2009 and 2010 DCP-ACRE Direct Overpayments

Approved by: Deputy Administrator, Farm Programs

1 DCP-ACRE Direct Overpayments

A Background

In September and October 2010, DCP/ACRE payment software was temporarily disabled to accommodate the transition of issuing 2010 **advance** DCP/ACRE direct payments to issuing 2010 **final** DCP/ACRE direct payments. Processing of 2009 and 2010 DCP/ACRE direct payments resumed in October 2010.

B Purpose

This notice advises State and County Offices that:

- payments previously issued for DCP/ACRE contracts that were disapproved or canceled during the time payment software was disabled were **not** identified as overpayments when DCP/ACRE payment processing resumed in October 2010
- payment software was corrected and an “All” process was run during December 2010

**Note:** The payment process identified the producer payments associated with the disapproved or canceled DCP/ACRE contract as overpaid.

- notification letters are being sent out by Kansas City to applicable producers about overpayments that were identified during the December 2010 payment process as a result of the disapproved or canceled DCP/ACRE contract.
