1 Interest Rate Change Announcement

A Background

Under the provisions of the Federal Agriculture Improvement and Reform Act of 1996, as amended [7 United States Code (USC) 7283], 1996 and subsequent crop year commodity loans will accrue interest at a rate of one percentage point higher than the Commodity Credit Corporation (CCC) borrowing interest rate.

The Conservation Reserve Program (CRP) and loan deficiency overpayment refunds will continue to accrue interest at the CCC borrowing interest rate whenever the interest rate is based upon the CCC borrowing rate that was in effect on the day the overpayment occurred.

According to 7 CFR 1436.12(a), Farm Storage Facility Loan (FSFL) and Sugar Storage Facility Loan (SSFL) program loans accrue interest at an interest rate equivalent to the rate of interest charged on Treasury securities with comparable maturity.
