1 Deadlines for FY 2006 Reconstitutions (Continued)

C Initiating FY 2006 Reconstitutions

Effective **August 15, 2006**, the reconstitution software will **not** allow a farm combination or farm division to be initiated on a farm:

- with DCP base acres
- protecting CAB's under a CRP contract.

Notes This means that farm reconstitutions on these farms must be initiated by **COB August 14, 2006**. A reconstitution **cannot** be initiated on August 15, 2006.

Reconstitutions not meeting these types of criteria may be initiated at any time up to the installation of 2007 farm record rollover software.

The software to initiate farm level reconstitutions will be opened for the following FY when farm record rollover is performed.

D Updating FY 2006 Farm Reconstitutions

County Offices shall update farm reconstitutions by **August 31, 2006**, which will allow sufficient time for producers to return signatures and documentation before the end of the FY 2006 contract period for DCP.

Notes: DCP contracts for FY 2006 shall **not** be approved, with or without a late-fee, unless all required signatures are obtained and received in the County Office by **September 29, 2006**. See 1-DCP, paragraph 390.

County Offices **shall immediately** notify affected producers of approval or disapproval of their request for reconstitution immediately according to 2-CM, paragraph 275.

E Farm Reconstitutions Not Updated

Farm reconstitutions that are **not** updated when farm record rollover is processed will be deleted and the parent farm will be reactivated.
