**Disabling 2003 Direct and Counter-Cyclical (CC) Payment Processing**

Approved by: Acting Deputy Administrator, Farm Programs

**1 Overview**

**A Background**

The Farm Security and Rural Investment Act of 2002 provided for direct and CC payments for covered commodities, oilseeds, and peanuts beginning with crop years 2002 through 2007. The 2003 direct and CC payment and overpayment processes use supporting files to determine whether a producer has been underpaid or overpaid. Because some of the supporting files only maintain data for the most current 3 years, some of the:

- outstanding payments cannot be processed because the supporting files cannot be updated
- producers may be listed on the overpayment register who are not actually overpaid.

**B Purpose**

This notice:

- informs State and County Offices that:
  - direct and CC processing for crop year 2003 were disabled after the installation of County Release No. 573
  - the following 2003 direct and CC processing functions will **not** be available after installing County Release No. 573:
    - payment processing
    - overpayment processing

**Note:** The payment history print (PPH) and CCC-509E will be the only processing options available after installing County Release No. 573.

- they will be required to submit documentation to the National Office when a 2003 direct or CC payment was earned by the producer, but **not** issued before processing software was disabled in County Release No. 573
- **obsoletes Notice DCP-137.**
