

For: State and County Offices

Modifications and Enhancements Included in County Release No. 422

Approved by: Deputy Administrator, Farm Programs

1 Overview

A

Background

Automated CCC-681-1 has been revised for all crop years. A new automated CCC-697 has been created to replace the “lock-in” function that had previously been included on CCC-681-1.

Loan-making and settlement subsystems have been modified to correct reported problems.

B

Purpose

County Release No. 422 provides APSS modifications to:

- print blank:
 - CCC-681-1’s
 - CCC-697’s
- provide automated system-filled:
 - CCC-681-1’s
 - CCC-697’s

Notice PS-333

4 Loan-Making Modification

A

Processing Loans Loan-making has been modified to allow for processing loans for eligible producers who are flagged in the "Name and Address" file as being a foreign person.

B

Mohair Loans Notice LP-1713 instructs County Offices to begin processing applications for mohair loans for FY 2000.

Price Support software has been modified to process mohair loans for 2000 and is included in this release. However, accounting software will not allow mohair loans for 2000 to be processed through the automated system until calendar year 2000.

Begin automated processing of 2000 mohair loans only **after January 1, 2000**.

5 Settlement Modifications

A

Calculating Assessments Due When Farm-Stored Settlement Is Process The settlement subsystem has been modified to calculate assessments for soybeans and any other applicable commodity when the delivery quantity is in excess of the loan quantity. The assessment amount due will now print on CCC-692.
