

FSA At Work Across Oklahoma - FY 2009

“The USDA Farm Service Agency delivered nearly \$340 million in federal program payments and loans to Oklahoma farmers and ranchers during FY 2009. Oklahoma’s agriculture industry and rural economies benefit greatly from farm program funds delivered through the tireless efforts of our dedicated employees and locally elected County Committees.”
 - Francie Tolle, State Executive Director

Commodity Program Payments: \$148.0 million

Oklahoma producers received substantial monetary support during FY 2009 in the form of commodity and price support program payments.

\$141,757,319 - Direct and Counter Cyclical Program (DCP) Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. Counter-cyclical payments are made when the effective price for eligible commodities is less than the target price.

\$5,772,041- Commodity Loans are available to eligible producers who use crops as collateral. The Commodity Credit Corporation (CCC) makes loans for eligible commodities that are farm or warehouse stored.

\$19,199 - Loan Deficiency Payments (LDPs) benefit producers who agree to forgo a commodity loan in return for a payment on the eligible commodity. LDP provisions allow compensation when market prices are low, as long as the producer maintains beneficial interest in the commodity.

\$369,340- Farm Storage Facility Loans (FSFL) The Commodity Credit Corporation (CCC), through FSA, may make loans to producers to build or upgrade farm storage and handling facilities for eligible commodities.

	Value of receipts million	Percent of state total farm receipts	Percent of US value
1. Cattle and calves	2,436,638	41.7	5.1
2. Wheat	1,103,949	18.9	6.3
3. Hogs	558,580	9.6	3.5
4. Broilers	554,532	9.5	2.4
5. Dairy Products	213,312	3.7	0.6
All commodities	5,837,797		1.8

	Rank among states	Value million \$
1. Wheat and products	4	860.1
2. Live animals and meat	13	260.6
3. cotton and lint	12	95.6
4. Poultry and products	17	94.2
5. Cotton and lint	23	93.3
Overall rank	24	1,631.4

Conservation: \$40.0 million

FSA made significant investments toward conserving and improving soil, water, and wildlife resources in Oklahoma. The Conservation Reserve Program is the USDA’s single largest, most effective environmental improvements program. Oklahoma conservation investments in FY 2009 include:

\$32,534,576 - Conservation Reserve Program (CRP) provides financial incentives, cost-share and rental payments to producers who convert highly erodible cropland or environmentally sensitive acreage to long-term vegetative cover.

\$6,914,795 - Emergency Conservation Program (ECP) provides emergency funding for farmers and ranchers to rehabilitate farmland damaged by natural disasters and carry out emergency water conservation measures during periods of severe drought.

\$603,838 - Grassland Reserve Program (GRP) is a voluntary program designed to protect grasslands from conversion to cropland or other uses and conserve valuable grasslands by maintaining viable ranching operations. Participants receive 10, 15 or 20-year annual rental payments equal to 75% of the grazing value of the land enrolled. Oklahoma rental rates range from \$6.00 to \$11.50 per acre.

Disaster Assistance: \$16.8 million

From drought to flood, freeze to tornadoes and hurricanes - no production agriculture operation is immune to the effects of natural disasters. Oklahoma FSA was financially responsive to Oklahoma producers following natural disasters.

\$6,219,132 - Non-Insured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of noninsurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters.

\$1,246,643 - Crop Disaster Program (CDP) compensates producers who suffered crop losses due to adverse weather and other natural disasters in crop years 2005, 2006 and 2007 .

\$5,636,472 - Livestock Forage Disaster Program (LFP) provides compensation to eligible livestock producers that have suffered grazing losses for covered livestock. The grazing losses must be due to a qualifying drought condition during the normal grazing period for the county and must have occurred on or after Jan. 1, 2008, and before Oct. 1, 2011.

\$276,240- Livestock Indemnity Program (LIP) provides partial reimbursements to eligible livestock owners for livestock losses suffered due to an adverse weather condition.

\$3,400,411 - Milk Income Loss Contract Program (MILC) compensates dairy producers when monthly domestic milk prices fall below \$16.94 per hundred weight (cwt) as adjusted by the dairy feed ration adjustment.

Farm Loans: \$135.3 million

FSA obligated \$135,290,000 in direct and guaranteed operating, farm ownership and youth loans to eligible Oklahoma farmers and ranchers who manage family-sized operations and who were temporarily unable to obtain private or commercial credit.

\$56,972,000- Guaranteed Loan Program FSA guarantees loans made by conventional agricultural lenders for up to \$1,112,000. In FY 2009, FSA guaranteed 92 farm ownership loans, 138 operating loans.

\$78,287,000 - Direct Loan Program FSA provides assistance to those unable to obtain guaranteed loans. In FY 2009, FSA funded 206 farm ownership loans and 915 operating loans that included 206 youth loans. 60% of Oklahoma's farm loans were allocated to beginning farmers and socially disadvantaged producers.

Oklahoma FSA Program Payments by County

Does not include farm loans, commodity loans, or adjustments from previous programs.
