**PART A – TRANSPORTATION RATES**

There will be three types of transportation rates used to determine reimbursable amounts. These are defined as: actual, fixed, and set transportation rates.

**ACTUAL TRANSPORTATION RATES:** are rates based on the actual costs incurred by the applicant and must be determined from verifiable records in all cases.

**FIXED TRANSPORTATION RATES:** are established by State FSA Committee (STC) with Deputy Administrator for Farm Programs (DAFP) concurrence and reflects transportation rates applicable to certain agricultural commodities or inputs used to produce the agricultural commodity.

**SET TRANSPORTATION RATES:** are established by STC with DAFP concurrence and reflects a percent of the total costs used to reflect the transportation cost incurred. This rate will be used only if the input does not have a fixed rate established or a breakdown of the transportation costs cannot occur.

**NOTE:** *For those applicants who certified their costs, and either a fixed transportation rate or set transportation rate is used to determine reimbursable amounts, a compliance spot check will be developed in which those selected applicants would be required to provide verifiable proof that the transportation of the agricultural commodity and/or inputs occurred for the applicable fiscal year.*
