

For: State and County Offices

Using the Producer Farm Data Report Instead of the AD-1026A Report

Approved by: Acting Deputy Administrator, Farm Loan Programs

1 Producer Farm Data Report

A Background

In the past, many FLP employees used the AD-1026A Report when completing environmental reviews. The AD-1026A Report contained information on farms operated by an applicant or borrower, which included determinations for HEL and wetlands (WL's).

On May 10, 2010, Notice CM-669:

- informed County Offices that the option to view/print the AD-1026A Report would be removed from the Farm Records Management System, Report Selection Screen
- instructed County Offices to use the Producer Farm Data Report instead of the AD-1026A Report.

The Producer Farm Data Report did not list information on WL's. On May 14, 2010, FLP employees were notified by e-mail that the ability to view and print the AD-1026A Report would temporarily be made accessible again.

B Purpose

This notice informs County Offices that the Producer Farm Data Report now contains WL information and is available from the Farm Records Management System, Report Selection Screen. The AD-1026A Report is **no** longer available.

C Action

County Offices shall use the Producer Farm Data Report instead of the AD-1026A Report. The AD-1026A Report is **no** longer available.

Disposal Date	Distribution
December 1, 2011	State Offices; State Offices relay to County Offices
