Kevin Mulligan
Director, Center for Geospatial Technology
Texas Tech University

Dr. Kevin Mulligan is the Director of the Center for Geospatial Technology (CGST) and an Associate Professor in the Department of Economics and Geography at Texas Tech University. He earned my B.A. and M.A. from UCLA and his Ph.D. in Geography from Texas A&M. Over the past 14 years he has been responsible for teaching introductory and advanced courses in GIS and remote sensing. Most recently he has developed a Graduate Certificate Program in GIS. As Director of the Center for Geospatial Technology his research has focused on a wide variety of mapping projects involving natural resource management, agriculture, rural health and economic development.
