

FSA At Work Across Kentucky - FY 2009

The USDA Farm Service Agency delivered over \$16.3 billion in federal program payments to U.S. farmers and ranchers during FY 2009. Kentucky agriculture benefits greatly from the tireless efforts of our dedicated employees and locally elected County Committees.

State Executive Director John W. McCauley

Commodity Program Payments: \$266.5 million

Kentucky producers received substantial monetary support during FY 2009 in the form of commodity and price support program payments.

\$53,442,082 - Direct and Counter Cyclical Program (DCP) Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. Counter-cyclical payments are made when the effective price for eligible commodities is less than the target price.

\$8,863,690 - Milk Income Loss Contract (MILC) Provides compensation to dairy producers when domestic milk prices fall below a specified level.

\$42,091,999 - Price Support and LDPs - Commodity loans are available to eligible producers who use crops as collateral. The Commodity Credit Corporation (CCC) makes loans for eligible commodities that are farm or warehouse stored. Loan Deficiency Payments (LDPs) benefit producers who agree to forgo a commodity loan in return for a payment on the eligible commodity. LDP provisions allow compensation when market prices are low, as long as the producer maintains beneficial interest in the commodity.

\$1,139,213 - Farm Storage Facility Loan Program (FS-FLP) Provides producers with loans to build or upgrade farm storage facilities for eligible commodities.

\$160,960,630 - Tobacco Transition Program Payments (TTPP) Provides annual transitional payments for 10 years to eligible tobacco quota holders and producers. Payments began in 2005 and continue through 2014. Payments are funded through assessments of approximately \$10 billion on tobacco product manufacturers and importers.

Conservation: \$56.3 million

FSA continues to make strides toward conserving and improving soil, water, and wildlife resources in Kentucky. The Conservation Reserve Program is the USDA's single largest, most effective environmental program. Conservation investments for Kentucky in FY 2009 include:

\$45,456,222 - Conservation Reserve Program (CRP) Provides financial incentives, cost-share and rental payments to producers who convert highly erodible cropland or environmentally sensitive acreage to long-term vegetative cover.

\$10,876,873 - Emergency Conservation Program (ECP) Provides emergency funding for farmers and ranchers to rehabilitate farmland damaged by natural disasters, and to carry out emergency water conservation measures during periods of severe drought.

Disaster Assistance: \$4 million

From drought to flood, freeze to tornadoes and hurricanes - no production agriculture operation is immune to the effects of natural disasters. Kentucky FSA was financially responsive to the state's producers.

\$1,320,068 - Non-Insured Crop Disaster Assistance Program (NAP) - FSA's NAP program provides financial assistance to producers of noninsurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters.

\$2,571,782 - Crop Disaster Assistance Program (CDP) - The Farm Service Agency's (FSA) Crop Disaster Program (CDP) provides benefits to eligible farmers who suffered losses from natural disasters and related conditions.

\$22,367 - The Livestock Indemnity Program (LIP) provided Kentucky livestock producers with financial assistance.

\$14,502 - Livestock Compensation Program (LCP) provides owners and producers who lease cattle, sheep, goats or buffalo with compensation for damages due to natural disasters.

\$95,932 - The Disaster Trust Fund during FY 2009 paid Kentucky producers for qualifying disaster losses.

Farm Loans: \$119.7 million

FSA obligated \$119,698,410 in direct and guaranteed operating loans, farm ownership loans, emergency loans, youth loans, socially disadvantaged loans, and loans to beginning farmers.

\$58,225,400 - Guaranteed Loans - FSA guarantees loans made by conventional agricultural lenders. In FY 2009, FSA in Kentucky guaranteed 246 farm ownership and farm operating loans.

\$61,135,240 - Direct Loans - FSA provides assistance to those unable to obtain guaranteed loans. In FY 2009, FSA in Kentucky funded 1351 farm ownership and farm operating loans.

\$829,440 - Youth Loan - In FY 2009, Kentucky funded 216 youth loans.

\$48,797,980 - Beginning Farmer Loans - In FY 2009, 627 beginning farmer loans were made in Kentucky.

\$10,996,840 - Socially Disadvantaged Loans - In FY 2009, 228 loans for socially disadvantaged producers were made in Kentucky.

Kentucky FSA Program Payments by County

Does not include farm loans, commodity loans, or adjustments from previous programs.
