Please contact your local FSA Office for questions specific to your operation or county.

Message from Debra Crusoe, Minnesota State Executive Director

As fall harvest closes for the 2014 crop year, producers will have many decisions to make regarding enrollment in new programs offered under the Agricultural Act of 2014. The Dairy Margin Protection Program and ARC/PLC are just a few of the new programs available under the new Farm Bill with decisions to be made. I am hoping that dairy producers have had or will have the opportunity to attend one of the many meetings offered by University of Minnesota Extension, Farm Service Agency, and the Minnesota Milk Producers Association to assist them in making important program decisions for their operations.

Minnesota FSA is also teaming up with University of Minnesota Extension to offer more than 70 producer meetings throughout the state on the new ARC/PLC programs. These meetings will focus on decision making tools in addition to the program policy under the new Farm Bill. I encourage producers to attend these meetings and learn about the tools to ensure they are confident in the decisions that they will need to make. Please visit our [State Events webpage](#) for meeting date and location details.

The Noninsured Crop Disaster Assistance Program (NAP), a program offered to producers that grow crops not covered by crop insurance, also will have many positive changes with the new Farm Bill. Announcements for those meetings will be forthcoming.

USDA Farm Service Agency County Committee Elections to Begin Monday, Nov. 3

USDA encourages farmers and ranchers to make their voices heard by voting in the upcoming Farm Service Agency (FSA) County Committee elections. Beginning Monday, Nov. 3, 2014, USDA will mail ballots for the 2014 elections to eligible producers across the country. Producers must return ballots to their local FSA offices by the Dec. 1, 2014, deadline to ensure that their vote is counted.

FSA County Committee members provide an important link between the local agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity support programs; conservation programs; indemnity and disaster programs; emergency programs and eligibility. County committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age, but supervises and conducts the farming operations of an entire farm may also be eligible to vote.

Eligible voters who do not receive ballots in the coming week may pick one up at their local USDA Service Center or FSA office. The deadline to submit ballots is Dec. 1, 2014. Ballots returned by mail must be postmarked no later than Dec. 1, 2014. Newly elected committee members and their alternates will take office Jan. 1, 2015.

More information on county committees, such as the new 2014 fact sheet and brochures, can be found on the FSA website at www.fsa.usda.gov/elections. You may also contact your local USDA Service Center or FSA office. Visit <http://go.usa.gov/pYV3> to find an FSA office near you.

USDA Extends Dairy Margin Protection Program Deadlines

Enrollment Continues Through Dec. 5; Comments Accepted Until Dec. 15

USDA is extending the deadlines for the dairy Margin Protection Program. Farmers now have until Dec. 5, 2014, to enroll in the voluntary program, established by the 2014 Farm Bill. The program provides financial assistance to participating farmers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

Producers are encouraged to use the online Web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation. The secure website can be accessed via computer, smartphone or tablet.

The U.S. Department of Agriculture (USDA) also extended the opportunity for public comments on both the Margin Protection Program and the Dairy Product Donation Program until Dec. 15, 2014.

Comments can be submitted to USDA via the regulations.gov website at <http://go.usa.gov/GJSA>.

USDA Farm Service Agency Reminds Producers: Farm Bill Allows Early Termination for Certain CRP Contracts

The Farm Service Agency reminds producers with acres under contract through the Conservation Reserve Program (CRP) that they can apply for early contract termination, as required by the 2014 Farm Bill. The deadline to request early CRP contract termination is Jan. 30, 2015.

This is a unique opportunity to request early termination afforded by the 2014 Farm Bill. The earliest effective date for this early termination is October 1, 2014. The requesting CRP contract must have

been in effect for at least five years and additional eligibility conditions must be met to qualify. The 2014 Farm Bill identifies a list of 10 exceptions whereby land will not be eligible for the early termination provisions. For a complete list of these exceptions, please view the program fact sheet online at http://www.fsa.usda.gov/Internet/FSA_File/crp_opt_out_fact_sht.pdf

Once a CRP contract termination request is approved by the FSA County Committee, the decision may not be reversed and the terminated contract will not be reinstated. Once the land is no longer considered under the CRP contract all participants must meet HEL/WC and other conservation compliance provisions for all associated lands.

For more information or to verify eligibility for early termination (opt-out) for existing CRP contracts, please contact your local FSA office. For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app>.

USDA Farm Service Agency Announces Key Dates for New 2014 Farm Bill Safety Net Programs

USDA announced key dates for farm owners and producers to keep in mind regarding the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC). The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Sept. 29, 2014 to Feb. 27, 2015: Land owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Nov. 17, 2014 to March 31, 2015: Producers make a one-time election of either ARC or PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments for 2014 crop year, if needed.

USDA leaders will visit with producers across the country to share information and answer questions on the ARC and PLC programs.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. The new tools are now available at www.fsa.usda.gov/arc-plc. Farm owners and producers can access the online resources from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Producers can contact their local FSA office for more information or to schedule an appointment.

USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

The 2014 Farm Bill implements a change that requires farmers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 certification form must be on file with the FSA. The Risk Management Agency (RMA), through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes most financial assistance such as the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans and most programs implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs implemented by NRCS.

Many FSA and Natural Resource Conservation (NRCS) programs already have implemented this requirement and therefore most producers should already have an AD-1026 form on file for their associated lands. If however an AD-1026 form has not been filed or is incomplete then farmers are reminded of the deadline of June 1, 2015.

When a farmer completes and submits the AD-1026 certification form, FSA and NRCS staff will review the associated farm records and outline any additional actions that may be required to meet the required compliance with the conservation compliance provisions.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/.

2014 MAL and LDP Requests

The USDA Farm Service Agency (FSA) is accepting requests for marketing assistance loans (MALs) and loan deficiency payments (LDPs) for eligible 2014 commodities.

MALs and LDPs for the 2014 crop year become available to eligible producers beginning with harvest/shearing season and extending through a specific commodity's final loan availability date. Sugar commodity loans for the 2014 crop became available to sugar processors on Oct. 1, 2014.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool, mohair and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

Before MAL repayments and LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Additionally, form CCC-902 and CCC-901 must be submitted for the 2014 crop year, if applicable, with a county committee determination and updated subsidiary files.

To be considered eligible for an LDP, producers must have form CCC-633EZ, Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Please contact your local FSA office for additional eligibility requirements.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP.

National and county loans rates for 2014 crops are posted on the FSA website at: www.fsa.usda.gov/pricesupport. For more information, please visit a nearby USDA Service Center or FSA's website www.fsa.usda.gov.

Reporting of 2015 Forage and Fall Seeded Crops

All producers are reminded that the acreage reporting date for all forage and fall seeded crops is coming up. The acreage reporting date of November 15, 2014 applies to all of the following categories:

- Fall seeded small grains (winter wheat, oats, barley, wild rice...)
- Forage Production - fall seeding (insured/no insurance)
- Forage for grazing including pasture
- Forage Production - prior year seeding (insured/no insurance)

Microloan Program

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

USDA is raising the borrowing limit for the microloan program from \$35,000 to \$50,000, effective Nov. 7, 2014. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of \$50,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of \$300,000 or obtain financing from a commercial lender under FSA's Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact their local FSA office to set up an appointment with a loan official.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
