## **Debbie Redman Selected as Muskingum/Morgan County Executive Director**

COLUMBUS, Ohio -- Nov. 4, 2015 -- State Executive Director for the Ohio Farm Service Agency (FSA), Steve Maurer, announced that Debbie Redman was selected as the County Executive Director (CED) for the Muskingum/Morgan County FSA Office, effective August 10, 2015.

Redman began her FSA career in 1987 as a Program Technician (PT) in the Muskingum/Morgan County FSA office. During her tenure, Redman administered commodity and disaster programs, completed administrative functions and was responsible for working with Geographic Information System (GIS) technology. She served as the Program Technician in Charge at the county office and managed the office and employees while also completing her daily responsibilities. In 2009, she was selected to serve as CED by the Guernsey/Noble County Committee.

Wanting to return closer to home, Redman made the difficult decision to leave Guernsey/Noble County to accept the CED position in Muskingum/Morgan County.

Redman spends her free time watching her son play baseball, basketball and golf and helping her daughter plan her upcoming wedding. She enjoys taking trips to the beach and boating.

Redman looks forward serving the producers of Muskingum/Morgan County.
