2 NCT Records

A Rolling NCT Records

NCT records are rolled each year from the current crop year to establish the base records for the upcoming crop year. The rolling of records reduces workload on State offices by eliminating the need to manually re-load each record for the new crop year.

All 2011 NCT records, including historical data, will rollover to the 2012 NCT unless the record has been inactive for all 3 previous years (2008, 2009, and 2010). Records inactive for the 3 previous years will **not** rollover.

Any updates to records, or new records added in the 2011 NCT after January 14, 2011, 6 p.m. c.t. will **not** be reflected in the 2012 NCT record. The user **must** access the record in the 2012 NCT to make the same updates or add the same new records.

B 2012 NAP Continuous Coverage and Application for Coverage Software

The 2012 NAP Continuous Coverage and Application for Coverage software will be transmitted to County Offices on **January 14, 2011**. The software will also be included in County Release No. 707.

C 2012 NCT Web Application

The 2012 NCT will be available to State and County Offices on **January 18, 2011**. Authorized NCT users may access NCT from the FSA Intranet at **http://fsaintranet.sc.egov.usda.gov/fsa/FSAIntranet_applications.html**.

Procedure for accessing the 2009 and subsequent years NCT web-based application is provided in 1-NAP, Part 10, Section 1.5.
