

For: State and County Offices

**LDP Corrections Process Enhancements Software Provided in County Release No. 479**

Approved by: Acting Deputy Administrator, Farm Programs

**1 Overview**

**A**

**Background**

Existing APSS corrections require users to **delete** any Price Support transaction and then re-enter, if applicable.

County Release No. 458 provided software for **loan-making corrections** that allows users to:

- **delete** the incorrect transaction
- **re-enter** the loan, when applicable:
  - as a **manually corrected loan**
  - for **system prepared disbursement**. (See Notice PS-396)

**LDP-making corrections** were not modified in County Release No. 458 because APSS was in the process of being enhanced to allow for “correcting” specific data fields for an LDP without having to first delete the entire transaction.

**B**

**Purpose**

This notice informs State and County Offices that a new **LDP corrections** process will:

- be provided in County Release No. 479
- **allow for changing specific LDP data fields** in APSS without first requiring a deletion of the entire transaction.

Forthcoming 12-PS, Amendment 3 will provide user instructions for this new LDP corrections software.

<p><b>Disposal Date</b></p> <p>November 1, 2002</p>	<p><b>Distribution</b></p> <p>State Offices; State Offices relay to County Offices</p>

## Notice PS-423

### 2 LDP Corrections Process Enhancements

---

#### A

#### County Release No. 479 Enhancements

County Release No. 479 contains LDP correction software for all commodities except cotton. Enhanced software allows users to correct and update LDP “data fields” **without** requiring a **deletion** of the entire transaction.

There are instances when an entire LDP transaction must be deleted and not re-entered. These “delete” corrections are still functional.

LDP transactions that require changes in 1 or more data fields, but are valid LDP’s, no longer must be deleted and then re-entered. Enhanced LDP corrections software allows for field-by-field corrections. After changes are made APSS will update the files, and as applicable:

- issue an additional disbursement
  - create a receivable in CRS.
- 

#### B

#### Forthcoming Instructions

**12-PS** is being amended to provide instructions for:

- **loan** corrections, to include:
  - deletions
  - re-entries, when applicable
  - system-generated disbursement (**no typed checks**)
- **LDP** corrections, to include:
  - field-by-field data changes
  - when applicable, system update to:
    - issue additional system-generated payments
    - create receivables in CRS for overpayments.

**Important:** County Offices **shall not** process these “new” LDP corrections before 12-PS instructions are received. County Offices that must process an LDP correction after installing County Release No. 479, but before 12-PS, Amendment 3 is received **shall** call Arlene Fisher at 202-720-8401.
