UNDER THE USWA and WA-97 - USWA SERVICE LICENSES**

This Addendum between (a) _____

(Provider) and the Farm Service Agency (FSA) authorizes the Provider to establish and maintain a database and system, referred to as a central filing system (CFS) for the purpose of electronically filing service licenses and WA-53 forms issued under the United States Warehouse Act (USWA). Such electronically filed warehouse WA-53s and service licenses are hereafter referred to as "Electronic Service Licenses (ESLs)." All provisions and terms of the "FSA Provider Agreement to Electronically File and Maintain Warehouse Receipts and United States Warehouse Act Documents"(WA-460) are incorporated except as modified or excluded herein.

A WA-97 is defined as a USWA service license that warrants a person to perform in a certain manner and sets forth specific responsibilities, rights, and privileges granted to the person under the USWA.

A WA-53 is defined as an application for a license to inspect, classify, sample, and/or weigh agricultural products under the USWA.

The Provider shall not warrant nor guarantee any part of the underlining transaction or activity that involves the use of the Provider's CFS to perfect or consummate such a transaction or activity. The underlining transaction or activity shall be administered and governed by the applicable Federal rule of law.

This Addendum sets forth the Provider's minimum requirements for operational management, ESL record formatting, reporting requirements and the protocols to be used in the transmission of such information.

I. Common Computing Environment and eAuthentication

The Provider will, at a minimum, make available a common computing environment to the users of their CFS that offers nondiscriminatory access and ability to logon remotely to the Provider's CFS through an eAuthentication method recognized by the Deputy Administrator for Commodity Operations (DACO). Before accepting an ESL into their CFS as issued, the Provider will, at a minimum, authenticate the warehouse operator's signer as the person authorized to certify that the applicant is acceptable to perform the services(s) for which applied for at the warehouse operated by the licensed warehouse operator specified on the form.

Provider agrees to, at a minimum, provide free online public access to view WA-97 electronic service licenses issued on the provider's system.

II. Transmission of Data

The Provider shall, at a minimum, make available free of charge to FSA an internet site and/or a computer utility program that will download warehouse examination data, as authorized by FSA, from the Provider's CFS.

III. Form WA-53 Requirements

FSA, in administration of the USWA, the regulations found at 7 CFR Part 735, the Provider Agreement to Electronically File and Maintain Warehouse Receipts and United States Warehouse Act Documents and this Addendum, may at any time require the Provider to furnish information beyond the minimum requirements shown in this Addendum.

The Provider shall, at a minimum, make available the current form WA-53 for online completion.

FSA maintains the exclusive rights for final approval and issuance of all ESLs issued on the Provider's system.

IV. ESL Information Field Requirements

The Provider shall, at a minimum, make available the following information fields on all ESLs that will be available to be completed by authorized USWA personnel and/or warehouse operators requesting ESLs in their CFS. The Provider shall advise warehouse operators that it is the warehouse operator's responsibility to supply the necessary data to complete each element, as applicable, when requesting an ESL.
