**FY 2011 CRP Updated Acreage Allocations**

Approved by: Deputy Administrator, Farm Programs

**1 Overview**

**A Background**

Certain CRP initiatives and their associated continuous practices are limited by a National enrollment cap. States are allocated specific acreage amounts and instructed to ensure that their respective allocations are **not** exceeded. Enrollment authority for the CRP is 32 million acres. It is estimated that 31.2 million acres are currently enrolled in CRP.

Some State Offices have requested additional allocations for certain initiatives. State acreage allocations and acreage enrollments have been reviewed as of February 25, 2011, for the following CRP conservation practices:

- CP23, Wetlands Restoration
- CP23A, Wetland Restoration, Non-Floodplain
- CP31, Bottomland Timber Establishment on Wetlands
- CP33, Habitat Buffers for Upland Bird
- CP36, Longleaf Pine - Establishment
- CP37, Duck Nesting Habitat
- Farmable Wetlands Program (FWP) (CP27, CP28, CP40, and CP41)
- CREP.

**Note:** This notice does **not** provide a report with enrollment data for CP38, State Acres for Wildlife Enhancement (SAFE).

Acres enrolled under CREP, regardless of conservation practice, do **not** count against a State's CRP conservation practice allocation; however, acres enrolled under CREP do count toward the total 32 million acres enrollment authority.

**Example:** If CREP enrolls 100 acres for CP23, the 100 acres will **not** be included in the count toward the State's CP23 enrollment allocation, but rather the acres will count toward the CREP Agreement enrollment allocation.

<b>Disposal Date</b>	<b>Distribution</b>
