It's been over a decade since farmers had the opportunity to update farm program bases or yields. The 2014 Farm Bill provides a **one-time** option to:

**REALLOCATE** base acres  
*or*  
**RETAIN** current base acres

**UPDATE** yields  
*or*  
**RETAIN** current yields

Crop acreage bases and yields are used in the new Agriculture Risk Coverage and Price Loss Coverage programs. We will provide an overview of these new programs and discuss how updating bases and yields may impact your farming operation.
