**Revising Price Support Eligibility Queries for Current Year
PFC Data and Contract Commodities Produced on Non-Contract Farms**

Approved by: Deputy Administrator, Farm Programs

1 Overview

A

Background

County Release No. 439 provided software for running 2000 crop year price support eligibility queries.

Notice PS-362 provided instructions for:

- accessing 2000 crop year price support eligibility queries
- revising price support eligibility queries for COC-established yields
- linking files when necessary.

Farms with new FSN's and PFC contract modifications resulting from reconstitutions processed during the past crop year will not be picked up by 2000 crop year price support eligibility queries, unless the applicable **contract** commodity query is revised for that purpose.

B

Purpose

This notice provides County Offices with 2000 crop year instructions for:

- revising eligibility queries for **contract** commodities for current year PFC data
- enhancing eligibility queries to list FSN's in ascending order
- building new eligibility queries for **contract** commodities produced on **non-contract** farms.
