USDA Provides Greater Protection for Fruit, Vegetable and Other Specialty Crop Growers

Free Basic Coverage Plans and Premium Discounts Available for New, Underserved and Limited Income Farmers

Greater protection is now available from the Noninsured Crop Disaster Assistance Program for

Carlos González

State Executive Director:
Juan M. Ortiz Serbiá

Executive Officer:
Wanda J. Pérez

Please contact your local FSA Office for questions specific to your operation or county.

crops that historically have been ineligible for federal crop insurance. The new options, created by the 2014 Farm Bill, provide greater coverage for losses when natural disasters affect specialty crops such as vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, and energy crops.

Previously, the program offered coverage at 55 percent of the average market price for crop losses that exceed 50 percent of expected production. Producers can now choose higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price.

The expanded protection will be especially helpful to beginning and underserved producers, as well as farmers with limited resources, who will receive fee waivers and premium reductions for expanded coverage. More crops are now eligible for the program, including expanded aquaculture production practices, and sweet and biomass sorghum. For the first time, a range of crops used to produce bioenergy will be eligible as well.

To help producers learn more about the Noninsured Crop Disaster Assistance Program and how it can help them, USDA, in partnership with Michigan State University and the University of Illinois, created an online resource. The Web tool, available at www.fsa.usda.gov/nap, allows producers to determine whether their crops are eligible for coverage. It also gives them an opportunity to explore a variety of options and levels to determine the best protection level for their operation.

To learn more, visit the Farm Service Agency (FSA) website at www.fsa.usda.gov/nap or contact your local FSA office at offices.usda.gov.

Producers are Invited to Attend the following planned Meetings

Caguas FSA Field Office and Agricultural Extension Service

Date and Time: April 8, 2015 at 1:00 PM
Location: Agricultural Extension Service, Road 183, Jesus T. Pineiro #77, Las Piedras, PR

Ponce FSA Field Office and Agricultural Extension Service

Date and Time: May 20, 2015, at 1:00 PM
Location: 65th Inf, Government Center, Yauco,
PR

Meeting attendees will learn about Farm Service Agency (FSA) PR implemented Farm Bill programs.

Persons with disabilities who require accommodations to attend or participate in the meeting should contact Ms. Vilma Labrador at 787-294-1613 extension 102 or Federal Relay Service at 1-800-877-8339 at least three days prior to the planned event/meeting.

USDA Announces New Support for Beginning Farmers and Ranchers

Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled www.USDA.gov/newfarmers, a new website that will provide a centralized, one-stop resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA's www.usda.gov/newfarmers has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today's policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an official notice to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.
- Eliminating payment reductions under the [Conservation Reserve Program \(CRP\)](#) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.
- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP). Under this provision, beginning farmers can claim up to 90 percent of losses for lost livestock such as bees under

ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.

Additional information about USDA actions in support of beginning farmers and ranchers is available [here](#).

USDA's Farm Service Agency (FSA) Offers Farm Bill Website and Online Overview of Farm Bill Programs

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, What's in the 2014 Farm Bill for Farm Service Agency Customers?

For more information on FSA, please contact your local USDA Service Center or visit us online at www.fsa.usda.gov.

New Farm Bill Offers Increased Opportunities for Producers

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) Farm Loan Programs is available [here](#).

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and underserved producers.

Changes that will take effect immediately include:

- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from \$225,000 to \$300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and

- 90 percent for underserved borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. [Visit the FSA Farm Bill website](#) for detailed information and updates to farm loan programs.

Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from October 1, 2014 to September 30, 2015 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by November 1, 2015
- An application for payment by November 1, 2015

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at www.fsa.usda.gov/factsheets.

Livestock Indemnity Program (LIP)

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock

owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2015, eligible losses must occur on or after Jan. 1, 2015, and before December 31, 2015. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 3%. These established percentages reflect losses that are considered expected or typical under "normal" conditions. Producers who suffer livestock losses in 2015 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2016
- An application for payment by January 30, 2016.

Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

Filing for NAP Losses

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

2011, 2012, 2013 and 2014 Average Adjusted Gross Income Compliance Reviews

The AGI verification and compliance reviews for 2011, 2012, 2013 and 2014 are conducted on producers who the IRS indicated may have exceeded the adjusted gross income limitations described in [7 CFR 1400.500]. Based on this review, producers will receive determinations of eligibility or ineligibility.

If the producer is determined to have exceeded the average AGI limitation of \$900,000, receivables will be established for payments earned directly or indirectly by the producer subject to the \$900,000 limitation. The Puerto Rico FSA Office has begun notifying producers selected for review. If you have any questions about the review process or determinations, please contact the PR FSA Office at 787-294-1613. Producers who receive initial debt notification letters may only appeal the amount of the debt to their local FSA office. Adverse determinations become administratively final 30 days from the date of the adverse determination letter and can only be reopened if exceptional

circumstances exist that prevented the producer from timely filing the appeal.

Farming Operation Changes

Producers who have bought or sold land, or added or dropped rented land from their operation must report those changes to the FSA office as soon as possible. A copy of the deed or recorded land contract for purchase property is needed to maintain accurate records with FSA. Failure to do so can lead to possible program ineligibility and penalties. While making record updates, be sure to update signature authorizations. Making record changes now will save time in the spring.

Bank Account Changes

Current policy mandates that FSA payments be electronically transferred into a bank account. In order for timely payments to be made, producers need to notify the FSA county office when an account has been changed or if another financial institution purchases the bank where payments are sent. Payments can be delayed if the FSA office is not aware of updates to bank accounts and routing numbers.

Appeal Process

After an FSA official makes a decision on a request for USDA services or application, the producer will be sent a letter informing him/her of the decision and options that can be pursued.

Generally, program participants have three choices — an informal review with the original agency decision-maker, an opportunity for mediation and finally an appeal to the next level of authority within the agency.

Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address or zip code or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and to update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.

Microloan Cap Grows to \$50,000

Beginning Farmer Loans

Farm Service Agency (FSA) reminds farmers and ranchers that the FSA borrowing limit for microloans increased from \$35,000 to \$50,000, effective Nov. 7. Microloans offer borrowers simplified lending with less paperwork.

The microloan change allows beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans

are part of USDA's continued commitment to [small and midsized farming operations](#).

To complement the microloan program additional changes to FSA eligibility requirements will enhance beginning farmers and ranchers access to land, a key barrier to entry level producers. FSA policies related to farm experience have changed so that other types of skills may be considered to meet the direct farming experience required for farm ownership loan eligibility. Operation or management of non-farm businesses, leadership positions while serving in the military or advanced education in an agricultural field will now count towards the experience applicants need to show when applying for farm ownership loans. **Important Note:** Microloans cannot be used to purchase real estate.

Since 2010, FSA has made a record amount of farm loans — more than 165,000 loans totaling nearly \$23 billion. More than 50 percent of USDA's farm loans now go to beginning farmers. In addition, FSA has increased its lending to underserved producers by nearly 50 percent since 2010.

Please review the [Microloan Program Fact Sheet](#) for program application, eligibility and related information.

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of targeted underserved groups.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Selected Interest Rates for March 2015:

Farm Operating Loans Direct — 2.50%

Farm Ownership Loans Direct — 3.50%

Farm Ownership Loans Direct Down Payment, Beginning Farmer or Rancher — 1.50%
