

**UNITED STATES DEPARTMENT OF AGRICULTURE**

Farm Service Agency  
Washington, DC 20250

**Notice PN-675**

**For:** State and County Offices, Peanut DMA's and CMA's

**Peanut Warehouse Receipts and FSN's**

**Approved by:** Acting Deputy Administrator, Farm Programs

**1 Overview**

**A Background**

Peanut loans have the highest number of corrections each year, mainly from FSN corrections. FSA-1007 is required to show the farm number on which peanuts were grown for the applicable crop year. After peanuts have been receipted, the only way to correct FSA-1007 is to void the warehouse receipt, correct FSA-1007, and then reissue the warehouse receipt.

**B Purpose**

This notice provides policy and procedure for correcting FSN's associated with peanut warehouse receipts.

**2 FSN Correction Procedure**

**A Warehouse Receipts**

Beginning with the 2023 peanut crop year, incorrect FSN's associated with peanut warehouse receipts placed under "Price Support" activity will require a redemption of collateral before the warehouse receipt is released back to the original holder.

For paper and electronic receipts issued including farm number, once offered for collateral of a marketing assistance loan, warehouses should no longer request return of receipt to correct farm number. County Offices will no longer release receipts for the sole purpose of correcting FSN's unless the farm represented is in a different State and county. After the receipt is redeemed in full, peanut warehouses will take collateral into inventory and may proceed to correct FSA-1007's with incorrect FSN's for reporting and RMA purposes.

Disposal Date	Distribution
August 1, 2024	State Offices; State Offices relay to County Offices Peanut DMAs and CMAs

## 2 FSN Correction Procedure (Continued)

### B SC-95 and FSA-1007

FSN's are still required on FSA-1007's. If the farm number is found to be in error after issuance and no other monetary impact errors are found, then FSA-1007 is authorized to be corrected without the need to supersede.

**Note:** An error to State and county of growth or inspection will require a supersede of the FSA-1007 and a correction made to the warehouse receipt.

Shellers and Buying Points using One-Doc should follow guidelines in the Inspection Instructions for Farmers' Stock Peanuts found on pages 64-65. Applicants must line through the incorrect farm number, enter the correct farm number, and initial the change.

### C Examples

**Scenario 1:** Warehouse Receipt 12345 was issued with FSN 1234, in Escambia County, Alabama. After offered as loan collateral for a CCC MAL, it was discovered the correct FSN should be FSN 1134.

Resolution: Peanut handler will correct FSA-1007 with the correct FSN but will not void or correct the peanut warehouse receipt unless released because of redemption of principal plus interest.

**Scenario 2:** Warehouse Receipt 12345 was issued with FSN 1234, in Escambia County, Alabama. After offered as loan collateral for a CCC MAL, it was discovered the correct FSN should be FSN 1234 in Escambia County, Florida.

Resolution: Peanut handler will request the receipt to be returned for correction by voiding the warehouse receipt, superseding FSA-1007, and re-issuing the warehouse receipt for MAL purposes.

**Note:** For monetary and grade changes, or any other normal corrections other than FSN, the policy and procedure to correct peanut warehouse receipts remains the same.

### 3 Action and Contact

#### A National Office Action

National Office will inform the peanut industry of the contents of this notice.

#### B State Office Action

State Offices will ensure that County Offices and peanut DMA's receive this notice.

#### C County Office Action

County Offices will:

- follow the provisions of this notice
- direct questions related to this notice to the respective State program specialist.

#### D Contact

State specialists will direct questions to the applicable contact according to the following table.

IF the question is about...	THEN contact...
