### County Committee Members

Mary Nesbit  
Loren Schledewitz  
Ted Toavs

### FSA Office Personnel

Carol Y. Ritter-Fellman, CED  
Julie Williams, Chief PT  
Darcia Larsen, PT  
Dale Friedrich, PT  
Julane Poland, PT  
Judy Grimsrud, PT  
Jill Davidson, PT

### Dates to Remember:

**November 3** –COC ballots to be mailed to producers

**November 26** – Signup Deadline for 2008 DCP 10-acre or less farms

**November 30** – Pasture, Rangeland Forage Index Program Sales Closing date

**November 30** – Crop Insurance Apiculture (honey) Rainfall Index Sales Closing Date

**December 1** – NAP application closing date for Honey

**December 1** – COC ballots must be returned by close of business

**December 2-5** – Grain Growers Annual Convention. Great Falls

**December 11-13** – Stockgrowers Annual Convention, Billings

# Roosevelt County November 2008

## Deadline for DCP Provisions – 10 Acre or Less Farms

**November 26** is the deadline to enroll farms with 10.0 base acres or less for the 2008 DCP. The Farm Bill was amended to permit these producers to receive DCP payments. The amendment **only** affects the 2008 contract year.

## Livestock Disaster Program Eligibility

To be eligible for the Livestock Forage Disaster Program (LFP) and the Emergency Assistance for Livestock Honey Bees, and Farm-Raised Fish (ELAP) disaster assistance programs under the 2008 farm bill, crop insurance on grazing lands and/or a Non-insured Crop Disaster Assistance (NAP) grazing policy must be purchased or timely filed by the sales closing date.

If you plan on purchasing the Risk Management Agency (RMA's) Pasture, Rangeland, Forage (PRF) insurance to ensure eligibility, **the sales closing date is November 30**. The PRF Vegetative Index (VI) policies are not available in Montana. Detailed information on PRF is available on the RMA web site:

<http://www.rma.usda.gov/policies/pasturerangeforage> or by contacting a crop insurance agent within your area.

The deadline to purchase a NAP grazing policy is March 15, 2009. Signup for the crop year 2008 Livestock Programs has not yet been announced.

## County Committee Ballots in the Mail

County Committee election ballots began being mailed to all eligible voters beginning November 3, 2008.

The election provides an opportunity for farmers and ranchers to elect candidates to serve on their local FSA county committee. Anyone who participates or cooperates in a local FSA program and meets certain voter criteria is eligible to vote. The election this year will include farmers and ranchers that live east of the Big Muddy.

Eligible voters who do not receive ballots by mail should contact the FSA office. Ballots must be returned to the office or postmarked by December 1, 2008.

FSA county committees make important decisions about disaster and conservation programs, commodity price support loans and payments and other agricultural issues affecting the local natural resource needs. Make a difference by voting in the upcoming FSA county committee election.

## Average Crop Revenue Election Program (ACRE)

What is ACRE?

ACRE is a new program authorized by the 2008 Farm Bill that protects against crop revenue shortfalls resulting from price and/or production declines at state and farm levels. Covered commodities are the same as under the 2009 – 2012 crop year Direct and Counter-Cyclical Payment Program (DCP) and include barley, canola, Desi and Kabuli garbanzo beans (chickpeas), corn, crambe, dry peas, flax, grain sorghum, lentils, mustard, oats, rapeseed, safflower, sesame, sunflowers, soybeans, and wheat. The election to participate in ACRE is irrevocable through the life of the Farm Bill (2012). All producers on the farm must agree to the enrollment of the farm.

Farms that participate in ACRE will still receive their Direct DCP payment, but it will be reduced by 20% and the loan rate for marketing assistance loans will be reduced by 30%. The Direct payment will be computed on 83.3% of the base acreage for the farm (85% for 2012). No counter-cyclical payments will be made on farms participating in ACRE. ACRE participants must report production to establish a Farm Expected Yield and Actual Farm Yield for the year of enrollment.

Two triggers must be met before payments will be issued:

- 1) State ACRE Guarantee (90% of Benchmark State Yield times 2-year National average market price) must exceed Actual State Revenue (100% of Actual State Planted Yield times the higher of the National average market price or 70% of the National loan rate.) AND;
- 2) Farm ACRE Benchmark Revenue (Farm's Expected Yield times ACRE Guarantee Price plus producer paid crop insurance premium) must exceed the Actual Farm Revenue (Actual Farm Yield times the higher of National average market price or 70% of National loan rate.)

## ACRE (cont.)

The Farm's Expected Yield is divided by the Benchmark State Yield to arrive at a yield factor. Payment rate will be the lesser of the State ACRE Guarantee minus the Actual State Revenue or the State ACRE Guarantee times 25%. (Payment Acres X Yield Factor X Payment rate.)

ACRE is very different from any other programs administered by FSA. The regulations and policy are still being determined and finalized and no signup period has been announced at this time. More detailed information will be provided as it becomes available.

## Supplemental Agricultural Disaster Assistance Program (SURE)

SURE is one of five new disaster assistance programs authorized under the 2008 Farm Bill.

SURE is available to eligible producers on farms in disaster counties, including contiguous counties that have incurred crop production losses and/or crop quality losses during the crop year.

SURE assistance is also available to eligible producers on farms in which the actual production on the farm is less than 50 percent of the normal production on the farm.

For SURE purposes, a farm is defined as all crop acreages in all counties in the nation.

To be eligible for SURE and the other programs in the "Supplemental Agricultural Disaster Assistance" package authorized in the 2008 Farm Bill, producers must purchase at least catastrophic (CAT) level of crop insurance for all insurable crops and/or Non-insured Crop Disaster Assistance Program (NAP) coverage for non-insurable crops by the sales closing dates.

The sales closing date for NAP is March 15, 2009 for all 2009 crops except value loss and honey. The sales closing date for the Pasture, Rangeland, Forage Index Program that is administered by crop insurance companies is November 30, 2008. Please check with the office or your crop insurance sales person to ensure eligibility in the disaster programs.

### Pulse Crops now eligible for DCP and ACRE

The 2008 Food, Conservation, and Energy Act of 2008 provided for eligible pulse crop acreage to be added as base acres and yields for commodities eligible for the 2009 through 2012 Direct and Counter-Cyclical Program (DCP) and eligible for Average Crop Revenue Election Program (ACRE). Eligible pulse crops are dry peas, lentils, Desi garbanzo beans, and Kabuli garbanzo beans. Pulse crops will be eligible for counter-cyclical payments under DCP, but not eligible for direct payments. Target prices have been established as follows:

Crop	2009- 2012 Target Price
Dry Peas	\$8.32 per cwt
Lentils	\$12.81 per cwt
Kabuli Garbanzo beans	\$12.81 per cwt
Desi Garbanzo beans	\$10.36 per cwt

To establish base acreage, FSA will use the acreage planted and considered planted to the commodities in the crop years 1998 through 2001. Yields will be determined by averaging the yields per planted acre from 1998 through 2001. If you planted dry peas, lentils, Desi garbanzo beans, or Kabuli garbanzo beans in any of the years 1998 through 2001, and you are interested in establishing a base for those crops, you will need to provide production reports to also establish yields. Policy and procedure to establish the bases and yields is still being finalized. More detailed information will be provided as it becomes available.

### Adjusted Gross Income Limitations

New Adjusted Gross Income limitations will be in place for 2009 and future years. There are three limitations to consider now, one that affects all commodity programs, one that affects DCP only, and one that applies to Conservation Programs only.

These certifications will be based on the average income in the three years preceding the most recent complete tax year (so, for the 2009 program year, the years in consideration will be 2005, 2006, and 2007).

### AGI (Cont.)

The table below summarizes these limits:

\$500,000 Average Adjusted Gross Non-farm Income	Exceed this – ineligible for any commodity, price support or disaster program benefits
\$750,000 Average Adjusted Gross Farm Income	Exceed this – ineligible for DCP Direct Payments
\$1,000,000 Average Adjusted Gross Non-farm Income	Exceed this – ineligible for Conservation programs, unless 66.66% or more of AGI is average adjusted gross farm income

Direct and indirect program participants will be required to certify to the new income limitations for the 2009 crop year on form CCC-926 or through an accountant's or attorney's certification. The Adjusted Gross Income Certification form is no longer a continuous certification and must now be filed at least once every 3 years. The new form and procedures are not yet available, additional information, including specifics on what is considered farm income and what is considered non-farm income will be made available at a future date.

### NAP Service Fees Increased

Service fees for the Non-insured Crop Disaster Assistance Program (NAP) have increased for the 2009-2012 crop year. An administrative service fee is required to purchase the insurance. The service fee has increased to:

- \$250 per crop per administrative county; or
- \$750 per producer per county;
- not to exceed \$1,875 for a producer with farming interests in multiple counties.
- Service fees may be waived for limited-resource producers.

The sales closing date for all Noninsurable (NAP) 2009 crops except value loss and honey is **March 15, 2009**.

*Important Dates to Remember*

**November 26 – Signup deadline for DCP 10-acre or less farms**  
**November 30 – Sales closing date for Pasture, Rangeland and Forage Rainfall Index Pilot Program**  
**December 1 – Final date to submit COC ballots**  
**December 1 – NAP closing date for honey**

**Agricultural Financial and Production Management Workshops to be Held**

FSA, in conjunction with Montana State University (MSU) Extension Service will be conducting Financial and Production Management training beginning November 3, 2008.

Topics to be covered are: 1) goals and assessments; 2) family business issues; 3) production records; 4) intro and advanced quicken; 5) beginning estate planning; 6) financial analysis; 7) advanced estate planning; 8) crop and livestock marketing; and 9) energy.

The training will be conducted via a video conferencing method called BREEZE. These trainings will be available to current and future FSA loan recipients as well as to the general public. Participants will be asked to pay a registration fee to cover the cost of the video conferencing. Contact the location of your choice for further information. Workshop locations are:
