Fax: 541-776-4295

County Executive Director:
Joe Hess

Farm Loan Officer:
Chris Kirby
Phone: 541-883-6924

Farm Loan Manager:
Jim Jutson
Phone: 541-673-6071

County Committee Nominations

The Jackson-Josephine FSA County Committee is seeking nominations for Local Administrative Area 3 which includes the southern portion of Jackson County. This includes farmers and ranchers from Central Point, Jacksonville, Ruch, Medford, Phoenix, Talent, and Ashland as possible eligible nominees.

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 17, 2013 through August 1, 2013.

Farm Changes

Remember to provide all changes to your farm records to the local FSA office for the current crop year. If you are changing your operation entity type, adding or dropping cropland or farms, or adding entities to your operation, contact the FSA county office to update your file.

DCP Sign-Up Continues Until Aug. 2nd

The sign-up period for DCP is still open. Producers are encouraged to sign up for DCP before the Aug. 2, 2013 deadline. Call 541-776-4270 x2 to schedule your appointment now!

The 2013 DCP program provisions are unchanged from 2012, so watch out for possible Fruit and

Vegetable (FAV) Planting violations with vegetable plantings on farms that don't have a history of planting FAVs. Check with the office before signing the contract.

[Read more about DCP and ACRE](#) or contact the FSA county office for more information, or an appointment to enroll.

Farm Reconstitutions

For FSA program purposes, tracts having the same owner and the same operator are grouped under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary.

The reconstitution or "recon" is the process of combining or dividing farms or tracts of land based on the farming operation. Remember, to be effective for the current year, recons must be requested by **August 1** for farms enrolled in specific programs.

The following are the different methods used when doing a farm recon:

Estate Method — The division of bases, allotments and quotas for a parent farm among heirs in settling an estate

Designation of Landowner Method — May be used when (1) part of a farm is sold or ownership is transferred; (2) an entire farm is sold to two or more persons; (3) farm ownership is transferred to two or more persons; (4) part of a tract is sold or ownership is transferred; (5) a tract is sold to two or more persons; or (6) tract ownership is transferred to two or more persons. In order to use this method the land sold must have been owned for at least three years, or a waiver granted, and the buyer and seller must sign a Memorandum of Understanding

DCP Cropland Method — The division of bases in the same proportion that the DCP cropland for each resulting tract relates to the DCP cropland on the parent tract

Default Method — The division of bases for a parent farm with each tract maintaining the bases attributed to the tract level when the reconstitution is initiated in the system.

Crop Reporting - Deadline July 15, 2013

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs—acreage reports are to be certified by July 15.

NAP Loss Filing

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a

CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Payment Limitations

All payment eligibility and payment limitation provisions, including Adjusted Gross Income (AGI) limitations, are extended for the 2013 crop year, program year, and fiscal year. All rules and requirements effective for 2012 program payments and benefits are applicable to eligible recipients of 2013 program payment and benefits. This includes the requirements of actively engaged in farming, cash-rent tenant, substantive change, minor child, and spousal provisions. Payments will continue to be limited by direct attribution to person and legal entity.

Contributions

All partners, stockholders or members with an ownership interest in the legal entity must make a contribution, whether compensated or **not** compensated, for:

- Active personal labor,
- Active personal management,
- A combination of active personal labor and active personal management to the farming operation

Sodbusting

Farmers and ranchers should be aware that if they use highly erodible land for crop production without proper conservation measures, they risk losing eligibility to participate in Farm Service Agency programs. Before producers clear, plow or otherwise prepare areas not presently under crop production for planting, they are required to file an AD-1026, indicating the area to be brought into production.

Guaranteed Loan Program

The Farm Service Agency loan limit for the Guaranteed Loan Program has increased to \$1,302,000. The limit is adjusted annually based on data compiled by the National Agricultural Statistics Service.

The lending limit increases every year according to an inflation index. The maximum combined guaranteed and direct farm loan indebtedness has increased to \$1,602,000.

As a reminder, the one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans is 1.5 percent of the guaranteed portion of the loan.

Producers should contact their local FSA County Offices with questions about farm loans.

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Farm operating loans are available as well as loans to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African-Americans, American Indians, Alaskan Natives, Hispanics, Asian-Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Hay Net

Producers are encouraged to use Hay Net on the FSA website (<http://www.fsa.usda.gov/haynet>). This online service allows producers with hay and those who need hay to post ads so they can make connections. Hay Net is a popular site for farmers and ranchers who have an emergency need. Individual ads can be posted free of charge by producers who complete a simple online registration form the first time they use the site.

Direct Deposit Changes

If you have recently changed your financial institution or had made changes to your account information, please let us know. This is needed to ensure that you will receive your future payments in a timely manner. Please contact the FSA office with any questions.

Dates to Remember

June 17--COC nomination period begins

June 19--Jackson-Josephine FSA County Committee meeting, 10 am

July 4--Office closed for Independence Day

July 15--Acreage reporting deadline

August 1--COC nomination deadline

August 2--DCP 2013 deadline
