

For: State and County Offices

2005 Crop Hard White Wheat Incentive Program (HWWIP) Payments

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Notice DCP-136 provided that:

- the National Office temporarily suspended all State and County HWWIP funds through the funds control process until further notice
- 2005 seed incentive payments shall not be made until 2006.

B Purpose

This notice provides that:

- a software modification to the 2005 HWWIP application and payment process for certified seed, as described in paragraph 2, was provided in County Release 574
- the National Office will unsuspend State and County HWWIP funds through the funds control process when verification is received that County Release 574 has been loaded
- County Offices shall take the action outlined in subparagraph 2 C after County Release 574 is loaded.

Disposal Date	Distribution
September 1, 2006	State Offices; State Offices relay to County Offices

Notice DCP-143

2 2005 Certified Seed Incentive Software Modification

A Web-Based HWWIP Application Software

The software modification overrides the:

- calculated seed incentive amount to \$0.00 when populating payment data to the System 36

Note: After seed incentive application data is entered on the HWWIP Application Screen, the certified seed “Gross Application Amount” is calculated.

- certified seed “Gross Application Amount” to \$0.00 when populating payment data to the System 36.

Note: After entering certified seed application data in the web-based application software, the determined certified seed “Gross Application Amount” will still be displayed on the HWWIP Application Screen when the “Print” option is selected. However, when the “Payment” option is selected, the software modification will override the certified seed “Gross Application Amount” to \$0.00, when the production and seed incentive payment data is populated to the System 36.

B System 36 HWWIP Payment Software

Several counties have:

- entered 2005 certified seed applications in the web-based application software and populated the payment data to the System 36
- not issued the seed payments through the “Issue Payments” option on the System 36.

The software modification will delete 2005 HWWIP payment data populated to the System 36 but not yet disbursed to producers.

Important: County Offices shall follow procedure outlined in subparagraph C to ensure 2005 certified seed application data is re-populated to the System 36 after loading County Release 574.

If county offices do not load County Release 574 and select Option 1, “Issue Payments” on the HWWIP Payments Screen MZAJP1 the following message will be displayed, “Payments cannot be processed until Release 574 is loaded.”

Notice DCP-143

2 2005 Certified Seed Incentive Software Modification (Continued)

C County Office Action

After loading County Release 574, County Offices shall **immediately** take the following steps in the web-based application process to override the “Gross Certified Seed Amount” with \$0.00 when populating certified seed application data to the System 36.

Step	Action
1	On the HWWIP Main Menu screen in the web-based software, select the “Payment” option. The HWWIP Payment Screen will be displayed.
2	Enter the State and county code.
3	Enter program year “2005” from the drop down menu.
4	Select the “Process Payment” option to populate payment data to the System 36.

3 2005 HWWIP Payments

A Production Incentive Payments

Notice DCP-136 provided that the National office had suspended all State and County HWWIP funds through the funds control process. After the National office verifies that all counties have loaded County Release 574, State and County HWWIP funding will be unsuspending so that 2005 production incentive payments may be issued.

B Previously Disbursed Seed Incentive Payments

2005 certified seed payments previously issued to producers will be deducted from the producer’s 2005 production incentive payment when production payments are disbursed through the System 36 payment process.

Important: County Offices shall **not** run the overpayment process for 2005 certified seed incentive payments.

C Funding For Seed Incentive Payments

After sign-up is complete for the 2005 production incentive component it will be determined if sufficient funds remain available for the seed incentive component.

If funding remains available for 2005 seed incentive payments, a software modification will be provided to re-calculate the original certified seed “Gross Application Amount” when populating payment data to the System 36.

If a National factor is applicable to the 2005 certified seed incentive payments, the factor will be applied to the certified seed “Gross Application Amount” in the web-based application software.
