2010 DCP Signup

Enrollment for the 2010 Direct and Counter-cyclical Program (DCP) has begun and will continue through June 1, 2010. USDA urges producers to make use of the eDCP automated website to sign up, or producers can visit any USDA Service Center to complete their 2010 DCP contract.

USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2010, eligible producers may request to receive advance direct payments based on 22 percent of the direct payment. USDA will issue advance direct payments beginning Dec. 1, 2009.

Counter-cyclical payment rates vary depending on market prices. Counter-cyclical payments are issued only when the effective price for a commodity is below its target price. The effective price is the higher of the national average market price received during the 12-month marketing year for each covered commodity and the national average loan rate for a marketing assistance loan for the covered commodity.

The ACRE Option

The optional ACRE Program provides a safety net based on state revenue losses and acts in place of the price-based safety net of counter-cyclical payments under DCP. A farm’s payment is based on a revenue guarantee calculated using a 5-year average state yield and the most recent 2-year national price for each eligible commodity. For 2010, the 2-year price average will be based on the 2008 and 2009 crop years.

An ACRE payment is issued when both the state and the farm have incurred a revenue loss. The payment is based on 83.3 percent (85 percent in 2012) of the farm’s planted acres times the difference between the State ACRE guarantee and the state revenue times the ratio of the farm’s yield divided by the state expected yield. The total number of planted acres for which a producer may receive ACRE payments may not exceed the total base on the farm. In exchange for participating in ACRE, in addition to not receiving counter-cyclical payments, a farm’s direct payment is reduced by 20 percent, and marketing assistance loan rates are reduced by 30 percent.

The decision to enroll in the ACRE Program is irrevocable. The owner of the farm and all producers on the farm must agree to enroll in ACRE. Once enrolled, the farm shall be enrolled for that initial crop year and will remain in ACRE through the 2012 crop year. The June 1, 2010, deadline is mandatory for all participants. USDA will not accept any late-filed applications.

Crop Certification

All cropland acres must be certified with the FSA office on an annual basis to remain eligible for farm programs. Wheat and other small grains must be certified by May 31st. Please call for an appointment, or stop by the office.

County Committee
Donald Gill, Chairperson
Larry Easter, Vice-Chairperson
Marjorie Cartmill, Member

COC Regular meeting is at 8:00 AM the 2nd Wednesday of each month

Employee Information

County Executive Director- TC Dawson
Marsha Carothers, Program Technician
Teryl (Cookie) Reed, Program Technician
Nanci Marshall, Program Technician
TaLana Burkholder, Program Technician
Donald Reber, Field Assistant
Terry Miller, Field Assistant
Gerald Wolff, Field Assistant
Limal Vinson, Farm Loan Manager

RECORD CHANGES

Owner/Operator changes such as: newly purchased land, land sales, deceased individuals, or are renting different land, make sure to report the changes to the FSA Office within 30 days from the occurrence. For farm ownership changes you will need to provide a recorded deed or land contract. Failure to maintain accurate records with FSA on all land you have an interest in could lead to possible ineligibility for USDA benefits.

In the Spotlight

FSA offices will be closed:
December 25 - Christmas Day
January 1- New Years Day
January 18- Martin Luther King Jr Day

Acreage Reports Needed For SURE

Because of the delay in announcing the provisions of the Food, Conservation, and Energy Act of 2008, producers enrolling in the Supplemental Revenue Assistance Program (SURE) are reminded that 2008 crop reports are required for SURE participation. This includes crops planted on cropland and/or non-cropland, including native pasture or improved grass that will be hayed.

Physical evidence of the crop in the field is not required for Farm Service Agency (FSA) to accept late-filed 2008 acreage reports. ^However, evidence of existence or disposition, is required.

The following requirements for 2008 SURE include:

- producers must report all crops, in all counties, in which they have an interest
- late-filed fees shall be waived for late-filed 2008 acreage reports and physical evidence in the field is not required
- if the actual use of a crop is different from the intended use reported, the producer may report the final use to the County Office; however, the intended use shall not be changed.

The provisions noted are for 2008 only. For 2009 and 2010, normal acreage reporting requirements will be applied.

More details on the 2008 SURE Program are available at county FSA offices or on line at www.fsa.usda.gov

Changing Banks

Almost all Farm Service Agency payments are made electronically using Direct Deposit. This innovation has cut down on the number of missing and late payments and reduced the time required to move funds. It has been calculated that having a problem with a payment is 20 times greater with checks than with Direct Deposit. Another benefit is that Direct Deposit to your account can be made within 48 hours. To keep the system running smoothly, it’s critical to keep the county office staff up to date on changes you might make in your financial institutions.

If you have changed accounts or institutions that might affect the direct deposit of your FSA payments, contact the FSA county office so we can update our files to insure continued uninterrupted service.

Selling Land

If you’re planning to sell farmland, there may be some program consequences you should be aware of. For example, if you’re planning to sell land that’s enrolled in the Conservation Reserve Program, the buyer must agree to continue the enrollment. If the buyer doesn’t want to continue the CRP contract, you might have to refund all of the payments you’ve received to date.

Reviewing program implications with your local Farm Service Agency staff before completing a sale of farmland is always a prudent precaution.

Farm Reconstitutions

In program terminology, farms are constituted to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. The reconstitution — or recon — is the process of combining or dividing farms or tracts of land based on the farming operation.

Remember, to be effective for the current year, recons must be requested by Aug. 1 for farms enrolled in the Direct and Counter-cyclical Program.

If DCP direct payments have already been issued on a particular farm, the reconstitution will be effective for the next year, unless the payments are refunded.

Nondiscrimination Statement

"The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual’s income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audio tape, etc.) should contact USDA’s TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer."
