FAV/WR History Flag Edit

Approved by: Acting Deputy Administrator, Farm Programs

1 Overview

A Background

When the 2002 reconstitution software was reopened after 2003 farm record rollover, a problem existed that affected 2002 and 2003 resulting farms if the parent farm had a “Y” FAV/WR History flag. When a farm with a “Y” FAV/WR History flag was divided, the resulting farms were given an “N” flag. An edit will be processed during 2004 farm record rollover to reset the incorrect history flag.

This edit will look at the tract level FAV/WR History flags on each tract and will update the farm level flag as necessary.

B Purpose

This notice provides a sample of the report that will print when the edit is run.
