

UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency
Washington, DC 20250

Notice ARCPLC-74

For: State and County Offices

**Irrigated and Non-Irrigated Yields in
Agriculture Risk Coverage-County (ARC-CO)**

Approved by: Deputy Administrator, Farm Programs

1 Overview**A Background**

The Agricultural Act of 2014 (2014 Farm Bill) as amended by the Agriculture Improvement Act of 2018 (2018 Farm Bill) directed the Secretary to calculate a separate actual crop revenue and guarantee for irrigated and non-irrigated covered commodities.

Also included in the 2018 Farm Bill is the requirement to use RMA county yields as the primary data source in establishing benchmark revenues, guarantees, and actual revenues for farms enrolled in ARC-CO.

B Purpose

This notice provides:

- guidance on how a county and covered commodity was selected in a county with an irrigated and non-irrigated guarantee and actual crop revenue
- the list of applicable county and covered commodities that are designated as irrigated and non-irrigated guarantee and actual crop revenue combinations.

Disposal Date	Distribution
December 1, 2019	State Offices; State Offices relay to County Offices

Notice ARCPLC-74

2 Using Irrigated and Non-Irrigated Yields in ARC-CO

A Designating Crops and Counties With Separate Irrigated and Non-Irrigated Benchmark Revenues, Guarantees, and Actual Revenues

Separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues will be maintained when a county has the following:

- RMA irrigated and non-irrigated data for a covered commodity must be available in 3 of the 5 years between the years 2013 and 2017, **or**
- both of the following:
 - FSA irrigated and non-irrigated data for a covered commodity must indicate the county had at least 10 percent irrigated and 10 percent non-irrigated in the county between the years 2013 and 2017; **and**
 - an average of 5,000 acres of a covered commodity was planted in the county every year 2013 through 2017.

The counties and covered commodities carrying separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues are listed in Exhibit 1.

Using irrigated and non-irrigated data has **no** bearing on Price Loss Coverage (PLC) and Agriculture Risk Coverage-Individual (ARC-IC). PLC uses the PLC yield that, if updated, was computed using a certification that came from both irrigated and non-irrigated acres. ARC-IC requires the certification of **all** the production from a farm enrolled in ARC-IC, whether it is irrigated or non-irrigated.

B Principle for Using Irrigated and Non-Irrigated Benchmark Revenues, Guarantees, and Actual Revenues

As required by the 2018 Farm Bill, separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues will be used to calculate ARC-CO payments for qualifying counties.

Only the counties and farms that meet the irrigated and non-irrigated criteria established by the Secretary will have separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues calculated for the applicable covered commodity on the farm elected and enrolled in ARC-CO.

Notice ARCPLC-74

3 Action

A State Office Action

Each State Office specialist will ensure that County Offices are informed of the contents of this notice.

B County Office Action

County Offices will use the information in this notice to determine the county and covered commodities that will have separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues.

Counties With Irrigated and Non-Irrigated ARC-CO Yields

The following covered commodities carry separate irrigated and non-irrigated benchmark revenues, guarantees, and actual revenues.
