

For: State Offices and Service Centers

Timing of FY 2005 Reconstitutions

Approved by: Deputy Administrator, Farm Programs

1 FY 2005 Reconstitutions

A Background

Farm and tract record and reconstitution software will be moved to a web-based environment about October 1, 2005. Because of the transition, changes are being made to the timing of some reconstitutions.

B Purpose

This notice provides some of the anticipated timing changes for FY 2005 reconstitution software. These changes will not be implemented until late summer.

C Farm Reconstitution Software Lockout

Current procedure and software restrict the initiation of farm reconstitutions on farms with bases and/or protecting CAB's to no later than COB August 14, 2005. For this year, the farm combination and farm division menu options will be locked out to prohibit the initiation of all farm level reconstitutions. The lockout is anticipated to be about August 14, 2005.

D Tract Reconstitution Software Lockout

The tract combination and tract division menu options may be locked out for a period of time toward the end of FY 2005. Additional information will be provided at a later date.

E Updating Farm Reconstitutions

The menu option for updating farm reconstitutions will be left open to allow for the continued update of farm reconstitutions. All farm reconstitutions shall be updated before farm record rollover for FY 2006.

Disposal Date	Distribution
February 1, 2006	State Offices; State Offices relay to Service Centers

Notice CM-517

1 FY 2005 Reconstitutions (Continued)

F Additional Information

Additional information will be provided through notices as decisions are made and dates are known.
