Dates to Remember:

March 15 - Spring grazing on CRP acres begins

March 16 - NAP Sales closing date for all crops except value loss crops and honey

March 16 - Crop insurance sales closing date for 2008 spring-seeded crops

March 25-28 - FFA Convention - Great Falls.

March 31 - Final loan/LDP availability date for various crops harvested in 2008

NAP Pull off date for seed - April 1

NAP Pull off date for forage - May 1

May 14 - Spring grazing on CRP acres ends

May 15 - Beginning date of Primary Nesting Season

May 25 - Memorial Day, Office Closed

June 1 - DCP signup deadline

NAP Deadline March 16

For the 2009 crop year it is imperative to purchase Non-insured Crop Disaster Assistance Program (NAP) and catastrophic (CAT) level of crop insurance for all insurable and non-insurable crops. This is not only for production coverage but also for eligibility for the new permanent disaster programs created in the 2008 Farm Bill.

In order for producers to be **eligible** for assistance under the Supplemental Revenue Assistance (**SURE**) Program and the Emergency Assistance for Livestock, and Honey Bees, (**ELAP**), and the Tree Assistance Program (**TAP**) producers must obtain a plan of insurance for each insurable and non-insurable commodity on the farm, **excluding grazing**. To be eligible for assistance under the Livestock Forage Program (**LFP**) producers must obtain either coverage under the Pasture, Rangeland, and Forage Rainfall Index Pilot Program through crop insurance, or NAP coverage, or both on their grazing land.

Producers must file the required paperwork and pay the administrative fee by the NAP closing date of **March 16, 2009** for all crops except value-loss and honey. The deadline for value-loss and honey for 2009 has passed.

Please contact the office to ensure your eligibility for the new disaster assistance programs by March 16th.

NATIONAL AGRICULTURE WEEK is March 15-21, 2009. It is a time to celebrate American agriculture and honor the people who work to meet our everyday needs. FSA in Montana thanks the many farmers and ranchers we work with on a daily basis.

Spring Grazing on Conservation Reserve Program Acres

The 2009 grazing period for managed grazing of Conservation Reserve Program (CRP) acres is March 15th through May 14th. CRP participants who want to graze their CRP contracts this spring must sign up at the office.

Grazing cannot begin until the participant (s) receives written approval from the local FSA county committee or its designee. Spring managed grazing must end before May 15th, which is the start of Montana's Primary Nesting and Broodrearing Season.

Participants may graze CRP acres based on the rotation period (once every three years or once every 5 years) and other limitations that are included in their Conservation Plan of Operations. Producers wishing to graze CRP acres must first receive written notification of approval from the FSA county committee before managed grazing can begin. Livestock producers, who rent or lease acreage from the CRP participant, shall sign a statement agreeing not to sublease the CRP acreage and receive notification of approval from the FSA county committee, a copy of which they should provide to the CRP participant. All livestock must be removed from the CRP acreage when the calculated AUM's are utilized, but no later than May 14th for spring grazing. CRP participants will be assessed a payment reduction for managed grazing which is calculated by taking the number of acres grazed, times the CRP per acre annual rental payment, times 25 percent.

Managed grazing *and* managed haying of CRP will be allowed in 2009, however, a starting date for the summer/fall managed grazing *and* managed haying for CRP will be announced later.

2009 Direct and Counter-cyclical Program (DCP) Signup

Sign up for the 2009 DCP program for farms with base acres began Dec. 22, 2008. Signup will continue until June 1, 2009. Farms may not be enrolled after June 1 of the applicable contract period. There are no late filed provisions for contract years 2009-2012.

In addition to certain commodities, specific pulse crops have been added as an eligible commodity for the 2009 crop year for counter-cyclical payments only.

A producer with the sum of the base acreage on the farm with 10 acres or less must be a socially disadvantaged or limited resource farmer or rancher to be eligible for DCP payments.

Final Loan/LDP Availability is March 31

March 31 is the final loan/LDP availability date for Barley, Canola, Flaxseed, Oats, Rapeseed, Crambe and Wheat. For the 2008 crop of the commodities listed above, loans and LDP's will no longer be available after March 31, 2009.

Ensure Benefits Are Received in a Timely Manner

To ensure USDA program benefits are received in a timely manner, please ensure you are consistent in the way you are presenting your operation to all USDA agencies including NRCS, Risk Management Agency (RMA), FSA and any other USDA agency programs you may partake in. For example, if you have signed up for program benefits with FSA as Joe Farmer, please sign up with NRCS as Joe Farmer. This will ensure Joe Farmer has completed all program paperwork and is eligible to receive payments. When in doubt, ask your county office.

Mixed Grain/Hay Loan LDP Eligibility

USDA does not establish loan rates for mixed commodities. A mixed commodity harvested as grain that does not meet grading standards is not eligible for a loan or Loan Deficiency Payment (LDP). A mixed commodity that is hayed or harvested as silage is not eligible for an LDP.

Eligibility for Grain/Oilseeds/Pulse Crops Harvested as **Grain** – If a mixed commodity is harvested as grain and a farm-stored loan or LDP is applied for, a sample of the harvested crop must be taken to a licensed Federal Grain Inspection Service (FGIS) laboratory for grading, at the producer’s expense. Loan or LDP eligibility will be determined based on the results of the sample.

Eligibility for Grain/Oilseeds/Pulse Crops Harvested as **Other Than Grain** – If the mixed commodity is harvested as hay or silage, there is no test to determine the percentage of each commodity in the mixture to establish the grade and class. Therefore, crops planted in a mixture and hayed or harvested for silage are not eligible for an LDP.

A commodity planted as a nurse crop with alfalfa may be eligible for an LDP if a full seeding is planted and the commodity is reported as the intended use for grain or forage. The County Committee may require documentation to support the seeding rate.

2009 Map Packets

The 2009 Map packets have not been sent. Maps are being printed at the state office and the Prairie County FSA office has not received them as of the printing of this newsletter.

Map packets will be sent as soon as the office can get the maps sorted and packets arranged by producer.

Once producers receive their map packets, producers who only have grazing and/or hay crops are encouraged to complete their maps and return them to the office or call for an appointment before May 15.

Disaster Program Requirements

In order for producers to be **eligible** for assistance under the Supplemental Revenue Assistance (**SURE**) Program and the Emergency Assistance for Livestock, and Honey Bees, (**ELAP**), and the Tree Assistance Program (**TAP**) *producers must obtain a plan of insurance for each insurable and non-insurable commodity on the farm, excluding grazing.*

To be eligible for assistance under the Livestock Forage Program (**LFP**) producers must obtain either coverage under the Pasture, Rangeland, and Forage Rainfall Index Pilot Program through crop insurance, or NAP coverage, or both on their grazing land.

New Payment Eligibility Forms

New payment eligibility forms must be completed before issuing any advance Direct and Counter-Cyclical Program (DCP) payments.

If you have an appointment and cannot keep it, please call the office to reschedule. This time was set aside especially for you, if you fail to call and reschedule, the office may not be able to reschedule you immediately.
