Announcing Dairy Margin Coverage (DMC) Program for July 2021 Payment Triggers

Approved: Acting Deputy Administrator, Farm Programs

1 DMC Margin Payment Trigger

A Background

DMC payments are triggered when the difference between the National all milk price and the National average feed cost (the margin) falls below the producer selected margin trigger, ranging from Tier 1 from \$4.00 to \$9.50, and Tier 2 from \$4.00 to \$8.00, calculated monthly.

USDA prices for milk and feed components (corn, blended alfalfa hay, and soybean meal) required to determine the National average margin for July 2021 was released on August 31, 2021. The actual National average margin for July 2021 is \$5.68 per cwt.

As a result, dairy operations that elected Tier 1 margin coverage levels \$9.50, \$9.00, \$8.50, \$8.00, \$7.50, \$7.00, \$6.50, and \$6.00 and Tier 2 margin coverage levels at \$8.00, \$7.50, \$7.00, \$6.50, and \$6.00 will be issued a payment.

Payments for margins triggered will be issued directly to producers. DMC payments issued will **not** be offset by premium balances due, unless assigned by the dairy operation.

B Purpose

This notice informs State and County Offices that July 2021 payments for dairy operations that elected the applicable margin trigger will automatically be processed beginning on September 1, 2021.

B DMC 2021 Margins

The actual 2021 National average margin for each month is posted monthly to the PSD website at <https://www.fsa.usda.gov/programs-and-services/dairy-margin-coverage-program/index>.

C Sequestration

DMC payments will be sequestered at a rate of 5.7 percent. The sequestration reduction is fully automated; therefore, no action is required by County Offices except to verify that it has been properly applied.

D DMC Payment Processing

DMC software will automatically generate payments after contract approval is entered in the DMC software. County Offices will immediately:

- review payments in the National Payment System
- sign and certify if the dairy operation is eligible for that payment.

Note: Guidance for payment processing is provided in 2-DMC.
