Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

1-NAP, subparagraph 23 E requires County Offices to notify producers of prior year NAP coverage and the opportunity to purchase coverage for the subsequent year no fewer than 60 calendar days before the first application closing date. An automated process will generate a letter and crop list attachment notifying producers of the crops/types/intended uses/planting periods that were previously covered and the service fee that will be required to continue the same coverage for the 2011 crop year.

1-NAP, paragraph 23 provides policy applicable to CCC-471's. For the 2011 crop year, the CCC-471 software has been rolled over and is being made available.

To enable County Offices to timely process crop year 2011 CCC-471's and collect service fees, rollover of the 2010 NCT records will take place on January 21, 2010, at 6 p.m. c.t. The 2011 NCT web application software will be available to State and County Offices on January 25, 2010.
