DCP/ACRE Sign-up

2012 Direct and Counter-Cyclical Program (DCP) enrollment opened on January 23, 2012 and closes on June 1, 2012. Here are some IMPORTANT REMINDERS:

- 1) All producers planting on **DCP base** acres must be identified on the DCP/ACRE contract and receive a proportionate share of DCP/ACRE payment for the farm.
- 2) Changes on the farm after enrolling June 1st in DCP/ACRE **must** be reported to the county office including: ownership changes, producer changes (individuals and entities) and changes in crop share arrangements. **Note:** All changes must be made by September 30, 2012.

Acreage Certification

Time is nearing for producers to certify their 2012 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of program benefits.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many FSA programs. The deadline to file a timely acreage report is **July 15, 2012**.

Free GovDelivery – Enroll Now

The USDA Farm Service Agency offices are moving into paperless operation to save taxpayer dollars. Producers can now enroll in the new GovDelivery system which provides instant electronic deadline reminders, bulletins and newsletters direct to your email address. Now you don't have to wait for a printed newsletter only occasionally sent through the mail.

County Committee ballots will continue to be mailed to all eligible producers. Producers can subscribe to receive free e-mail updates by visiting www.fsa.usda.gov/subscribe. Give it a try right now.

BCAP Project Area Sign-up

Applications are being accepted for the USDA Farm Service Agency's next round of Biomass Crop Assistance Program (BCAP) Project Areas. Proposals will be accepted until April 23, 2012.

BCAP provides incentives to farmers and forest landowners to grow non-food crops to be processed into biofuels. Because most energy crops are perennial and take time to mature before harvest, BCAP is designed so sufficient quantities of feedstock will be available to meet future demand. Since these crops can grow where other crops cannot, it provides farmers new opportunities to diversify into more markets.

The BCAP Project Areas where these crops are grown will be selected from proposals producers or biomass facilities submit to FSA. The Request for Proposal and additional information can be found at www.fsa.usda.gov/bcap.

New Continuous CRP Initiative

FSA has announced a new conservation initiative to protect up to 750,000 acres of the nation's most highly erodible croplands by enabling them to plant wildlife-friendly, long-term cover. This initiative will assist producers in targeting their most highly erodible cropland with an erodibility index of 20 or greater.

Producers can enroll land on a continuous basis beginning this summer. With the use of soil survey and geographic information system data, local FSA staff can quickly determine a producer's eligibility for the initiative.

Adjusted Gross Income

USDA and the Internal Revenue Service have established an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent is required from each producer or payment recipient to initiate the tax review process. No actual tax data will be included in the report that IRS sends to FSA.

This ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-931 to their local FSA County Office by June 15 to avoid interruption of program benefits. This form may be obtained from local FSA and NRCS offices or online at: <http://forms.sc.egov.usda.gov/eforms/main servlet>.

Direct and Guaranteed Loans

The Farm Service Agency is committed to providing family farmers with loans to meet their farm credit needs. If you are having trouble getting the credit you need for your farm or regularly borrow from FSA, direct and guaranteed loans are currently available.

If you've had a setback and your current lender is reluctant to extend or renew your loan, ask your lender about an FSA loan guarantee

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans have a maximum limit of \$1,214,000. This makes the maximum combination of direct and guaranteed loan indebtedness \$1,514,000.

The one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans has increased from 1 percent to 1.5 percent of the guaranteed portion of the loan. This applies to loans obligated after October 1, 2011.

Rural Youth Loans

The Farm Service Agency makes loans to rural youths to establish and operate income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization's advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5,000.

Youth Loan Eligibility Requirements:

- United States citizenship (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien status;
- Between 10 years to 20 years of age;
- Comply with FSA's general eligibility requirements;
- Reside in a rural area, city or town with a population of 50,000 or fewer people;
- Be unable to get a loan from other sources;
- Conduct a modest income-producing project in a supervised program of work as outlined above;
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the project and the loan, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

NOTICE TO HISPANIC AND/OR WOMEN FARMERS OR RANCHERS COMPENSATION FOR CLAIMS OF DISCRIMINATION

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

To register your name to receive a claims packet, call the Farmer and Rancher Call Center at 1-888-508-4429 or visit: www.farmerclaims.gov

The claims package will have detailed information about the eligibility and claims process.

USDA is an equal opportunity provider and employer.

Farm Storage Facility Loan Program

The Farm Storage Facility Loan (FSFL) program allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term may be different and are based on the rate which CCC borrows from the Treasury Department.

Funds are made available in two parts: an early partial disbursement and the final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

Applications for FSFL must be submitted to the FSA county office that maintains the farm's records. An FSFL must be approved before any site preparation or construction can begin.

For more information about FSFL please visit your FSA county office or www.fsa.usda.gov.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon is like quicksand; it can kill quickly. When a person is caught in flowing grain it takes less than five seconds to be trapped. The mechanical aspects of grain handling equipment also present a real danger. Augers, power take-offs and other moving parts can grab arms, legs, hair or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or

maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged. FSA wants all farmers to have a productive crop year, and that begins with putting safety first.

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of Socially Disadvantaged groups.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as a member of a group.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

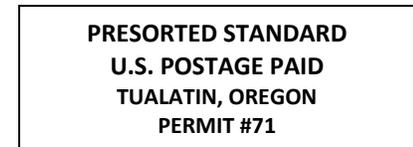

Beginning and Limited Resource Farmers

FSA assists beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more that 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 % of the county's median size.

Additional program information, loan applications, and other materials are available at the county office. You may also visit

www.fsa.usda.gov

Minority Farm Register – Now Open for Minority Farmers and Ranchers

Farm Service Agency (FSA) encourages minority farmers and ranchers in Oregon to voluntarily join the USDA Minority Farm Register to receive information and opportunities from USDA agencies. The new Minority Farm Register is an outreach tool designed to reach underserved farmers and ranchers who are not currently enrolled in USDA loan, farm or conservation programs.

By joining the Register, minority producers may receive outreach materials, newsletters, and program announcements from USDA agencies. They may also receive information and assistance from other USDA-approved outreach partners, such as community-based organizations, faith-based organizations, and minority-serving educational institutions. USDA will carefully control access to and use of the Register.

Registration forms are available in Spanish (AD-2035SP) and English (AD-2035) on the FSA web site www.fsa.usda.gov under “Forms”.

Selected Interest Rates for April 2012	
90-Day Treasury Bill	0.125%
Farm Operating - Direct	1.25%
Farm Ownership - Direct	3.375%
Limited Resource	5.00%
Farm Ownership - Direct Down Payment, Beginning Farmer or Rancher	1.50%
Emergency	3.75%
Commodity Loans 1996-Present	1.125%
Farm Storage Facility Loan	1.500- 2.375%

Dates to Remember	
April 23	Deadline for BCAP applications
May 28	Office closed in observance of Memorial Day holiday
June 1	2012 DCP enrollment closes
June 1	Farm record changes deadline
June 1	SURE sign up deadline
July 15	Acreage reporting deadline
