

For: State and County Offices

1999 NAP Unit Rollover

Approved by: Deputy Administrator, Farm Programs

1 Overview

A

Background

NAP software is designed to build and maintain year-specific files. These files must be rolled over before the creation of new files for the current year. The 1998 NAP unit rollover software is in County Release No. 412.

B

Purpose

This notice provides instructions for 1999 NAP unit rollover.

Note: The unit files must be rolled over before new units can be created or an approved yield can be established for 1999. The 1999 approved yield rollover will be in a future release.

2 Unit Rollover

A

Prerollover
Maintenance

The 1999 unit files will be created by duplicating the 1998 files. Any outstanding errors should be corrected, if possible, before initiating the rollover.

Note: Changes made to the 1998 files after these files have been rolled over will not automatically be applied to the 1999 files.

B

Accessing Unit
Rollover

The unit file rollover is initiated by selecting option 1 on Menu MHB100 for the 1999 year. Informational Screen MHACINFO will be displayed if the 1999 rollover of units has not been completed.
