

For: State and County Offices

Availability of 2008 NAP Approved Yield Review Register

Approved by: Acting Deputy Administrator, Farm Programs

1 Review Register

A Background

NAP approved yields are subject to annual review. Reviews are required as determined by:

- the National Compliance Review list
- additional criteria according to 1-NAP, subparagraph 600 B.

The NAP approved yield review register lists units that meet the “greater than 150 percent” criteria.

B Purpose

This notice notifies County Offices that software for the 2008 review register will be available in County Release No. 646 which should have been in the field about August 1. All units on the report shall be reviewed, but not recorded, using the National Compliance Review web software.

Note: Producers on the National Compliance Review list must have all approved yield spot checks recorded, including those on the 2008 review register for the applicable producer.

If there are no approved yield records that meet the criteria for placement on the register, the following message will be displayed, “There are no 2008 NAP approved yields subject to review”.

Disposal Date	Distribution
February 1, 2009	State Offices; State Offices relay to County Offices
