

For: State and County Offices

Collection Type Menu Corrections Within the National Receipts and Receivable System (NRRS)

Approved by: Associate Administrator for Operations and Management

1 Overview

A Background

Until the conversion of System 36 applications to Web-based applications is completed, some collections will continue to be recorded in System 36 program applications. For example, the collections related to price support loans. If a collection has been applied in a System 36 program application, the same collection **must** also be recorded in NRRS to complete the current automated data processing flow.

With the implementation of FMMI Readiness 2.1 software, the programs under the collection types in NRRS are being revised for consistent accounting purposes. The “Miscellaneous” type code is being removed, and “Other System 36 Collection” type is being added.

B Purpose

This notice provides the list of program codes under Collection Type Direct Sales and Other System 36 Collection in NRRS.
