LIP and LCP Signup Deadline Announced

The deadline date for the
2005-2007 Livestock
Compensation Program
(LCP) and Livestock
Indemnity Program (LIP) has
been set for July 18, 2008.

LIP provides payments to
eligible livestock owners and contract growers who incurred the
death of livestock because of a natural disaster. LCP provides
payments to eligible livestock owners and cash lessees who
suffered feed losses or increased feed costs because of a
natural disaster.

Signup began on September 10, 2007 for the two programs
that provide aid to livestock producers who suffered eligible
livestock or livestock feed losses between January 1, 2005 and
December 30, 2007 because of a natural disaster.

CDP Quantity payments

Signup for the quantity (production loss) loss portion of the
2005/2007 Crop Disaster Program (CDP) began October 15,
2007 and continues. Although no ending signup date has been
announced, we encourage all producers who have not yet
signed up for CDP to do so as soon as possible. Payments will
be delayed on all CDP production loss applications that are not
approved and paid prior to receipt of the Quality loss software,
which is expected to be issued around June 20, 2008. Signup
dates for quality loss CDP applications will be announced in the
near future.

COC Election Approaching

Beginning **June 15, 2008**, nominations are being accepted for candidates for County Committee (COC) positions.

A county or area served by the COC is divided into local administrative areas (LAA). Each LAA is represented by one member on the county committee. Only one LAA holds an election each year.

FSA Announces Critical Feed Program

FSA has announced the authorization of certain acreage enrolled under the Conservation Reserve Program (CRP) to be available for haying and grazing after the **primary nesting season ends which is August 1st in Montana**. No rental payment reduction will be assessed on contracts being utilized for the critical feed use. However, a \$75 fee will be charged per contract to process the contract modification. The fee must be paid prior to the local FSA county committee approving the contract modification. The fee is not refundable.

Beginning June 2, 2008, eligible CRP participants may sign up for the critical feed use practice at their local FSA office. Participants must submit a modification to their conservation plan. This modification for critical feed use is only for 2008. All haying and grazing must be completed no later than November 10, 2008. The critical feed use practice may be used on CRP acreage that was hayed or grazed in 2007 either under the Managed Haying and Grazing provisions or the Emergency Haying or Grazing provisions.

CRP participants may use their CRP acreage for haying or grazing or may lease the privilege to any other individual. CRP participants may not hay and graze the same acreage. CRP participants must leave at least 50 percent of each field unhayed. Only one cutting of hay is permitted. CRP participants wishing to graze their CRP acreage must leave at least 25 percent of each field ungrazed for wildlife or graze all of the CRP acreage at no more than 75 percent of the stocking rate as determined by the Natural Resources Conservation Service (NRCS) or a Technical Service Provider (TSP).

Eligible acreage includes acreage devoted to: 1) CP1, Establishment of Permanent Introduced Grasses and Legumes; 2) CP2, Establishment of Permanent Native Grasses; 3) CP4B, Permanent Wildlife Habitat – Corridors; 4) CP4D, Permanent Wildlife Habitat; 5) CP10, Vegetative Cover – Grass – Already Established; 6) CP18B, Establishment of Permanent Vegetation to Reduce Salinity; 7) CP18C, Establishment of Permanent Salt Tolerant Vegetative Cover. Acreage is eligible 12 months after the cover is fully established.

Filing a Non-insured Crop Disaster Assistance Program (NAP) Notice-of-Loss

To qualify for assistance under NAP, production losses or prevented planting must have occurred as a result of an eligible cause of loss. An eligible cause of loss is any of the following:

- damaging weather, such as drought, freeze, hail, excessive moisture, or excessive wind; or
- adverse natural occurrences, such as earthquake or flood; or
- a condition related to damaging weather or an adverse natural occurrence, such as excessive heat, disease or insect infestation.

Wildlife damage and weeds are **not** considered eligible causes of loss under NAP.

A notice of loss must be provided within 15 calendar days after the:

- disaster occurrence or date damage to the specific crop acreage is apparent to the producer for yield losses;
- final planting date for prevented planting.

If a Notice-of-Loss is filed prior to the final planting date established for the specific crop, the producer is expected to replant the crop. If the Notice-of-Loss is filed after the established final planting date and the intent is to reseed to another crop intended for harvest, such as barley for grain, which is covered under crop insurance, a NAP payment cannot be received on the original failed crop.

Montana is not a double cropping state. If the intent is to destroy the crop, summer fallow it, or reseed to another crop **not** intended for harvest, representative strips must be left in the field so that a loss adjuster can be sent out closer to normal harvest time to appraise the original seeded crop. In this situation, the original seeded crop would still be eligible for a payment.
