

For: State and County Offices

**Using FSA-925-1, Estimated Livestock Forage Disaster Program (LFP)
Payment Calculation Worksheet**

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Signup started on September 14, 2009, for livestock producers who suffered qualifying 2008 and 2009 calendar year grazing losses. The web-based LFP payment software will not be available until a later date. An interim manual payment process has been developed and County Offices may begin issuing manual LFP payments on or about September 28, 2009. A payment calculation worksheet has been developed to assist County Offices in calculating LFP payment amounts for eligible livestock producers until the automated payment process is deployed.

B Purpose

This notice

- informs State and County Offices that FSA-925-1:
 - shall be used by County Offices to calculate LFP payment amounts for eligible livestock producers until the automated payment process is deployed
 - will be provided to State and County Office in the form of an Excel spreadsheet on DAFP’s Intranet site at <http://fsaintranet.sc.egov.usda.gov/dafp/>
- provides instructions for completing manual FSA-925-1.

Disposal Date	Distribution
May 1, 2010 9-25-09	State Offices; State Offices relay to County Offices

Notice LDAP-14

2 Completing FSA-925-1

A Using FSA-925-1

FSA-925-1 shall be used by County Offices to calculate LFP payment amounts for eligible livestock producers until the automated payment process is deployed.

A new FSA-925-1 shall be completed for an eligible livestock producer each time the drought intensity level changes for a county for a specific type of grazing land or a new type of grazing land becomes eligible for LFP that was not previously eligible.

Example 1: In calendar year 2008, County A rated a D2 drought intensity for at least 8 consecutive weeks during the normal grazing period for small grains. FSA-925-1 was completed for Producer A and the producer received a 1 month payment. Later on during the normal grazing period for small grains, County A rated a D3 drought intensity for at least 1 day during the normal grazing period for small grains. Producer A is eligible for an additional 1 month payment for small grains. A new FSA-925-1 needs to be completed to calculate Producer A's payment based on the new D3 drought intensity rating.

Example 2: In calendar year 2008, County A rated a D2 drought intensity for at least 8 consecutive weeks during the normal grazing period for small grains. FSA-925-1 was completed for Producer A and the producer received a 1 month payment. Later on during the year County A rated a D3 drought intensity for at least 1 day during the normal grazing period for native pasture which has a different normal grazing period than small grains. Producer A is eligible to apply for a 2 month payment for native pasture. A new FSA-925-1 needs to be completed to calculate Producer A's payment based on the D3 drought intensity rating for native pasture.

FSA-925-1 will be posted to the DAFP Intranet site at <http://fsaintranet.sc.egov.usda.gov/dafp/>.

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions

FSA-925-1 shall be completed according to the following table.

Item	Description of Entry
1	Enter State and county code. This is the physical location of the county in which the loss occurred.
2	Enter the participant's name.
3	<p>Enter the calendar year the loss of grazing occurred.</p> <p>Note: If the pasture type is a small grains for grazing crop, enter the calendar year as the calendar year of when the normal grazing period for the small grains ends.</p> <p>Example: The participant claims to have suffered a grazing loss for wheat reported as intended for grazing. The normal grazing period for wheat is October 1, 2008, to March 1, 2009. The calendar year the participant's loss occurred would be 2009.</p>
4	<p>Check the appropriate box or boxes to indicate the type of qualifying disaster condition(s) causing the grazing loss. Indicate whether the grazing loss is a result of drought, fire, or both.</p> <p>Note: The National Office will notify State and County Offices when their county becomes eligible for LFP and whether the county's drought intensity level is rated a D2, D3, or D4 according to the U.S. Drought Monitor. Fire is only applicable to Federally-managed grazing lands for which the participant is prohibited from grazing the normal permitted livestock because of fire.</p> <p>A producer cannot receive assistance for grazing losses because of drought and fire on the same acres.</p>
PART A – Livestock Information – Drought – Current Year Inventory and Current Year Mitigated	
5	Enter the corresponding number or alpha-numeric number assigned to the livestock kind/type and weight range from FSA-925, Item 12.
6	Enter the applicable livestock kind/type and weight range from FSA-925, Item 13.
7	<p>Enter the number of livestock from FSA-925 (total of Item 14 plus Item 15).</p> <p>Note: If an entry is entered in FSA-925, Item 18 "Adjusted Current Year Inventory" then COC "Adjusted Current Year Inventory" entry in Item 18 shall be used in performing the above calculation for the specific livestock kind/type and weight range instead of the entry in Item 14.</p> <p>If an entry is entered in FSA-925, Item 19, "Adjusted Current Year Mitigated", then COC "Adjusted Current Year Mitigated" entry in Item 19 shall be used in performing the above calculation for the specific livestock kind/type and weight range instead of the entry in Item 15.</p>
8	Enter the participant's ownership share, contract grower share, or cash lease share from FSA-925, Item 17.
9	Enter the payment rate per head for the applicable livestock kind/type and weight range.

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
10	<p>Enter the livestock monthly feed cost calculated by multiplying:</p> <ul style="list-style-type: none"> • number of livestock in Item 7, times • participant’s share in Item 8, times • payment rate per head in Item 9. <p>The result should be rounded to the nearest whole dollar.</p>
Part B – Livestock Information – Drought – Mitigated Livestock From Prior Years	
11	Enter the corresponding number or alpha-numeric number assigned to the livestock kind/type and weight range from FSA-925, Item 12.
12	Enter the applicable livestock kind/type and weight range from FSA-925, Item 13.
13	<p>Enter the number of livestock by kind/type and weight range that were mitigated in 1 or both of the 2 previous production years because of drought from FSA-925, Item 16.</p> <p>Note: If an entry is entered in FSA-925, Item 20, “Adjusted Prior Years Mitigated”, then COC “Adjusted Prior Years Mitigated” entry in Item 20 for the specific livestock kind/type and weight range shall be used instead of the entry in Item 16.</p>
14	Enter the participant’s ownership share, contract grower share, or cash lease share from FSA-925, Item 17.
15	Enter the payment rate per head for the applicable livestock kind/type and weight range.
16	Partial compensation factor of 80 percent for prior year mitigated livestock.
17	<p>Enter the livestock monthly feed cost calculated by multiplying:</p> <ul style="list-style-type: none"> • number of livestock in Item 13, times • participant share in Item 14, times • payment rate per head in Item 15, times • partial compensation factor in Item 16. <p>The result should be rounded to the nearest whole dollars.</p>

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
PART C – Forage Information – Drought – Owned or Cash Leased Land	
18	For owned or cash leased land, enter the numeric or alpha-numeric number from FSA-925, Item 12 for each livestock kind/type and weight range that are grazing or would have been grazing the specific pasture type in FSA-925, Item 22.
19	<p>Enter all pasture types for owned or cash leased land normally used in the operation to support eligible covered livestock during the specific qualifying drought condition from Item 22 of FSA-925.</p> <p>Notes: Eligible pasture types will be 1 of the following:</p> <ul style="list-style-type: none"> • native pasture • improved pasture • forage sorghum planted specifically for grazing • small grains planted specifically for grazing. <p>Only enter pasture types for Federal or State land if the agreement is by the acre and does not provide for an allotted number of Animal Units (AU's) or Animal Unit Months (AUM's) that can be grazed for an established period of time.</p>

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
20	<p>Enter number of acres, by pasture type, from FSA-925, Item 23, normally used in the operation to support eligible covered livestock during the qualifying drought condition for privately owned/cashed leased land.</p> <p>If multiple participants are using the same pasture acres during the qualifying drought period, the acres must be prorated.</p> <p>Example 1: Participant A has 200 head of eligible livestock and Participant B has 75 head, a total of 275 head grazing the same 500 pasture acres.</p> <p>Calculate prorated acres according to the following:</p> <p>Participant A: $200 \text{ head} \div 275 \text{ head} = .7273$ Participant B: $75 \text{ head} \div 275 \text{ head} = .2727$</p> <p>$.7273 \times 500 \text{ acres} = 363.7$ total acres for Participant A $.2727 \times 500 \text{ acres} = 136.3$ total acres for Participant B.</p> <p>Example 2: Participant A and Participant B have a 50-50 owner share in 200 head of eligible livestock. The 200 head of eligible livestock graze 500 acres of native pasture.</p> <p>Calculate prorated acres according to the following:</p> <p>Participant A: $200 \text{ head} \div 275 \text{ head} = .7273$ Participant B: $75 \text{ head} \div 275 \text{ head} = .2727$</p> <p>$.5000 \times 500 \text{ acres} = 250.0$ total acres for Participant A $.5000 \times 500 \text{ acres} = 250.0$ total acres for Participant B.</p> <p>Notes: If an entry is entered in FSA-925, Item 25, “Adjusted Acres”, then COC “Adjusted Acres” entry in Item 25 for the specific pasture type shall be used instead of the entry in Item 23.</p> <p align="center">Only enter pasture types for Federal or State land if the agreement is by the acre and does not provide for an allotted number of AU’s or AUM’s that can be grazed for an established period of time.</p>
21	<p>Enter the carrying capacity or acres/animal unit for the applicable type of pasture type from FSA-925, Item 24.</p> <p>Note: This entry will be the STC/COC-approved carrying capacity for the specific type of pasture in Item 19 as established under NAP.</p>

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
22	<p>Enter Maximum Animal Units (MAU's) by dividing acres in Item 20 by Acres (AC)/Animal Unit (AU) in Item 21. Round the result to 2 decimal places.</p> <p>Example: 2000 acres ÷ 30.0 AC/AU = 66.67 Animal Units (AU's).</p>
23	<p>Enter the established monthly value of forage for the applicable calendar year. The monthly value of forage has been established at:</p> <ul style="list-style-type: none"> • \$29.96 for 2008 • \$40.04 for 2009.
24	<p>Enter the Carrying Capacity Monthly Feed Cost calculated by multiplying MAU's in Item 22 times Monthly Value of Forage in Item 23. Round to the nearest whole dollar.</p>
PART D – Forage Information – Drought – AUM or Animal Unit Lease Land	
25	<p>For land leased on an AUM or AU basis, enter the numeric or alpha-numeric number from FSA-925, Item 12 for each livestock kind/type and weight range that are grazing or would have been grazing the specific pasture type in FSA-925, Item 27.</p>
26	<p>Enter all pasture types leased on an AUM/AU basis normally used in the operation to support eligible covered livestock during the qualifying drought condition from FSA-925, Item 27.</p> <p>Notes: Eligible pasture types will be one of the following:</p> <ul style="list-style-type: none"> • native pasture • improved pasture • forage sorghum planted specifically for grazing • small grains planted specifically for grazing. <p>Only enter pasture types for Federal or State land that provide for an allotted number of AU's or AUM's that can be grazed for an established period of time. Pasture types for Federal or State leases expressed in acres and not AU's or AUM's for an established period of time shall be entered in Item 22.</p>

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
27	<p>Enter the animal units from FSA-925, Item 28.</p> <p>Notes: If an entry is entered in FSA-925, Item 29, “Adjusted Animal Units”, then COC “Adjusted Animal Units” entry in Item 29 shall be used instead of the entry in Item 28.</p> <p>Federal permits and some private/State land leases provide for an allotted number of AU’s or AUM’s that can be grazed for an established period of time. Examples will be listed on the federal grazing permits or can be calculated by dividing the AUM’s by the number of months grazed.</p> <p>Example: Federal permit allows grazing 1100 AUM’s for 5 months.</p> <p style="text-align: center;">$1100 \text{ AUM's} / 5 \text{ months} = 220 \text{ AU's}$</p> <p>Ensure that AU’s for each specific animal type are converted to an AU equivalent. See the Standard AU Conversion Chart in 1-LDAP.</p> <p>Example: 100 sheep AU’s x .25 AU’s = 25 AU’s.</p>
28	<p>Enter the established monthly value of forage for the applicable calendar year. The monthly value of forage has been established at:</p> <ul style="list-style-type: none"> • \$29.96 for 2008 • \$40.04 for 2009.
29	<p>Enter the Carrying Capacity Monthly Feed Cost calculated by multiplying AU’s in Item 27 times Monthly Value of Forage in Item 28. Round to the nearest whole dollar.</p>

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
PART E – Net Payment Calculation for Drought by Pasture Type	
30	<p>Enter the sum of the Livestock Monthly Feed Costs (Items 10 + Item 17) for all the livestock that were or would have been grazing the specific pasture type listed in Item 19 and/or Item 26.</p> <p>Example: In calendar year 2008, County A rated a D2 for at least 8 consecutive weeks during the normal grazing period for native pasture. 100 beef adult cows and 100 beef non-adult cattle weighing more than 500 pounds were grazing the native pasture during the normal grazing period. The livestock monthly feed costs for each of the specific kind/type and weight range of livestock grazing the native pasture listed in Item 10 while the county was rated a D2 for 8 consecutive weeks is calculated as follows:</p> <p style="padding-left: 40px;">100 adult beef cows x 100% producer share x \$29.96 payment rate per head = \$2,996 (Item 10, Livestock Monthly Feed Cost)</p> <p style="padding-left: 40px;">100 non-adult beef cattle weight 500 pounds or more x 100% producer share x \$22.47 payment rate per head = \$2,247 (Item 20, Livestock Monthly Feed Cost)</p> <p style="padding-left: 40px;">Sum the livestock monthly feed costs for the adult beef cows and the non-adult beef cows weighing 500 pounds or more in Item 10 to determine total livestock monthly feed costs for all livestock grazing the native pasture to be entered in Item 30 as follows:</p> <p style="padding-left: 40px;">\$2996 + \$2247 = \$5,243 (Sum of livestock monthly feed cost).</p>
31	<p>Enter the sum of the entries in Item 24 and Item 29 for the specific pasture type being grazed or that would have been grazed by the specific livestock in item 6 or item 12.</p> <p>Example: In calendar year 2008, County A rated a D2 for at least 8 consecutive weeks during the normal grazing period for native pasture. Beef adult cows and beef non-adult cattle weighing 500 pounds or more were grazing a 1000 acre native pasture with a carrying capacity of 10.0 ac./au. and another native pasture of 1000 acres with a carrying capacity of 5.0 ac./au. The carrying capacity monthly feed cost for each of the specific pasture types listed in Item 24 while the county was rated a D2 for 8 consecutive weeks is calculated as follows:</p> <p style="padding-left: 40px;">(1000 acres native pasture ÷ 10.0 ac./au) x \$29.96 monthly value of forage = \$2,996 carrying capacity monthly feed cost</p> <p style="padding-left: 40px;">(1000 acres native pasture ÷ 5.0 ac./au.) x \$29.96 monthly value of forage = \$5,992 carrying capacity monthly feed cost</p> <p style="padding-left: 40px;">Sum the carrying capacity monthly feed costs in Item 24 for all of the native pasture for which the adult beef cows and non-adult beef cattle were grazing to be entered in Item 31 as follows:</p> <p style="padding-left: 40px;">\$2,996 + \$ 5,992 = \$8,988 (Sum of carrying capacity monthly feed cost).</p>

B Completion Instructions (Continued)

Item	Description of Entry
32	<p>Enter the smaller of the total value of:</p> <ul style="list-style-type: none"> • livestock monthly feed cost from Item 30, or • carrying capacity monthly feed cost from Item 31. <p>Example: Livestock monthly feed cost in Item 30 = \$5,243 Carrying capacity monthly feed cost in Item 31 = \$8,988</p> <p style="text-align: center;">Smaller of Item 30 or Item 31 is Item 30, livestock monthly feed cost of \$5,243.</p>
33	<p>Enter national payment factor of 60 percent.</p>
34	<p>Enter the calculated monthly payment rate by multiplying:</p> <ul style="list-style-type: none"> • Item 32 times • Item 33. <p>Round to the nearest whole dollar.</p> <p>Example: \$5,243 (Item 32) x 60% = \$3,146.</p>
35	<p>Select the appropriate Drought Monitor intensity for the specific pasture type listed in Item 19 and/or Item 26. States and counties will be notified by the National Office whenever a county reaches the applicable D2, D3, or D4 intensity rating in any portion of the county for the required time period.</p> <p>Example: County A rated a D2 drought intensity for 8 consecutive weeks for native pasture. The box under “native pasture” for “x 1” is selected.</p>
36	<p>Enter calculated payment amount by multiplying:</p> <ul style="list-style-type: none"> • calculated monthly payment rate for the specific pasture type in Item 34 times • drought intensity factor selected for the specific pasture type in Item 35. <p>Example: \$3,146 (Item 34) x 1 (drought intensity factory for native pasture) = \$3,146 calculated payment amount.</p> <p>Note: The calculated payment amount for a:</p> <ul style="list-style-type: none"> • D2 drought intensity rating for 8 consecutive weeks during the normal grazing period for a specific type of grazing will equal Item 34 x 1 • D3 drought intensity rating at any time during the normal grazing period for a specific type of grazing will equal Item 34 x 2 • D3 drought intensity rating for any 4 week period during the normal grazing period for a specific type of grazing, or a D4 drought intensity rating at any time during the normal grazing period for a specific type of grazing will equal Item 34 x 3.

Notice LDAP-14

2 Completing FSA-925-1 (Continued)

B Completion Instructions (Continued)

Item	Description of Entry
37	<p>Enter the maximum payment amount for the specific livestock grazing the specific type of grazing land. This calculation is obtained by multiplying the entry in Item 30 x 3 months x 60%.</p> <p>Example: \$5,243 (Item 30) x 3 months x 60% = \$9,437.</p>
38	<p>If no previous livestock monthly feed costs have been taken into consideration during a payment calculation for this pasture type or another pasture type for the livestock listed in Item 6 and/or Item 12, enter "0".</p> <p>If a previous livestock monthly feed cost has been taken into consideration during a previous payment calculation for this pasture type or another pasture type for the livestock listed in Item 6 and/or Item 12, enter the livestock monthly feed cost for the livestock in Item 6 and/or Item 12 that was previously taken into consideration during the previous payment calculation for this pasture type or another pasture type for the livestock in Item 10 and/or Item 17 times the number of months previously calculated times 60 percent.</p> <p>Example: An LFP payment was previously calculated for Producer A based on a D2 drought intensity rating for adult beef cattle equal to a 1 month payment. The county now has a D3 drought intensity rating for 1 day. Producer A is eligible for a 2 month payment.</p> <p>The previous calculated livestock monthly feed cost entry in Item 10 for the adult beef cattle was \$2996. The calculation for determining the amount to enter in Item 38 is as follows:</p> <p>\$2996 (livestock monthly feed cost previously taken into consideration for adult beef cattle) x 1 (number of months previously calculated) x 60% = \$1798 (amount to be subtracted from Item 36 to ensure that same livestock are not paid more than 3 times livestock monthly feed cost in the same calendar year).</p>
39	<p>Subtract the amount in Item 38 from the amount in Item 36.</p> <p>Example: \$3,146 (Item 36) - \$0 = \$3,146</p>
40	<p>Enter the smaller of Item 37 or Item 39. This is the net calculated payment amount before any payment reductions.</p> <p>Example: Item 37, maximum payment amount = \$9,437 Item 39, = \$3,146</p> <p>Smaller amount is Item 39 = \$3,146.</p>
41	<p>Enter amount of compensation received from other disaster assistance programs for the same grazing losses from FSA-925, Item 41.</p>
42	<p>Subtract Item 41 from Item 40 to obtain the net calculated payment amount for drought for the specific type of pasture.</p>
