Pam Berwick, Administrative  
Assistant  
Jason Rittal- EDD Director

# Richland County December 2008

## COC ELECTION RESULTS

The Richland County Committee counted the 2008 election ballots at 1 PM on December 4. Connie Iversen will replace Larry Vaira in LAA1, and serve for the next three years, 2009-2011. Connie has served as the Minority Advisor for the COC. Larry has contributed 16 years to the Farm Service Agency as a member of the County Committee. Larry's knowledge, dedication, and experience greatly benefited the producers of Richland County. Thank you Larry!!

## 10 Acre or Less Farms Provisions for 2009

The 2008 Farm Bill was amended to permit producers on a farm with the sum of the base acres of covered commodities on the farm of 10.0 acres or less to receive DCP payments for the 2008 contract year.

For the 2009 contract year producers on farms with 10.0 acres or less are **not** eligible to receive Direct and Counter cyclical Program (DCP) payments on that farm unless that farm is wholly owned by a socially disadvantaged or limited resource farmer or rancher. **Note:** *Producers who do not qualify as a socially disadvantaged or limited resource farmer or rancher may still enroll 10.0 acre farms or less, however they will not be eligible for payments in 2009.*

For DCP purposes, a socially disadvantaged farmer or rancher is defined as someone who is a member of a socially disadvantaged group. These groups consist of: 1) American Indian or Alaskan Natives; 2) Asians; 3) Blacks or African Americans; 4) Native Hawaiians or other Pacific Islanders; 5) Hispanics; and 6) Women.

The Limited Resource Farmer or Rancher is a producer certification. Both of the following must be met:

- Directly or indirectly have gross farm sales not more than \$100,000 in both of the previous 2 years; and,
- Total household income at or below the national poverty level for a family of 4, or less than 50 percent of the county median household income in both of the previous 2 years.

The Limited Resource Farmer or Rancher self-certification tool may be found at: <http://www.lrfctool.sc.egov.usda.gov/tool.asp>.

## 12 Counties Declared Primary Disaster Areas

Twelve Montana counties were declared primary natural disaster areas due to losses caused by drought, excessive heat, hail, severe storms, high winds, wildfires and insect damage that occurred during the period beginning Jan. 1, 2008 and continuing.

The following counties have received the disaster designation:

Broadwater	Fallon	Richland
Custer	Golden Valley	Roosevelt
Daniels	McCone	Sheridan
Dawson	Prairie	Wibaux

Contiguous counties include:

Carter	Lewis and Clark	Stillwater
Fergus	Meagher	Sweet Grass
Gallatin	Musselshell	Valley
Garfield	Powder River	Wheatland
Jefferson	Rosebud	Yellowstone

Producers in Harding county South Dakota and Bowman, Divide, Golden Valley, McKenzie, Slope and Williams counties in North Dakota also qualify for natural disaster benefits because their counties are contiguous.

Under the designation, all qualified producers within the above named counties could be eligible for low interest emergency loans from the USDA Farm Service Agency (FSA).

Existing FSA borrowers could also be eligible for the debt set aside.

Contact the office for further details.

**Persons with disabilities who require accommodations to participate in FSA programs should contact Nancy Heins, CED at the phone number or address as printed in the information column on the first page of this newsletter.**

## 1099-G Mailed from Kansas City

During the last week of January, producers who have received payments from FSA should receive a CCC-1099-G from the Kansas City office. A CCC-1099-G is a report to the Internal Revenue Service about FSA payments made to you in calendar year 2008. The CCC-1099-G is a service to help participating producers report taxable income. It is not intended to replace the program participant's responsibility to report income to the IRS.

If you receive a CCC-1099-G, we recommend that you check the amounts shown with those in your records to see that the amounts are correct. Refunds will no longer be reported on the 1099-G, but will be available online from the FSA Financial Inquiries (FSA-FI) web-based database. Program participants with eAuthentication user ID's and passwords can access their refund information at FSA-FI and select "Inquiry Type 1099/Refund Reports". Refund amounts are displayed on the Producer's Year-to-Date Activity web page.

If you have a question concerning the 1099-G refund information, you may contact the county office for assistance locating the correct payment data. If you choose to visit the office, bring your CCC-1099-G with you.

## Changes to Farming Operation

FSA encourages producers to notify us of any changes to your farming operation including land ownership (recorded deeds) or lease changes, entity changes including members and shares, and who is authorized to sign documents for the operation or individuals.

### **NAP DEADLINE March 16, 2009**

***Grazing coverage is once again available through FSA. It covers all acres and all perils for \$250. PRF was available through your Multi-Peril agent, but the deadline was Nov. 30. Remember other crops not covered under multi peril may be covered through NAP. Mark your calendar!!!***

### Changes to FSA Payment Processing

FSA has recently deployed a new payment processing system. Through the new system, all payments made through direct deposit will be processed through the Federal Reserve Bank and will be received in the participants account within 2-3 days of processing. For participants without direct deposit who receive payment by check, the U.S. Treasury will issue the payment and delays of possibly 7-10 days may be expected. A transaction statement will be mailed to payment recipients.

FSA will be unable to process any payments while the system is being upgraded. Please note this will immediately affect ECP payments and price support grain loan disbursements which will also be issued through this new process.

### Year End Reviews

Producers that have a farm loan with FSA are reminded they must provide data for their Year-End Analysis (YEA) to their loan officer each year. Borrowers are urged to provide this information timely so that their files can be maintained. The office will contact you for the data you will need to assist us.

### ECP Funding Received

FSA has received \$927,000 in additional funding for the Emergency Conservation Program (ECP) practices in Blaine, Custer, Dawson, Musselshell, Phillips, Richland, Sheridan and Yellowstone counties. The additional funding will fund projects related to drought and fire. Payment will be issued beginning Dec. 1, 2008. However, please expect another delay with the new payment process just recently deployed. When this process is open payments will be made immediately. Thanks for your patience!!!

### Board of Livestock Approves Revised Brucellosis Action Plan

The Montana Board of Livestock approved a revised version of the state's brucellosis action plan.

Major changes to the draft plan include:

- Adoption of a two-area, rather than a three-area, plan;
- Use of county lines as area boundaries rather than roads or geographical features;
- Explanation of expected budget and funding sources;
- Removal of mandatory, statewide Official Calfhood Vaccination requirement;
- Addition of "sunset" language that details how long the plan will be in place;
- Commitment from Montana Fish, Wildlife & Parks to participate in various wildlife-related aspects of the plan.

The revisions can be found on the Department of Livestock's web site at <http://liv.mt.gov/>.

The board's action means MDOL and producers can move forward with risk assessments and herd management plans while minor details in the revised plan are resolved.

MDOL will schedule community meetings in late January to meet with producers and explain the plan in detail.

Meeting locations and dates will be listed on MDOL's web site, and announced at a later date.

The USDA has four classifications for brucellosis: Class Free, Class A, Class B and Class C. Restrictions on the interstate movement of cattle become less stringent as a state approaches or achieves Class Free status. Class C designation is for states with the highest rate of brucellosis, and requires a federal quarantine. Class A and Class B fall between the two extremes of Class Free and Class C status.

MDOL's brucellosis action plan provides a blueprint for regaining the state's Class-Free Status as quickly as possible.

**Important Dates to Remember**

**December 25** – Office Closed, Christmas

**January 1** – Office Closed, New Year's

**January 9-Sidney Ag Days, FSA staff presents new Farm Bill Programs**

**January – April** – Continuation of Brand Liens

**January 15** – Regular COC Meeting 9 AM

**January 19** – Holiday – Office Closed

**January 31** – Final loan/LDP availability date for wool/mohair shorn in 2008

**January 31** – Final LDP availability date for 2008 unshorn pelts

**February 5** – Regular COC Meeting 9 AM

**February 16** – Holiday-Office Closed

**March 16, 2009** – NAP sales closing date for all crops except value loss crops

**Pollinator Habitat Improvement and Pheasant Program on CRP**

Many populations of native pollinators such as bees, butterflies, other insects, birds, etc. are vital for American Agriculture. One out of every 3 bites of food is dependent on pollinators. Many populations of pollinators are in decline.

The 2008 Farm Bill provides authority to include pollinator habitat on Conservation Reserve Program (CRP) land for CRP contracts signed after Jan. 2, 2009.

Certain CRP practices will include pollinator habitat components consisting of 1 to 3 bunch grasses and 9 or 10 wildflower/forbs. The cost of installing the pollinator habitat will vary from \$100 to \$300 per acre. Five percent of the CRP acres enrolled shall be pollinator friendly.

The new **Pheasant Program** or **SAFE** is a winter cover program. Watch for further details as we receive this new information. Watch for the SAFE program policies and procedures as training in the program is received and published.

Contact the office for further details on the Pollinator Habitat.
