Sodbuster Regulations

The term “sodbusting” is used to identify the plowing up of erosion-prone grasslands for use as cropland. Sodbuster violations are unauthorized tillage practices on highly erodible lands that converted native vegetation such as rangeland or woodland, to crop production after Dec. 23, 1985.

Farmers and ranchers should be aware that if they use highly erodible land for crop production without proper conservation measures, they risk losing eligibility to participate in Farm Service Agency programs.

Before producers clear, plow or otherwise prepare areas not presently under crop production for planting, they are required to file an AD-1026, indicating the area to be brought into production.

If Natural Resources Conservation Service indicates on a CPA-026 that the area will be highly erodible land, the producer will be required to develop and implement a conservation plan on the affected acreage, before bringing land into production.

In addition, producers and the producer’s affiliates have to file an AD-1026 with the staff in the administrative or control county office before any farm program payments can be made. The AD-1026 is the producer’s signed certification that HELC, as well as wetland conservation, provisions will not be violated.

Preventing Fraud

The Farm Service Agency has joined with the Risk Management Agency to prevent fraud, waste and abuse in the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. In addition, FSA will refer all suspected cases of fraud, waste and abuse to RMA.

Producers can report suspected cases to the county office staff, RMA office, or the Office of the Inspector General.

Continuous CRP

The Continuous Conservation Reserve Program is a private lands environmental improvement program that allows participants the opportunity to enroll environmentally sensitive acreages in conservation practices that will reduce soil erosion, improve water and soil quality and provide wildlife habitat and food sources.

The Continuous CRP program is a voluntary enrollment program. Eligible landowners enter into contracts that range from 10 to 15 years in length. In return, the landowners will receive annual rental and maintenance payments, incentive payments for certain activities, and cost share for establishment.

To be eligible for enrollment in the Continuous CRP, participants and acreage must meet certain requirements. Provided the eligibility requirements are met, FSA will automatically accept enrollments of acreage into Continuous CRP. Landowners may enroll in the program at any time during the year.

For more information on Continuous CRP enrollments, please contact your local FSA office.

Youth Loans

The Farm Service Agency makes loans to rural youths to establish and operate income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 21 years of age
- Live in a rural area or in a town of 50,000 people or fewer
- Must obtain a written recommendation and consent from a parent or guardian if the applicant has not reached the age of majority under state law
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the project and the loan, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms. The FSA staff can help you with questions you may have about a particular program

Farm Loans for Socially Disadvantaged

The Farm Service Agency makes direct and guaranteed loans to socially disadvantaged applicants, enabling them to buy and operate family-size farms and ranches. Funds are reserved each year specifically for these loans, but regular loan funds can also be used.

Direct loans may be made to qualified applicants by FSA for both farm operating and farm ownership purposes. Guaranteed farm loans also may be made for ownership or operating purposes, and may be made by any lending institution subject to Federal or state supervision (banks, savings and loans, and units of the Farm Credit System) and guaranteed by FSA. Some state governments also operate farm loan programs that are eligible

for FSA guarantees. FSA typically guarantees 90 or 95 percent of a loan against any loss that might be incurred if the loan fails.

Persons who are primarily and directly engaged in farming and ranching on family-size operations may apply. A family-size farm is one that a family can operate and manage itself.

Socially disadvantaged loan applicants do not receive automatic approval. In addition to being members of a socially disadvantaged group, individual applicants under this program must meet all requirements for FSA's regular farm loan program assistance, including:

- Have a satisfactory history of meeting credit obligations.
- Have sufficient education; training, or at least one-year's experience in managing or operating a farm or ranch within the last five years for a direct operating loan, or, for a direct farm ownership loan, have participated in the business operation of a farm or ranch for three out of the last ten years.
- Be a citizen of the United States (or a legal resident alien), including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and certain former Pacific Island Trust Territories;
- Be unable to obtain credit elsewhere at reasonable rates and terms to meet actual needs; and
- Possess legal capacity to incur loan obligations.

A socially disadvantaged person is one of a group whose members have been subjected to racial, ethnic, or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities. For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

Contact the FSA County Office Farm Loan Program staff for more details about this program, and other financial options.

2008 COC Election Information

One of FSA's responsibilities is to conduct County Committee elections in an open manner that ensures accountability. FSA will provide local organizations representing socially disadvantaged groups with detailed information about the COC election process. The agency is reaching out to agricultural communities to get equitable representation on their county committees.

Groups representing socially disadvantaged farmers and ranchers, will be actively solicited for COC election candidates, and encouraged to fill out a nomination form (**FSA-669A**). Under represented farmers and ranchers are encouraged to step up and participate in their county's COC election process. Producers will notice posters and announcements displayed in businesses, churches, and other public places. COC election fact sheets can be found online at <http://www.fsa.usda.gov/FSA> under the News & Events tab on the FSA homepage.

Reporting Crop Acreage

The annual, timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-Cyclical Program, marketing assistance loans and Loan Deficiency Payments.

Conservation Reserve Program acreage must be reported to receive annual rental payments. And, crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must also be reported.

Crop reports, form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. Producers need to file their acreage reports by July 15, 2008 for all spring seeded crops.

Prevented Planting:

Prevented planting needs be reported no later than 15 calendar days after the final planting date.

Failed Acreage:

Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.

Farm Reconstitutions

In program terminology, farms are *constituted* to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm *reconstitution* is necessary. The reconstitution — or recon — is the process of combining or dividing farms or tracts of land based on the farming operation.

The following are the different methods used when doing a farm recon. Remember, to be effective for the current year, recons must be requested by Aug. 1 for farms enrolled in the Direct and Counter-cyclical Program.

Estate Method — the division of bases, allotments and quotas for a parent farm among heirs in settling an estate;

Designation of Landowner Method — may be used when (1) part of a farm is sold or ownership is transferred; (2) an entire farm is sold to two or more persons; (3) farm ownership is transferred to two or more persons; (4) part of a tract is sold or ownership is transferred; (5) a tract is sold to two or more persons; or (6) tract ownership is transferred to two or more persons. In order to use this method the land sold must have been owned for at least three years, or a waiver granted, and the buyer and seller must sign a Memorandum of Understanding;

DCP Cropland Method — the division of bases in the same proportion that the DCP cropland for each resulting tract relates to the DCP cropland on the parent tract;

Default Method — the division of bases for a parent farm with each tract maintaining the bases attributed to the tract level when the reconstitution is initiated in the system.

If DCP direct payments have already been issued on a particular farm, the reconstitution will be effective for the next year, unless the payments are refunded.

Selected Interest Rates for May 2008	
Farm Operating - Direct	3.125
Farm Ownership - Direct	5.00
Limited Resource	5.00
Farm Ownership - Direct Down Payment, Beginning Farmer or Rancher	4.00
Emergency	3.75
Farm Storage Facility	3.00
Commodity Loans 1996-Present	2.625

Dates to Remember	
May 26	Office Closed for the Observance of Memorial Day
June 30	Final date to report fall seeded small grain planted acreage.
July 4	Office Closed for the Observance of Independence Day
July 15	Final date to certify all crops, except fall seeded small grains.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its program and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of Discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW., Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
