Warehouse Receipts**A Examining Documents**

County Offices shall examine each warehouse receipt, KC-350 (Grain) or KC-350 (Oilseed), if applicable, and Federal Grain Inspection Service inspection certificate for:

- completeness
- errors
- legibility.

If any information on the warehouse receipt is incorrect or otherwise unacceptable for recording the loan in APSS, the County Office shall:

- **not** approve the loan
- require the producer to:
 - return documents to the warehouse operator for correction or completion, if necessary
 - submit acceptable warehouse receipts **before** disbursing the loan.

B Liens for Charges Indicated on Warehouse Receipt

County Offices shall **not** accept, for loan purposes, a warehouse receipt that shows a lien on the commodity for specified charges, such as drying or hauling.

When a warehouse receipt is received showing a lien on the commodity, the County Office shall require the producer to provide **either** of the following:

- a replacement receipt showing no liens
- the original receipt showing the charges marked “Paid” and initialed and dated by the warehouse operator.

549 Reporting Lost, Stolen, or Destroyed Warehouse Receipts**A Warehouse Notification**

If warehouse receipts held by County Offices are lost, stolen, or destroyed:

- immediately contact the warehouse operator who issued the receipts
- complete CCC-39, according to subparagraph B, to request issuance of duplicate warehouse receipts
- obtain replacement receipts at CCC's expense, if applicable.

600 Commingling and Commodity Movement on Farm (Continued)

F Commingling Eligible and Ineligible Commodities

If eligible or ineligible commodities of the same or different crop years, including purchased commodities, are commingled **without** prior written approval, a loan may be disbursed on the **eligible** commodity if:

- the producer provided **either** of the following:
 - certification of the acreage for the current crop on all farms in all counties in which producer has an interest
 - acceptable production evidence, such as scale tickets or warehouse receipts, for all farms in which the producer has an interest

Note: If a purchased commodity is involved, purchase invoices or scale tickets must be provided.

- COC determines that the eligible production claimed by the producer is reasonable in relation to the crop production practices on the respective farms.

Reminder: Do **not** accept the ineligible production in settlement of the loan.

G Commingling Commodities With Other Producer's Commodity

Producers whose commodities are stored commingled in a storage structure may obtain separate CCC loans if **all** producers sign CCC-665 according to paragraph 527.

H Initiating Movement on Nonworkday

Producers may initiate farm-stored loan collateral movement to nondesignated structures on nonworkdays, without prior written approval, if **both** of the following apply:

- producer files CCC-687-1 for approving this movement on the next workday
- request meets current program provisions about approved storage and eligible commodity.

I Commingling Additional Eligible Quantity With Mortgaged Quantity

A producer may add an additional eligible quantity to a designated structure that contains outstanding loan collateral.

If a request is made for a loan on the additional eligible quantity, the loan shall:

- be a new loan
- **not** be considered an additional disbursement to the original loan.

601-603 (Reserved)

604 Converting Certified Loans to Measured Loans

A When to Convert to Measured Loan

A certified loan may be converted to a measured loan when either of the following occurs:

- measurement service is provided
- a spot check is completed.

Producers may obtain a separate loan or LDP for the additional quantity measured exceeding the certified quantity if the request is made before the final loan availability date.

B Determining Loan Quantity

Process the conversion in APSS according to 12-PS.

Determine the quantity for the measured loan according to the following.

IF...	THEN...
both of the following apply: <ul style="list-style-type: none"> • the measured quantity is: <ul style="list-style-type: none"> • less than the outstanding loan quantity • within tolerance • COC determined there was no loan violation 	the quantity for the measured loan shall be the outstanding loan quantity.
the measured quantity exceeds the outstanding loan quantity	
the measured quantity is both of the following: <ul style="list-style-type: none"> • less than the outstanding loan quantity • not within tolerance 	the quantity for the measured loan shall be the measured quantity. Note: An overdisbursement will be created in APSS during the conversion process.
it is determined that the quantity is ineligible for a nonrecourse loan at the full loan rate because of quality	see subparagraph 323 B.

605 Farm-Stored Loans Brought Under New or Existing Warehouse Storage**A Converting to Warehouse Storage**

Outstanding farm-stored commodities mortgaged to CCC and stored in bins shall be handled according to this table.

Step	Action

2	File, in each applicable producer's loan folder, written documentation of the date the commodities under loan identified in step 1 were brought under an approved warehouse storage.
3	Immediately obtain acceptable warehouse receipts according to subparagraph 540 A and transfer to warehouse-stored loan according to 12-PS. Warehouse receipts must show that all in-handling charges have been paid or otherwise provided for.
4	When warehouse receipts representing the original farm-stored collateral are forfeited and submitted to KCCO, include the memorandum in subparagraph B with the warehouse receipts for each applicable forfeited loan. Note: KCCO shall not pay in-handling charges.

615 Transferring Loans From Farm Storage to Warehouse Storage**A Authorization**

County Offices may complete CCC-681 to authorize the transfer of farm-stored loan collateral to warehouse storage if **all** of the following can be accomplished within 15 calendar days of the transfer, but no later than the maturity date:

- complete the movement of collateral to the warehouse
- return the warehouse receipts to the County Office
- provide all applicable signatures on new loan documents.

B Maturity Date

The loan maturity date for the warehouse-stored loan shall be the same date as the farm-stored loan maturity date.

C Warehouse Charges

The producer must provide for warehouse charges according to Part 5, Section 3.

D Definition of Transferred Loan Quantity

Transferred loan quantity, for farm to warehouse transfers, is the loan quantity liquidated from the farm-stored loan.

615 Transferring Loans From Farm Storage to Warehouse Storage (Continued)**E Maximum Transferred Quantity**

Warehouse-stored loan quantities, resulting from farm-to-warehouse transfers, shall **not** exceed 110 percent of the **transferred** farm-stored loan quantity.

Note: If transferred within the loan availability period, a **new** loan or LDP may be requested on the eligible quantity exceeding 110 percent of the transferred farm-stored loan quantity.

F Transferring Entire Loan Quantity

When the **entire** farm-stored loan quantity is transferred to warehouse storage, the transferred loan quantity is the outstanding farm-stored loan quantity **before** the transfer.

The warehouse-stored loan quantity is the quantity delivered to the warehouse, not to exceed 110 percent of the outstanding farm-stored loan quantity **before** the transfer.

615 Transferring Loans From Farm Storage to Warehouse Storage (Continued)

G Partial Transfer of the Loan Quantity

When **part** of the loan quantity is transferred, the transferred loan quantity is the quantity delivered to the warehouse. Accordingly the:

- farm-stored loan quantity **after** the transfer is the difference between the following:
 - farm-stored loan quantity before the transfer
 - quantity delivered to the warehouse

Note: The remaining farm-stored loan quantity is subject to spot check. See subparagraph 317 D for tolerance levels when shortages are discovered after partial transfers were approved according to this subparagraph.

- warehouse-stored loan will be the quantity delivered and will **not** result in an additional disbursement for additional quantity.

H Completing Transfer

Complete the farm-to-warehouse transfer through APSS:

- according to 12-PS
- for the quantity and quality shown on the warehouse receipt and, if applicable, KC-350 (Grain) or KC-350 (Oilseed)
- deducting loan service fees according to subparagraph 507 B.

--All producers who signed CCC-677 or CCC-677S shall endorse the warehouse receipts and sign CCC-678 or CCC-678S generated through APSS within 15 calendar days of the-- transfer, but **no** later than the loan maturity date.

615 Transferring Loans From Farm Storage to Warehouse Storage (Continued)

I Commodity Transferred

When the loan collateral is transferred to warehouse storage and the grading factors require using the additional schedule of discounts, notify the producer of the following choices:

- adjust the loan rate to 20 percent of the loan rate according to subparagraph 540 D to continue the nonrecourse loan
- ***--Note:** For wheat, do **not** adjust the loan rate to 20 percent of the loan rate if the **only** discount on the additional schedule of discounts is for falling numbers. See information on falling number discounts for wheat in 2-LP Grains and Oilseeds.--*
- notify the producer that the loan can be converted to a recourse loan within 30 calendar days.

Complete the conversion to a recourse loan according to Part 12 and the following:

- ***--use the Correct a Loan process, according to 12-PS**
- a receivable will automatically be created in NRRS
- re-record as a manual recourse farm-stored measured loan according to 12-PS

Note: For corrections, assign the next 90,000 number from the CCC-676. A 90,000 number will denote a manual loan and allow users to enter the original disbursement date.

- NRRS will automatically apply the proceeds of the new loan to the receivable created when the nonrecourse loan was reversed
- any outstanding amount still owed will remain as an outstanding receivable and will be processed in the normal manner according to 64-FI.--*

If forfeited, **only at forfeiture** adjust the loan rate for **all** the quality factors recorded on the warehouse receipt using the appropriate discounts in the applicable 2-LP.

Note: Do **not** adjust the loan rate for quality factors when disbursing the warehouse-stored loan.

616 Remaining Farm-Stored Loan Quantity After Partial Transfer

A When Measured Quantity Is Less Than the Loan Quantity

The producer is liable for the remaining farm-stored loan quantity which is subject to spot check. When a spot check reveals the measured quantity is **less** than the remaining farm-stored loan quantity:

- do **not** require immediate repayment of the apparent quantity shortage, if the measured quantity is within 10 percent of the **remaining** farm-stored loan quantity
- COC shall **not** consider the loan quantity to be incorrectly certified (violation) if the total quantity, which is the sum of the warehouse-stored loan quantity and the measured quantity, is within 10 percent of the farm-stored loan quantity before the transfer.

COC shall consider a violation occurred if COC determines unauthorized removal or unauthorized disposition according to Part 4.

B Example of Measured Quantity Less Than Loan Quantity

Producer obtained a certified farm-stored loan on 10,000 bu. of wheat and later transferred 8,500 bu. to a warehouse-stored loan.

The remaining farm-stored loan quantity is 1,500 bu. A current spot check reveals a measured quantity of 1,200 bu., resulting in a quantity shortage of 300 bu. COC determines that unauthorized removal or unauthorized disposition did **not** occur.

In this example, the producer:

- must immediately repay the apparent quantity shortage of 300 bu., because the measured quantity is not within 10 percent of the farm-stored loan quantity (1,500 bu. x 90 percent = 1,350 bu.)
- is **not** considered to be in violation, because the total quantity of 9,700 bu. (8,500 bu. warehouse-stored plus 1,200 bu. measured) is within 10 percent of the farm-stored loan quantity before the transfer (10,000 bu. x 90 percent = 9,000 bu.).

617 Transferring Loans From Warehouse Storage to Farm Storage

A Authorization

County Offices may authorize transfer of warehouse-stored loan collateral to farm storage **only**:

- after the following occur:
 - lien search is completed
 - producer provides the applicable CCC-679's
 - CCC-10 is filed
 - UCC-1 is filed
- if the following can be accomplished by the maturity date:
 - complete the movement and placement of collateral in eligible farm storage
 - provide all applicable signatures on the new loan document.

Complete and issue CCC-681, Part B according to paragraph 614.

B Releasing Warehouse Receipts

County Offices shall release warehouse receipts to the producer after:

- advising the warehouse of the pending transfer
- receiving written agreement from the producer that the:
 - receipt will be delivered to the warehouse
 - commodity will be moved to eligible farm storage
 - County Office will be notified as soon as the commodity is in place on the farm
 - producer will provide a copy of scale tickets from the warehouse.

617 Transferring Loans From Warehouse Storage to Farm Storage (Continued)**C Quantity Limitations**

The farm-stored loan quantity **cannot exceed** the warehouse-stored loan quantity transferred, rounded to the next higher whole unit of measure.

See subparagraph E for measuring farm-stored collateral.

D Maturity Date

The loan maturity date for the farm-stored loan shall be the same date as the warehouse-stored loan maturity date.

E Measurement After Transfer

After the collateral has been moved to eligible farm storage:

- perform a measurement service at the producer's expense
- obtain a representative sample of the commodity and apply, as applicable, the combined test weight and pack factor, test weight, and moisture shrink
- use the scale ticket quantity if COC determines the weighed quantity on the documentation more accurately reflects the quantity in farm storage.

County Offices shall:

- review entries on CCC-677-1
- note any comments entered by the commodity inspector.

617 Transferring Loans From Warehouse Storage to Farm Storage (Continued)

F Completing Transfer

Complete the warehouse-to-farm transfer through APSS:

- if data is complete and accurate
- entering measurements or weighed quantity, as applicable
- according to 12-PS
- deducting loan service fees according to Part 5.

--All producers who signed CCC-678 or CCC-678S shall sign CCC-677 or CCC-677S-- generated through APSS within 15 calendar days but no later than the maturity date.

G Overdisbursement Created

An overdisbursement will be created in the transfer process when the outstanding loan amount exceeds the loan value of the measured quantity.

Use the notification and demand letters in Exhibit 11, subparagraph F to require repayment of the overdisbursement and interest.

H When Measured Quantity Is Less Than Transferred Quantity

If the measured quantity is:

- 90 percent or more of the transferred warehouse-stored loan quantity, take no action unless COC determines a loan violation occurred
- less than 90 percent of the transferred warehouse-stored loan quantity, COC shall determine whether a loan violation has occurred according to Part 4.

618-626 (Reserved)

Section 3 Reconcentrating Warehouse-Stored Loans**627 Reconcentrating Loan Collateral****A Requesting Reconcentration**

Producers may, with the warehouse operator's concurrence, request authorization from CCC to reconcentrate loan collateral between warehouses using CCC-699. See paragraph 628 for completing CCC-699.

B General Provisions

The following provisions apply to reconcentrating loan collateral.

- Reconcentration must be to an in-line location.

Note: The commodity movement shall be considered “in-line” if the commodity is physically moved to a warehouse in the line of normal trade channels and commerce for the commodity.

- CCC shall **not** increase loan rates to reflect transportation and handling charges.
- County Offices shall **not** approve reconcentration requests when any of the following apply:
 - movement is determined not to be in the best interest of CCC and the producer
 - movement is **not** “in-line”
 - requests are submitted within 30 calendar days of the loan maturity date.
- If producers have an approved CCC-697 locking in a repayment rate for the loan commodity, the same lock-in rate is applicable only to quantity reconcentrated within the county where the warehouse-stored commodity was stored.

- computer is **not** working
- to explain to producers how lump-sum repayments are calculated by APSS and attributed to applicable bins under loan.

Notes: Lump-sum repayments are **not** applicable to warehouse-stored loans.

--When entering lump-sum repayments into APSS, APSS rounds the quantity to fit the repayment amount. All lump-sum repayments shall be rounded down, so a refund will be generated. APSS and NRRS are unable to hold the small balance to be applied at a later time. Current FI procedure is to be followed for refunding amounts of \$9.99 or less.--

B Applying Lump-Sum Repayment Amounts

Instructions in this table provide how repayment amounts are determined and applied by bin, for **each** bin included on a loan for which a lump-sum repayment is made.

Determine the following amounts, as applicable:

- principal
- interest
- quantity redeemed when a lump-sum repayment is used to repay a partial bin.

Note: Repay receivables and overdisbursements first. Apply any remaining amount as a lump-sum repayment.

719 Lump-Sum Repayments (Continued)

B Applying Lump-Sum Repayment Amounts (Continued)

Step	Action		
1	Determine the number of days applicable at each interest rate for the bin being repaid.		
2	Multiply the number of days at each interest rate times the interest rate times the outstanding principal amount for the selected bin divided by 365 calendar days.		
3	Add outstanding principal and calculated interest amounts for the selected bin to determine the payoff amount for the selected bin.		
4	IF the lump-sum amount received is...	AND any remaining amount will be...	THEN...
	equal to or greater than the amount determined in step 3	refunded to the producer or buyer, as applicable	<ul style="list-style-type: none"> complete the repayment using the amount determined in step 3 prepare a refund according to *-64-FI and other current FI procedure.--*
		applied to another bin	note the calculated bin repayment amount and go back to step 1 for the next selected bin.
	less than the amount determined in step 3		calculate a liquidation factor according to step 5.
5	To determine a liquidation factor for the final selected bin; divide the balance of the lump-sum amount received by the amount determined in step 3. Round this factor to 9 decimal places.		
6	Multiply the liquidation factor determined in step 5 by the outstanding quantity for the selected bin. Round any partial unit up to the next whole unit.		
7	Multiply the quantity determined in step 6 by the loan rate for the selected bin to determine the principal amount to be repaid.		
8	Subtract the amount determined in step 7 from the balance of the lump-sum amount received. The difference is the interest amount for the lump-sum repayment.		
9	Complete the repayment and prepare a manual CCC-500 using the total repayment amounts calculated for all bins selected for the lump-sum repayment (see subparagraph C for an example).		

719 Lump-Sum Repayments (Continued)**C Example of Manual Calculations**

The producer in this example has a farm-stored loan on 3,000 bu. of 20XX-crop wheat. The outstanding loan principal is \$6,000. The repayment date is February 14, 20XX.

The lump-sum amount received from the producer is \$4,500. The interest rate changed to 8.875 percent on January 1, 20XX.

720 Wire Transfer Repayments

A Background

Wire transfer repayments are available through APSS. Producers or buyers may wire transfer repayments directly to CCC's account at the U.S. Department of Treasury.

Note: Producers may **not** transfer repayments to the local Concentration Banking System office.

B Processing Wire Transfer Repayments

CCC-258 is provided to producers or buyers by County Offices to cross-reference loans redeemed by CCC-258.

County Offices can use their manual log of wire transfer numbers, maintained according to 3-FI, paragraph 39, to enter the loan numbers to which the wire transfer will apply.

The date the wire transfer receipt and CCC-258 are received in the County Office is the date of repayment. Use PCP in effect on the date the receipt of the wire transfer is received.

Process loan redemptions made by wire transfer according to the following.

Step	
1	Upon request from a buyer or producer for a loan redemption by wire transfer, provide (by FAX, if requested) CCC-258 according to subparagraph C.
2	Advise the buyer or producer that the completed CCC-258 is to be: <ul style="list-style-type: none"> transmitted to the bank providing the wire transfer FAXed by the bank or the buyer to the County Office on the day of the wire transfer with the bank's receipt of the wire transfer.
3	Accept the wire transfer receipt from the bank as confirmation of receipt of funds and record the repayment through APSS. The system will generate CCC-500 as a *--receipt for the wire transfer. The date the funds are transmitted to CCC's account is the date of repayment. Use CCC-determined value in effect on the date received. See 3-FI for additional information on how to record remittance. CCC-258 states that if funds are transferred to CCC's account after the date in block 3, additional interest may be due.--*

Section 3 Farm-Stored Loan Repayments**729 Farm-Stored Repayments****A Repaying Loan Quantity**

A producer may repay a farm-stored loan in full or in part by paying an amount representing the **quantity** redeemed.

B Payment Before Movement

A producer shall make repayment **before** the loan collateral is moved, **unless** prior authorization is approved by County Office on CCC-681-1.

C Payment After Movement

A producer may request release of loan collateral for sale to a buyer and provide payment **after** movement of the commodity according to CCC-681-1 provisions in Section 4.

730 Repayment Schedules**A Repayment Schedules**

COC may review and determine that a repayment schedule is required for any MAL for which COC determines CCC's interest may be at risk.

B Repayment Schedules for Feeding

When the collateral will be fed to the producer's own livestock, COC shall establish a repayment schedule with the producer to ensure repayment **before**:

- removal of the commodity for feed

Section 4 CCC-681-1 Provisions

741 Requesting Release of Farm-Stored Commodity Before Repayment**A Using CCC-681-1's**

Producers may request that a commodity pledged as collateral for CCC farm-stored loan be released for delivery to a buyer before repayment on CCC-681-1, according to paragraph 743, if the sales proceeds are needed to repay the loan.

CCC-681-1's shall be used to:

- authorize removal and delivery of the farm-stored loan collateral to a buyer for sale **if** the proceeds of the sale are used to immediately repay the loan
- notify the buyer that CCC:
 - has a perfected security interest in the specified quantity
 - will **not** release CCC's security interest in the collateral sold until repayment is received.

CCC-681-1's shall **not** be used for warehouse-stored loans.

B Movement Initiated on Nonworkday

Producers may initiate movement of farm-stored loan collateral on nonworkdays, without prior written approval, if **both** of the following apply:

- producer files a request for approving this movement on the next workday
- request is according to program provisions.

See subparagraph 743 E for approving farm-stored loan collateral nonworkday movement requests.

741 Requesting Release of Farm-Stored Commodity Before Repayment (Continued)**C Requesting CCC-681-1**

When producers request release of their commodity for sale on CCC-681-1, County Offices shall:

- inform producers and buyers:
 - of their responsibilities about using CCC-681-1
 - that repayment of loan collateral purchased by a buyer **must** be received from the buyer; otherwise, the buyer is violating the clear title provisions
- inform producers when they request CCC-681-1, according to paragraph 743, that:
 - CCC **expects** payment for any quantities delivered
 - any quantity delivered and sold to a buyer after loan maturity **must** be repaid at principal plus interest
 - the producer is responsible for repayment if the buyer does not comply with CCC-681-1 provisions
 - CCC-681-1 **cannot** be canceled
 - if a repayment rate is locked in on CCC-697, the repayment at the locked-in rate is due for the quantity delivered during the authorization period by the earlier of:
 - CCC-697 expiration date according to paragraph 716
 - 15th calendar day after CCC-681-1 expiration date

741 Requesting Release of Farm-Stored Commodity Before Repayment (Continued)**C Requesting CCC-681-1 (Continued)**

- the producer is allowed to request repayment checks made payable solely to CCC
- the producer shall obtain another CCC-681-1, according to paragraph 744, when they **cannot** complete delivery by the expiration date of the existing CCC-681-1
- the producer may be subject to administrative actions, according to Part 4, if any loan quantity is delivered to the buyer **after** CCC-681-1 expires.

If the producer does **not** deliver any quantity during the delivery period, CCC-681-1 expires on the date specified on CCC-681-1.

D Delivery Period

The producer is responsible for choosing the requested delivery period for each applicable CCC-681-1. The delivery period:

- may be either of the following:
 - 15 calendar days
 - 30 calendar days
- begins on the date CCC-681-1 is approved and continues for the selected number of calendar days (15 or 30)
- may be extended according to subparagraph G.

If CCC-681-1 expiration date falls on a nonworkday, the expiration date shall be the next workday.

The **entire** outstanding loan quantity shall be released for each CCC-681-1 requested.

If a delivery period does **not** expire until after loan maturity, advise the producer that any quantity delivered after loan maturity **must** be repaid at principal plus applicable interest or may be delivered to CCC.

741 Requesting Release of Farm-Stored Commodity Before Repayment (Continued)**E Different Buyers**

Only one CCC-681-1 may be approved for the **same** loan to the **same** buyer for the same delivery period.

Two or more CCC-681-1's may be approved for the **same** loan to **different** buyers during the **same** delivery period. The **entire** outstanding loan quantity shall be released on **each** valid CCC-681-1 approved.

If the delivery period of the original CCC-681-1 has **not** expired and quantities have been delivered, an extension may be granted according to subparagraph G.

F CCC-681-1 Expiring or Requested After Maturity

County Offices shall use this table for applicable action for **either** of the following situations:

- CCC-681-1's with **grace** periods that expire **after** the loan maturity date
- CCC-681-1's requested **after** the loan maturity date.

IF CCC-681-1...	THEN...
or grace period expires after the loan maturity date	issue CCC-691 the day after loan maturity for the outstanding quantity, regardless of whether CCC-681-1 is still in effect, with *--the applicable demand letter (Exhibit 7, subparagraph F or G).--*
is requested after the loan maturity date	repayment shall be made at principal and charges, plus interest.

See table in Exhibit 31 for an example of actions and applicable dates for a mature MAL and CCC-681-1.

741 Requesting Release of Farm-Stored Commodity Before Repayment (Continued)

* * *

G CCC-681-1 Extensions

Producers may request a 1-time, 15-day CCC-681-1 extension. COC's may determine to extend expiring CCC-681-1's **not** to exceed 45 calendar days **including** the original release period, to complete the delivery of the applicable commodity. CCC-681-1's can **only** be extended if deliveries are not completed with the 15 or 30 calendar day initial delivery period.

When CCC-681-1 extensions are approved by COC, County Offices shall:

- line through the expiration date on CCC-681-1, item 12 and enter the new expiration date
- initial and date the change
- extend the grace period for repayment to be 15 calendar days after the revised CCC-681-1 expiration date for all quantity delivered
- provide the producer and the buyer a revised copy of CCC-681-1.

Note: CCC-681-1 extensions are **only** authorized if the producer has begun delivery of the quantity to the buyer. Extensions shall not be approved if the producer is intentionally delaying delivery to avoid payment to CCC.

742 Delivery Evidence**A Required Delivery Evidence**

Delivery evidence:

- **must** be submitted with **all** CCC-681-1 repayments for delivered quantities only
- is not required for any other type of repayment.

B Type of Delivery Evidence

Delivery evidence is any of the following:

- delivery statements
- settlement sheets
- other acceptable delivery evidence, as applicable.

C Delivery Evidence Requirements

Submitted delivery evidence can **become** production evidence for any loan repayment when market gain is earned as long as all production evidence requirements are met according to paragraph 335.

All delivery evidence requirements **must**:

- show dates of delivery
- quantity delivered.

Because delivery evidence now becomes production evidence for market gain purposes, loan quantities repaid in full under CCC-681-1 will not be subject to spot check as long as the delivery evidence meets all necessary requirements.

742 Delivery Evidence (Continued)

D Quantity Delivered Less Than Measured Quantity

Measured quantities can be used for production evidence if indicated on CCC-677-1. If delivery evidence is less than the production evidence and all loan quantities have been delivered, determine the repayment rate as follows.

IF the delivered quantity is less than the measured quantity and is...	THEN the repayment rate is...
within 10 percent tolerance	the locked-in repayment rate or repayment rate in effect on the date the repayment is received, as applicable.
not within 10 percent tolerance	based on the following COC violation determinations: <ul style="list-style-type: none"> • good faith • misrepresentation, scheme, or device. See Part 4.

The following is an example of CCC-681-1.

CCC-681-1 (09-17-99)		U.S. DEPARTMENT OF AGRICULTURE Commodity Credit Corporation					Form Approved — OMB No. 0560-0087
AUTHORIZATION FOR DELIVERY OF LOAN COLLATERAL FOR SALE							
<i>(Privacy Act and Public Burden Statement on Reverse)</i>							
NOTIFICATION OF CCC'S SECURITY INTEREST							
<p>This notification is made pursuant to Section 1324 of the Food Security Act of 1985. Commodity Credit Corporation (CCC) has a perfected security interest in the entire quantity of the commodity specified in Part A, which has been pledged as collateral for the CCC loan number identified in Item 5. A copy of this loan agreement may be obtained at the address identified in Item 9. CCC's security interest has not lapsed and will not lapse until the earlier of the date specified in the financing statement executed by the producer or until written notification is given to the buyer by CCC that such interest has lapsed. CCC will waive its security interest with respect to the buyer identified in Item 10 only if such buyer remits payment payable to the "Commodity Credit Corporation" at the address indicated in Item 9 by the final date to repay as shown in Item 12. The amount of such payment is calculated by multiplying the repayment rate per unit by the quantity of commodity purchased not to exceed the quantity identified in Item 4. The repayment rate must be obtained from the County FSA Office indicated in Item 9. Any amount in excess of the amount required to repay the quantity of commodity actually purchased or in excess of the quantity shown in Item 4 will be refunded to buyer if Item 11 has been completed by the producer.</p> <p>CCC has previously obtained lien waivers from all major lienholders who claim an interest in the commodity identified in Part A which were superior to CCC. In the event that CCC has failed to obtain a lien waiver from a superior lienholder and the buyer is obligated to make a payment to such lienholder for the purchase of the commodity, CCC agrees to be subject to the actual dollar value of such lien if 1) payment was made solely to CCC because Item 11 is initialed and dated by one of the debtors; 2) the lien is established to be legally superior to CCC's interest; 3) the buyer fully cooperates with CCC's investigation of such other lien by supplying CCC with all requested information; and 4) the buyer lacks any affirmative defenses with respect to such lien. CCC will pay the actual dollar value of the lien, but not any collateral costs incurred by the buyer including, but not limited to, legal fees, court fees, interest, or penalties, unless otherwise authorized by law.</p>

PART B – BUYER'S INSTRUCTIONS FOR CALCULATING REPAYMENT AMOUNT			
14. METHOD OF CALCULATION			
<p>THE BUYER SHALL CALCULATE THE AMOUNT due CCC by multiplying the repayment rate, per unit, times the quantity of commodity delivered and purchased, not to exceed the quantity identified in block 4. If the amount calculated exceeds the sales proceeds, the entire sales proceeds shall be submitted. A check payable to "Commodity Credit Corporation" shall be provided to the address shown in block 9 to be received on or before the fifteenth calendar day after the date shown in block 12. - provide a terminal market price to State Offices showing:
 - terminal markets assigned to each county for each commodity
 - county differential for each terminal market per commodity
- determine the terminal market price for each commodity at each terminal market
- maintain the daily market rates to make terminal market prices available to State and County Offices
- by telephone, immediately advise State Offices of terminal or differential changes and the effective date as they occur.

See subparagraph 225 J or 785 L for abbreviations for commodity, class, and terminal markets.

State Offices shall:

- inform County Offices of:
 - the assigned terminal markets for each commodity
 - the county differential for each commodity
 - any changes KCCO makes to assigned terminals or differentials
- contact PSD:
 - for requests to changes in county differentials
 - questions about the “Daily Market Rates” downloaded each day.

785 Loan Repayment Rates

A Determining Market Loan Repayment Rates

See the following subparagraphs for examples on how to calculate repayment rates:

- subparagraphs F and G for **corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, and oil and non-oil sunflower seed**
- subparagraphs H and I for **wheat**
- subparagraph J for **crambe, mustard seed, rapeseed, safflower, and sesame seed**
- subparagraph K for **pulse crops (lentils, dry peas, and small and large chickpeas)**.

B 30-Calendar-Day Method

CCC determines market loan repayment rates based on average market prices during the preceding 30-calendar-day period.

For:

- **corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, oil and non-oil sunflower seed, crambe, mustard seed, rapeseed, safflower, and sesame seed**, the 30-calendar-day method reflects a 30-calendar-day moving average of all terminal market prices for the crop, adjusted by the difference between the applicable national loan rate and county loan rate
- **wheat**, the 30-calendar-day method reflects a 30-calendar-day moving average of all terminal market prices for the specific class, adjusted by the difference between the applicable national average loan rate by class and county loan rate by class.

***--Notes:** The following displays the 2014 wheat national average loan rates by class.

Wheat Class	2014 National Average Loan Rate (Per Bu)
Durum	\$3.23
Hard Red Spring	\$3.46
Hard Red Winter (HRW)	\$2.87
Soft Red Winter	\$2.58
Soft White	\$2.64

--*

See subparagraph L for a table of terminal markets by commodity.

785 Loan Repayment Rates (Continued)

B 30-Calendar-Day Method (Continued)

For:

- **pulse crops (lentils, dry peas, and small and large chickpeas)**, the 30-calendar-day method reflects a 30-calendar-day moving average of market prices for the crop, adjusted by the difference between the applicable national loan rate and applicable regional loan rate

Note: No adjustment is necessary for small and large chickpeas. There is **no** regional or county loan rate for small and large chickpeas.

- **wool and mohair**, CCC will determine and publish loan repayment rates based on average market prices during the preceding 30 calendar days, and include the alternative repayment rate announced weekly in the normal manner.

C Alternative Method

For:

- **wheat, corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, and oil and non-oil sunflower seed**, CCC determines market loan repayment rates based on an alternative rate

Note: The 5-calendar-day alternative method reflects a 5-calendar-day moving average of applicable terminal market prices adjusted by the following:

- applicable county differential
- 5-calendar-day average of applicable terminal market adjustments.
- **pulse crops (lentils, dry peas, and small and large chickpeas), crambe, mustard seed, rapeseed, safflower, sesame seed, wool, and mohair**, market loan repayment rates are determined based on a weekly rate, in the normal manner.

785 **Loan Repayment Rates (Continued)****D Publication Frequency of Market Loan Repayment Rates**

For:

- **wheat, corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, and oil and non-oil sunflower seed**, the repayment rates are published daily, except on weekends, and are in effect until the next posting
- **pulse crops (lentils, dry peas, and small and large chickpeas), crambe, mustard seed, rapeseed, safflower, and sesame seed**, the repayment rates are published on Friday, except on weekends, and are in effect until the next posting
- **wool, mohair, and peanuts**, the repayment rates are published on Tuesday, effective at 12:01 a.m. on Wednesday, and are in effect until the next posting.

F Example of Market Loan Repayment Rate Calculation Using the 30-Calendar-Day Method for Corn, Grain Sorghum, Soybeans, Barley, Oats, Canola, Flaxseed, and Oil and Nonoil Sunflower Seed

For the 30-calendar-day method for **corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, and oil and nonoil sunflower seed**, calculate the repayment rates as follows.

Note: For this example, **corn** repayment rates for **October 1 in McLean County, Illinois**, were calculated.

Step	Action
1	Go back 30 calendar days from October 1 (September 1 through September 30). Note: The repayment rate is based on a moving average. Therefore, to calculate the repayment rate for October 2, the user needs terminal market price data for the previous 30 calendar days (September 2 through October 1).
2	Starting with the September 1 data, add all corn terminal market prices and divide by 10. Record the unrounded result as the average terminal market price for September 1. Note: See subparagraph L for the number of terminal markets. Divide by: <ul style="list-style-type: none"> • 10 for “YC” • 8 for “YSB” • 6 for “SOR” • 5 for “BAR” • 2 for “OAT” • 4 for “CAN” • 3 for “FLX” • 2 for “SUN/SFN”.
3	Repeat step 2 for the next 29 calendar days.
4	Add all unrounded results from September 1 through September 30 and divide by 30. Record the result as a rounded number (\$X.xx).
5	Subtract the national loan rate from the result in step 4.
6	Add the county loan rate to the result in step 5.
7	Record the answer from step 6. This is the 30-calendar-day loan repayment rate for corn in McLean County, Illinois, for October 1.

The effective market loan repayment rate for corn in McLean County, Illinois, for October 1 is the **lower** of either the 30-calendar-day or 5-calendar-day method (subparagraph G).

785 Loan Repayment Rates (Continued)

G Example of Loan Repayment Rate Calculation Using the 5-Calendar-Day Method for Corn, Grain Sorghum, Soybeans, Barley, Oats, Canola, Flaxseed, and Oil and Non-Oil Sunflower Seed

For the 5-calendar-day method for **corn, grain sorghum, soybeans, barley, oats, canola, flaxseed, and oil and nonoil sunflower seed**, calculate the repayment rates as follows.

Note: For this example, **corn** repayment rates for **October 1 in McLean County, Illinois**, were calculated.

Step	Action
1	Go back 5 calendar days from October 1 (September 26 through September 30). Note: The repayment rate is based on a moving average. Therefore, to calculate the repayment rate for October 2, the user needs terminal market price data for the previous 5 calendar days (September 27 through October 1).
2	Starting with the September 26 data, record each applicable corn terminal market price as a rounded number (\$X.xx). The terminal market pricing points assigned to McLean County, Illinois, are Gulf ("GLF") and Decatur ("TKO").
3	Repeat step 2 for the next 4 calendar days.
4	Add all rounded results from September 26 through September 30 for each applicable terminal market and divide each result by 5. Record each result as a rounded number (\$X.xx).
5	Subtract from the recorded result in step 4, and for each assigned terminal market, the following: <ul style="list-style-type: none"> the assigned county differential for that specific terminal market the calculated 5-calendar-day average terminal market adjustments for that specific terminal market.
6	Record the answer for each assigned terminal market.
7	The higher result in step 6 will be the alternative loan repayment rate for corn in McLean County, Illinois, for October 1.

The effective market loan repayment rate for corn in McLean County, Illinois, for October 1 is the **lower** of either the 30-calendar-day (subparagraph F) or 5-calendar-day method.

786 Calculating CCC-Determined Value**A PCP (30-Calendar-Day and Alternative Repayment Rates)**

PCP is the price used to determine the CCC-determined value for all commodities **except** pulse crops, wool, mohair, and peanuts.

PCP is:

- **not** adjusted for premiums and discounts when determining the market repayment rate
- **not** adjusted for premiums and discounts when determining the LDP rate
- **not** adjusted when loan rates are discounted to a set percentage for nonrecourse loans on:
 - commodities harvested as other than grain
 - contaminated commodities
 - low quality commodities
- calculated for each terminal assigned to the County Office for the commodity, as applicable
- calculated by class for wheat **only**.

Notes: To determine PCP for Hard White Wheat or Hard Winter Wheat, use the loan rate and differential applicable to Hard Red Winter Wheat.

For sunflower seed oil and nonoil types, use the sunflower seed oil terminal market price to calculate the CCC-determined value.

786 Calculating CCC-Determined Value (Continued)**B RCP**

RCP is the price used to determine the CCC-determined value for oilseeds **only**.

RCP is:

- **not** adjusted for premiums and discounts when determining the market repayment rate
- **not** adjusted for premiums and discounts when determining the LDP rate
- **not** adjusted when loan rates are discounted to a set percentage for nonrecourse loans on:
 - commodities harvested as other than grain
 - contaminated commodities
 - low quality commodities
- calculated for each region assigned to the County Office for the commodity, as applicable.

C Calculating the CCC-Determined Value

Calculate the CCC-determined value:

- daily for canola, feed grains, flaxseed, oil and nonoil sunflower seeds, soybeans, and wheat
- every Friday for crambe, mustard seed, rapeseed, safflower, and sesame seed
- every Friday for large and small chickpeas, dry peas, and lentils
- using the terminal markets or market rates assigned for each commodity, as applicable.

The CCC-determined value is the lowest value between the 30-calendar-day or alternative PCP.

Note: The alternative PCP is the higher value resulting from applicable terminal markets assigned to county (subparagraph 785 G and I).

Determine the:

- LDP rate by subtracting the CCC-determined value from the county loan rate, as applicable
- market gain by subtracting the CCC-determined value from the county loan rate, as applicable.

786 Calculating CCC-Determined Value (Continued)**C Calculating the CCC-Determined Value (Continued)**

If the CCC-determined value is higher than the applicable county loan rate, there is **no**:

- LDP in effect for that day and requests are not applicable
- market gain earned, but producer may obtain forgiven interest, as applicable.

For loans, always use the county loan rate, terminal markets, and location differentials applicable to the county used to disburse the loan when determining the CCC-determined value.

D Grade Discounts for Amber Durum and Durum Wheat

To determine the CCC-determined value for amber durum or durum wheat loans or LDP's, subtract the discount for Amber Durum or Durum shown on the "Daily Market Rates" from the applicable terminal market price.

E CCC-Determined Value

County Offices shall obtain loan repayment information, PCP's, and LDP rates from PSD's web site.

*--For crop year 2013 sequestered loans, the CCC determined value is not reduced for sequestration. The amount paid by producers is determined as follows:

- $\text{loan rate/bu.} \times \text{loan quantity} - (\text{loan amount} \times \text{sequestration rate}) = \text{reduced loan principal}$
 $(\$1 \times 1,000 - (\$1000 \times 5.1\%) = \$949 \text{ reduced loan principal})$
- $\text{PCP/bu.} \times \text{loan quantity} - (\text{loan amount} \times \text{sequestration rate}) = \text{repayment amount required}$
 $(\$0.90 \times 1,000 \text{ bu.} - (\$900 \times 5.1\%) = \$854.10 \text{ repayment amount required})$
- $\text{market loan gain determined by taking the reduced loan principal} - \text{repayment amount required} = \text{market loan gain}$
 $(\$949 - \$854.10 = \$94.90 \text{ market loan gain}).--*$

Section 8 Loan Maturity**797 Maturity Notification to Producers****A Preparing Lists of Maturing Loans**

County Offices shall print lists of maturing loans:

- at least 45 calendar days, but not more than 60 calendar days, before maturity
- according to 12-PS.

B Preparing Maturity Notification Letters

County Offices shall:

- use the Price Support Query to print out loan maturity notification letters according to 12-PS

 - to applicable producers advising of the loan maturity date and the applicable options available according to subparagraph D
 - inform producers of the additional maturity information according to subparagraph C
- for outstanding honey loans, see 2-LP Honey, paragraph 16.

The maturity notification letters serve as reminders to the producers. Nonreceipt of maturity notification letter does **not** negate the producer's responsibility for repaying the outstanding loan principal plus interest, if applicable by the maturity date provided on the signed CC-677, *--CCC-677S, CCC-678, or CCC-678S.--*

797 Maturity Notification to Producers (Continued)

C Additional Maturity Information

County Offices shall ensure that producers are informed of the following additional maturity information, as applicable to the loan type.

For loans **not** repaid by the loan maturity date, on the next workday after maturity:

- delivery instructions will be issued with a demand letter for **nonrecourse farm-stored** loans regardless of whether a CCC-681-1 has been issued

***--Note:** See Exhibit 7, subparagraph F.--*

- warehouse receipts will be forfeited **immediately** to CCC for **nonrecourse warehouse-stored** loans
- for **farm- or warehouse-stored recourse** loans:
 - begin foreclosure proceedings according to paragraph 866 and Part 8, Section 3
 - ***--establish** receivable through NRRS, if applicable, according to Exhibits 9 and 10, subparagraphs A--*
 - the receivable amount is equal to the principal plus interest.

Repayments made **after** maturity and **before** queuing the forfeiture or settlement of the loan:

- may be accepted
- shall be made at principal and charges plus interest.

Interest will continue to accrue at the interest rate applicable to the loan until the loan is repaid or transferred to receivables.

See paragraph 803 for **nonrecourse farm-stored** loans not delivered or repaid by expiration of CCC-691.

797 Maturity Notification to Producers (Continued)**D Options Available for Loans**

County Offices shall follow this table for the options available to producers with maturing loans.

IF the loan is...	THEN the option available...
nonrecourse farm-stored or warehouse-stored	only through the loan maturity date is repaying with cash.
nonrecourse farm-stored	after the loan maturity date is delivery of the loan collateral to CCC.
nonrecourse warehouse-stored	after the loan maturity date is forfeiting the warehouse receipts, representing the loan collateral, to CCC.
recourse	only through the loan maturity date is repaying the outstanding loan principal and charges plus interest.

Note: Repayments with cash made **after** maturity and **before** queuing the forfeiture or settlement of the loan:

- may be accepted
- shall be made at principal and charges plus interest.

E Loans Open After Maturity

County Offices shall, for:

- *--nonrecourse farm-stored loans, send the applicable demand letter in Exhibit 7, subparagraph F, along with CCC-691 on the first day after maturity--*
- nonrecourse warehouse-stored loans, forfeit commodity receipt to CCC on the first day after maturity
- *--recourse loans, establish a receivable through NRRS, according to Exhibits 9 and 10, subparagraphs A, "recourse loan" and "distress loan".

If the commodity has **not** been delivered or repaid by the established time period,--* foreclosure proceedings will begin according to paragraph 866.

Part 8 Farm-Stored Loan Settlement**Section 1 Preparing for Deliveries of Nonrecourse Loans****800 Preparing for Deliveries****A Preparing for Anticipated Deliveries**

Before loan maturity, CED or designee shall contact authorized warehouses to determine whether local storage space is available.

***--Note:** Delivery of farm-stored commodities to CCC can **only** be made to an approved warehouse under UGRSA.--*

See subparagraphs B and C for State and County Office action when storage space is unavailable or limited.

B Unavailable or Limited Storage Space

When storage space is unavailable or limited for handling deliveries in the local area, County Offices shall contact the State Office for assistance in:

- locating available storage space
- planning deliveries in the following order of priority:
 - to authorized warehouses for shipment on a handling only basis
 - to trackload
 - for local sale for isolated farm-stored lots
- considering which of the following is to CCC's advantage:
 - paying excess haul to beyond the normal delivery point according to subparagraph 817 E
 - consolidating loading orders at another location in the county or nearby county
 - local sale.

800 Preparing for Deliveries (Continued)**C State Office Action**

When contacted by a County Office, the State Office shall:

 - by telephone at 816-926-6843
 - for assistance in making storage space available
- document and maintain records of these contacts.

D Scheduling Deliveries

County Offices shall:

- work out a schedule of deliveries to authorized warehouses for storage with the warehouse operator
- if possible, direct deliveries to warehouses at customary delivery points with the lowest handling and storage rates.

After the loading order is received from KCCO, schedule deliveries to:

- ☐ authorized warehouses for **handling only** according to subparagraph 804 B
- ☐ **trackload only** according to paragraph 805.

800 Preparing for Deliveries (Continued)

E Notification From KCCO

When notified by KCCO, the State Office shall advise affected County Offices:

- of warehouses, in the area designated by KCCO, with excessive handling or storage charges
- of available alternate delivery locations
- to direct deliveries to other warehouses, if possible.

Only as a last alternative, direct deliveries to warehouses with excessive handling or storage charges.

F Producer Storing Commodity for CCC

When CCC is unable to take delivery of the commodity, CCC may require producers to retain and store the commodity for a 60-calendar-day period after maturity at **no** expense to CCC.

If storage space is unavailable, request loading orders immediately after maturity so that delivery instructions are issued promptly after maturity.

800 Preparing for Deliveries (Continued)

G Storage Credit

County Offices shall try to have deliveries completed within the 60-calendar-day period.

Storage credit:

- will begin on the 61st calendar day, according to subparagraph 817 C, if CCC **cannot** take delivery during the 60-calendar-day period
- shall **not** be allowed to the producer at settlement if **any** of the following apply:
 - the delayed delivery is for the producer's convenience
 - the commodity is redeemed
 - CCC-691 is issued within the 60- calendar-day period.

801 Issuing CCC-691's

A When to Issue CCC-691's

For **nonrecourse** loans, County Offices shall complete CCC-691, prepare demand letter, *--according to Exhibit 7, subparagraph F, and issue CCC-691:

- the next workday after the loan maturity date regardless whether CCC-681-1 is outstanding
- when any of the following occurs **after** the producer receives the maturity notice in Exhibit 7, subparagraph E:--*
 - producer notifies the County Office that the commodity will be delivered to CCC when the loan matures
 - producer does **not** notify the County Office of the option that will be taken to settle the loan
 - producer notifies the County Office that the loan will be repaid at maturity, but the producer has taken **no** action to settle the loan by the maturity date
 - producer does **not** repay the loan by the maturity date.

*--**Note:** NRRS receivables are **not** to be established on mature nonrecourse loans if the commodity is still in storage and eligible to be delivered to CCC. The borrower must be given due process and an opportunity to deliver the commodity to CCC or repay the loan. See Exhibit 7, subparagraph A for table of applicable actions.--*

For recourse loans after maturity, and repayment has **not** been received, do **not** issue CCC-691.

See Section 3 for completing local sales.

801 Issuing CCC-691's (Continued)

B Completing CCC-691's Through Part A

817 Completing CCC-691, Part C**A Completing Part C**

Itemize all charges or credits, as applicable, on CCC-691, Part C, according to this paragraph. See example in subparagraph G.

If more than one CCC-691 is issued for a loan, itemize charges and credits only on CCC-691 that shows the outstanding quantity and balance to be settled.

B Charges

Enter all charges incurred by CCC during delivery, such as shelling, hauling, weighing, and grading in item 26.

Attach copies of bills to producer and County Office copies of CCC-691.

When a nonrecourse loan is called before maturity, warehouse storage charges will be deducted for early delivery. Make a deduction as a separate item instead of reducing the settlement rate, as follows:

- in CCC-691, item 8, CHECK (✓) “**Voluntary Early Delivery Subject to Storage Deduction**” box
- write the following information under the entries provided by the warehouse on CCC-691, Part B:

“Storage adj. _____ bu. times _____ cents = \$_____.”

APSS will determine storage charges through the maturity date.

Exception: County Office shall **not** make a storage deduction when deliveries of farm-stored commodities are called by CCC under general acceleration of the loan maturity date for a particular geographic area.

817 Completing CCC-691, Part C (Continued)**C Credit for Storage Beyond 60 Calendar Days**

CCC shall credit the producer for storage when CCC required the producer to retain the commodity beyond 60 calendar days after maturity according to subparagraph 800 F.

The period for earning storage starts on the 61st calendar day after maturity and ends the **earlier** of the final date:

- of delivery
- for delivery as shown on CCC-691.

APSS will calculate the storage credit using the storage rates applicable to the:

- storing warehouse for deliveries for warehouse storage
- closest authorized warehouse for trackload and handling only loading orders.

If there is a question about which storage rate to use, refer the matter to the State Office or KCCO for rate determination.

Storage credit is limited to the **lower** of the following:

- quantity delivered
- 110 percent of the outstanding loan quantity.

D Trackloading Credit

Producers delivering a commodity to CCC on track at a country point will be given a trackloading credit, as applicable, of:

- 10 cents per bu
- 16.67 cents per cwt. for grain sorghum and rice.

APSS will calculate the trackloading credit.

817 Completing CCC-691, Part C (Continued)**E Excess Haul Credit**

If a producer is directed to deliver a commodity to a location beyond the producer's customary delivery point, credit may be earned for excess haul.

See Exhibit 2 for a definition of customary delivery point.

If the producer:

- hauls the commodity, use the STC-established rate
- hires someone to haul the commodity, use the **lesser of the following**:
 - STC-established rate
 - actual cost of hauling the commodity.

The mileage for which credit is earned shall:

- be the additional distance to the delivery point from the customary delivery point
- **not** exceed the distance by direct route from the delivery point, minus the distance from the farm to the producer's customary delivery point.

Record the following as separate items on CCC-691, Part C:

- item 27 total miles on which the excess haul credit was based
- item 28 excess hauling:
 - total excess haul credit
 - number of bu. or cwt.
 - rate that was used for calculating the excess haul credit (cents per bu. or cwt.).

F STC-Established Rate for Excess Hauling

STC shall establish an excess haul rate, taking into account the following:

- rates of local truckers
- that rates shall not include loading, unloading, or return costs.

817 Completing CCC-691, Part C (Continued)**G Rate Basis**

Enter State and county codes of normal delivery point in item 30.

820 Delivered Quantities Exceeding Maximum Eligible Quantity (Continued)**C Additional County Office Action**

Follow this table when additional action is necessary to obtain corrected documents.

IF the producer...	THEN the County Office shall...
fails to obtain the warehouse receipt and CCC-691 from the County Office for correction	<ul style="list-style-type: none"> • obtain corrected warehouse receipts • consider the cost for splitting warehouse receipts as a cost incurred by CCC • enter the cost on CCC-691, item 26 • complete the settlement process.
obtains the warehouse receipt and CCC-691 from the County Office, but fails to return the corrected documents	establish a receivable through NRRS. The receivable amount is equal to the principal plus interest as of the date of the demand letter. On the 31st calendar day, if the amount due is not repaid by the 30th calendar day after the CCC-691 expiration or extended expiration date, the interest start date for the receivable shall be the 31st calendar day after the CCC-691 expiration or extended expiration date.
returns the corrected documents after the claim has been established	follow paragraph 867 and 12-PS for processing settlement of the loan in receivable status.

Note: If the loan collateral is sold by local sale, process settlement in APSS according to 12-PS.

821 Determining Loan Settlement Values**A Base Loan Rates**

If the commodity is delivered to CCC from farm storage, settlement shall be made by CCC on the basis of the base loan rate:

- applicable to the crop year for the commodity
- for the county where the producer's customary delivery point is located
- adjusted for applicable premiums and discounts.

***--Note:** Each producer signing CCC-677, CCC-677S, CCC-678, or CCC-678S is jointly--* and severally liable for repayment of the amount due.

B Determining Settlement Values

Farm-stored loan settlement is based on the quantity and quality of the commodity delivered to CCC.

Determine farm-stored settlement rates on eligible commodities, as determined in applicable 2-LP, using the:

- specific crop year schedule of loan premiums and discounts for the:
 - crop year of the commodity delivered
 - factors or percent of factors shown on the warehouse receipts or inspection certificates
- additional schedule of discounts in effect on the date delivery was completed by the producer.

***--Note:** For 2013 crop year commodities where the loan rate was reduced for--* ACRE-elected farms, the base loan rate is the adjusted ACRE loan rate, as applicable.

C Weight Basis for Premiums and Discounts

See applicable 2-LP for applicable weight basis.

821 Determining Loan Settlement Values (Continued)

D Using Appropriate Schedule

Follow this table when a discount factor is **not** included in the applicable specific crop year schedule of premiums and discounts for the applicable commodity.

IF a discount factor or percentage of a factor is not included in the applicable...	THEN...
specific crop year schedule of premiums and discounts for the commodity	apply the applicable additional schedule of discounts in: <input type="checkbox"/> effect on the date delivery is completed as shown on CCC-691 <input type="checkbox"/> 2-LP applicable to the commodity. Note: Schedules for previous years' delivery periods not found in 2-LP may be obtained from the State Office, if needed.
additional schedule of discounts for the commodity	County Offices shall contact PSD through the State Office. Note: Do not contact KCCO, KCAO, or FSC.

821 Determining Loan Settlement Values (Continued)**E Reasons for Additional Discounts**

The schedules of CCC additional discounts are:

- provided for those qualities, factors, or percentages of factors for which no discounts have been established in the specific crop year schedule of loan premiums and discounts
- applicable for commodities delivered to CCC
- applicable to all States
- to be used to determine farm-stored loan settlement rates, if applicable.

F Additional Discount Applicability

Quantities of farm-stored commodities are subject to the additional discounts for loan settlements in the applicable 2-LP when the quantities are **both** of the following:

- ineligible for warehouse-stored loan
- delivered to satisfy farm-stored loan obligations.

The additional discounts:

- are for factors not shown in specific crop year schedule of premiums and discounts
- shall be used in addition to any applicable discounts in the specific crop year schedule of premiums and discounts.

Example: If the warehouse receipt or inspection certificate shows that the corn has 3.5 percent broken corn and foreign material and 15.9 percent moisture, use the discount in:

- specific crop year schedule for 3.5 percent broken corn and foreign material
- additional schedule of discounts for 15.9 percent moisture.

821 Determining Loan Settlement Values (Continued)**G Using the Additional Schedule of Discounts**

The additional schedules of discounts are:

- cumulative discounts
- not to be added to any discount if the same factor is listed in the specific crop year schedule of loan premiums and discounts.

Use the discount shown in the specific crop year schedule of loan premiums and discounts to determine the settlement rate **if** a factor or percentage of a factor, applicable to the commodity, is listed in **both** of the following:

- specific crop year schedule of loan premiums and discounts for the crop year of the commodity delivered
- additional schedule discounts.

H Settlement Value of Zero or Less Than Zero

Discounts applied during a settlement may result in the commodity having a value of zero or less than zero. If this situation occurs, use zero for the settlement value of the commodity.

***--**The settlement loan value for all loans delivered to CCC is determined on the quality factors of the quantity delivered. Discounts applied during a settlement may result in the commodity having a value of zero or less than zero. If this happens, use zero for the settlement value of the commodity.

Note: If a nonrecourse loan is disbursed at the regular loan rate, and the producer delivers low quality commodity to CCC in settlement of the loan, when all discounts are applied, it is possible that the entire original loan amount will be owed to CCC.**--***

I Discount for Contaminated Grain

Grain found to contain substances poisonous to human or animals, such as mercurial compounds and toxin-producing molds, will receive a discount equal to the settlement value determined after applying all other premiums and discounts. See the additional discount schedule applicable to the commodity.

Exceptions: For grain delivered to CCC with the warehouse receipt indicating a vomitoxin level of:

- 5 parts per million or less, determine the settlement rate in the normal manner
- more than 5 parts per million, the grain shall have a settlement value of **zero**.

822 Completing Settlements**A Processing Settlements**

County Offices shall:

- organize their work so that settlements are processed promptly when delivery of the commodity is completed
- process settlements in APSS according to 12-PS
- close out the producer's loan promptly by paying amounts due or collecting any deficiencies.

***--Note:** Warehouse purchases from KCCO for farm-stored deliveries before completing the settlement and transfer of the commodity to CCC are **no** longer authorized.--*

B Handling National Soybean Assessment

When processing farm-stored **soybean** loan settlements, the national soybean assessment equal to 0.5 percent of the settlement value will be charged.

- mark the original CCC-677 or CCC-677S, “**Delivered**”
- return CCC-677 or CCC-677S to the producer.

If **either** of the following applies, do **not** release CCC-677 or CCC-677S to the producer:--*

- loan deficiency exists and has not been satisfied
- loan amount has been transferred to receivables and has not been paid.

823 Loan Deficiencies**A Notifying Producers**

When there is a deficiency owed to CCC resulting from a loan settlement, County Offices shall:

- transfer the amount due CCC from APSS using the “Transfer to Claims” option

- and will include a document number that:
 - is assigned and recorded in the transmission file

- incorporate all types of LDP requests into a single 2-part application consisting page 1 (LDP agreement) and page 2, 3, and 4 (LDP benefit requests)
- ensure that LDP benefits for eligible producers on all eligible commodities when page 1 is filed **before** loss of beneficial interest, and pages 2, 3, and/or 4 are received **before** the final loan/LDP availability date
- cover production sold before CCC-633 EZ page 2 or 4, is submitted as long as the producer filed a CCC-633 EZ page 1 before loss of beneficial interest
- cover "over-run bushels" delivered for sale, not to exceed the reasonable quantity for that commodity
- can be used to request LDP's for all eligible loan commodities listed in subparagraph 226 C, including hay and silage
- cover all quantities the producer has beneficial interest in on the date page 1 is completed and received in the applicable County Office
- page 1 only needs to be filed in 1 County Office for all counties in which the producer or entity has an interest in an eligible commodity

Note: County Offices must FAX a copy of the completed CCC-633 EZ to all counties in which the producer has an interest according to subparagraph C.

- do not negate the producer's ability to obtain MAL

Note: If the producer submits CCC-633 EZ page 2 or 4 requesting payment of LDP benefits, then the specific quantity in which the LDP benefit was requested becomes ineligible for MAL.

- apply to CMA's who apply to service County Offices for LDP's according to 1-CMA.

1001 Requests for LDP's Documented on CCC-633 EZ (Continued)**A General Information (Continued)**

By completing and agreeing to the terms and conditions provided on CCC-633 EZ page 1 before losing beneficial interest, producers may be eligible to receive LDP benefits based on the earlier of:

- date beneficial interest is lost in the eligible commodity according to acceptable production evidence
- the date of request for payment, if beneficial interest is retained
- date of delivery, if beneficial interest is retained.

Producers **must** submit CCC-633 EZ page 1 and page 2, 3, or 4 **before** the applicable final availability date for the respective commodities to be eligible for the LDP benefit. See subparagraph 226 C for a listing of the final loan availability date for specific commodities.

B Submitting CCC-633 EZ's

While CCC-633 EZ page 1 can be submitted to any County Office in which the producer has an interest, CCC-633 EZ pages 2, 3, or 4 **must** be requested at the County Office where the farm records are kept for the farm on which the commodity was produced. Requests **must** be submitted by any of the following:

- in person
- by mail
- by FAX
- through eForms.

Following submission and approval of CCC-633 EZ page 1, eLDP requests can be submitted by eligible producers who have:

- a customer profile
- level 2 eAuthentication account access.

1001 Requests for LDP's Documented on CCC-633 EZ (Continued)**C Multi-County Producers**

If the producer farms in more than 1 county, the County Office first contacted shall:

- accept the LDP request on CCC-633 EZ page 2, 3, or 4
- contact the other County Offices when either of the following applies:
 - the request covers eligible production from more than 1 farm and the farm program records are kept in more than 1 County Office
 - LDP's were received from more than 1 County Office
- FAX LDP requests to the applicable administrative County Office for completion.

If a single CCC-633 EZ page 2, 3, or 4, includes production from multiple farms that are located in a different county, the County Office that accepts the LDP request **must** indicate in item 32 that "multiple LDP's will be issued to cover the requested quantity according to this LDP request".

Note: The applicable administrative County Office **must**:

- verify the COC-established maximum yield for the eligible production in the applicable county
- document in item 32 where the verification of information was obtained.

D Commingled Commodities

For LDP requests on commingled commodities, producers may request individual or joint LDP's. For joint LDP's, all producers whose share of the commodity is included **must** sign CCC-633 EZ page 2, 3, or 4.

A separate CCC-633 EZ page 2 or 3 is **required** for **all** production from ACRE-elected
--farms for crop year 2013.--

1001 Requests for LDP's Documented on CCC-633 EZ (Continued)

E Approvals and Payments

LDP requests must be:

- approved when all eligibility requirements are met
- date-stamped when CCC-633 EZ pages 1 and 2, 3, or 4 are received in the County Office to indicate the intention and the request date.

Note: If the FAX machine preprints the correct date time, when any of the CCC-633 EZ pages are received in the County Office or if the date is printed on an eForms submission, then the date stamp is not required.

Issue payments when:

- CCC-633 EZ page 1 has been filed and pages 2, 3, or 4 have been approved
- all required production evidence, such as delivery documentation, has been received for LDP's on which beneficial interest has been lost
- second party review has been completed according to paragraph 234; reviewer should initial and date CCC-633 EZ page 2, 3, or 4
- CCC-770 LDP/eLDP has been completed and signed, if applicable.

F Prompt Payment

See paragraph 35 for prompt payment due dates.

G Canceling CCC-633 EZ's

CCC-633 EZ page 2, 3, or 4 **cannot** be canceled at any time. After producers sign CCC-633 EZ page 2, 3, or 4, LDP is obligated to be paid by CCC to the producer.

H Deferred Payments

Payments **cannot** be deferred or delayed at any time. All payments **must** be made as soon as possible after the date of request.

1002 CCC-633 EZ's

A Page 1

The purpose of CCC-633 EZ page 1 is to:

- allow producers to indicate their intention to receive LDP benefits
- be completed 1 time per crop year to include all eligible commodities in which the producer maintains beneficial interest on the date page 1 is received in the applicable County Office
- cover all counties in which the producer or legal entity does business.

CCC-633 EZ page 1:

- **must** be received in the County Office on or **before** subsequent CCC-633 EZ pages 2, 3, or 4 are submitted for payment

Note: DMA's and LSA's will obtain CCC-633 EZ from their customers.

- is crop year specific and does **not** apply for subsequent crop years
- **--**may be submitted by the producer for crop year 2013 beginning **October 1** of the preceding crop year, through the final loan availability date for the applicable commodity, as long as the producer still has beneficial interest in the commodity.

Note: For crop year 2014, LDP's were not authorized until the FR notice was published on Friday, March 28, 2014. CCC-633 EZ, page 1, could not be accepted until that date.--*

* * *

County Offices shall encourage producers to submit CCC-633 EZ page 1 each crop year whether or **not** the producer plans to subsequently request a loan or LDP.

Because CCC-633 EZ page 1 serves as the producer's **intention** to request and receive LDP benefits, the producer still maintains the ability to pledge the eligible commodity for MAL. The eligible commodity becomes ineligible for MAL, when page 2 or 4 has been submitted for payment of LDP benefits.

1002 CCC-633 EZ's (Continued)**A Page 1 (Continued)**

The County Office receiving the initial filing of CCC-633 EZ page 1, will:

- complete Part D
- FAX or mail a copy to all County Offices, identified in item 5, in which the producer or entity has a farming interest.

Note: If there are additional counties that the producer neglected to include in item 5, LDP benefits are **not** denied because that County Office did **not** receive CCC-633 EZ page 1; FAX or mail omitted County Offices a copy of CCC-633 EZ page 1 when identified.

B Page 2

CCC-633 EZ page 2 is for all harvested commodities, **except** cotton.

For commodities harvested as other than grain, fed, or used for seed, determine a yield according to paragraph 336.

Note: The option of using 3 similar farms is **no** longer allowed.

Producers may submit:

- multiple requests using the applicable CCC-633 EZ page 2, 3, or 4, to cover all eligible quantities
- one CCC-633 EZ page 2 to cover multiple commodities if the quantities are requested on the same day.

Example: Producer can submit CCC-633 EZ page 2 on January 21, 2010, for corn and soybeans. Only one CCC-633 EZ page 2 is necessary.

Note: Once CCC-633 EZ page 2, 3, or 4, is submitted and approved for payment, **no** other changes can be made to the original CCC-633 EZ.

C Page 3

CCC-633 EZ page 3 is for cotton; see 7-CN.

D Page 4

CCC-633 EZ page 4 is for wool, mohair and unshorn pelt LDP requests.

1002 CCC-633 EZ's (Continued)

E Page 5

CCC-633 EZ page 5 is a continuation sheet for additional signatures.

F Completing CCC-633 EZ page 2

To receive LDP benefits, producers **must** complete and submit to DMA or County Office where the farm records are maintained for the farm on whose production LDP is requested, CCC-633 EZ page 2 or 4, as applicable. Producers who submit CCC-633 EZ page 2:

- and retain beneficial interest in the requested quantity, will receive LDP based on the LDP rate in effect in the county where the commodity is stored on the date a completed page 2 is received in that DMA or County Office
- after beneficial interest is lost in the requested quantity, will receive LDP based on the LDP rate in effect in the county, on the date, where beneficial interest was lost

Note: CCC has the sole discretion for determining when beneficial interest is lost in the commodity as provided in subparagraph 227 G. Acceptable production evidence **must** be provided with page 2 or 4 if the producer no longer retains beneficial interest in the requested quantity.

- based on the date of delivery, will receive LDP based on the LDP rate in effect in the county where the commodity was physically delivered on the date of delivery.

When production evidence is provided with page 2, LDP will **not** be subject to spot check.

IF the source of the LDP quantity (item 21) is...	THEN the...
certified	commodity is subject to random spot check and producers are required to submit acceptable production evidence according to subparagraph 335 C.
measurement service	County Office would initiate measurement service with FSA-409. The quantity indicated on CCC-633 EZ page 2 would receive LDP rate in effect on the date page 2 is completed and submitted, but would not be paid until verified by measurement service. The applicant must enter a specific quantity or "All" in CCC-633 EZ page 2, item 20 for the payment request to be complete. This prevents the producer from leaving CCC-633 EZ page 2, item 20 blank and then altering the request after the measurement service is completed because of a change in LDP rate.
production evidence	producers are required to submit acceptable production evidence according to subparagraph 335 C with page 2.

1003 FAXed CCC-633 EZ's

A Acceptable FAXed CCC-633 EZ's

FAXed CCC-633 EZ's are considered complete when both of the following are met:

- County Office has received CCC-633 EZ page 1
- producer correctly completes CCC-633 EZ page 2, 3, or 4, including all producer signatures.

B Unacceptable FAXed LDP Applications

Unacceptable FAXed LDP applications are:

- applications submitted on any form other than CCC-633 EZ
- CCC-633 EZ's missing information that is absolutely necessary to determine LDP.

Provide the producer with written notification that:

- CCC-633 EZ did not contain adequate information
- a new LDP rate will be established based on the date a new acceptable CCC-633 EZ page 2, 3, or 4 is received in the County Office.

1003 FAXed CCC-633 EZ's (Continued)

C Signatures

Followup original copies and signatures are **not** required for FAXed CCC-633 EZ's.

D CCC-633 EZ's Requested But Not Received

If a producer inquires about a FAXed CCC-633 EZ that was not received, County Offices shall:

- require producer to submit documentation to verify the date and time of the CCC-633 EZ FAX transmission
- accept producer's completed CCC-633 EZ
- document the date CCC-633 EZ was FAXed and the reason the FAX was not received
- use the LDP rate in effect on the date printed by the FAX machine on the original CCC-633 EZ transmittal
- **not** accept or approve producer's CCC-633 EZ unless the producer can provide actual FAXed date verification.

Note: Incomplete transmissions are **not** considered to be valid CCC-633 EZ's.

1004 LDP Rates**A Effective LDP Rate**

LDP rate is the rate in effect on the date:

- of request, if beneficial interest is maintained on date of request
- beneficial interest is lost according to acceptable production evidence
- of delivery, if the producer requests the date of delivery option on the applicable CCC-633 EZ page 2 **before** delivering the requested quantity.

The date beneficial interest is lost is the date the producer loses control of the commodity through sale, feeding to livestock, or delivery to an unauthorized warehouse, livestock feeder, processor, ethanol or bio diesel plant, or wool pool.

For commodities immediately fed during harvest, see subparagraph F.

B Determining LDP Rates for Non-ACRE-Elected Farms

LDP rates are determined by the amount the applicable commodity loan rate exceeds the CCC-determined value for where:

- the commodity is stored for LDP in which the producer maintains beneficial interest
- beneficial interest is lost in the requested commodity.

Use LDP rate in effect until the next posting of the repayment/LDP rates.

Example: Use LDP rate announced on Friday for commodities delivered on a Saturday, Sunday, or Monday Federal holiday.

For eligible commodities stored out of the United States, base the LDP rate on the County where LDP is requested.

See Part 7, Section 6 for determining the CCC-determined value.

***--C Determine LDP Rates for ACRE-Elected Farms for 2013 Crop Year**

The LDP rate for crop year 2013 commodities produced on ACRE-elected farms must--* include the 30 percent reduction from the loan rate **before** determining the LDP rate. Use LDP rate in effect until the next posting of the repayment/LDP rates.

Example: Use the LDP rate announced on Friday, applicable to commodities produced on ACRE-elected farms, for ACRE-elected farm commodities delivered on a Saturday, Sunday, or Monday Federal holiday.

1004 LDP Rates (Continued)***--C Determine LDP Rates for ACRE-Elected Farms for 2013 Crop Year (Continued)--***

For eligible commodities stored out of the U.S., base the LDP rate on the county where LDP is requested. The effective ACRE payment rates are displayed by State and county at www.fsa.usda.gov/FSA/displayLDPRates?area=home&subject=prsu&topic=ldp-ldp in the “Effective ACRE LDP Rate” column.

--The announced LDP rate is not reduced for sequestration. The amount paid the producer is reduced after the gross payment amount is determined.--

D LDP Rate for Multiple Deliveries

The LDP rate for multiple deliveries of production covered under CCC-633 EZ is based on the first consecutive quantity delivered, unless otherwise designated on CCC-633 EZ.

Selecting a specific delivery date to obtain LDP rate for all quantity delivered is **not** permitted.

If multiple deliveries occur for production delivered under CCC-633 EZ and:

- multiple LDP's will be made, LDP rate is based on the date of delivery for the quantity being paid under LDP, as applicable
- a single LDP will be made, the weighted average LDP rate for the total quantity will be determined based on the eligible LDP rate for the dates eligible quantity was delivered.

E Determining LDP Amounts

LDP amounts are calculated by multiplying the applicable LDP rate times the LDP quantity requested.

F LDP Rate for FAXed CCC-633 EZ page 2, 3, or 4

For FAXed CCC-633 EZ page 2, 3, or 4, the LDP rate is the applicable rate in effect when CCC-633 EZ page 2, 3, or 4 is received in the County Office, if LDP request is completed according to this paragraph.

Example: If the rate is announced at 7 a.m. e.t. and the FAXed CCC-633 EZ is received at 5 a.m. e.t., LDP rate is the rate in effect on the previous workday.

G Fed or Processed Commodities

Commodities stored on the farm that were harvested as feed or later processed may be requested on CCC-633 EZ page 2 after harvest ends. For commodities fed during harvest, LDP's shall be requested on CCC-633 EZ page 2. If feeding dates are within reason, LDP rate is based on the date the producer certifies that the commodity was fed. **Questionable cases may be reviewed by the COC for reasonableness.**

1005 Eligible Quantity

A Commodity Eligibility Requirements

To be eligible for LDP, the quantity of commodity **must**:

- meet eligibility requirements in Part 2, including beneficial interest requirements
- have been produced by an eligible producer

Note: Producers found ineligible after submitting CCC-633 EZ page 1, and are later able to reestablish eligibility **before** the final loan/LDP availability day, are eligible to request LDP payment on CCC-633 EZ page 2 or 4 based on the day of LDP request or day beneficial interest was lost.

- not have been previously pledged as collateral for a loan and repaid with cash at a rate less than the principal plus interest
- not have been previously requested or paid for LDP.

Note: Producers **must** submit a valid CCC-633 EZ page 1 **before** losing beneficial interest.

IF...	THEN...
producer maintains beneficial interest and has submitted CCC-633 EZ, page 2 before submitting CCC-633 EZ, page 1	the LDP rate would be based on the date a correctly signed and completed CCC-633 EZ, page 1 is received in the County Office.
beneficial interest has been lost and CCC-633 EZ, page 2 is submitted before CCC-633 EZ, page 1 is received in the County Office	that quantity is ineligible for LDP.

The following are eligible for LDP:

- a quantity of a commodity eligible to be repledged for a nonrecourse loan
- silage and hay derived from an eligible loan commodity.

Note: Silage, hay, and roasted commodities are **not** eligible for MAL.

For LDP's on:

- commodities harvested as other than grain, see Section 2
- low quality commodities, see Section 3
- contaminated commodities, see Section 4
- HM or excess moisture commodities, see Section 5.

1005 Eligible Quantity (Continued)**B Quantity Requested**

Eligible producers may request LDP quantities by:

- certifying the quantity
- requesting measurement service
- certifying date of delivery
- providing delivery evidence.

If moisture levels are in excess of the maximum eligible moisture level applicable to the commodity, producers may want to certify the moisture percent, or adjust the certified quantity, to avoid possible refunds if LDP is selected for spot check.

C Certified Quantity

Producers may request LDP by certifying the quantity. A reasonableness check using yields established by COC, according to paragraph 230, **must** be completed to ensure that the commodity was produced by the producer. All certified LDP's are subject to spot check according to Part 3.

COC-set yield does **not** ensure that the commodity was produced; however, it establishes a guide for production reasonableness.

If producers later request measurement service and indicate on CCC-677-1 to use the quantity determined for production evidence:

- place CCC-677-1 in the producer's file
- use the measurement if LDP is later selected for spot check
- no further action is necessary.

1005 Eligible Quantity (Continued)

D Measured Quantity

Eligible producers may request measurement service to obtain LDP.

If measurement service is requested on FSA-409:

- complete CCC-677-1 in addition to CCC-633 EZ page 2 or 4
- reduce the measured quantity to the maximum eligible moisture level if the commodity contains moisture exceeding the level for the commodity according to the applicable 2-LP.

LDP's requested by measurement service are **not** subject to spot check.

E Quantity Supported by Production Evidence

If producers do not want to certify to the quantity or date delivered, requests can be completed by providing production evidence according to Part 3, Section 3.

If production evidence is provided at time of payment request, LDP will **not** be subject to spot check.

1006 LDP Types**A Types of LDP's**

LDP's are requested for any stored quantity the producer maintains beneficial interest in on date of request and can be either:

- farm-stored quantities
- warehouse-stored quantities.

B Rate for Type

This table provides guidance for determining LDP rate based on LDP type provided CCC-633 EZ page 1 is on file.

LDP Type	LDP Rate
Beneficial interest maintained.	Rate on date of request.
Beneficial interest lost.	Rate in effect on date sold or date delivered to a non-authorized warehouse according to acceptable sales evidence.
Delivery date. Note: Beneficial interest maintained, but before delivery the producer requests to use rate in effect on date of delivery.	Rate in effect on date delivered from the field.

***--Note:** For crop year 2013, the LDP rate is determined for commodities produced on an--* ACRE-elected farm by reducing the loan rate by 30 percent **before** calculating the LDP rate.

1008 Completing CCC-633 EZ for Measured Quantities**A Measurement Service Request**

When CCC-633 EZ is submitted and measurement service is requested to determine LDP measured quantity, producers shall:

- file FSA-409 according to 2-CP
- file CCC-677-1 according to Exhibit 15
- complete CCC-633 EZ according to this paragraph
- indicate a quantity in CCC-633 EZ page 2, item 20 B.

Note: This can be a specific amount or “**All**”, not to exceed the measured quantity. This item **cannot** be left blank.

See paragraph 525 for additional information on measurement service. County Offices shall use LDP rate in effect on the date CCC-633 EZ is requested.

When measurement service has been completed, County Offices shall:

- obtain producer verification of measurements according to paragraph 525
- issue LDP for the requested quantity, **not** to exceed measured quantity
- notify the producer that if a subsequent LDP or nonrecourse loan is requested on a remaining quantity previously measured, the new request shall be processed as a certified application (loan or LDP) up to the final loan availability date if all eligibility requirements have been met.

Note: These requests may be subject to spot checks.

LDP's for a specific quantity **must** be requested **before** the final loan availability date.

1008 Completing CCC-633 EZ for Measured Quantities (Continued)**B Entire Measured Quantity Used for LDP**

Follow this table when measurement service is completed and the producer wants to use the **entire** measured quantity for LDP.

Step	Action
1	Use LDP rate in effect on the date CCC-633 EZ page 2 is requested.
2	Issue LDP for the entire measured quantity when CCC-633 EZ page 2 is approved for CCC. Note: On CCC-633 EZ, item 20, producers must ENTER “All”.
3	Attach a copy of FSA-409 to CCC-633 EZ and CCC-677-1.

Producers who request to use **only** a specific quantity **must** request LDP’s for the specific quantity **not** to exceed the measured quantity.

C Less Than Entire Measured Quantity Used for LDP

Follow this table when measurement service is completed and the producer wants to use a **specific quantity** for LDP requests.

Step	Action
1	Use applicable LDP rate in effect on the date CCC-633 EZ page 2 is requested.
2	Issue LDP for the requested quantity not to exceed the original measured quantity when CCC-633 EZ page 2 is approved for CCC.
3	If the producer obtains multiple LDP’s or loans on the remaining quantity, not to exceed the measured quantity, inform the producer that spot checks may be performed by the County Office until all of the measured quantity has been issued for LDP or loan.
4	Cross-reference all LDP and loan requests with the initial LDP or loan made on the measured quantity. Verify that the total of all LDP’s and loans do not exceed measured quantity.

1009 Notification of Denied LDP Benefits

A Denied LDP Notification

When the producer is denied LDP benefits, County Offices shall:

- immediately notify the producer in writing
- use the applicable letter in Exhibit 11, subparagraph K or L about denial of loan or LDP benefits and include the following:
 - reason for denying LDP
 - appeal rights according to 1-APP.

Notes: Rewrite the letter to reflect the reason for LDP denial, as applicable.

See Exhibit 11, subparagraph A, “Miscellaneous Notification Letters for Loans and LDP’s”.

*--For crop:

- years 2014 through 2018, LDP’s requested and denied because of AGI and /or payment limitations, are eligible for nonrecourse loans if all other eligibility requirements are met
- year 2013, if LDP benefits are denied because of AGI, producers are afforded the--* opportunity to request a nonrecourse loan by the final availability date if all other eligibility requirements are met.

1010-1019 (Reserved)

Section 2 Commodities Harvested as Other Than Grain**1020 Eligibility for LDP****A Eligible Harvested as Other Than Grain Commodities**

Eligible commodities include barley, canola, chickpeas (small and large), corn, crambe, dry peas, flaxseed, grain sorghum, lentils, mustard seed, oats, rapeseed, rice, safflower, sesame seed, soybeans, sunflower seed, or wheat that meet the definitions included in Official U.S. Standards for Grain.

B Eligible Commodities

Eligible commodities harvested as other than grain are any loan commodities produced on a farm that are:

- harvested as:
 - cobbage
 - cracked, rolled, or crimped
 - earlage
 - ground corn
 - hay
 - silage
- mutilated, mixed, or ground with other parts of the plant that produced the commodity
- processed immediately upon harvest or later processed, as applicable
- roasted
- stored in an unmeasurable structure.

Note: Hay, silage, and roasted commodities are **not** eligible for MAL.

Commodities **must** be mechanically harvested. Grazing is **not** considered harvested and is **not** eligible for LDP. See Part 11 for graze-out payments.

1020 Eligibility for LDP (Continued)**C Requests**

LDP's must be requested on CCC-633 EZ page 2, **after** page 1 has been submitted.

D Maximum Eligible Quantities

To process LDP on commodities harvested as other than grain, determine the maximum eligible production according to paragraph 336.

LDP requests may be certified to establish the LDP rate and should be certified in tons or acres, as applicable.

When the bu. or cwt. is determined, according to paragraph 336, the LDP request can be approved and payment made.

--E LDP Rate--

Use the LDP rate applicable to the date of:

- request
- delivery
- harvest for commodities fed during harvest
- loss of beneficial interest, **only** if CCC-633EZ, Page 1, was filed timely.

*--For crop year 2013 only, the LDP rate for commodities produced on ACRE-elected farms is determined by reducing the loan rate by 30 percent **before** calculating the LDP rate. In a case of commodities harvested as other than grain, the loan rate is reduced for both ACRE and commodities harvested as other than grain adjustments, **before** calculating the LDP rate. LDP rates **cannot** be less than zero.

The following table illustrates how the LDP rate for a commodity harvested as other than grain is computed for ACRE-elected (for 2013 crop only) and non-ACRE-elected farms, when the CCC-determined value is \$1.20. For crop year 2014, see the Non-ACRE column.--*

Contaminated commodities are commodities that contain any of the following:

- mercurial compounds
- toxin producing molds, such as aflatoxin
- other substances poisonous to humans or animals
- any contamination in food commodities.

Illegally contaminated and nonmarketable commodities that test positive for a contaminant are **not** eligible for loan or LDP.

B Eligible Commodities

Contaminated commodities are eligible for nonrecourse loans, but only at 10 percent of the loan rate, according to Part 5, Section 2. Any contaminated commodity must be merchantable to be eligible. Any commodity eligible for nonrecourse loan is eligible for LDP under this section.

Contaminant testing is **not** required for LDP.

**Section 5 Commodities Exceeding Maximum STC and 2-LP Standards
for Moisture Commodities**

***--1050 HM Corn and Grain Sorghum and Excess Moisture Commodities for LDP**

A Availability

LDP's are available to eligible producers who harvest:

- HM corn or grain sorghum
- excess moisture commodities according to subparagraph 225 F.

LDP's are **not** available for commodities exceeding the maximum moisture level determined by STC.

Note: Moisture levels shall be reviewed by STC on an annual basis.

B Requesting HM Corn and Grain Sorghum or Excess Moisture Commodities for LDP's

LDP's may be requested on HM corn and grain sorghum or excess moisture commodities:

- in farm storage
- delivered immediately at harvest
- harvested as commodities and immediately fed during harvest.

Requests for farm-stored HM corn and grain sorghum or excess moisture commodities:--*

- must be physically in existence at the time of the LDP request
- that will be used for feed shall be supported by acceptable production evidence determined as maximum eligible quantity when selected for spot check.

This table illustrates when nonrecourse and recourse loan provisions are applicable because of moisture levels **only**.

IF the moisture level...	AND commodity...	AND is for...	THEN the commodity is eligible for...
exceeds the maximum STC-established moisture levels		all harvested loan commodities	recourse loan, but ineligible for LDP.
exceeds the 2-LP standard	does not exceed the maximum STC-established moisture levels	corn or grain sorghum	recourse HM loan.
		all harvested loan commodities, including corn and grain sorghum	*--excess moisture--* nonrecourse loan and LDP.
is at or below the 2-LP standard		all harvested loan commodities	nonrecourse loan and LDP.

--1050 HM Corn and Grain Sorghum and Excess Moisture Commodities for LDP--
(Continued)

C Determining Quantity

The quantity shall be 100 percent of:

- certified quantity adjusted for moisture
- adjusted measured quantity, if stored in a structure that can be measured
- adjusted net quantity, if LDP is requested with production evidence that has not been adjusted for moisture
- quantity determined according to paragraph 336, for quantity stored in unmeasurable structures.

D Setting Moisture Levels

STC's shall set moisture levels according to paragraph 225.

--1050 HM Corn and Grain Sorghum and Excess Moisture Commodities for LDP--
(Continued)

E Moisture Adjustment

Moisture adjustments are required when the:

- LDP is:
 - certified and the producer certified to HM level
 - based on measured quantities
 - certified and the producer provides production evidence showing moisture levels and the net quantity have not been adjusted for moisture
- moisture level is:
 - greater than the maximum eligible level for the commodity
 - equal to or less than the moisture set by STC, but higher than the standard moisture levels according to 2-LP Grains and Oilseeds.

F Adjusting Quantity for Moisture

The quantity determined by:

- certification shall be adjusted for moisture:
 - by using the average factor when moisture percent is not available according to subparagraph G
 - to the maximum eligible level for the commodity when moisture percent is available according to Exhibit 12
- measurement shall be adjusted for moisture:
 - determined at time of measurement
 - according to Exhibit 12
 - to the maximum eligible level for the commodity
- production evidence shall be adjusted for moisture if:
 - moisture levels are indicated
 - the net quantity has not been adjusted, as applicable.

--1050 HM Corn and Grain Sorghum and Excess Moisture Commodities for LDP--
(Continued)

G Using Average Factor When Moisture Percent Is Not Available

The certified quantity must be adjusted for moisture using an average factor, applicable to the *--HM corn and grain sorghum or excess moisture commodities, when a moisture percent is not available.

The average factor is determined using 27.0 percent as the average moisture for the HM corn and grain sorghum or excess moisture commodity.--*

Example: The average factor for corn is determined by subtracting the corn moisture of 15.5 percent from 27.0 percent and multiplying the difference times 1.3 percent. This calculates to an average factor for corn of 15.0 percent.

Calculate the shrink reduction to determine the adjusted LDP quantity as follows:

Quantity certified for LDP is 9,586 bu. of corn.

- Multiply 15.0 percent times 9,586 bu. to equal 1,438 bu.
- Subtract 1,438 from 9,586 to equal 8,148 bu.
- The quantity eligible for loan or LDP is 8,148 bu.

H Production Evidence

Producers are required to submit production evidence only if LDP's are selected for spot check.

Adjustment to moisture should be completed **only** when net quantities have not been adjusted for moisture or production evidence is a measurement.

See Part 3, Section 3 for additional information for production evidence.

1051-1099 (Reserved)

Part 11 Graze-Out Payments**1100 General Provisions****A Definition of Graze-Out Payments**

[7 CFR 1421.300] Graze-out payments are payments made to eligible producers who although eligible to obtain a loan:

- elect to use acreage planted with barley, oats, triticale, or wheat for livestock grazing
- agree to forgo any other harvesting of the commodity on this acreage during the applicable crop year.

B Definition of Triticale

Triticale is grain that consists of 50 percent or more of whole triticale (X Triticosecale Wittmack) and **not** more than 10 percent of other grains for which standards have been established under the United States Grain Standard Act.

C Prohibiting Crop Insurance Indemnity or NAP

Producers who elect to graze barley, oats, triticale, or wheat will **not** be eligible for an indemnity for the same acres under the Federal Crop Insurance Act or NAP.

1101 General Information**A Eligibility Requirements**

Graze-out payments are subject to the same basic eligibility requirements as commodity loans and LDP's including, but **not** limited to the following:

- AGI provisions
- beneficial interest
- conservation compliance
- death, incompetency, disappearance, or dissolution of a producer
- foreign person determinations
- misaction or misinformation
- offsets
- *-- payment limitations for crop year 2014, together with market loan gains, PLC and ARC, see subparagraph 34 A for additional information.--*

B Application Period

The application period for graze-out:

- begins on the first day of mechanical harvest as determined by COC
- ends on March 31 of the calendar year following the year the crop is normally harvested.

Producers may file an application for graze-out anytime during this application period.

Reminder: Applications may **not** be cancelled or withdrawn once requested.

COC shall determine and document in COC minutes, the beginning harvest date in the county for barley, oats, triticale, or wheat. This will be the earlier of the normal harvest date for grain or the normal harvest date when harvested as other than grain.

1102 Specific Graze-Out Eligibility Requirements**A Eligible Producer**

An eligible producer for graze-out purposes must meet the producer eligibility requirements according to paragraph 200 and all of the following:

- requests graze-out payments on CCC-633 GRAZING before March 31 of the calendar year following the year the crop is normally harvested
- agrees to forgo any other harvesting of the commodity on the acreage
- retains beneficial interest through the date the crop is grazed-out.

B Eligible Acres

Eligible acreage for graze-out purposes is any acreage of barley, oats, triticale, or wheat that is **not** harvested by any means other than grazing. The acreage **must** be classified as “cropland” in FSA farm records.

The eligible acreage **must** be reported on FSA-578 and the intended use must be for “grazing”.

The requested crop acreage is **not** eligible for:

- any other MAL’s or LDP’s
- crop insurance indemnity
- SURE, NAP, or supplemental revenue assistance payments.

Notes: Acreage intended for grazing is **ineligible** for SURE.

Producers who elect to graze barley, oats, triticale, or wheat will **not** be eligible for an indemnity for the same acres under the Federal Crop Insurance Act or NAP.

Follow 2-CP for approval of double-cropping acreage, as applicable.

1102 Specific Graze-Out Eligibility Requirements (Continued)**C Grazing Leases and Eligibility**

Producers who lease cropland to a second party for grazing on the acreage or on a per head per month basis are:

- **not** considered to have lost beneficial interest
- eligible for graze-out payments on the eligible commodity if all other eligibility requirements are met.

Producers are **not** eligible for graze-out payments regardless of when beneficial interest is lost if **any** of the following occur:

- grazing occurred on nurse crops that would **not** have met the definition of the crop if harvested as grain
- beneficial interest is lost and later regained
- the cropland is subleased to a third party, by lessee, for grazing on a flat per acre rate
- no grazing occurred
- mechanical harvest occurred.

Owners allowing subleases on the cropland are **not** eligible for graze-out payments.

1103 Filing CCC-633 GRAZING's**A Requesting Graze-Out Payments**

Producers must request graze-out payments by FSN on CCC-633 GRAZING.

Any producer or producers who share in the acreage grazing can request benefits on CCC-633 GRAZING.

If multiple producers share in the acreage:

- all signatures must be obtained on CCC-633 GRAZING **before** the request is considered complete
- the shares must equal 100 percent.

See paragraph 1105 for instructions on completing CCC-633 GRAZING.

Eligible producers can submit CCC-633 GRAZING to the FSA administrative County Office for the farm using any of the following methods:

- in person
- by mail
- by telephone
- by FAX
- through eForms.

--Graze-Out payments are controlled by eFunds. Funding **must** be requested through the State Office **and** allocated to the county **before** CCC-633 GRAZING can be processed. See subparagraph 1104 C.--

1103 Filing CCC-633 GRAZING's (Continued)**A Requesting Graze-Out Payments (Continued)**

All CCC-633 GRAZING's, including CCC-633 GRAZING applications requested by mail, telephone, FAX, or downloaded from the Internet, **must** be completed correctly, signed, and returned to the FSA administrative County Office on or before March 31 of the calendar year following the year the crop is normally harvested.

Eligible producers **must** request CCC-633 GRAZING:

- after the date COC determines barley, oats, triticale, or wheat is normally mechanically harvested for the crop year, according to subparagraph 1101 B
- no later than March 31 of the calendar year following the year the crop is normally harvested.

B Producer Certification

Eligible producers must file CCC-633 GRAZING for acres grazed or to be grazed. In addition, acreage and intended use **must** be certified on FSA-578 as "grazing".

If the intended use was reported as grain, but was actually grazed, County Offices shall note the actual use on the hard copy FSA-578 in the normal manner.

1104 Payment Rate and Calculations**A Graze-Out Payment Rate**

The graze-out payment rate is determined by the amount the applicable commodity loan rate exceeds the CCC-determined value of the commodity for the county where the farm is located.

* * *

*--The effective payment rates, the same as the LDP rate, are posted by State and County Offices at www.fsa.usda.gov/FSA/displayLDPRates?area=home&subject=prsu&topic=ldp-ldp. After the "State", "County", and "Crop Year" is selected, CLICK "**Submit**". The rates will be displayed in the column titled, "Effective LDP Rate".--*

Note: The graze-out payment rate is **the rate in effect on the day a completed CCC-633 GRAZING is received** in the FSA administrative County Office.

CCC-633 GRAZING is complete when all applicable:

- entries have been completed by the producer according to subparagraph 1105 A
- all applicable producer signatures have been obtained.

Note: For triticale, the payment rate is calculated based on the predominant class of wheat in that county.

*--The following table illustrates how the graze-out payment is computed.

Determining Graze-Out Payment Rate		
Line	Description	Rate
1	Loan Rate (County Rate for Durum Wheat)	\$6.04
2	CCC-Determined Value of the Commodity	\$3.07
3	Graze-Out Rate (Line 3 – Line 4)	\$2.97

--*

1104 Payment Rate and Calculations (Continued)**B Applicable Yield**

For graze-out, the yields shall be determined as follows:

- the payment yield shall be the yield in effect for calculating the direct payment yield under DCP according to 7 CFR Part 1412
- in the event the previous option is not available, the applicant may submit actual production harvested as grain on the same farm or another farm of the applicant in the same area
- if neither of the previous 2 options is available, COC may establish a yield based on their judgment and knowledge of practices and growing conditions in the county with documentation supporting the COC established yield, which **must** be included in the COC minutes.

Note: The option of using 3 similar farms is **no** longer allowed.

For triticale, the payment yield shall be based on the predominant class of wheat according to the options in this subparagraph.

C Payment

Calculate the graze-out payment by multiplying the actual grazed acreage requested for grazing times the applicable yield times the payment rate.

***--Example:** Using the graze-out rate from the table in subparagraph A, 40 acres grazed x 50 bu/acre x \$1.16 graze-out rate = \$2,320 graze-out payment.--*

After the payment is calculated and reviewed by a second party, State Offices shall send an e-mail to DeAnn Allen, PSD, at **deann.allen@wdc.usda.gov**, identifying the county and amount of funding needed to process CCC-633 GRAZING.

CCC-633 GRAZING can be processed through the web-based eLDP system only **after** eFunds have been allocated to the county. The National Office program manager will allocate the eFunds.

Note: Producers who sell feeder lambs to a feeder lamb buyer are ineligible for LDP on the unshorn pelt. However, the feeder lamb buyer is eligible if the feeder lamb buyer is an eligible producer according to subparagraph 1505 B.

Producers are ineligible for LDP if unshorn lambs are **not** either of the following:

- sold for immediate slaughter
- slaughtered immediately for personal use.

1507 Commodity Eligibility**A Commodities Eligible for Loan and LDP**

Note: This does not include scoured or carded commodities.

B Destroyed Commodities

Mohair and wool are ineligible for a nonrecourse MAL or LDP if the commodity is:

Note: LDP must be disbursed and sufficient time allotted for the spot-check process, according to paragraph 1551, before a commodity can be destroyed.

C Ineligible Unshorn Pelts

Unshorn lambs killed by predators are ineligible for an unshorn pelt LDP.

1509 Graded Wool**A Eligible Graded Wool**

To obtain a loan or LDP at the graded rate, the wool must be core tested by a CCC-approved testing facility to objectively measure the following through laboratory analysis:

- fiber diameter (micron)
- yield.

To receive a graded wool MAL or LDP, the producer must provide a copy of the core test report or core test certificate from the CCC-approved testing facility containing the results of the laboratory analysis to the FSA County Office before benefits will be disbursed. See Exhibit 40 for examples of core test reports.

Note: The core test report results shall **not** be averaged for purposes of determining a micron and yield for ungraded quantities commingled with graded quantities.

B CCC-Approved Testing Facilities

Core test reports or core test certificates will be accepted from the following CCC-approved testing facilities.

- Yocom-McColl Testing Laboratory
540 West Elk Place
Denver CO 80216-1823
303-294-0582
- New Zealand Wool Testing Authority Ltd.
Cnr Bridge Street and Lever Street
P.O. Box 12065
--Ahuriri, Napier, New Zealand 4144--
06-835-1086.

1509 Graded Wool (Continued)

C Approving CCC Testing Facilities

Testing laboratories or facilities who want to be considered for CCC approval must:

- objectively measure through laboratory analysis the fiber diameter and yield of wool fibers
- use IWTO testing methods and procedures
- be an accredited IWTO licensed laboratory
- submit CCC-631 to the National Office according to paragraph 1510.

D Core Sampling

Sampling for the determination of micron and yield requires a core sample to be obtained from each bale in the lot. Core samples must represent the entire wool lot for the integrity of testing and the confidence of using objective measurement in the wool industry. Wool core sampling must be done according to the requirements provided by the CCC-approved testing facility.

Many testing facilities employ core testing agents or sampling officers that core sample lots of wool stored on the farm or at a stored location according to IWTO requirements on behalf of the CCC-approved testing facility. Producers must check with the CCC-approved testing facility about the availability of this service.

1509 Graded Wool (Continued)**E Individual Animal Reports**

Individual animal test reports will not be accepted as an acceptable core test report to obtain the graded loan or LDP rate.

F Yield Conversion to Eligible Graded Wool Quantity

Graded wool is weighed on a greasy basis and must be converted to a clean basis to determine the quantity eligible for loan or LDP. The net quantity of wool must be converted using the Schlumberger Yield obtained from the core test report to determine the eligible loan or LDP quantity for graded wool.

To process a graded wool loan or LDP, the Schlumberger Yield must be entered into APSS according to 12-PS.

G Graded Quantities

Graded quantities for multiple core test reports may be submitted on 1 loan or LDP request form. However, the graded quantities must be entered in APSS as separate loans or LDP's per core test report according to the applicable micron and yield for the graded quantity.

Use the "Additional Information" section on the applicable LDP request form to record varying LDP rates and CCC-determined values.

H Micron

The micron is identified as the:

- average fiber diameter on the core test report from the Yocum-McColl Testing Laboratory
- (airflow) mean fiber diameter on the core test report from the New Zealand Wool Testing Authority.

1515 Basic Provisions (Continued)

C Announcing Posted Prices

--Prices for wool and mohair, if applicable, will be announced each Tuesday at --
3:00 p.m., e.t. until further notice. The posted prices will become effective Wednesday at
12:01 a.m. e.t.

* * *

Note: In the event the posted prices are not announced as scheduled, the last posted prices announced will remain in effect until the next rate changes are announced. Therefore, a producer will receive the rate in effect on the day of the request.

D Availability

Loans and LDP's are available to eligible producers in any area in the U.S. and Puerto Rico where the applicable commodity is produced.

E Requesting Loans and LDP's

Requests for loans and LDP's shall be made on or before the final availability date for requesting loans and LDP's.

F Final Disbursement Date

The disbursement date shall not be later than 30 calendar days after the final loan availability date. When the final loan availability date falls on a nonworkday, the final date shall be extended to the next workday.

State Offices may grant extensions in 15-day increments, as applicable.

G Crop Year

The crop year applicable to mohair, unshorn pelts, and wool is the calendar year beginning January 1 and ending December 31.

1516 Acreage Reports**A Producers Associated With a Farm**

To be eligible for a nonrecourse MAL or LDP producers who are associated with a farm that has cropland are required to complete and submit an acreage report of all those cropland acres on FSA-578 on applicable farms where the eligible commodity is produced according to 2-CP.

B Producers Not Associated With a Farm

Eligible producers who are not associated with a farm and do not have cropland are **not** required to complete an acreage report on FSA-578.

C Disbursing Benefits

Acreage report deadlines for different commodities vary throughout the crop year. Certain commodities are produced all year long and planting intentions may not be known for the cropland at the time of the loan or LDP request. Therefore, producers are not required to file an acreage report before a loan or LDP is approved and disbursed for the following:

- mohair
- unshorn pelts
- wool.

Producers are required to file an accurate acreage report for all their cropland acres with the appropriate County Office by the deadline dates applicable to the planted crop. Producers who do not accurately certify acreage according to 2-CP will be required to repay any market loan gain realized for mohair, unshorn pelts, or wool or refund any LDP received.

Note: County Offices must perform end-of-year file reviews on each producer to ensure that producers with cropland acres have filed acreage reports as required. For multi-county producers, the administrative county shall contact all other counties to ensure all applicable cropland has been reported.

***--1517 AGI and Payment Limitation**

A AGI Provisions

A person or legal entity shall **not** be eligible to receive a market loan gain or LDP benefits during the **2014 through 2018** crop years if the average AGI exceeds \$900,000.

See paragraph 34 for additional AGI provisions.

B Payment Limitation Provisions

Crop year 2014 through 2018 market loan gains, LDP's, combined with PLC and ARC are subject to a payment limit. See subparagraph 34 A for additional information.

There was **not** a payment limitation for market loan gains and LDP's for the 2008 through 2013 crop years.--*

1518 Beneficial Interest

A Applicability

General beneficial interest provisions provided in paragraph 227 applies to the following:

- mohair
- unshorn pelts
- wool.

1518 Beneficial Interest (Continued)**B Retaining Beneficial Interest**

For a producer to retain eligibility to obtain a loan or LDP, any contract signed by a producer must conform to all provisions for beneficial interest according to paragraph 227.

For mohair and wool, beneficial interest must be retained by a producer from shearing continuously through:

- for LDP, the date LDP is requested
- for loan, the earlier of the following date:
 - the loan is repaid
 - CCC takes title to the commodity.

See subparagraph 1542 D for unshorn pelts if beneficial interest will be maintained.

C Wool Pool Delivery

Beneficial interest in a commodity delivered to a wool pool, broker, or intermediary is lost upon the earlier of the following:

- delivery to the wool pool
- delivery to an agent of the wool pool, broker, or intermediary.

D Loss Versus Loss of Beneficial Interest

Loss of a marketing loan commodity because of fire, theft, or natural causes, such as flood or storm events, is **not** loss of beneficial interest.

Beneficial interest relates to legal ownership and control of a commodity that exists. Loss of beneficial interest may occur when the commodity is sold or control is lost, but is **not** defined by a physical loss because of fire, theft, natural disaster, or other such occurrences.

Accordingly, a commodity for which CCC-633 EZ page 1 was filed, but that subsequently burned, would **not** be eligible if an LDP is requested because the commodity was lost. The date of the fire would **not** be construed to be the date beneficial interest was lost.

1519-1524 (Reserved)

Section 3 Basic Loanmaking**1525 Loan Provisions****A Availability of Loans**

Eligible producers may obtain loans by placing the eligible commodity in approved:

- farm storage, according to paragraph 1530, and obtaining a loan on the eligible quantity
- warehouse storage, according to paragraph 1531, and obtaining a loan on 100 percent of the net quantity shown on the warehouse receipt.

Eligible producers may obtain LDP's instead of a loan. See Section 4 for mohair and wool LDP provisions.

B Obtaining Loans

Eligible producers may obtain a loan only from either of the following:

- the County Office that keeps the farm records for the farm on which the mohair or wool was produced (the administrative county)
- an approved CMA according to the following:
 - subparagraph 500 C
 - 1-CMA, Exhibit 4.

Multi-county producers shall request loans according to subparagraph 501 A.

* * *

1525 Loan Provisions (Continued)**C Joint Loans and LDP's**

Loans and LDP's must be disbursed jointly if the mohair or wool is either of the following:

- jointly owned
- stored/commingled in the same bag or lot.

Producers with commingled production must all agree to take either the loan or LDP.

D Base Loan Rates

E Premiums and Discounts

Loan rates will be adjusted for applicable premiums and discounts, according to the crop year specific schedule provided in Exhibits * * * 62 and 70, at either of the following:

- settlement for farm-stored loans
- forfeiture for warehouse-stored loans.

F Commodity Ineligible for Loan

Nongraded wool in the form of unshorn pelts is **not** eligible for a nonrecourse MAL.

1526 Requesting Loans**A When to Request Loans**

Requests for loans:

The LDP rate is determined by the amount the ungraded wool loan rate exceeds the CCC-determined value where:

- the unshorn pelts are stored, for LDP's in which producer maintains beneficial interest
- beneficial interest is lost in the requested commodity.

See Part 7, Section 6 for determining the CCC-determined value.

B Calculating LDP's for Unshorn Pelts

LDP is calculated by multiplying the LDP rate times the LDP quantity of unshorn pelts requested.

See paragraph 1537 to determine the applicable dates of effective LDP rates.

C Standard Weight

LDP's for unshorn pelts will be based on a standard weight of 6.865 pounds per pelt.

D Unshorn Pelt Computation

LDP for unshorn lamb pelts will be calculated by multiplying the effective LDP rate times the standard weight for an unshorn pelt of 6.865 pounds. The result of that computation is then multiplied by the quantity of unshorn pelts.

Example: \$0.29	(effective LDP rate)
<u>x 6.865</u>	(standard weight)
\$1.99	(payment per pelt)

Payment per unshorn pelt	\$ 1.99
Quantity of unshorn pelts	<u>x 10</u>
Payment	\$19.90

E Announcing Posted Prices

The regional posted prices for nongraded (greasy) wool that are used to calculate the CCC-determined value to determine the LDP rate for unshorn pelts will be announced according to subparagraph 1515 C.

Beginning with 2010 crops, graded and ungraded wool and mohair will be announced as national rates. Regional rates will no longer apply.

1542 Additional Beneficial Interest Provisions for Unshorn Pelts**A Direct Sell to Lamb Slaughter Companies**

Eligible producers who sell unshorn lambs directly to a slaughter lamb company for immediate slaughter or have the unshorn lambs processed for meat, will lose beneficial interest the earlier of the following:

- delivery to the slaughter lamb company
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.

B Lamb Auction Sells

Eligible producers, who sell unshorn lambs through an auction or sell to an order buyer representing a slaughter lamb company, will lose beneficial interest the earlier of the following:

- invoicing of the unshorn lambs
- delivering the unshorn lambs to the order buyer
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.

C Butcher Sells

Eligible producers, who sell unshorn lambs directly to a butcher for immediate slaughter, will lose beneficial interest the earlier of the following:

- invoicing of the unshorn lambs
- delivering the unshorn lambs to the butcher
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.

1542 Additional Beneficial Interest Provisions for Unshorn Pelts (Continued)**D Retained Unshorn Pelts**

Producers who retain beneficial interest in an unshorn pelt produced from a slaughtered lamb may request LDP according to paragraph 1001, based on the date of request, if the unshorn pelt retained is:

- preserved
- maintained
- stored for future marketing or processing.

Note: See paragraph 1551 for spot check provisions.

E Unshorn Lambs Slaughtered for Personal Use

Eligible producers who slaughter unshorn lambs for personal use will lose beneficial interest on the date the unshorn lamb is slaughtered. Producers must have a completed CCC-633 EZ page 1, on file in the County Office for the applicable crop year before the unshorn lamb is slaughtered for personal use.

COC must determine reasonableness based on any of the following:

- herd certification on CCC-633 EZ page 4, Part O, item 76
- production evidence
- feeding records/receipts
- normal business practices of the producer
- general COC knowledge.

If unshorn lambs slaughtered for personal use are determined to be with reason, LDP rate is based on the date the producer certifies that the unshorn lambs were slaughtered.

1543-1549 (Reserved)

Section 5 Compliance Provisions**1550 Spot-Checking Farm-Stored Loans****A Spot Check Policy for Farm-Stored Loans**

Farm-stored loans are subject to spot check:

- during and after the loan availability period
- for up to 9 months from date of disbursement.

County Offices shall make onsite spot checks of outstanding farm-stored loans, if the producer is either of the following:

- selected through the national selection process
- added to the list of producers selected during the annual spot check reviews.

B On-Farm Spot Check Process for Farm-Stored Loans

Producers selected by the national selection process, and when the commodity is stored in approved farm storage, shall be visually inspected by a County Office commodity inspector to:

- verify the commodity is in existence and in storable condition
- verify that the storage structure will safely store and protect the commodity from natural elements
- verify the commodity is stored in approved bags according to subparagraph 1528 A
- verify the commodity is properly labeled according to subparagraph 1528 B
- verify that CCC-683 is affixed to bags as required by subparagraph 1527 D
- confirm that loan collateral is properly identified
- confirm that CCC's interest is adequately protected
- verify the quantity for reasonableness based on a maximum eligible quantity determination according to paragraph 1559.

1550 Spot-Checking Farm-Stored Loans (Continued)**B On-Farm Spot Check Process for Farm-Stored Loans (Continued)**

County Office commodity inspectors and COC may use their own discretion to determine a reasonable quantity based on various known conditions. When visual inspection indicates a significant quantity shortage or if there is reason to believe there is a quantity shortage, the County Office and COC may require the producer to provide acceptable production evidence by the earlier of the following:

- 15 calendar days after the commodity has been sold
- within 30 calendar days after notification by the County Office.

If the mohair or wool has been sold, request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of loan repayments when market gain was earned.

If production evidence has not been submitted by the due date, the producer must do either of the following:

- at the expense of the producer, have the loan collateral weighed by a CCC-approved third party that provides acceptable documentation of the net quantity of the loan collateral in pounds
- refund the market gain.

If the loan is not repaid, review the loan for violation according to Part 4.

Note: If the producer refuses to permit entry:

- contact the State Office for guidance
- see 2-CP, paragraph 323.

C Spot Check Process for Loan Collateral Stored With a Commissioned Agent

In addition to subparagraph B, if the loan collateral is stored in the facility of a commissioned agent, arrange for the producer or a representative to be present at the storage facility during the spot check. The CCC representative may spot check the mohair or wool at any reasonable time.

D Recording Spot Check Results

The spot check results shall be recorded in the National Compliance Review Database at www.agcounts.usda.gov.

1550 Spot-Checking Farm-Stored Loans (Continued)**E Improperly Stored Loan Collateral**

If the mohair or wool is not properly labeled or stored in approved bags when a spot check is performed, give producers an opportunity to properly label the loan collateral and/or transfer the commodity into approved bags before continuing with the spot check.

Notify the producer that the loan collateral must be transferred into approved bags and properly labeled within 15 calendar days from notification and follow this table.

IF the producer...	THEN...
does not transfer the loan collateral into approved bags within 15 calendar days from notification	call the loan according to Part 4.
does not properly label the loan collateral within 15 calendar days from notification	
properly labels and/or transfers the loan collateral into approved bags within 15 calendar days from notification	continue with spot check to verify all other eligibility.

Reject severely torn or damaged bags of the mohair or wool that may affect the storability and quality of the commodity.

Advise the producer that accepting mohair or wool for loan does not alleviate the responsibility of delivering acceptable mohair or wool in approved and properly labeled bags if the mohair or wool under loan is delivered to CCC.

F Loans Delivered to CCC

County Offices shall spot check mohair or wool loans delivered to CCC according to paragraph 303.

1551 Spot-Checking Certified LDP's**A Spot Check Policy for Certified LDP's**

LDP's are subject to spot check for up to 9 months from date of disbursement.

B On-Farm Spot Check Process for Certified LDP's

If a producer is selected through the national selection process or added by the County Office as an additional spot check, County Offices shall spot check:

- **all** quantities certified for LDP
- LDP's when certain situations require spot checks, according to subparagraph 302 D.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

The County Office commodity inspector must verify the:

- commodity is in existence, if the commodity has not been sold
- herd characteristics, (that is, total number in herd, breed, etc.)

When visual inspection indicates a significant quantity shortage or if there is reason to believe there is a quantity shortage, the County Office and COC may require the producer to provide acceptable production evidence by the earlier of the following:

- 15 calendar days after the commodity has been sold
- 30 calendar days after notification by the County Office.

If the mohair or wool has **not** been sold and the County Office commodity inspector determines the quantity to:

- be reasonable based on the herd characteristics of quantity certified or LDP requested, then that will serve as final production evidence and no further documentation will be required
- **not** be reasonable based on the herd characteristics with the quantity certified under the LDP request, then at the expense of the producer, have the certified quantity weighed by a CCC-approved third party that provides acceptable documentation of the certified quantity in pounds.

1551 Spot-Checking Certified LDP's (Continued)**B On-Farm Spot Check Process for Certified LDP's (Continued)**

If the mohair or wool has been sold, request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of certified LDP's.

Require the producer to submit evidence on commodities sold within 15 calendar days from *--the date of request. If the production evidence has not been submitted by the due date and it is determined that a shortage or violation occurred, County Offices shall continue to record the shortage or violation according to 12-PS and 15-PS.--*

Note: If the producer refuses to permit entry, contact the State Office for guidance.

C Spot Check Process for Certified LDP's Stored With a Commissioned Agent

If the production for a certified mohair or wool LDP is stored in the facility of a commissioned agent, require the producer to provide a scale ticket or weight certificate from the facility that verifies the quantity of the LDP request. This will serve as final production evidence and no further documentation will be required.

D Recording Spot Check Results

The spot check results shall be recorded in the National Compliance Review Database at www.agcounts.usda.gov.

1552 Spot Check Process

A Contacting Producers

When a producer has been selected by the national selection process or has been added as an additional spot check, County Offices shall:

- notify the contact producer by telephone or memorandum, as applicable
- inquire if the mohair or wool has:
 - been sold
 - is still at the farm-stored location.

B Initiating Loans and LDP's Selected for Spot Check

Determine how to proceed with the spot check according to the following.

IF the mohair or wool...	THEN...
is still on the farm and a spot check has not been performed	<p>complete a farm visit according to paragraph 1553. If the visual inspection reveals discrepancies in the certified quantity, request the producer to provide production evidence by the earlier of the following:</p> <ul style="list-style-type: none"> • 15 calendar days after the commodity has been sold • 30 calendar days after notification by the County Office. <p>If the visual inspection reveals no discrepancies in the certified quantity, no further production evidence is required.</p> <p>If production evidence has not been submitted by the due date the producer must refund the market gain or LDP amount.</p>

1552 Spot Check Process (Continued)

B Initiating Loans and LDP's Selected for Spot Check (Continued)

IF the mohair or wool...	THEN...
has been previously spot checked and the producer requests to use the spot checked quantity for production evidence	no farm visit is required except for outstanding loans, as applicable.
has been sold	<p>request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of:</p> <ul style="list-style-type: none"> • certified LDP's • loan repayments when market gain was earned. <p>Review the loan for a violation according to Part 4 if loan is not repaid.</p> <p>Determine maximum eligible quantity if necessary.</p>

Note: If unshorn lambs have been slaughtered for personal use in the case of unshorn pelts, request production evidence to the satisfaction of COC to verify the quantity of certified LDP's. Acceptable evidence includes, but is not limited to, feed records/receipts, normal business practices, and general COC knowledge.

Require the producer to submit evidence on mohair or wool sold within 15 calendar days
 --from date of request and indicate the use of unshorn pelts.--

1553 On-Farm Visits**A When to Complete On-Site Visits**

Complete on-site visits if the mohair or wool is still stored at the farm-storage location for:

- outstanding loans
- * * *
- certified LDP's.

Note: If the mohair or wool is stored at the facility of a commissioned agent, proceed according to subparagraph 1551 C, and no visit is necessary. Commissioned agents may also be contacted by telephone to verify quantities.

B Spot Check Process

At the storage site, commodity inspectors shall complete the spot check by visually inspecting the farm-stored quantities and performing maximum eligibility determinations for all loans and LDP's selected by the national selection process according to the following.

Note: Measurement service is not available.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

Step	Process	Action
1	Check CCC-683 for loans.	If applicable, replace CCC-683 if missing or incorrect loan data is shown. See Exhibit 16.
2	Inspect storage structure and determine commodity storability.	Annotate any structure, storability, or other noticeable problems on reverse side of applicable LDP request form.
3	Visually inspect all applicable structures that can be safely accessed, if not stored with a commissioned agent.	Complete the "Additional Information" section of applicable LDP request form with required information according to subparagraph 1551 B for LDP's and subparagraph 1550 D for loans.

C Reducing On-Farm Visits for LDP's

Excluding any references to providing measurement services to producers, County Offices
 --shall reduce on-farm visits for LDP's according to subparagraph 319 B.--

1554 Commodity Inspector Spot Check Review

A County Office Responsibility

See subparagraph 304 A for County Office responsibilities concerning spot check reviews.

B State Office Responsibility

State Office representatives shall annually spot check commodity inspectors' work in each County Office according to subparagraph 324 C.

1555 Completing Spot Check

A Reviewing Documentation

Once the site visit is complete or production evidence is submitted, County Offices shall:

- calculate the quantity provided on submitted documentation, as applicable
- review the documentation submitted to ensure that all production evidence requirements are met according to Section 3 and paragraph 1558.

B Other Applicable Provisions

See paragraph 317 for all other provisions applicable to completing spot checks.

1556 Loan Quantity Determination and Action Required**A Outstanding Loans and No Market Gain Was Earned**

When a spot check reveals the quantity verified for reasonableness based on a maximum eligible quantity is less than the certified outstanding farm-stored loan quantity, take applicable action according to the following.

IF the spot check reveals...	THEN COC shall...
no discrepancies in the certified quantity and no violation has occurred	not take any action.

B Loans Repaid and Market Gain Was Earned

When a spot check reveals the quantity supported by **production evidence** is less than the quantity on which market gain was earned, take applicable action according to the following.

IF the quantity verified is...	THEN...
greater than the market gain quantity	<p>a new loan or LDP may be requested for any overage provided the producer:</p> <ul style="list-style-type: none"> • still has beneficial interest in the mohair or wool • provides production evidence to the County Office to support the overage by the final loan availability date. <p>Additional market gain payments to the original loan disbursement are not available.</p>

B Acceptable Types of Evidence

Determine acceptable of evidence according to the following.

Types of Evidence	Requirement
<p>Acceptable evidence shall be any 1 of the following:</p> <ul style="list-style-type: none"> • copies of sales documents that include the name and address of the processor, buyer, or broker who is purchasing the mohair, unshorn lambs, or wool • weight or scale tickets from a commissioned agent or CCC-approved third party • delivery evidence • core test reports or certificates • settlement sheets • invoices or kill sheets from the lamb slaughter company for unshorn pelt LDP's. 	<p>The documentation must include enough information to provide County Offices with the following:</p> <ul style="list-style-type: none"> • an accurate record of eligible quantity of mohair, unshorn pelts, or wool • net quantity • date of sales transaction, if sold • proof of payment from buyer, if commodity was sold • price received for quantity marketed • commodity • producer's name • crop year may be certified or provided by the producer • immediate slaughter of unshorn lambs may be certified by the producer and is generally assumed when production evidence indicates sale to a lamb slaughter company or an order buyer representing a slaughter lamb company at an auction sale. <p>Note: In the case of unshorn pelts, the production evidence must indicate that the lambs were unshorn at the time *--of sale/purchase. In cases where the seller does not know if the lamb is being sold as a feeder lamb or as a slaughter lamb, the invoices should provide lamb weights that can be used to determine the lambs that are at an acceptable slaughter weight and lambs that are not and need to be further fed, based on COC knowledge. COC may establish the acceptable weight requirement.--*</p>

1558 Production Evidence (Continued)

B Acceptable Types of Evidence (Continued)

Types of Evidence	Requirement
<p>The following types of evidence must be used in combination to verify quantities if the above evidence is not available:</p> <ul style="list-style-type: none"> • farm management records kept through normal production practices • reasonable quantity determination based on maximum eligible quantity according to subparagraph 1559 • receipts for feed • veterinary records • IRS inventory records • farm credit balance sheets • private insurance documents. 	<p>Proof of payment can be settlement records or copy of the check.</p> <p>Note: Production evidence may be handwritten, but is not acceptable for any type of production evidence submitted by the producer for the producer's own production.</p> <p>COC must be satisfied with the documentation submitted. If questionable, COC may require certified documentation of actual net weight of the production pounds from a local CCC-approved scale, at the expense of the producer.</p> <p>Note: In cases where the production evidence does not indicate that the unshorn lambs are being sold as a feeder lambs or slaughter lambs, COC can establish the acceptable weight requirement based on COC knowledge for lambs that are acceptable slaughter weight and lambs that are not and need to be further fed.</p>

1558 Production Evidence (Continued)

C Unacceptable Production Evidence

See subparagraph 335 F for production evidence that is considered unacceptable documentation.

D Production Evidence Voluntarily Submitted

County Offices shall accept production evidence when producers voluntarily provide production evidence and were not selected for spot check.

If the quantity supported by production evidence is less than the market gain or LDP quantity, record and collect the shortage according to paragraph 1556 or 1557, as applicable.

Good faith determinations are necessary for any quantity that is **not** within tolerance.

E Other Verifications

County Offices shall ensure that the quantity recorded on the documentation is consistent with crop year production levels for the animal characteristics, such as, number of animals in the herd, breed, gender, and weight of the animal shorn in the producers herd.

Note: County Offices may require certified production weights from a local CCC-approved scale, if practical.

F References

See:

- paragraph 337 for dates for submitting production evidence
- paragraph 338 for failure to provide acceptable production evidence
- paragraph 339 for insufficient production evidence
- paragraph 340 for apportioning commingled production evidence
- subparagraph 1538 E for additional basic LDP disbursements.

1559 Maximum Eligible Quantity**A Determining Reasonableness**

County Offices shall verify all loan and LDP quantities for reasonableness before disbursement. Determining reasonableness shall be based on maximum eligible quantities provided in subparagraph G. The average grease fleece weights of pounds produced used to determine maximum eligible quantities are based on the following characteristics of the animals in the herd:

- quantity
- breed
- gender type
- mature body weight
- shearing date.

Benefits will **not** be disbursed on quantities **not** determined reasonable **unless** supporting evidence is provided to substantiate the quantity.

B STC and COC Responsibilities

STC's shall play an active role in providing guidance to COC's to ensure that responsible and equitable determinations are made. COC may use their own discretion to determine a reasonable quantity based on various known conditions that may have affected the commodities production levels during the crop year. STC's and COC's are in the best position to know what production levels or practices are reasonable for their area. Any loan or LDP quantities verified by the County Office according to subparagraph A, that are determined to be unreasonable or exceed the acceptable production ranges in subparagraph G, shall be referred to COC.

This responsibility is being entrusted to STC's and COC's to deliver the program in the most feasible, reasonable, and reliable manner possible. Therefore, COC has the authority to adjust the average production ranges of the applicable breeds provided in subparagraph G based on the following:

- personal knowledge of the producers operation
- mature animal body weights of the applicable breed in excess of the average.

Production levels exceeding the weight ranges in subparagraph G shall be documented accordingly in COC minutes. If the producer is not satisfied with the maximum quantity determination by COC, provide producer appeal rights to COC.

1559 Maximum Eligible Quantity (Continued)**C Reasonable Quantities**

Reasonableness for certified farm-stored loan or LDP quantities shall be determined by multiplying the total number of head in the producer's current herd or flock times the applicable average grease weight fleece pounds produced for each breed, as provided in subparagraph G that will determine:

- a production range applicable to the breeds certified
- maximum eligible quantity.

COC shall exercise judgment and rely on their knowledge of practices and applicable conditions when determining reasonableness for loan or LDP quantities exceeding the production ranges provided in subparagraph G.

D Example of Determining Reasonableness

Producer has 10 Dorset ewes that produce an average of 5 to 8 pounds of grease weight fleece pounds. The producer requests LDP on 60 pounds of wool. Multiplying 10 times 5 to 8 pounds of average production a maximum eligible quantity for this breed averages 50 to 80 pounds. The midpoint average pounds produced would be 50 to 65 pounds for ewes and 65 to 80 pounds for rams. The quantity of the producers LDP request is reasonable and a maximum eligible quantity has been determined by COC. The loan or LDP request may be approved if all other eligibility criteria have been met.

- *--Note:** Producer may need to be contacted or asked information, such as the number of head or sheep breeds, to determine whether the quantity is reasonable and to establish a customer profile in eLDP.--*

1559 Maximum Eligible Quantity (Continued)**E Determining the Maximum Eligible Quantity**

The maximum eligible quantity is determined by multiplying the total number of head in the producer's current herd or flock times the applicable average pounds for each breed according to subparagraph G, to determine a low to high range of average pounds produced by each applicable breed. Mature body weight and gender of the breed are also considered to determine the maximum eligible quantity. Determine the midpoint of average grease weight pounds. Ewes would have an average of the low to the midpoint, whereas, rams would range from the midpoint to the determined high. County Offices shall maintain a ledger of the maximum quantity available.

F Example of Calculating the Maximum Eligible Quantity

Producer has 100 Suffolk ewes that he maintains on average in his herd at an average mature ewe body weight of 250 pounds. According to the established average grease weight this particular breed produces an average of 4 to 8 pounds. The number of head times the average grease weight fleece pounds produced equals an average low of 400 pounds to a high of 800 pounds that can be produced in a year. The average range ewes can produce in that year will be 400 to 600 pounds and for rams the average range will be 600 to 800 pounds.

1559 Maximum Eligible Quantity (Continued)**G Breed Specific Production Averages for Mohair and Wool**

To establish maximum lbs. of production on farm-stored loans and LDP's, County Offices shall use:

- for angora goats, the U.S. average of approximately 6.3 lbs. of mohair per shearing at a mature body weight of 180 to 225 lbs. for bucks and 70 to 110 lbs. for a doe
- for sheep, either of the following:
 - the U.S. average of approximately 7.6 lbs. of fleece per shearing at mature body weight

Section 6 Repayments

1570 Principal Plus Interest Repayments

A General Repayment Provisions

See Part 7, Section 1 for general repayment provisions.

B CCC-Determined Value

The CCC-determined value for the day the repayment is received in the County Office that disbursed the loan shall be used in determining the repayment rate. Calculate the CCC-determined value according to subparagraph 785 C.

See paragraph 716 for locking-in-repayment rates on CCC-697.

1571-1574 (Reserved)

Section 7 Basic Loan Settlements**1575 Final Settlement Procedures****A Basic Provisions**

Because there are no approved CCC warehouses for mohair or wool, all nonrecourse MAL's not repaid by the loan maturity date must be disposed through local sales at the farm storage location within a 60-calendar-day period after maturity at **no** storage expense to CCC.

County Offices shall try to have local sales completed with the 60-calendar-day period.

B Premiums and Discounts

--See Exhibits 63 and 70 for the schedule of premiums and discounts applicable to mohair-- and wool applied in final settlement. The settlement value will be based on the following:

- for graded wool, according to applicable region:
 - micron range
 - offsorts
 - preparation (applicable to fleece wool only, not applicable to offsorts)
 - length (applicable to fleece wool only, not applicable to offsorts)
 - vegetable matter
 - damage/stain/mud/wet
 - non-merchantability
 - polypropylene contamination
- for ungraded wool, according to applicable region:
 - offsorts
 - length
 - polypropylene contamination
 - non-merchantability

1575 Final Settlement Procedures (Continued)**B Premiums and Discounts (Continued)**

- for mohair:
 - micron range
 - length
 - vegetable matter
 - kemp.

Note: Producers who elect to settle the mohair loan collateral to CCC in satisfaction of the loan amount due will be required, at the producer's expense, to obtain a core test report indicating the applicable micron and yield of the quantity offered for settlement.

C Mohair or Wool Inspection

Applicable premiums and discounts will be applied at loan settlement and based on the following:

- inspection of the delivered commodity by an AMS agent or other CCC-approved representative
- core test report from a CCC-approved testing facility for mohair and graded wool.

Note: Mohair delivered for settlement of an outstanding CCC loan will require a core test (Exhibit 40), at the expense of the producer, to determine quality factors.

1575 Final Settlement Procedures (Continued)

D Mohair Yield Adjustment

The mohair loan rate must be adjusted for yield **after** all mohair discounts have been applied. The mohair yield must be calculated using the Schlumberger yield obtained from the core test report of a CCC-approved testing facility to determine the final loan settlement rate.

To calculate the mohair yield adjustment, apply all premiums and discounts to the loan rate to determine the adjusted loan rate. Divide the adjusted loan rate by .75 and then multiply the resulting figure times the Schlumberger yield from the core test report, moving the decimal in the Schlumberger yield 2 places to the left, to determine the final loan settlement rate per pound of mohair forfeited to CCC.

E Mohair Yield Adjustment Example

The following is an example of a yield adjustment for mohair.

Producer A received a loan of \$4,200 for 1,000 pounds of mohair that he forfeits to CCC. The core test results from the forfeited mohair indicate that the mohair was average adult with a 35 micron, 3.5 length, 1.0 percent vegetable matter, 5.62 percent medulated fibers, 0.50 percent kemp fibers, and a Schlumberger yield of 73.6 percent.

From the \$4.20 loan rate initially disbursed to Producer A, deduct the following based on the mohair discounts in this paragraph, -\$1.52 for type of mohair and micron, -\$0.54 for length, -\$0.27 for vegetable matter, -\$0.27 for medulated fibers, -\$0.27 for kemp fibers to come up with an adjusted loan rate of \$1.33.

$$\$1.33 / .75 = \$1.77$$

$$\$1.77 \times .736 = \$1.31$$

\$1.31 per pound is the final settlement rate
x 1000 pounds of forfeited mohair
 \$1,310

\$4,200 original loan disbursement
- \$1,310 adjusted settlement value
 \$2,890

The producer owes CCC \$2,890 for the forfeited mohair.

1575 Final Settlement Procedures (Continued)**F Additional Expenses**

Any costs incurred by CCC to obtain quantity or quality grading factors to apply associated premiums and discounts for mohair and wool delivered to CCC shall be for the account of the producer and will be deducted from the loan settlement value, in addition to applicable deductions provided in subparagraph B. The producer is responsible for any loss in quantity or quality of the loan collateral.

Note: Producers are required, at their own expense, to have all mohair and wool loan quantities weighed and provide an acceptable weight receipt for mohair and wool loan quantities that will be settled with CCC through local sale.

AMS charges a fee of \$40.87 per hour for the required inspection of the mohair and wool loan collateral that will be settled by local sale.

G Settlement Value

Calculate the settlement value from the information on CCC-691, CCC-930, and the applicable crop year loan rate premiums and discounts in subparagraph B and

--Exhibits 63 and 70.--

Complete settlements according to 12-PS, Part 9, **after** receiving all of the following:

- CCC-691
- core test report for mohair and graded wool
- CCC-930 from AMS inspector (subparagraph L).

Settlement shall be made by CCC on the basis of the base loan rate:

- for the applicable region for wool only
- adjusted for applicable specific crop year premiums and discounts.

1575 Final Settlement Procedures (Continued)

If the producer repays the loan at a rate less than the sum of the loan principal plus charges and interest, the producer must provide to CCC evidence of production of the commodity which had been pledged as collateral for the loan. The producer shall pay such liquidated damage penalties plus the lesser of (1) the principal amount of the loan and charges plus interest, (2) CCC determined value on the date the violation occurred plus 15 percent of the applicable loan rate with respect to the quantity involved in the violation within 30 days of notification by CCC, or CCC will call the loan involved in the violation and require full payment at principal and charges plus interest. For honey, the producer shall pay the principal amount of the loan and charges plus interest.
 - (ii) For producers determined to have violated provisions of Section 6(e) or 7(a), and if CCC determines the producer acted in good faith, liquidated damages may be assessed by multiplying the quantity involved in the violation by 10 percent of the loan rate. The producer shall pay such liquidated damages plus the principal amount of the loan and charges plus interest with respect to the quantity involved in the violation, within 30 days of notification by CCC, or CCC will call the loan involved in the violation.
 - (iii) If CCC determines that the producer did not act in good faith with regard to the violation, or for cases other than the first or second offense, CCC will call the loan involved in the violation and may assess liquidated damages computed by multiplying the quantity involved in the violation by 10 percent of the loan rate. The producer shall pay such liquidated damages plus the principal amount of the loan and charges plus interest.
- (h) **Delinquent Federal Nontax Debt.** If it is discovered that a producer incorrectly certified to the DCIA question, the producer will be notified that the loan must be repaid at principal and interest immediately.

If a producer receives a loan and it is later discovered that the producer has a delinquent Federal nontax debt, the producer will be notified that the delinquent Federal nontax debt must be resolved before the final loan availability date for the applicable commodity. If the delinquent Federal nontax debt is not resolved before the final loan availability date, the producer must repay the loan at principal plus interest.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

In addition, CCC may assess liquidated damages, as specified in Section 6(g), and take other administrative actions, as determined by CCC, including denial of future farm-stored loans.

If the producer has received credit from CCC for storage, such amount must also be repaid. Ineligible commodities may not be delivered to CCC in satisfaction of the amount due, except as may be determined by CCC. If CCC allows the producer to deliver the commodity to CCC in satisfaction of the amount due, the value of the commodity shall be determined as specified by either Section 8(b) or 9(c).

8. FARM-STORED NONRECOURSE LOANS.

- (a) **General.** This section is applicable to a loan made with respect to collateral stored in CCC-approved storage under the control of the producer and not in a public warehouse.
- (b) **Settlement.** (i) If the producer elects to deliver the collateral to CCC in satisfaction of the amount due in accordance with Section 4, CCC will not accept delivery of any quantity of commodity in excess of 110 percent of the eligible outstanding loan quantity, at time of settlement, as determined by CCC. If a quantity in excess of the eligible quantity is included on the warehouse receipt tendered to CCC for such delivery, the producer shall provide for the correction of such warehouse receipt and other applicable documents. If the producer does not take action to correct such warehouse receipt, CCC shall provide for such corrected documents and any charges incurred by CCC shall be for the account of the producer. The collateral shall be delivered in bulk form except as determined by CCC. If the loan collateral is delivered to CCC in satisfaction of the amount due, in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the quality of the collateral for the quantity which is delivered to CCC. (ii) Settlement of corn is collateral will be made on a shelled corn basis. (iii) If the value of the collateral at settlement is less than the amount due because of any loss in quantity or quality of the collateral, the producer will pay to CCC the amount of such deficiency and charges, plus interest on such deficiency from the date of disbursement. (iv) If the value of the collateral at or subsequent to the time of settlement is greater than the amount due, CCC will retain such excess and will not pay such amount to any party. (v) If at any time prior to the maturity date of the loan the collateral can no longer be properly stored due to deterioration or for any other reason, the producer may authorize CCC to sell such collateral on behalf of the producer. (vi) Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4.

9. WAREHOUSE-STORED NONRECOURSE LOANS.

- (a) **General.** This section is applicable to a loan that has been made with respect to eligible commodities pledged as loan collateral which is stored in a warehouse approved by CCC.
- (b) **Rights of CCC.** At any time prior to the date CCC takes title to the collateral or the date the producer redeems such collateral, in order to protect its interest, CCC may move the collateral from one storage location to another storage location, take actions to protect or determine the quality of the collateral, or accelerate the maturity date of such loan. Any charges incurred by CCC as the result of such actions will be paid by the party redeeming such collateral.
- (c) **Settlement.** (i) If the producer elects to forfeit the collateral in satisfaction of the amount due in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the weight, grade, and other quality factors stated on the warehouse receipt or supporting documents. (ii) If the value of the collateral at or subsequent to the time of settlement is less than the amount due, the producer will pay to CCC the sum of the amount of such deficiency plus charges, and interest which has accrued on such deficiency from the date of disbursement. (iii) If the value of the collateral at settlement is greater than the amount due, CCC will retain such excess and will not pay such amount to any party. (iv) Title to the collateral will vest in CCC on the day following the loan maturity date. (v) CCC may elect to calculate such settlement values based on the net weight, good

condition, and classification as reflected on the warehouse receipt delivered to CCC, whether such receipt is the receipt issued by the original storing warehouse and presented for calculating the loan amount or a receipt issued by a subsequent warehouse due to the transfer of such commodity while pledged as collateral for a CCC loan.

- (d) Cotton Loan Redemptions and Settlement.** (i) The amount by which an upland cotton loan repayment value may be reduced for the value of storage charges during the period of the loan shall be zero for any period the cotton is stored outside and shall otherwise be calculated based on the maximum payment rate determined for the warehouse and announced by CCC. Cotton shall be considered by CCC to be stored outside if it is stored outside any time during the period of the loan exceeding the 15-day period that starts with the first day the warehouse is notified the cotton is pledged as collateral for a CCC loan. (ii) If the producer elects to forfeit either upland cotton or ELS cotton loan collateral to CCC in satisfaction of the amount due in accordance with Section 1(a), the producer shall pay to CCC: (at rates that are specified in the storage agreement between the warehouse where the cotton is stored and CCC) (1) all warehouse storage charges associated with the forfeited cotton that accrued before the cotton was pledged as collateral for the loan; (2) any accrued warehouse receiving charges associated with the forfeited cotton, including, if applicable, charges for new bale ties, unpaid warehouse compression, or other charges as may be levied by the storing warehouse; and (3) Warehouse storage charges for periods of outside storage or charges that exceed the maximum storage credit rates for the loan period paid by CCC to the warehouse.
- (e) Transfer of CCC Upland or ELS Cotton or Peanut Loan Collateral.** Collateral for an upland or ELS cotton or peanut marketing assistance loan may be transferred from a CCC-approved warehouse to another CCC-approved warehouse if CCC holds as security for the loan a warehouse receipt with respect to such commodity and the following terms and conditions of this subsection are met. (i) The producer may grant authorization to transfer loan collateral only to the agent designated and authorized by the producer to redeem all or a portion of the loan collateral. Any authorization to transfer loan collateral granted by the producer may be transferred by such agent of the producer to a subsequent agent as provided by the terms of applicable CCC forms. A producer is not obligated by CCC to grant authorization to transfer loan collateral as a condition of designating and authorizing any agent to redeem from loan all or a portion of the loan commodity. (ii) CCC will calculate any loan redemption for transferred cotton based on the credits, and charges with respect to the shipping warehouse under the transfer authorization. If a producer delivers transferred cotton to CCC in satisfaction of a loan obligation, CCC will settle such collateral delivery based on the charges effective at the receiving warehouse plus any unpaid charges at the shipping warehouse. (iii) As a condition for CCC to approve the transfer of cotton loan collateral, the requestor of a transfer, whether such requestor is the producer, or the producer's agent, must agree to pay all charges that may result from such transfer or intended transfer and be responsible for all losses of quantity or quality that result from the transfer. Despite any such agreement, the producer is responsible for any charges associated with the transfer of CCC cotton loan collateral including those that are not paid by any agent, or subsequent agent, the producer authorized to request such a transfer and who agreed to pay such charges. All such unpaid charges are for the account of the producer and shall not be charged to the outstanding balance of the loan obligation. CCC will not assume any liability for any charge associated with the transfer of any cotton loan collateral. (iv) The producer is responsible to CCC for all losses of quantity or quality associated with the transfer of CCC cotton loan collateral including unpaid losses on transfers made at the request of an agent of the producer even if the agent had agreed to pay such charges. CCC does not assume any loss in quantity or quality resulting from transfer of the loan collateral. (v) If at any time prior to the maturity date of the loan the collateral can no longer be properly stored due to deterioration or for any other reason, the producer may authorize CCC to sell such collateral on behalf of the producer. (vi) Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4.

10. RECOURSE LOANS.

- (a) General.** CCC may make recourse loans available to eligible producers of high moisture corn, high moisture grain sorghum, seed cotton, and other commodities, as determined by CCC. If such loans are available, the producer is liable for the entire amount due and may not deliver the collateral to CCC in satisfaction of the amount due, except as may be determined by CCC.
- (b) Availability of Nonrecourse Loans.** In limited circumstances, CCC may allow the producer to pledge as collateral for a nonrecourse loan the commodity which has been previously pledged as collateral for a recourse loan. The maturity date for such loans shall be as determined by CCC. If this option is made available by CCC, the producer must immediately repay the entire amount due under the recourse loan.
- (c) High Moisture.** Producers of corn and grain sorghum who normally harvest all or a portion of their crop in a high moisture condition may obtain recourse loans from CCC. High moisture means moisture content in excess of: (i) for corn, 15.5 percent; and (ii) for grain sorghum, 14.0 percent. Producers of such high moisture commodities who deliver such commodities to a feedlot, feed mill, or commercial or on farm high moisture storage that does not meet CCC's requirements for approved storage may acquire, in the same county, a like quantity of such commodity to replace the applicable quantity of high moisture feed grains to obtain a loan. Such producers must: (i) complete the applicable CCC forms; and (ii) provide to

CCC: (A) certified scale tickets which adequately describe the commodity, the weight of the commodity and the moisture content of the commodity; or (B) if such scale tickets are not available, measurements of the high moisture feed grain made while the commodity was in the field or in storage. Such loans will be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity not to exceed the quantity determined by multiplying: (i) the acreage of the feed grain in a high moisture condition harvested on the producer's farm; by (ii) the lower of the farm program yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grains were obtained.

- (d) **Seed Cotton.** The producer may, prior to the maturity date, with the written approval of CCC move seed cotton from the location where stored to a gin in order to gin such cotton and sell the cottonseed obtained therefrom. (i) If prior to the maturity date the amount due has not been paid, the producer will pay to CCC an amount equal to the proceeds obtained from the sale of the cottonseed and the lint cotton or, if a loan or loan deficiency payment is made by CCC with respect to the lint cotton, CCC will deduct the amount due from any such proceeds which are disbursed. (ii) If prior to the maturity date the amount due has not been paid or the collateral has not been ginned, the producer must, as instructed by CCC, move the collateral to a gin at the producer's expense. If the producer fails to move the collateral as instructed by CCC, CCC may enter the premises and remove, gin, and sell the collateral. Any proceeds from the sale of the collateral will be retained by CCC and applied to the amount due. (iii) If the amount due has not been paid and warehouse receipts have been issued with respect to lint cotton obtained from the collateral, the producer will deliver the receipts to CCC or allow CCC to obtain from any person such receipts. CCC may sell such cotton, if the amount due has not been paid by the maturity date.
- (e) **Discretionary Loans.** Commodities which are pledged as collateral for a non-recourse loan as provided in Sections 8 and 9 but which are determined to be ineligible to be pledged as collateral for such a loan due to the quality of the commodity or other factors affecting value of the commodity; or the storage of the commodity is unapproved storage, may, at CCC's sole discretion, be pledged as collateral for a recourse loan.
- (f) **Settlement.** (i) If CCC allows the producer to deliver to CCC in satisfaction of the amount due the quantity of the collateral which is described in the Note, the value of the collateral for purposes of settlement will be equal to the proceeds received from the sale or barter of the commodity. Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4. (ii) If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the amount of such deficiency plus charges, and applicable interest with respect to such deficiency from the date of disbursement. (iii) If the proceeds received from the sale or barter of the commodity are greater than the sum of the amount due plus any costs incurred by CCC in conducting the sale of the commodity, the amount of such excess will be paid to the producer or, if applicable, to any secured creditor of the producer.

11. ADMINISTRATIVE AND JUDICIAL REVIEW.

The producer may obtain an administrative hearing in accordance with 7 CFR Part 780 with respect to a dispute arising between CCC and the producer concerning the Note, and must exhaust such administrative remedy prior to initiating a judicial action in a court of competent jurisdiction.

12. DISCLOSURE TO PRODUCERS.

After the local sale has been completed:

- CCC will settle your loan based on the loan rate, adjusted for premiums and discounts from the official grade and the quantity determined from the weight. The sales proceeds will not be a factor in the loan settlement.
- any amounts you owe CCC will be transferred to Farm Service Agency's (FSA) receivable system, and payment will be requested. Also, any amounts not paid may be reported to other Federal Agencies for offset from any other program amounts that may be due you
- late payment interest, based on the rate established by the Department of Treasury, will be applied to your receivable on a daily basis from the date of this letter until the receivable is paid in full. FSA/CCC will waive late payment interest on your receivable that is paid in the next 30 calendar days.

If payment in full is not made within 90 calendar days from the date of this letter, an additional 3 percent interest shall be assessed on the unpaid balance of the receivable retroactively from the date of this letter.

Because this receivable may be collected by offset from your federal income tax refunds, you may wish to present, within 60 calendar days from the date of this letter, evidence to CCC that all or part of the debt is not past due or legally enforceable. To do so, please submit to this office a written explanation of your position that the debt or part of the debt is not past due or legally enforceable, and include documentation to support your position.

Under Federal law and regulations, the following additional actions may be taken by the United States Department of Agriculture and the Department of the Treasury to collect delinquent receivables:

- assessment of interest, administrative costs, and penalties
- administrative garnishment of wages
- offset of CCC and FSA payments
- referral of the receivable to Treasury for offset from any Federal payments after 180 days
- reporting of the receivable to credit reporting agencies
- reporting the receivable to private collection agencies by Treasury designated collection centers
- referral of the receivable to agency counsel or the Department of Justice for litigation
- reporting of the receivable to the Internal Revenue Service if any part of the debt is discharged.

If this debt is not resolved, you may be ineligible for additional financial assistance in the form of loans, loan guarantees, or mortgage insurance through USDA's Rural Development.

Dear **(Producer's Name)**:

This concerns **(year)** crop **(commodity)** loan which matured on **(date)**. You have not liquidated this loan by repayment or delivery of the collateral as advised in our letter to you dated **(date of 1st demand letter)**.

Because settlement has not been completed, Commodity Credit Corporation (CCC) will start foreclosure action. CCC may, to the extent permitted by law, enter your farm premises and remove the entire loan quantity. We will arrange for trucks to haul the grain. The settlement will be based on the loan rate adjusted for premiums and discounts, not the market value of the commodity. You will be charged for all expenses associated with the taking possession of and delivery of the commodity.

If you do not settle the loan promptly, you may also be jeopardizing your right to future farm-stored loans.

If you believe that you have been sent this notice in error, that the determination is in error, or that the amount due is incorrect, you may appeal this determination to the FSA County Office Committee by filing a written request no later than 30 calendar days after you receive this notice in accordance with the FSA appeal procedures found at 7 CFR Part 780. Dear **(Producer's Name)**:

This is to notify you that your **(crop year, commodity)** distress crop loan **(loan number)** will mature **(maturity date)**. The only option available **on or before the maturity date** is to repay the principal and charges, plus interest, by check, certified check or money order.

As of the date of this letter, the loan principal and charges, plus interest, due the Commodity Credit Corporation (CCC) is \$_____. This amount **must** be paid on or before the loan maturity date. Interest will continue to accrue until the amount due is repaid. Contact this office for the exact repayment amount, computed to the repayment date, if you plan to mail us your payment.

Distress loans that are repaid before the maturity date may be replighted for a recourse or non-recourse loan. If you wish to repledge this loan, the collateral must be moved into eligible farm or warehouse storage and the replighted loan **must** be completed before **(maturity date)**, which is the maturity date of your distress loan. The maturity date for the replighted loan shall be the last day of the 9th calendar month following approval of the original distress loan disbursement date. If the collateral for the distress loan will be replighted, you must repay the distress loan within the 90 calendar day window before the distress loan matures by one of the following methods:

- with check, certified check or money order at principal plus interest
- authorized offset for the amount needed to repay from the proceeds of the replighted loan.

Please contact this office to obtain permission before moving any of the outstanding loan collateral to an approved storage location and to avoid unauthorized removal.

The following apply if the principal and charges, plus interest, are not repaid by the distress loan maturity:

- loan principal and charges plus interest will be transferred to the Farm Service Agency (FSA) receivable system on the day after the distress loan matures
- foreclosure proceedings may begin and CCC will take action to sell the commodity securing this receivable through a local sale. You will be responsible for any expenses incurred by CCC for the local sale where the collateral will be sold to the highest bidder. Proceeds from the sale will be applied to the receivable and you will be responsible for any remaining amount due. If there are no successful bidders, you owe the entire amount of the receivable.
- amount due CCC will be recorded for offset from any FSA or CCC payments due you
- amount due CCC may be reported to other Federal Agencies for offset from any amount due you.

If the receivable is not resolved, this Agency reserves the right to use all additional collection actions available to recover the receivable including internal administrative offsets from any CCC or FSA payments due you. Additional actions that may be taken to recover the receivable include the assessment of late payment interest, administrative costs, and penalties; administrative wage garnishment; collecting the receivable by offset of any eligible federal and state payments including any income tax refunds; referring the receivable for litigation (if collection administratively is unsuccessful); and reporting the receivable to the Internal Revenue Service if the receivable, or any portion of the receivable, is discharged. Once your receivable is more than 180 days delinquent, we are required to refer the receivable to the Department of Treasury for collection.

Dear **(Producer's Name)**:

This concerns your distress **(year)** crop **(commodity)** loan which matured on **(maturity date)**. You have not liquidated this loan by repayment of the receivable established the day after maturity as advised in our letter to you dated **(date of Exhibit 10, subparagraph D)**.

Because this receivable has not been repaid, Commodity Credit Corporation (CCC) will now begin foreclosure proceedings to sell the commodity securing this receivable through a local sale. You will be responsible for any expenses incurred by CCC for the local sale where the collateral will be sold to the highest bidder. Proceeds from the sale will be applied to the receivable and you will be responsible for any remaining amount due. If there are no successful bidders, you owe the entire amount of the receivable.

If you do not repay this receivable promptly, you may be jeopardizing your right to future farm-stored commodity loans.

If you believe that you have been sent this notice in error, that the determination is in error, or that the amount due is incorrect, you may appeal this determination to the FSA County Office Committee by filing a written request no later than 30 calendar days after you receive this notice in accordance with the FSA appeal procedures found at 7 CFR Part 780. Example: 1,000 cwt. of safflower, 12.1% determined moisture:

*--12.1% - 10% (standard moisture level - safflower) = 2.1% excess moisture
 2.1% excess moisture = .9769 in the chart above **or--***
 (Look at "2" on left side of chart, then "0.1" at the top to arrive at ".9769")
 1,000 cwt. x .9769 = 976.90 cwt. after shrink.

Eligible Grain Sorghum Varieties

A Determining Eligible Grain Sorghum Varieties

Each year, grain sorghum varieties are reviewed and updated to determine eligibility and yield information for loans and LDP's.

Grain sorghum varieties are as follows:

- dual purpose, having a yield potential equal to 100 percent of hybrid varieties
- dual purpose, having a yield potential equal to 80 percent of hybrid varieties
- sterile varieties
- photo-period sensitive varieties
- ineligible varieties.

The following categories will be used to determine eligibility of grain sorghum (dual purpose varieties) for MAL's and LDP's.

- **Category I** - Non-Tannin Sorghum for grain or silage/hay **is eligible** regardless of parentage or grain yield.
- **Category II** - Tannin Sorghum for grain or silage/hay **is eligible** regardless of parentage or grain yield, but if harvested, grain **must** be identity-preserved and reported.
- **Category III** - Tannin Sorghum used for pasture **is not eligible** for LDP's or any programs.

B Assigning Yield Guidelines

COC's shall assign yield for grain sorghum (dual purpose variety), harvested as other than grain, to:

- be equivalent to the potential whole grain yield for that crop
- reflect disaster conditions, as applicable.

Producers **must** provide documentation, such as seed tickets and invoices, for grain sorghum (dual purpose varieties) harvested as other than grain to substantiate the variety planted and harvested.

Eligible Grain Sorghum Varieties (Continued)

C Methods for Assigning the Yield

COC's shall use the following methods to assign the yield if the variety of grain sorghum (dual purpose variety) is eligible for LDP.

IF the producer harvested...	THEN assign the yield based on...
some dual purpose acreage of the crop on the farm for grain	the acreage of dual purpose grain sorghum harvested as grain.
dual purpose acreage of the crop on the farm as other than grain	regular hybrid grain sorghum harvested on the farm adjusted according to paragraph D. Note: If no grain sorghum is harvested for grain on the farm, COC establishes a yield based upon COC judgment and knowledge of practices and growing conditions in the county; this must be documented in the COC minutes.

Notes: The yields assigned by COC shall **not** exceed the actual yield for farms in the area with similar management practices that harvested the crop and variety for grain.

Assigning yields based on 3 similar farms is no longer authorized.

D Dual Purpose Grain Sorghum Varieties With 100 Percent Yield Potential

The dual purpose grain sorghum varieties listed in the following table have yield potential equal to 100 percent of hybrid varieties. County Offices shall:

- make LDP eligibility determinations
- advise seed companies, who believe they have eligible varieties **not** listed in the following table, to contact the State Office and provide information about plant characteristics and forage and grain yield potentials.

Note: Assign a yield of 100 percent of the grain yield using the methods in subparagraph C.

F Sterile Grain Sorghum Varieties

Sterile varieties of grain sorghum are listed in the following table. The producer **must** provide documentation to COC that shows the crop was planted with a pollinator and that 90 percent or more of the plants could produce a grain that would be classified as grain sorghum using the Official United States Standards for Grain.

Assign a yield based on 80 percent of the yield determined by using the methods in subparagraph C. County Offices shall:

- make LDP eligibility determinations
- advise seed companies, who believe they have eligible varieties **not** listed in the following table, to contact the State Office and provide information about plant characteristics and forage and grain yield potentials
- notify the State Office of any varieties **not** listed in this table that may be sterile.

G Photo-Period Sensitive

Photo-period sensitive varieties of grain sorghum are listed in the following table. Contact the State Office for assistance with establishing maximum eligible quantity if the crop was planted south of a line from El Paso to Abilene to Dallas (Interstate 20), Texas. Assign a yield based on 80 percent of the yield determined by using the silage factor.

For any photo-period sensitive variety planted north of the line, assign a yield of zero. County Offices shall:

- make LDP eligibility determinations
- advise seed companies, who believe they have eligible varieties **not** listed in the following table, to contact the State Office and provide information about plant characteristics and forage and grain yield potentials
- notify the State Office of any varieties **not** listed in this table that may be photo-period sensitive.

Draw representative sample of commodity to determine test weight and, if applicable, moisture.
Use "Remarks" section for: <ul style="list-style-type: none"> • notation if loan is nonrecourse or recourse • additional structures and locations. 	When checking the commodity for measurement service or for spot check, provide storage structure dimensions, when applicable, including additions or deductions for peaks, false floors, etc., if any. Use the diagrams or sketch the shape of the commodity in the storage structure in the space provided in item 42.
Enter lien search date in item 39 and date of filing of financing statement in item 40.	
Approve and date for CCC in item 41.	Complete comments in item 37 A and sign and date item 37 B.
