### DCP/ACRE Sign-Up Continues

The sign-up period for DCP and ACRE are still open. Producers must sign up for DCP before the Aug. 2, 2013, deadline. Producers signing up for ACRE, have until June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

[Read more about DCP and ACRE](#) or contact the FSA county office for more information, or an appointment to enroll.

### CRP Sign-Up Starts soon

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 27 million acres are enrolled in CRP. Producers that are accepted in the program can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract (10-15 years.)

Contracts on 3.3 million acres of CRP are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally

sensitive land are encouraged to evaluate their options under CRP.

For more information on CRP and other FSA programs, visit a local FSA service center or [www.fsa.usda.gov](http://www.fsa.usda.gov).

## Acreage Certification

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. For crops enrolled in programs other than NAP (Noninsured Crop Disaster Assistance Program), acreage reports for most spring planted crops (exception cabbage) are to be certified by the July 15.

Acreage reports on crops covered by NAP are due in the county office by the earlier of July 15 for most spring planted crops, or 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported.

## Hispanic and Women Farmers and Ranchers Claims Process Extended

Agriculture Secretary Tom Vilsack has announced the extension of the voluntary claims process for Hispanic and women farmers and ranchers who allege discrimination by the USDA in past decades. All claims must now be filed by **May 1, 2013**.

The process offers a voluntary alternative to litigation for each Hispanic or female farmer and rancher who can prove that USDA denied his or her application for loan or loan servicing assistance for discriminatory reasons for certain time periods between 1981 and 2000. As announced in February 2011, the voluntary claims process will make available at least \$1.33 billion for cash awards and tax relief payments, plus up to \$160 million in farm debt relief. There are no filing fees to participate in the program.

Claimants may register for a claims package by calling the telephone number below Monday through Friday 9 a.m. to 8 p.m. Eastern Time or by downloading the forms from the website.
