APSS Price Support Query Enhancements for Rice

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Rice is divided into the following classes:

- long
- medium
- short.

Each of the rice classes have the following differences:

- COC-established yields
- loan rates
- LDP rates.

The current APSS commodity COC-established yield table has been enhanced to enter separate COC yields for the different classes of rice.

In addition, the running account and basic eligibility queries have been modified to print separate query reports for each of the different classes of rice.

B Purpose

This notice provides State and County Offices with instructions for the following:

- recording COC yields for rice
- printing of APSS queries.
