Notice to WBSCM Users
FSA Domestic Commodity Vendors
Technical Refresh WBSCM Trainings

USDA plans to implement a technical refresh (TR) to the Web-Based Supply Chain Management (WBSCM) System on August 5, 2014. The TR effort does **not** significantly change WBSCM functionality; however, some parts of the system will be different.

Prior to the TR go-live date, the Farm Service Agency will provide vendors an opportunity to attend a live, instructor-led training demonstration via a web-based meeting. The training will focus on those areas in WBSCM affected by the TR. Class size will not be limited and vendors are encouraged to have all users responsible for completing tasks in WBSCM participate in one of the training sessions.

The training sessions will be held on Wednesday July 30th from 10:00 – 11:00 CST, and on Thursday, July 31st from 1:00pm – 2:00pm CST. Anyone who wishes to participate must submit their name, email address, company name, and session they would like to attend to FSAWBSCMServiceRequest@kcc.usda.gov.

Once the meetings are set up, you will receive an email confirming the sessions, date, and time of the training you selected. Please follow the instruction in the meeting notice carefully for the web-based training as the software will likely be new to all users. In order to start the meeting on time, please join the meeting at least 10 minutes before the start time.

If you have questions regarding the training, please contact Patty Wagner at patricia.wagner@kcc.usda.gov or call (816)823-3200.

Christine M. Gouger, Chief
Domestic Procurement Division
