**Price Support Query Enhancements for
Establishing 2005 Crop Year Multi-County Producer Customer Profiles**

Approved by: Acting Deputy Administrator, Farm Programs

1 Overview

A Background

Before an eLDP application can be processed, County Offices must establish customer profiles. In cases where a producer is multi-county, each County Office establishes customer profiles for their respective producer's quantity and payment limitation (PLM).

County Offices may only establish a maximum PLM based on what is recorded in the Payment Limitation file.

Queries have been developed to assist County Offices when establishing 2005 crop year customer profiles for multi-county producers. County Offices can print:

- entire multi-county producer list
- individual multi-county producer list.

B Purpose

This notice instructs County Offices on the process to print Multi-County Producer Reports.
