NAIP DOQQ Pricing History

2003 - 2011 USDA NAIP Contracts

Average Price per DOQQ

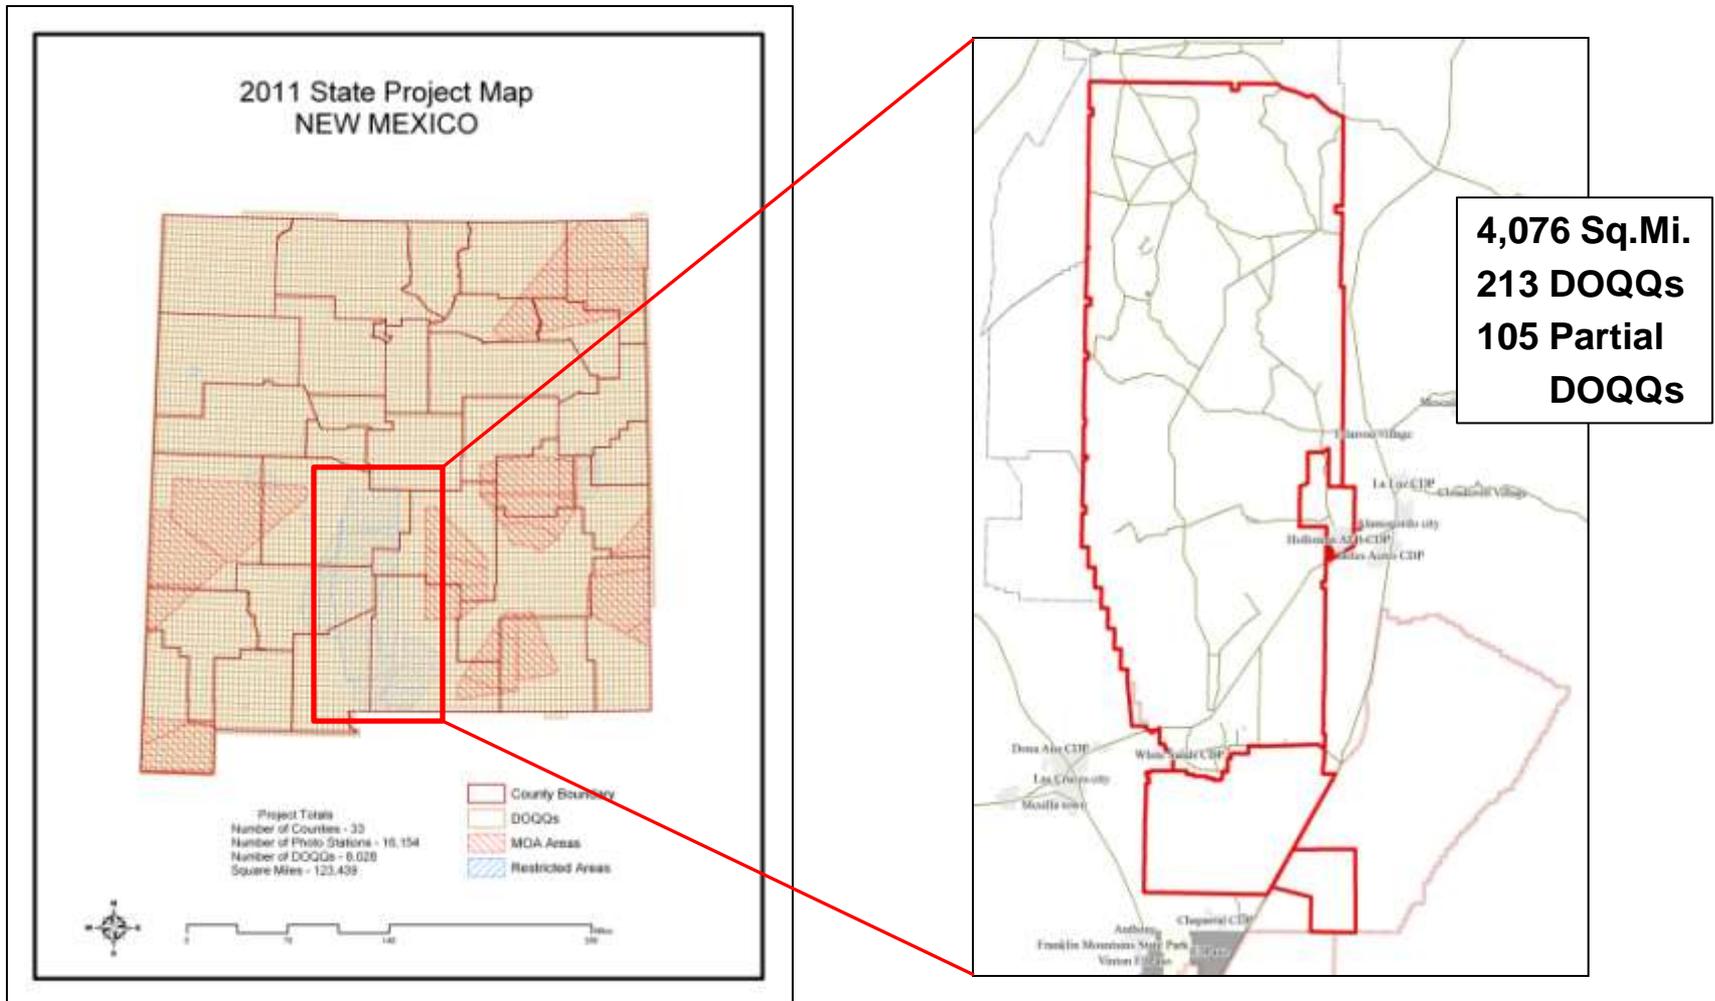

Approximately 10% decrease from 2010 to 2011

Military Restriction Problems

White Sands Missile Range (WSMR), New Mexico

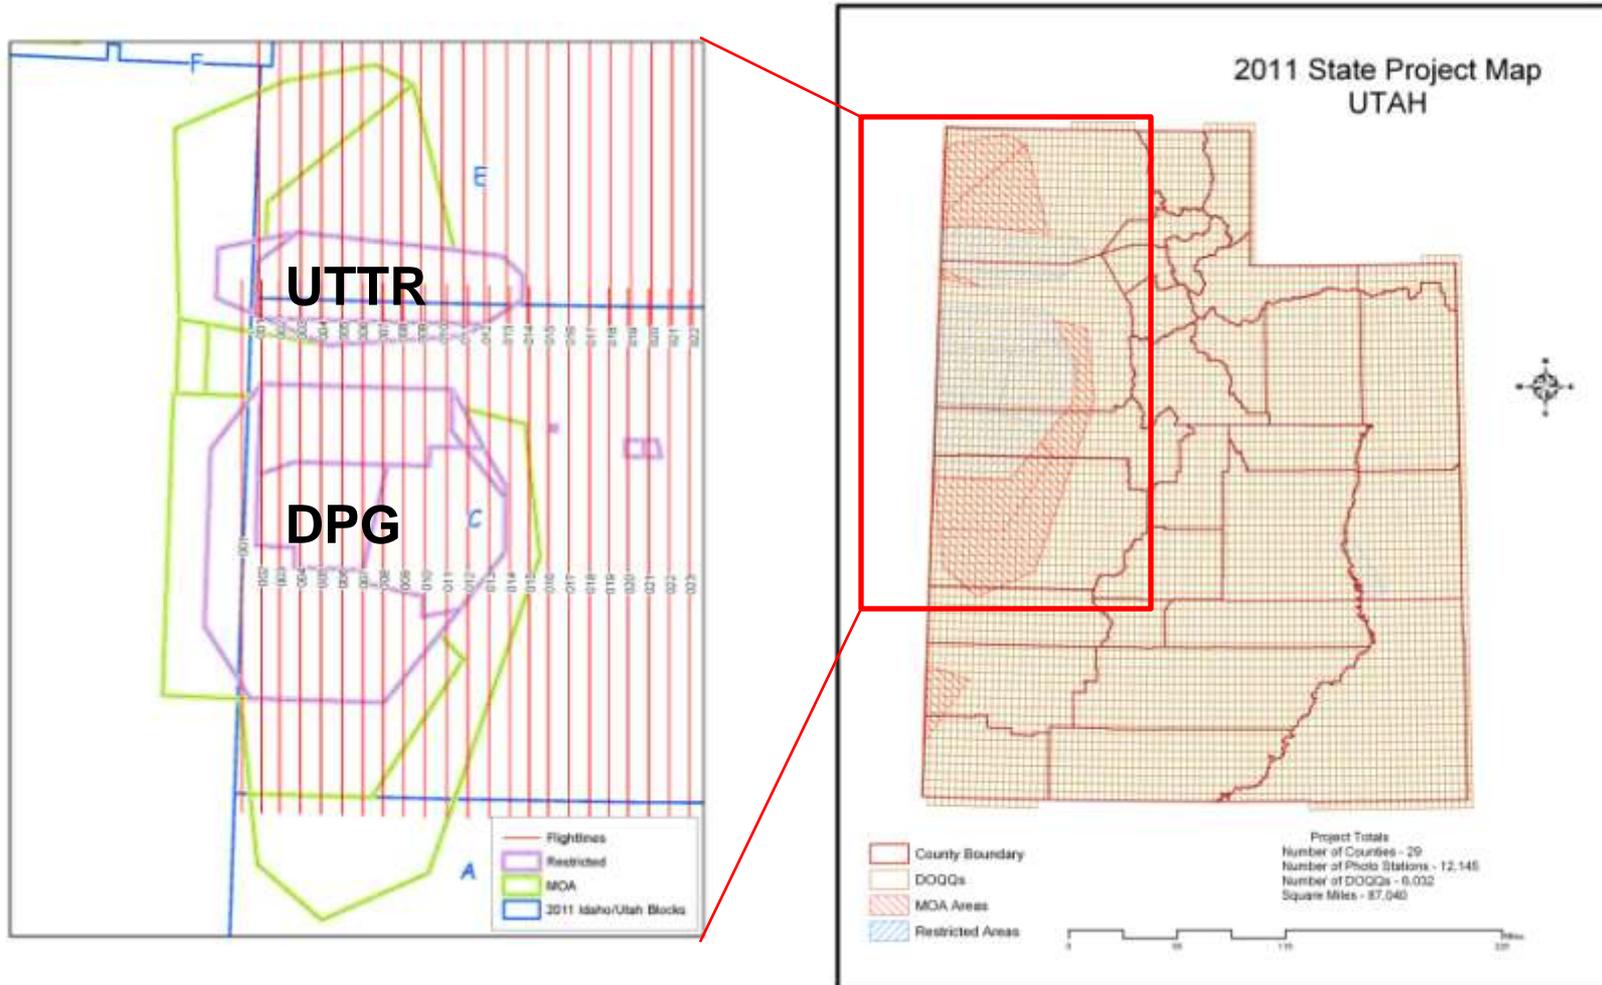

Entire state flown by North West Geomatics. WSMR prohibited release of any imagery within their boundary. APFO is working with DOD to reverse WSMR's decision.

Military Restriction Problems

Utah Test and Training Range (UTTR) & Dugway Proving Grounds (DPG)

Military requested review of imagery within their boundaries as the condition to granting airspace clearance, but the entire state was flown by North West Geomatics under “open” conditions. APFO will release imagery unless military provides statute authority prohibiting release.

Military Restriction Problems
