

OCTOBER 2008

Conservation Reserve Program (CRP) Wetland Initiatives

Overview

CRP is a voluntary program available to agricultural producers to help them safeguard environmentally sensitive land. Producers enrolled in CRP plant long-term, resource-conserving covers to improve the quality of water, control soil erosion and enhance wildlife habitat. In return, FSA provides participants with rental payments and cost-share assistance. Contract duration is between 10 and 15 years.

Wetland Initiatives

Wetland Restoration Initiative (CP23) is designed to restore the functions and values of wetland ecosystems that have been devoted to agricultural use. This 500,000 acre initiative enrolls wetlands and buffers within the 100-year floodplain. These wetlands prevent degradation of the wetland area, increase sediment trapping efficiencies, improve water quality, prevent erosion and provide vital habitat for waterfowl and other wildlife.

Wetland Restoration, Non-floodplain Initiative (CP23A) is designed to restore wetlands and playa lakes, which are shallow, depressional wetlands that are located outside the 100-year floodplain. This 250,000 acre initiative provides vital habitat for many wildlife species, filters runoff, recharges groundwater supplies and sequesters carbon.

Duck Nesting Habitat Initiative (CP37) is designed to restore wetlands and wetland complexes that are located outside the 100-year floodplain that will benefit duck nesting. Restoration of 100,000 acres of such wetlands under this initiative will provide critical habitat and nesting cover for upland ducks, sandhill cranes and other wildlife species by filtering runoff, reducing downstream flooding, and recharging groundwater supplies. With full enrollment, it is estimated that the initiative will increase duck numbers by 60,000 birds annually.

Bottomland Hardwood Initiative (CP31) is designed to restore flood plains through the restoration of primarily bottomland hardwoods. This 500,000 acre initiative improves air and water quality and provides carbon sequestration benefits through reduction of greenhouse gases as well as increasing wildlife habitat. Additional incentives are expected to increase enrollment in this initiative. Planting 500,000 acres of bottomland hardwoods would sequester over 1 million metric tons of carbon dioxide annually.

Sign-up

Offers are accepted on a continuous sign-up basis and are automatically accepted provided the acreage and producer meet certain eligibility requirements. Acceptance is not determined by a competitive offer process.

Producers can make offers at local USDA Farm Service Agency County Offices/Service Centers.

Incentive Payments

Eligible producers may receive the following types of payments:

- Up to 50% cost share for establishing permanent cover.
- Annual rental payments for a 10- to 15-year period. The rental rate is based on the weighted average dry-land cash rent.
- An additional incentive equal to 20 percent of the weighted average soil rental rate is authorized for CRP participants restoring wetlands, establishing bottomland hardwood forests, or creating duck nesting habitat.
- Upfront CRP signing incentive payment of \$100 per acre. This one-time payment is made after the contract is approved and all payment eligibility criteria are met.
- Practice incentive payment equal to 40 percent of the eligible costs of installing the practice. This one-time payment is made after the practice is installed, eligible costs are verified, and other payment eligibility criteria are met.

For More Information

Further information about this and other FSA programs is available from local FSA offices or on the FSA website at: www.fsa.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of Discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW., Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
